

Location Bookkeeper

The instructor did a great job. We covered a variety of tasks and despite using Agvance for over a year now - mostly AP, I learned many things. I liked how we did a task and then went to run the report that showed the result of the action. It was a good overview of the process from start to finish and very motivating to streamline and insist **CONSISTENCY** back at home. Thank you!

- Barrett Farm Supply

Thank you, I really enjoyed this course. I have been working in Agvance for 7 months now and I still found this class really helpful. I would suggest this to any beginner in Agvance.

- Asmus Farm Supply

The hands-on exercises are very helpful, as well as the visual.

-Big Valley Ag Services

It was very hands-on and the real-life practice was beneficial!

Jake was super knowledgeable, very patient, and went through everything really really well. When you're with an instructor for that many hours, it is imperative that they aren't monotone or boring, and he was not!! He did an excellent job. 5 out of 5 stars for Jake.
