THE SOCIAL KITCHEN

ELKAY
Making quick work of prepping and cleaning, Elkay's Workstation sinks accommodate custom accessories like cutting boards, colanders and dish-drying stations. The stainless-steel Crosstown sink is shown here, but other models are also available in stainless, fireclay or quartz. Available through Waterware Showrooms, waterwareshowrooms.com, elkay.com.

HECTOR FINCH
A new addition to the Hector Finch line, the multi-faceted Hammered Glass Globe is offered in a small and large size. Refracting the light, the decorative surface also serves to hide the bulb. Available through Harbinger, NYDC, harbinger.com, hectorfinch.com.

THOMPSON TRADERS
In hand-hammered brass, the Villa undermount sink becomes the centerpiece of the kitchen. Each sink takes two weeks to make, crafted by skilled artisans in Mexico. Available through F.W. Webb Company, fwwebb.com, thompsontraders.com.

ARTISTIC TILE
Creating a sophisticated composition, Artistic Tile's Textura Nero Italia Limestone Mosaic is tonally consistent but texturally intriguing with a mix of etched stone designs set in a chevron pattern. Available through Karen Berkemeyer Home, karenberkemeyerhome.com, artistictile.com.

PLAIN ENGLISH
A stepped-back glazed cupboard by Plain English Design feels more like furniture than kitchen cabinetry in this NYC apartment and provides a place to house and display kitchenware, while also functioning as a bar or coffee station. NYC, plainenglishdesign.co.uk

HÄFELE
Keep drawers organized with Häfele's Fineline customizable system, shown here in a new finish—black ash. The pieces can be designed to fit any drawer. Options include cutlery trays, knife holders, spice holders and plate kits for deeper drawers. NYC, hafele.com.
