If you are 18 or older, no matter which vaccine you originally got, you can choose between the Pfizer, Moderna or Johnson & Johnson vaccines as your booster dose. It does not have to match. If you are 16 or 17, you need to get a Pfizer booster dose. Call your local pharmacy, doctor's office or go to [GetVaccinated.Oregon.gov](https://getvaccinated.oregon.gov) to find your nearest COVID-19 vaccine booster.
