CLEANING AND MAINTENANCE INSTRUCTIONS	Ceramic: The ceramic components can be cleaned with a light spray of water and a lint free cloth. Ensure the light is switched off and take care not to pull the flex or allow water to come into contact on the electrical components. Metalwork: We recommend a light polish with a non-abrasive lint free cloth. Do not use any metal cleaning products on the fixture as it can remove the finish entirely. Unlacquered brass finish will patinate slowly over time and can be brightened to brass by the use of a brass cleaning agent.
