# The Day

- 10.00 **Arrival and registration** *followed by a prompt start*
- 10.30 **Morning Presentations**
- 12.30 **Lunch**
- 13.15 **Afternoon Workshops** *working through specific herd and individual cow scenarios in small groups, presented back to whole group for discussion*
- 15.30 **Finish**

# The Topics

## Be up to date with...

- Action Johne's and the NJMP
- New data on the economics of Johne's disease
- What's new in testing from ELISA interpretation and TB testing to Phage and beyond
- New concepts in Johne's control and what that means for your management plans
- New priority cull measures, how they are being used in milk contracts and what that means for your clients

## New Johne's Progress tracker (JPT)

- Understand the measures used in the JPT
- How to use the JPT with your clients

# The Speakers

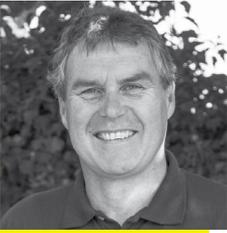

## Karen Bond BVMS MSc MRCVS

Veterinary Advisor, NML

Following a varied veterinary career, in practice, academia and research, Karen joined the NMR Group as their Veterinary Advisor in 2013. Her focus within the business is to ensure farmers and vets are carrying out the right disease testing, getting the best value from the results and effectively managing cow health. A member of Action Johne's for over 10 years and a former chair of the Technical

Group, Karen has been involved in all aspects of the development of the National Johne's Management Plan and is the author of the BCVA Accredited Johne's Veterinary Advisor (BAJVA) training. She has delivered more Johne's Disease farmer training than she cares to remember and has many peer reviewed papers published on the topic. Karen is also active in the world of Veterinary politics as Honorary Secretary of BCVA.

## **Peter Orpin BVSc MRCVS**

Director & Veterinary Surgeon, Park Vet Group

Pete recently retired from 38 years in practice to devote more time to working with Johne's Disease and consultancy. He is a founding member of the Action Group Johne's, Chair of AGJ Technical group, co-founder of Myhealthyherd, a web based platform with the first comprehensive online tool to manage JD. Pete worked with Panlivestock and Reading University to co-develop the

Johne's Tracker in 2019. He was awarded a RCVS Fellowship for Meritorious Contribution to the Profession in 2020 based on his work on Johne's and wider contributions to the profession. Pete is the UK rapporteur for JD to the International Dairy Federation and has published and lectured widely on the disease nationally and internationally.

## **Dr James Hanks**

Director, PAN Livestock Services

Livestock information specialist and Director of PAN Livestock Services, James is responsible for the development of livestock information systems, including InterHerd+, and its application in the research behind the Johne's Tracker.
