

# SMART

The European Smart Textiles Innovation Community

New technologies are emerging in the smart textile world, offering market opportunities but also facilitating skills enhancement and cross-sectoral partnerships.

**Join the Smart X Community!** Hundreds of experts dedicated to learning, knowledge exchange and project development in e-textiles, wearables and related technologies from across Europe.

## What does the SmartX Community offer?

Regular e-learning webinars with knowledge and technology leaders from across Europe

Physical meet-ups and guided tours at fairs, exhibitions and research facilities

Partnership development and EU funding access

Coaching and mentoring for start-ups

Information access & promotion of your smart textile innovations

Organised by

# The need of Smart Textiles in Europe

Smart textiles show promising growth across many end markets

Workwear  
& Personal  
Protection

Automotive

Sports &  
Gaming

Health &  
Medical Devices

Industry  
4.0

Smart  
Interiors

**Built on the success of the SmartX Accelerator Programme and the Textile ETP's European Smart Textiles Masterclass.**
