Small Stakes Guide 10-12

10. Art of Isolation

- ignore first limp and open what you would without limp. Don't go overboard iso hands you wouldn't even play if folded to you.
- after 2 limps consider raising hands that you would only open in early position

11. Not depending on opponent to bet their own hand

- It's hard to give opponent betting lead all the way through
- Sometimes you need to raise the turn in or out of position to avoid this

1. 88 on 8d 7c 7s 6cc .. UTG raises to \$20, btn calls Hero calls BB. FLOP: 8d 7c 7s checked around. TURN: 6c Hero bets \$30, UTG folds, btn to \$130..

2. Hand from the call-in show ..8/16/21

\$5/\$10 Lodge Live stream. 1:27 in the live stream

\$3.5k 5-10-20 Straddle.. +2 opens to \$75.. Mp1 calls, Hero completes K2hh call. \$250

FLOP: 6d 3h 2s Hero checks, Chaz bets \$150.. folds Hero calls. \$550

TURN: 9h Hero checks..+2 bets \$325 Hero calls. \$1200

RIVER: Kc Hero checks.. +2 bets \$850 .. Hero calls. +2 Has 98o

- On those boards u get check raised

3. \$1/\$3 \$500eff..

CO we raise to \$15, BB calls. FLOP Jc 2c 4d BB checks we bet \$10, BB raises to \$450 we call. TURN: 9h. BB bets \$50.. should we raise or call?

4. 45cc open from btn and BB calls. FLOP: Jc Tc 3h .. check we bet \$20 BB raises to \$70 we call. TURN: 2c BB bets \$60.. We raise or call?

12. Flop Cbet sizing for value based upon composition of one's hand

- Board of Q72r. It's better to bet larger with 77, 22 AA than having a queen that blocks top pair.
- JJ-88 on a board of Q67hh. Notice that protection betting can and should go on but you unblock top pair which gives your opponent's more of a chance of having it.
- Combinations work; multiple remaining cards by possible kicker to get total combos of a specific hand. If we have AQ on Q72 there are 2 Qs left in the deck so for KQ it's $2 \times 4 = 8$ combos. Also 8 combos of QJ, 8 combos of QT, etc. If we have AA on Q72 there is 3 queens left so $3 \times 4 = 12$ combos of KQ, 12 combos of QJ etc.
