

7 Ways to Use App Notifications

IN AGRIBUSINESS

PLAN APPROVALS

Take action promptly when nutrient recommendation plans are approved by growers

SERVICE REQUESTS

Know when growers request a field service from their grower portal and the type of service needed

ENERGY ORDER REQUESTS

Have your customers notify you when an energy tank needs service

BOOKING CONTRACT SIGNED

Share a booking contract in the grower portal and receive a notification once it has been electronically signed

GRAIN PURCHASE CONTRACT SIGNED

Receive a notification when grain contracts are signed by customers from the grower portal

PREPAYMENTS

Know when a grower makes a prepayment for farm supplies and services

PAYMENT FAILURES

Proactively assist your customers if a payment from the grower portal fails
