PROGRAM DETAILS

The IT-7200 AWS Solutions Architect - Associate program is recommended for experienced IT professionals looking to expand in their role, gain more earning power and demonstrate proficiency in cloud computing. As technology continues to evolve, and businesses explore new methods of doing things, it's critical that IT professionals keep pace with this evolution. Cloud computing is not new, but its evolution has accelerated in the last 10 years.

The AWS Certified Solutions Architect - Associate certification proves you can design and implement a distributed architectural solution based on the needs of the end-user. You'll learn about the most important AWS storage, computing, networking, security, database and application services and how to use them.

This program contains two courses related to Amazon Web Services. The first is AWS Essentials, designed as an introduction to the basics of the AWS platform. It is an overview of the AWS cloud and is independent of any specific technical roles. The second course is far more comprehensive and teaches you to design resilient, high-performing, secure and cost-optimized architectures.

Customer Service is a priority in any situation where interaction occurs, so you'll learn the fundamentals by completing the Customer Service Certified (CSC) credential through the Professional Association for Customer Engagement (PACE). You'll also complete training that covers Microsoft Word and Excel. These courses teach strong word processing and spreadsheet skills valuable to business and IT professionals across all industries.

Upon program completion, MedCerts will sponsor the cost of the AWS Certified Solutions Architect - Associate certification exam.

CAREER SERVICES

For all MedCerts Students that are not affiliated with an employer partner, you also have the added benefit of Job Search Assistance including guidance with resume building, networking, interviewing, and job search tips.

ATTAINABLE CAREERS

- AWS Cloud Architect
- AWS Cloud Evangelist
- Cloud Security Expert
- Cloud Engineer
- Network Engineer
- Solutions Architect Engineer (DevOps)

Throughout the AWS Solutions Architect Associate program, students will learn the skills to:

- ✔ Define a solution using architectural design principles based on customer requirements.
- ✔ Provide implementation guidance based on best practices to an organization throughout the life cycle of a project.
- ✔ Demonstrate knowledge of how to architect and deploy secure and robust applications on AWS technologies.
- ✔ Learn how service affects the company's bottom line and increase customer retention.
- ✔ Apply methods to organize, calculate and analyze information using Microsoft Excel.
- ✔ Understand how service teams can enhance customer service.

While MedCerts training and related target certifications may be accepted and/or approved by your state of residency, employers reserve the right to dictate pre-requisite education, experience, or certification/licensure requirements for their positions. These requirements may exclude a MedCerts graduate from eligibility. We strongly advise students to research target job posts from area employers and relevant state requirements, barriers or restrictions to ensure eligibility upon graduation.

EXPERIENTIAL/CLINICAL COMPONENT:

Experiential/Clinical Component Requirements (not a requirement for IT-7200 AWS Architect Associate) - Once students complete this program, they will be able to immediately start working with Career Services at MedCerts.

CRIMINAL BACKGROUND CHECKS AND DRUG SCREENING POLICY:

MedCerts does not perform criminal background checks, nor do we test students for illicit drug use. Please be advised that while MedCerts does not perform these checks, the student's drug, criminal, or immunization status may prevent clinical/externship placement and future employment as a healthcare or IT professionals. Externship sites, employers, and State Boards of Pharmacy or other regulatory boards have regulations about immunizations, drug use, and criminal backgrounds. Regulatory boards, externship sites, employers, and other organizations that may require these screenings for placement, and adverse results may prohibit you from moving forward in the program. Candidates with a felony conviction are not eligible to participate in ANY MedCerts program that includes the Pharmacy Technician certification as a primary or secondary certification

The student understands that MedCerts does not hold any control over the drug, immunization, criminal, or background screening processes or policies held by any organization outside of MedCerts.
