IDEAS

PRODUCED BY MARY FITZGERALD

1. Designed by TL Studio, the Blok cylinder pendant from **CIRCA LIGHTING** is available in a choice of halogen or LED light. A hexagonal shade is offered in matte black, white or aged brass. *Greenwich, circalighting.com*. 2. Handmade and engineered in Germany, the polished nickel Onos 55 fixture from **HECTOR FINCH** is adjustable for precise lighting levels over a table or island. *Through Style Library, D&D, stylelibrary.com*. 3. Layers of shadow and light are created by the four steel plates of the **VERMONT MODERN** Stretch fixture. The duo-light chandelier, shown here in gold, is equally impressive in silver, black, aqua, red and white. *Through Klaffs, Norwalk, klaffs.com, vermontmodern.com*. 4. **BUSTER + PUNCH**'s Heavy Metal pendant makes a dramatic statement as a single fixture or arranged as a composition. Made from solid steel and finished in brass, smoked bronze or matte black, the knurled satin metal and matte rubber detailing adds to the industrial vibe. *busterandpunch.us*. 5. The vintage brass armature of the Branching chandelier, BD.06.02, is assembled by hand in lighting designer **LINDSEY ADELMAN**'s studio. Brushed brass shades diffuse and soften the LED light. *Through Room, Greenwich, roomonline.com, lindseyadelman.com*. 6. Hung in multiples or alone, the acorn-shape of the Helena pendant from **KUZCO** is striking in a white or graphite spun-metal shade, with a choice of four interior colors. *Through Bender, Norwalk, benderplumbing.com, kuzcolighting.com*.

7. The sculptural Suspender lighting system by **SONNEMAN** is composed of horizontal and vertical bars with LED luminaries. The modular elements can be configured individually or as tiered web for a custom installation. *Through Klaffs, Norwalk, klaffs.com, sonnemanawayoflight.com*. 8. Intricately handcrafted from bone china, the organic shape of the Fin pendant from **ORIGINAL BTC** casts a delicate light. Suspended as an individual fixture or in groups of three, five or seven, the pendant lengths can be adjusted. *Through Circa Antiques, Westport, circaantiques.com, originalbtc.com*. 9. **ETHAN ALLEN**'s Seeded Glass Bunch chandelier is composed of eight glass bubbles encompassing filament bulbs. The canopy is fashioned from oil-rubbed bronze. *Stamford, ethanallen.com*. 10. Handworked in a delicate basket weave, the iron cage of the Hideaway fixture from **TROY LIGHTING** is finished in champagne leaf. *Through Klaffs, Norwalk, klaffs.com, troy-lighting.com*. 11. Available exclusively at **MITCHELL GOLD + BOB WILLIAMS**, the mod-style Luna chandelier is a creative interpretation of the orbiting moon and planets, with three adjustable arms in warm brass or brushed nickel. *Greenwich, mgbwhome.com*. 12. Danish designer Poul Henningsen's iconic light fixture for **LOUIS POULSEN** is now available in a small-scale version. The PH5 Mini is presented in eight fun color combinations. *Through Design Within Reach, Stamford, dwr.com, louispoulsen.com*.
