

Crush Live Poker Podcast #685 11-6-25

0:00 -- Intro and Announcements

- Podcast player, WPTGold and PLO, Philly meetup

12:00 -- Hand 1: \$2/\$5+10 EBH \$1000eff

PRE: Hero raises to \$30 As Qs +1, MP calls, BTN calls, BB and STRD call. \$150

FLOP: Ac Ts Th x/x Hero bets \$50, BTN calls. \$250

TURN: 5s Hero checks, BTN bets \$100, Hero calls. \$450

RIVER: 7s Hero checks, BTN checks behind with QTo!!

10:00 -- Hand 2: \$2/\$5 EBH \$1500eff

PRE: Two limps, Hero raises BTN to \$30 with Jd Jc, SB (\$250) 3! to \$90, BB (nit) 4! to \$400 fold fold.. Hero folds. SB gets it in with BB and SB has AK and BB has 99.

15:00 -- Hand 3: \$2/\$5+10 EBH \$1000

PRE: Hero raises +1 to Ad Kc \$30, LJ and CO call, Straddle 3! to \$180.. (see Below discussion), Hero calls. \$420

FLOP: Ah Jd 5h He bets \$100, Hero calls. \$620

TURN: 3c He checks, I shove he folds.

Hand 3 Notes:

Stove in Your Head

AKo vs QQ is 6 combos and 43%

AKo vs KK is 3 combos and 30

AKo vs AA is 3 combos and 7%

AKo vs AK is 9 combos and 50%

$.07 + .30 + .43 + .43 + .50 + .50 + .50 = 2.73 / 7 = .39$

Fold Equity Equation:

After Straddle 3! to \$180, pot is \$270.

Hero jams for \$970 total, he risks \$970 to win \$270. When called his equity is 39%.

Total pot if called would be: \$2,060. Hero's chips EV is $\$2060 \times .39 = \803 .

CHIP EV: $\$803 - \$970 = -\$167$.

CHIP EV / (CHIP EV + Amount to Win) or $\$167 / (\$167 + \$270) = 38.2\%$

Combo Work:

40% = 1.5 to 1 in combos

21 Combos of QQ+ and AK. Need to find 14 combos that fold.

27 Combos of JJ+ and AK. Need to find 18 combos that fold.

3Bet folding range including JJ

Range 1: 99-JJ and AQs = 22 combos

Range 2: TT-JJ and AQs = 16 combos

Range 3: JJ and AQs = 10 combos

3Bet Folding range not including JJ (so 27 combos call, need 18 to fold)

Range 1: 99-TT and AQs = 16 combos
