RUSTIC OR REFINED ENGINEERED BOX BEAMS AND BEAM WRAPS

are custom fabricated with a genuine reclaimed wood skin and laminated to a premium Baltic Birch plywood substrate, utilizing a hydraulic press and adhesives. They are lighter, easier to fasten to ceilings, straighter, more stable, and more consistent in size than solid beams. Once installed, it's impossible to tell the difference between solid wood beams and our engineered hollow beams.

These wraps/box beams are great for hiding ductwork, plumbing, wiring, or purely aesthetic applications.

DIMENSIONS

Cut to size 6"x6", up to 12"x12"

PRODUCT SPECS

SPECIES	Various hardwoods (Oak, Elm, Beech, Chestnut, Maple, Poplar, and others) Various softwoods (Heart Pine and Fir)
COLOR & TONE	We offer a variety of colors, from a warm, natural finish to grays and dark browns, utilizing our specialty finishing oils that are environmentally friendly and VOC free.
TEXTURE	Circle sawn • Band sawn • Smooth planed
PRODUCT FEATURES	1/4" reclaimed wood laminated to 1/2" Baltic Birch plywood (3/4" overall finished thickness with mitered edges) (Shipped unassembled otherwise specified)
OPTIONS	Two-, three-, or four-sided • Book-matching of two pieces if wide widths are needed • Custom returns available to hide plywood edges (such as for door casings).
JANKA HARDNESS	Varies, dependent on species
DIMENSIONS	WIDTHS & HEIGHTS: Generally up to 12" in a single piece and two solid wood skins can be laminated to a single substrate if larger dimensions are needed. LENGTHS: Up to 27' (solid timbers, kiln-dried). Longer lengths can be spliced together. (All sizes are dependent upon availability in a particular species.)
ORIGIN	All of our lumber is reclaimed from old barns, factories, and homes in the Eastern U.S. Wood is typically 100+ years old.
DISCLAIMER	Each reclaimed board is one-of-a-kind and can possess some or all of the aged characteristics. Variation is to be expected.
LIMITATIONS	Though reclaimed wood generally has a denser grain structure than new wood products, it does contain checks, marks, knotholes, nail holes, and color variations. Please allow for these natural variations when designing the application.
