PROGRAM DETAILS

This program is recommended for those who want to work directly alongside patients in a clinical medical environment.

Because today's medical assistant will be called upon to perform a variety of clinical and administrative duties, this program covers a wide range of skills and objectives that expand beyond the routine functions of a Medical Assistant. Chief among these expanded responsibilities are tasks related to and around the practice of Phlebotomy. This program contains a course specifically designed to prepare students with the knowledge and skills necessary to perform blood draws, collect and handle blood and non-blood specimens and maintain a safe clinical environment.

Upon completion of this program, students will have met the training requirements to sit for the Certified Clinical Medical Assistant (CCMA) exam, and the Certified Medical Administrative Assistant (CMAA) exam, both of which are sponsored by the National Healthcareer Association (NHA).

Additionally, students will have completed the training requirements relevant to the Certified Phlebotomy Technician (CPT) certification sponsored by the NHA. Once hired as a Medical Assistant, the student can complete the required 30 successful venipunctures and 10 successful capillary sticks that are necessary to attempt the Phlebotomy certification exam.

Throughout the Clinical Medical Specialist program, students will learn the skills to:

- Comply with HIPAA/HITECH, OSHA, CMS and other healthcare regulations and laws as they apply to patient information
- Comprehend the use of Diagnosis and Procedure codes and employ Electronic Health Records and related Practice Management
- Perform Phlebotomy and laboratory procedures
- Appreciate the role of HIPAA, OSHA, COLA, and CLIA-waived testing

**While MedCerts training and related target certifications may be accepted and/or approved by your state of residency, employers reserve the right to dictate pre-requisite education, experience, or certification/licensure requirements for their positions. These requirements may exclude a MedCerts graduate from eligibility. We strongly advise students to research target job posts from area employers and relevant state requirements, barriers or restrictions to ensure eligibility upon graduation.*

**This program is not accepted in the following states: WA.
 CA Residents: Speak to your Enrollment Advisor prior to enrolling.**

CAREER SERVICES

For all MedCerts Students that are not affiliated with an employer partner, you also have the added benefit of Job Search Assistance including guidance with resume building, networking, interviewing, and job search tips.

EXPERIENTIAL/CLINICAL COMPONENT:

Experiential/Clinical Component Requirements

Students are responsible for locating and securing a site to fulfill the clinical requirements of the program. MedCerts cannot guarantee placement to complete this clinical requirement. Students are also required to complete 30 venipunctures and 10 capillary sticks within 180 days of passing the CPT exam. MedCerts is not responsible for locating or placing students to fulfill any clinical certification requirements. MedCerts may choose to sponsor the student(s) by signing affiliation agreements with the site(s) of clinical learning and provide insurance coverage enabling the student to learn on the job. The CPT certification will not be released until student completes the clinical requirements within the 180 day timeframe of passing the CPT Exam.

CRIMINAL BACKGROUND CHECKS AND DRUG SCREENING POLICY:

MedCerts does not perform criminal background checks, nor do we test students for illicit drug use. Please be advised that while MedCerts does not perform these checks, the student's drug, criminal, or immunization status may prevent clinical/externship placement and future employment as a healthcare or IT professionals. Externship sites, employers, and State Boards of Pharmacy or other regulatory boards have regulations about immunizations, drug use, and criminal backgrounds. Regulatory boards, externship sites, employers, and other organizations that may require these screenings for placement, and adverse results may prohibit you from moving forward in the program. Candidates with a felony conviction are not eligible to participate in ANY MedCerts program that includes the Pharmacy Technician certification as a primary or secondary certification

The student understands that MedCerts does not hold any control over the drug, immunization, criminal, or background screening processes or policies held by any organization outside of MedCerts.

Upon 100% completion of this program, students will receive a "MedCerts Certificate of Program Completion." This is proof of completion of training but isn't a nationally recognized certification. Students are expected to take and pass the national certification exam through the issuing authority for recognized certification in their field.
