

NEWEST AGVANCE ANALYTICS GRAIN DASHBOARDS

Average Delivery Date This dashboard saves time with an interactive look at an average delivery date for a customer, location, and commodity, etc as an alternative to looking manually.

Grain Discount With this dashboard, see the discounts on grain received (scaled tickets) and grain delivered (shipment settlement). Compare the amount the elevator is charging and the amount the elevator is being charged for the quality of the grain.

Net Position Summary This dashboard shows the daily ins and outs of each commodity as well as the daily balance for each commodity.

Open Assembly Storage and Service Charges This dashboard lists open assemblies and the storage schedule assigned to each assembly split record. It is useful to help monitor the application of schedules to ensure the proper schedule is applied.

Purchase Contract Use this dashboard to determine how many contract units are left to be delivered.
