

# DELTABREW® Lautermax Classic

## Product Data Sheet

Date of issue: 8 December 2022

### Fungal $\beta$ -glucanase for beer production

**Description:** DELTABREW® Lautermax Classic is a complex blend of different high-performance  $\beta$ -glucanases, specifically designed to improve the mashing process and generate optimal  $\beta$ -glucan content and high wort filterability. DELTABREW® Lautermax Classic shows high endo-activity to hydrolyse specifically  $\beta$ -glucans and  $\beta$ -xylans in raw materials like barley and malt. DELTABREW® Lautermax Classic has been specially developed for viscosity reduction and improvement of wort filterability after mashing with up to 30% adjuncts.

**Properties:** Enzyme:  $\beta$ -glucanase IUBMB: 3.2.1.6  
 Activity: >54000 Cx units/g Form: liquid  
 Density: 1.10–1.25 g/ml Colour: brown

Colour and appearance may vary from batch to batch. Colour intensity or turbidity is not an indication of enzyme activity.

**Application:** DELTABREW® Lautermax Classic is a  $\beta$ -glucanase preparation for brewing with barley or malt.

**Conditions of use:** DELTABREW® Lautermax Classic has shown to best perform when used under the following conditions:

Application	Dosage	Recommendation
Barley or malt mashing	200–300 g per ton	Optimum conditions: pH: 4.5 - 6.5 Temperature: 45 - 72 °C

**GM Status:** The product and its constituent enzymes are not genetically modified. Enzyme proteins are produced by fermentation of classical microorganisms, which are removed and not present in the final product. Only agricultural raw materials of non-genetically modified (non-GM) origin are used for the fermentation process and in the final formulation.

**Composition:** DELTABREW® Lautermax Classic is stabilised with glycerol (E422) and preserved with small amounts of potassium sorbate and sodium benzoate.

**Packaging and storage:** DELTABREW® Lautermax Classic is available in 25 kg polyethylene drums or IBCs. The product is best stored in the original and unopened packaging under refrigerated conditions (4–8 °C) in order to retain maximum activity during storage. Under optimal conditions, the product can be stored for 24 months.

**Safety and caution:** Enzyme products need to be handled with care. Please consult the separately available Safety Data Sheet for further information.

## Product Data Sheet

Date of issue: 8 December 2022

**Compliance and legal:** Our enzyme products are used as processing aids in the food manufacturing process and are thus free from any labelling provisions in the European Union. The product does not fall within the scope of EU regulations (EC) 1829/2003 and (EC) 1830/2003 on genetically modified food and feed.

The product is manufactured to comply with recommended purity specifications given by the Joint FAO/WHO Expert Committee on Food Additives (JECFA), and conforms with the recommended specifications of the Food Chemical Codex for food enzymes.

<b>Purity criteria:</b>	Total plate count	< 50 000 CFU per g
	Yeasts & Moulds	< 1 000 CFU per g
	Total Coliforms	< 30 CFU per g
	Salmonella	absent in 25 g
	Escherichia coli	absent in 25 g
	Heavy Metals (as Pb)	< 30 ppm
	Lead	< 5 ppm
	Arsenic	< 3 ppm
	Cadmium	< 0.5 ppm
	Mercury	< 0.5 ppm
<b>Special diet information:</b>	Kosher:	Certified
	Halal:	Certified
	Vegan/Vegetarian:	enzyme product or any constituents are not of animal origin

**Certification:** WeissBioTech GmbH has a certified quality management system according to ISO 9001:2015 and a certified Food Safety Management System according to FSSC 22000 incl. HACCP, which are reviewed in regular audits.
