

# **QUALIFICATIONS AND WORKSHOPS PROSPECTUS**

High Court Enforcement Group and Excel Civil Enforcement

**HIGH COURT  
ENFORCEMENT  
GROUP®**

# Introduction

With the changes implemented in April 2014 by The Taking Control of Goods Regulations 2013 and the enactment of Part 3 of the Tribunals, Courts and Enforcement Act 2007, High Court Enforcement Group decided to expand its in-house training to prepare enforcement agents and office-based staff.

Since then, we have significantly increased our commitment to training, extending it to many other organisations in the credit industry.

We are the only enforcement agency which is an approved (educational) assessment centre delivering Qualifications and Quality Mark training, putting us at the forefront of educational excellence and staff development in the enforcement profession.

## Award winning training

Excel Civil Enforcement and High Court Enforcement Group have won numerous awards for training and staff development, including:

- ▶ IRRV Awards 2018 Excellence in Staff Development - WINNER

Excel and HCE Group have also been finalists in a number of other awards, particularly in relation to working with vulnerable debtors, where training has played a fundamental part in the development and delivery of our vulnerability strategy.

## Online training portal

Excel has invested in Moodle, the leading online training platform, which went live in March 2019. If you prefer online learning, Moodle allows delegates to read the course learning material and undertake mock tests. Delegates also have the option to take their final exam using the Moodle platform.

Online learning makes training more accessible for those living away from a training centre.

Other advantages include;

- ▶ Study at your own pace
- ▶ More freedom to take breaks when you want
- ▶ No waste of time travelling or finding accommodation
- ▶ No time spent away from your family
- ▶ Promotes flexible timetables
- ▶ Enhances knowledge of technology

## CILEx for enforcement qualifications

CILEx – the Chartered Institute of Legal Executives – is an Ofqual regulated awarding body and its endorsement and various (RQF) regulated qualifications are widely recognised, valued and respected. The endorsement is a celebration of outstanding practice in delivering learning.

This confirms, for example, that Excel has robust administrative systems, quality assurance processes and evaluation strategies for the learning programme. It further confirms that those delivering the regulated qualifications and workshops have the skills and knowledge to deliver in line with good practice, professional standards and current research.

The endorsement and quality mark form part of Excel's quality assurance strategy, signifying that we take the quality of our training seriously and that improvement and development are central to our practice. The rigorous self-assessment and external endorsement inform organisational and learning development.

Continuing professional development (CPD) is at the heart of the endorsement and quality mark. Excel wants to ensure that learners and participants are getting the very best learning opportunities so that they can increase their knowledge and enhance their sector practice.
