Pharmacy Technician Specialist

TUITION	DURATION	TARGET CERTIFICATION	ISSUING AUTHORITIES	REQUIREMENTS	Call us anytime 
\$2,700	16 Weeks	Certified Pharmacy Technician (ExCPT)		High School Diploma or GED	(800)734-1175

PROGRAM DETAILS

Certified Pharmacy Technicians play vital roles in the healthcare system. In the past, technicians were looked upon as people behind the counter who fill prescriptions and count pills. With the evolving and expanded role the pharmacy technician plays, your professional services will ensure that patients receive the best healthcare outcomes and obtain the best results from their medications.

This 16-week online Pharmacy Technician certification program provides comprehensive training in the areas of Human Anatomy and Medical Terminology, and Pharmacy Technician Principles and Practices.

The Pharmacy Technician Certification program is designed to equip you with the knowledge required to gain the Certified Pharmacy Technician certification (Ex-CPT) through the National Healthcareer Association's (NHA) exam.

This is a Certification Preparation program and DOES NOT contain all required components of an ASHP-Accredited program, specifically the simulation/lab component and a required externship. For information about our accredited RX-3000 program, visit www.medcerts.com

Throughout the Pharmacy Technician Specialist program, students will learn:

-  The top medications and their purpose
-  Current updates on pharmacy law and medication regulation
-  The primary functions of different pharmacy organizations
-  The different roles of the pharmacy technician

While MedCerts training and related target certifications may be accepted and/or approved by your state of residency, employers reserve the right to dictate pre-requisite education, experience, or certification/licensure requirements for their positions. These requirements may exclude a MedCerts graduate from eligibility. We strongly advise students to research target job posts from area employers and relevant state requirements, barriers or restrictions to ensure eligibility upon graduation.

This program is not accepted in the following states: SC, LA, SD, MD, VA, WV, UT, ND, OH, MI. Please consider our RX3000 program instead.

WA State - speak to your Enrollment Advisor prior to enrolling

EXPERIENTIAL/CLINICAL COMPONENT:

Experiential/Clinical Component Requirements (not applicable to the HI-2100 Pharmacy Technician Program) - Once students complete this program, they will be able to immediately start working with Career Services at MedCerts.

CRIMINAL BACKGROUND CHECKS AND DRUG SCREENING POLICY:

MedCerts does not perform criminal background checks, nor do we test students for illicit drug use. Please be advised that while MedCerts does not perform these checks, the student's drug, criminal, or immunization status may prevent clinical/externship placement and future employment as a healthcare or IT professionals. Externship sites, employers, and State Boards of Pharmacy or other regulatory boards have regulations about immunizations, drug use, and criminal backgrounds. Regulatory boards, externship sites, employers, and other organizations that may require these screenings for placement, and adverse results may prohibit you from moving forward in the program. Candidates with a felony conviction are not eligible to participate in ANY MedCerts program that includes the Pharmacy Technician certification as a primary or secondary certification

The student understands that MedCerts does not hold any control over the drug, immunization, criminal, or background screening processes or policies held by any organization outside of MedCerts.

Upon 100% completion of this program, students will receive a "MedCerts Certificate of Completion." This is proof of completion of training but isn't a nationally recognized certification. Students are expected to take and pass the national certification exam through the issuing authority for recognized certification in their field.
