

## In Class Activity Sheet: Incredible Inverts

You're the scientist! Today we want you to help our CCMI scientist decide if the organisms below are invertebrates or vertebrates. Circle all the <u>invertebrates</u> in the box below. Then count the number of both invertebrates and vertebrates. Record your numbers in the tally table. Finally, color in your graph with the correct number of invertebrates and vertebrates. Be sure to ask our scientist if you have any questions about different types of marine invertebrates! Thanks for your help and enjoy the dive!!

## Tally Table:

Invertebrates:	
Vertebrates:	

## Graph:

<u> </u>	1	2	3	4	5	6	7	8	9	10	11	12	13	14
Invertebrates														
Vertebrates
