

*Discover your  
dream dock*

## *We've been waiting for you*

DAKA has been a family business for more than 40 years. Starting as a structural steel fabricator, you can trust we know how to engineer the strongest and highest quality docks and lifts available.

Lightweight DAKA docks also offer ultimate versatility. Any dock can be configured in a "U", "H", or "T" with platforms or super platforms.

Let your imagination be your guide.

Whether making your first-ever dock purchase, or finally building the dock of your dreams; you're in the right place.

Because when you need a dock, you need a DAKA.

A woman with long brown hair, wearing a white t-shirt and blue shorts, is sitting on a white dock. She is looking towards the left. The dock is made of white metal trusses and is attached to a pontoon boat. The boat has a white canopy and is on a body of water. In the background, there are green trees and a house.

# Truss-style Docks

## **EXCEPTIONAL STRENGTH AND DURABILITY**

Make it easy to enjoy a day on the lake with a dock you can trust. Featuring lightweight aluminum or budget-friendly steel trusses, DAKA truss-style docks provide 12" deep joists to create a rigid structure for exceptional strength and durability. They are lightweight and configurations can be any length or layout, making it easy to build the dock of your dreams.

# Roll-in

## Truss-style Docks

**Get rolling with strength and durability**

**Perfect for:** gradual-slope lakeshore with hard, sandy or rocky bottoms and shallow-to-deep water with large fluctuations

# Floating

## Truss-style Docks

**Versatile and durable in any environment**

**Perfect for:** muddy-bottom shorelines and/or deep or fluctuating water levels

### **Construction**

Floating Truss-style docks include the same features as Roll-in Truss-style docks (minus the wheels!)

### **Self-leveling**

Maintenance-free adjustment to changing water levels

### **Floats**

Foam-filled polyethylene-covered floats support up to 450 pounds each

# *Low Profile Style Docks*

## **SLEEK AND STURDY VERSATILITY**

Your dock will look picture-perfect with our proprietary low profile design, featuring no visible holes, nuts, or bolts. This extruded aluminum dock offers exceptional versatility with a beautiful finish and sturdy performance. Easy to customize with whatever accessories you need or in whatever configuration you want, low profile docks are a stunning choice for any lakeshore.

# Features

## Low Profile Style Dock

### Sleek

Our seven-inch extruded aluminum frames look as smart as they are strong. Your dock will have major shore appeal with recessed decking and our proprietary design with no visible holes, nuts, or bolts. Custom configuration available, including extra wide five-foot frames.

### Strong

Built with a super strong marine-grade aluminum alloy, our low profile docks include a three stringer support system and corner-to-corner cross bracing to eliminate sway. You'll also enjoy the lasting quality of stainless steel bolts and brass nuts that won't rust or seize over time.

### Simple

All you need is a cordless drill to change your dock's level topside with our flush mount or above deck easy adjust legs. Our three-piece telescoping design features up to 32 inches of adjustment, with more length available on our classic winch adjust legs. Multi-direction wheels make placement no problem.

### Attach Accessories Easily

Fast Track Clipping System allows accessories to slide along your dock, then lock in place with a hidden nut channel.

# Roll-in

## **Classic Winch Adjust Low Profile Style Dock**

### **Height adjustment to 60"**

**Perfect for:** gradual to steep lakeshore with hard, sandy or rocky bottoms and water fluctuations up to 5'

### **High-capacity Winch**

Removable cable ratchet winch with 1,110-pound capacity for stress-free adjustments

### **Infinite Adjustment**

Adjust height up to 60" with large foot pads for stability

### **Low Profile**

Proprietary 7" extruded aluminum design has no visible holes, nuts or bolts

### **Double Braced**

Simple adjustment stainless steel bolts and brass nuts that won't rust or seize over time

### **Full Width Axle**

Adds stability in deeper water

### **Frame Construction**

All Roll-in Low Profile Docks include the same frame features as the Flush Mount docks shown on page 11

# Roll-in

## **Above Deck Easy Adjust Low Profile Style Dock**

### **Height adjustment to 32"**

**Perfect for:** gradual to steep lakeshore with hard, sandy or rocky bottoms and water fluctuations up to 3'

**Above Deck  
Easy Adjust Legs**  
Adjust height up to 32"  
simply with a cordless drill

### **Frame Construction**

All Roll-in Low Profile  
Docks include the same  
frame features as the  
Flush Mount docks shown  
on page 11

### **Low Profile**

Proprietary design offers  
simplicity and clean  
aesthetics

### **Interior Legs**

Inside frame placement  
provides flush surface  
and greater stability

# Roll-in

## Flush Mount Easy Adjust Low Profile Style Docks

### Height adjustment to 32"

**Perfect for:** gradual to steep lakeshore with hard, sandy or rocky bottoms and water fluctuations up to 2'

#### No Visible Poles

Sleek design with marine-grade aluminum provides the most stunning views of your lake

#### Removable Decking

Cedar, ThruFlow™ or Alumigrain 4' x 4' panels drop easily into frame

#### Flush Mount Easy Adjust Legs

Adjust height up to 16" simply with a cordless drill with an additional 16" quick-set adjustment

#### Frame Material

Proprietary 7" extruded aluminum design has no visible holes, nuts or bolts

#### Hinge System

Allows one-piece install and removal of longer docks

#### Fast Track Clipping

Easily move your accessories anywhere along your dock before locking

#### Triple-braced Wheels

Maximum support and easy placement with no maintenance, wheels are multi-directional

#### Anti-corrosion

Stainless steel bolts and brass nuts provide lasting quality

#### Stringers

Triple full-length stringers for superior strength

# Sectional

## Low Profile Style Docks

### Tackle challenging shorelines

**Perfect for:** steep banks and rugged lakeshore with consistent water levels

#### **Interior Post System**

Stationary 2" posts with large foot pads for stability

#### **Removable Decking**

Cedar, ThruFlow™ or Alumigrain 4' x 4' panels drop easily into frame

#### **Low Profile**

Proprietary 7" extruded aluminum design has no visible holes, nuts or bolts

#### **Anti-corrosion**

Stainless steel bolts and brass nuts provide lasting quality

#### **Frame Construction**

All Sectional Low Profile Docks include the same frame features as the Flush Mount Docks shown on page 11

#### **Fast Track Clipping**

Easily move your accessories anywhere along your dock before locking

## Low Profile Style Docks

---

### Steady and smart

**Perfect for:** muddy-bottom shorelines and/or deep or fluctuating water levels

---

#### **Frame Construction**

*Floating Low Profile Docks include the same frame features as the Flush Mount docks shown on page 11*

---

#### **Self-leveling**

*Maintenance-free adjustment to changing water levels*

---

#### **Floats**

*Foam-filled polyethylene-covered floats support up to 450 pounds each*

# Decking & Dock Accessories

Finish your dock with one of our four durable decking options

## Western Red Cedar

Cedar wood is naturally resistant to decay and provides a beautiful and classic finish for your dock.

## Titan Decking

Barefoot and pet-friendly polypropylene molded with a slip-resistant surface. Excellent drainage, virtually maintenance-free with UV protection for long-lasting enjoyment.

## ThruFlow™ Decking

Strong, long-lasting, fiber-reinforced polypropylene material is barefoot and pet-friendly. Backed by a 12-year limited warranty.

## Alumigrain Decking

Powder coated and maintenance free, this aluminum decking mimics the appearance of wood on lightweight panels that stay cool to the touch.

# Dock Accessories

*Your dream dock is waiting*

## Shore Ramp

4', 8' or 12' ramp with pivoting design allows a smooth transition from any shoreline to your dock

## Corner Sections

Want a little extra room? Add space easily to any L-shape dock

## Adjustment Winches

Easily raise and lower your dock to changing water levels with heavy duty winches; sold in pairs

## Adjustable Shore End Wheels

Make installation and leveling a breeze

## Fixed Shore End Wheels

Help make installation and removal easier

## Hinge Assembly

Allows long docks with two or more wheels systems to articulate over uneven shoreline

## Sway Brace

Add support to any 4' wide dock

## Tow Bar

Two-piece design with crossbar and removable tongue hook to ATV, truck or tractor with 1 7/8" ball coupler

# Dock Accessories

## Deluxe Bumpers

Protect your pontoon or boat with non-marring plastic bumpers that are easy to mount anywhere

## Mooring Ring

Conveniently tie off to this sturdy and safe all-aluminum mooring ring

## Bench

There's nothing better than relaxing or fishing with safe and sturdy dock seating - cup holders available

## Dock Furniture Set

Set includes two chairs, table, - each chair has a 250-pound weight limit

## Swimming Ladder

Add an aluminum ladder anywhere on your dock to get in and out of the water with ease

## Stair System

Stairs are 2' wide with handrails on both sides, making this stair safe and convenient

## Storage Rack

Adjustable storage rack for kayaks, paddle boards, and canoes. Stores two items, maximum weight 250 pounds

## Dock Cleat

Quickly and easily tie down your boat with this aluminum dock cleat

# Connect-A-Dock

## **Self-leveling**

*Maintenance-free adjustment to changing water levels*

## **Buoyancy**

*Individual enclosed flotation chambers maintains buoyancy if damage occurs to other chamber*

## **Capacity**

*2,500-pound per 4'x8' section*

## **17" Freeboard**

*Allows level access to most pontoon decks*

## **Modular and rugged**

Connect-A-Docks are floating docks made from modular pieces of molded polyethylene plastic. Connect-A-Docks are easy to assemble topside with float connections, have a skid-resistant surface and come with an eight-year warranty. Available in 4'x8' or 6'x10', 20" deep sections. Ask your dealer about additional components.

## **Drive-On PWC Lift**

Connect-A-Port Floating jet ski lifts can handle the largest personal water craft up to 2,000 pounds. Drive on/roll off with ease, equipped with 12 individual rollers and a bow stop. Rotationally molded from ultra-tough polyethylene, this lift keeps your PWC high and dry. The 6 foot width gives enough room to walk around and easily install your cover. Measurements: 156" long, 72" wide, 23" high.

# Vertical Lifts

**SAFE, SECURE, AND EASY TO USE**

Make the most of your time on the lake by lifting your boat or pontoon up and out of the water without worry. DAKA's secure vertical lifts not only protect your boat from water conditions, they are safe, easy to use, and adapt to fluctuating water depths. These lifts can handle weight ranges from 1,600 to 8,000 pounds. Made with stainless steel cables, bushings, and bolts, our durable marine-grade aluminum lifts are built to last; and they come with a 15-year warranty.

# Boat & Pontoon Lifts

## Vertical Lifts

### Smooth operation without fail

Our lifts are built with marine-grade aluminum, and stainless steel cables and fasteners to ensure years of smooth operation. DAKA lifts feature up to 61" of lifting height. Easy Adjust leveling legs can be adjusted simply using a cordless drill. DAKA lifts also feature a wheel stop to prevent raising the lift carriage too high.

Cradle your boat with one of these bunk material options including aluminum standard, full-length aluminum/vinyl, full-length carpeted, or a wooden pontoon bunk kit. Additional options available to accommodate any boat.

### Easy Adjust Legs Option

Easy adjustment above the water up to 30" using a cordless drill or ratchet. Sold in set of two.

### Standard Features

- + Nylatron pulleys with stainless steel bushings resist rusting
- + Designed with replaceable pieces for easier maintenance than a welded assembly
- + All stainless steel cables pre-strung in tubes
- + Marine-grade extruded aluminum tubes
- + Easy-to-crank aluminum winch box won't rust
- + Different style bunks available for boats and pontoons

# Lift Accessories

*Your vertical lift can rise to any occasion*

## Strongarm Winch

Lift up to 4,000 pounds with the touch of a button using our 12V winch designed specifically for DAKA

## Lift-Tech Marine Winch

Replace the crank wheel on any DAKA lift (12V, 24V, and 110V models) Keyed operation standard; optional remote control/Bluetooth and canopy lights

## Boat Lift Wheel Kit

Make installation and removal easier with bolt-on wheel and mounting plates

## Boarding Platform

Bridge the gap between your dock and boat so passengers may board safely

## Easy Park System

For tow boats, runabouts or pontoons. PVC post gently guide your boat into place, with an optional bow stop to land your boat perfectly.

## Solar Panel and Battery Tray

Go green with solar to power your 10W/12V or 20W/24V electric winch

## Sunblocker Canopy Curtains

Add extra protection for your boat and pontoon with this 5' side curtain

## Tower Canopy

For boats with towers or Bimini tops, a retractable entrance panel makes protecting your boat easy: 24' long, 120" wide, 3.5' deep sides with 10" scalloped curtain

# Canopies

## Vertical Lifts

### Performance and protection

Our aluminum canopy frames protect your boats and pontoons from the damaging effects of the sun's UV rays and other extreme weather conditions. Measuring 24" from top to bottom in addition to a 10" side curtain, our canopies leave nothing to chance. Choose a standard or custom color for great visual appeal. Highly water repellent, resistant to mildew. Five-year warranty.

### Standard Features

- + Vented ends, multiple sizes available
- + Support bows located every two feet
- + Deep sides for greater protection
- + Acrylic-coated marine polyester & welded seams
- + Long-lasting color, exceptional abrasion resistance
- + Heavy-duty shock cords and webbing
- + Easy on & off design

### Standard Colors

- + Custom colors available

### Vented Ends

The black mesh on the canopy ends not only looks great while blocking 80% of harmful UV sun rays, but it also allows airflow in high winds and aids in drying the boat out after a long day on the water.
