Melissa and Angie did a great job of covering all of the material. They went through things again when there were questions and walked through the exercises once we completed them. They did a fantastic job!

Great course. Learned a lot. Was surprised at the [number] of different ways you can create reports, graphs, etc. This is going to take a lot of practice to get this program down. This will help me get started.

- Western Consolidated Coop

I really appreciated the format of this class, the manual was well laid out and easy to follow. Then... teaching us, showing us, and having us practice was very beneficial.

-West Central Ag Services

This was a fantastic course to get me started. Thank you!

- Top Ag Cooperative

Everything was easy to follow, all questions brought up were answered. Instructors were friendly and receptive; the handbook was extremely helpful.
