CLEANING AND MAINTENANCE INSTRUCTIONS

Leather:
Clean leather with a damp cloth, condition when required with a specialised conditioner to prevent cracking, and keep it away from heat, sunlight, and moisture to extend its life.

Ceramic:
The ceramic components can be cleaned with a light spray of water and a lint free cloth. Ensure the light is switched off and take care not to pull the flex or allow water to come into contact on the electrical components.

Metalwork:
We recommend a light polish with a non-abrasive lint free cloth. Do not use any metal cleaning products on the fixture as it can remove the finish entirely. Unlacquered Brass finish will patinate slowly over time and can be brightened to brass by the use of a brass cleaning agent.
