

PRODUCT CHANGE NOTIFICATION

SimplySnap Release 15.0

Issue Date: June 21, 2024

Effective Date: June 21, 2024 (for field updates or as stock is depleted from inventory)

DEVICES

Part Number	Revision Code
CBSSW-450-002	Y-0
SS420-002	F-0
SS450-002	R-0

DESCRIPTION OF CHANGES

Starting in Release 15.0.0, site controllers that are on the mesh network Commissioning Settings and have devices added individually or via census must be moved off the commissioning defaults within 24 hours or all lights in the system will be set to 100% dimming and light control from the site controller will be paused.

REASON FOR CHANGES

Lighting controllers using default mesh network Commissioning Settings are at risk of having a nearby site controller modify their status inadvertently.

QUESTIONS?

The SimplySnap release notes can be viewed at the link below. See the release notes for the full list of new features and improvements contained within Release 15.0. If you have questions or concerns about this change, please contact Synapse by opening a support ticket at support.synapsewireless.com.
