

DELTAZYM® GA L-E10

Product Data Sheet

Date of issue: 12 August 2022

Concentrated glucoamylase for bioethanol production

Description: DELTAZYM® GA L-E10 is a glucoamylase obtained from a selected strain of *Aspergillus niger*. The enzyme is an exo-1,4- α -D-glucosidase which hydrolyses the 1,4- α linkages in liquefied starch. It can be added to the liquefied starch during the saccharification stage or at the beginning of the alcoholic fermentation during simultaneous saccharification and fermentation (SSF).

Properties: Enzyme: glucoamylase IUBMB: 3.2.1.3
 Activity: >1000 AMG units/g Form: liquid
 Density: 1.05–1.20 g/ml Colour: brown

Colour and appearance may vary from batch to batch. Colour intensity or turbidity is not an indication of enzyme activity.

Application: DELTAZYM® GA L-E10 is a glucoamylase that has been specially developed for a fast glucose production from liquefied starch and for improving alcoholic fermentation yield in bioethanol production.

Conditions of use: DELTAZYM® GA L-E10 has shown to best perform when used under the following conditions:

Application	Dosage	Recommendation
Starch saccharification or SSF	200 - 300 g per ton of cereal	Application at: pH 3.0 - 5.5 temperature: 30 - 64 °C Optimum conditions: pH 4.2 - 4.6 and 62 °C

GM Status: The product and its constituent enzymes are not genetically modified. Enzyme proteins are produced by fermentation of genetically modified microorganisms, which are removed and not present in the final product. Only agricultural raw materials of non-genetically modified (non-GM) origin are used for the fermentation process and in the final formulation.

Composition: DELTAZYM® GA L-E10 is stabilised with glycerol and preserved with small amounts of potassium sorbate and sodium benzoate.

Packaging and storage: DELTAZYM® GA L-E10 is available in 25 kg polyethylene drums or IBCs. The product is best stored in the original and unopened packaging under refrigerated conditions (4–8°C) in order to retain maximum activity during storage. Under optimum conditions shelf life is 24 months.

Safety and caution: Enzyme products need to be handled with care. Please consult the separately available Safety Data Sheet for further information.

DELTAZYM® GA L-E10

Product Data Sheet

Date of issue: 12 August 2022

Compliance and legal: Our enzyme products are used as processing aids in the food manufacturing process and are thus free from any labelling provisions in the European Union. The product does not fall within the scope of EU regulations (EC) 1829/2003 and (EC) 1830/2003 on genetically modified food and feed.

The product is manufactured to comply with recommended purity specifications given by the Joint FAO/WHO Expert Committee on Food Additives (JECFA), and conforms with the recommended specifications of the Food Chemical Codex for food enzymes.

Purity criteria:	Total plate count	< 50 000 CFU per g
	Yeasts & Moulds	< 1 000 CFU per g
	Total Coliforms	< 30 CFU per g
	Salmonella	absent in 25 g
	Escherichia coli	absent in 25 g
	Heavy Metals (as Pb)	< 30 ppm
	Lead	< 5 ppm
	Arsenic	< 3 ppm
	Cadmium	< 0.5 ppm
	Mercury	< 0.5 ppm
Special diet information:	Kosher:	Certified
	Halal:	Certified
	Vegan/Vegetarian:	enzyme product or any constituents are not of animal origin

Certification: WeissBioTech GmbH has a certified quality management system according to ISO 9001:2015 and a certified Food Safety Management System according to FSSC 22000 incl. HACCP, which are reviewed in regular audits.
