

DELTAZYM® APS 2X

Product Data Sheet

Date of issue: 29 July 2022

Acid Protease for the bioethanol industry

Description: DELTAZYM® APS 2X is an acid protease enzyme produced from a selected strain of *Aspergillus niger*. DELTAZYM® APS 2X can be used in starch processing or in the bioethanol industry, to produce free amino nitrogen from proteins and to improve yeast growth during alcoholic fermentation.

Properties: Enzyme: protease IUBMB: 3.4.23.18
 Activity: >1600 SAP units/g Form: liquid
 Density: 1.05–1.20 g/ml Colour: brown

Colour and appearance may vary from batch to batch. Colour intensity or turbidity is not an indication of enzyme activity.

Application: DELTAZYM® APS 2X is an acid stable protease that can be used to decrease the viscosity of cereal starch slurry, and to increase free amino acids content at the beginning of alcoholic fermentation of starch for bioethanol production.

Conditions of use: DELTAZYM® APS 2X has shown to best perform when used under the following conditions:

Application	Dosage	Recommendation
Protein hydrolysis	15 - 25 g per ton of cereal	Temperature range: 30-55 °C Optimum conditions of use: pH 3.0 - 5.5 and 40-50 °C

GM Status: The product and its constituent enzymes are not genetically modified. Enzyme proteins are produced by fermentation of classical microorganisms, which are removed and not present in the final product. Only agricultural raw materials of non-genetically modified (non-GM) origin are used for the fermentation process and in the final formulation.

Composition: NATUZYM® APS 2X is stabilised with glycerol and preserved with potassium sorbate and sodium benzoate.

Packaging and storage: DELTAZYM® APS 2X is available in 25 kg polyethylene drums or IBCs. The product is best stored in the original and unopened packaging under refrigerated conditions (4–8 °C) in order to retain maximum activity during storage. Under optimum conditions shelf life is 24 months.

Safety and caution: Enzyme products need to be handled with care. Please consult the separately available Safety Data Sheet for further information.

Product Data Sheet

Date of issue: 29 July 2022

Compliance and legal: Our enzyme products are used as processing aids in the food manufacturing process and are thus free from any labelling provisions in the European Union. The product does not fall within the scope of EU regulations (EC) 1829/2003 and (EC) 1830/2003 on genetically modified food and feed.

The product is manufactured to comply with recommended purity specifications given by the Joint FAO/WHO Expert Committee on Food Additives (JECFA), and conforms with the recommended specifications of the Food Chemical Codex for food enzymes.

Purity criteria:	Total plate count	< 50 000 CFU per g
	Yeasts & Moulds	< 1 000 CFU per g
	Total Coliforms	< 30 CFU per g
	Salmonella	absent in 25 g
	Escherichia coli	absent in 25 g
	Heavy Metals (as Pb)	
	Lead	< 5 ppm
	Arsenic	< 3 ppm
	Cadmium	< 0.5 ppm
	Mercury	< 0.5 ppm
Special diet information:	Kosher:	Certified
	Halal:	Certified
	Vegan/Vegetarian:	enzyme product or any constituents are not of animal origin

Certification: WeissBioTech GmbH has a certified quality management system according to ISO 9001:2015 and a certified Food Safety Management System according to FSSC 22000 incl. HACCP, which are reviewed in regular audits.
