WELCOME TO THE ANNUAL MEETING PLACE FOR THE MIDDLE EAST'S CAPITAL MARKETS COMMUNITY

BONDS, LOANS & SUKUK MIDDLE EAST is the only event covering Debt, Equity & ESG. It is your tool to hold targeted business meetings with clients, move deals along, expose your brand to senior decision makers from your capital markets prospects and hear the region's financial experts speak/answer your questions.

WE ARE THE NO. 1 BUSINESS MEETINGS FACILITATOR FOR THE MIDDLE EAST'S CAPITAL MARKETS: our event is this market's annual meeting place. Deliver demonstrable ROI on your time out of the office by pre-arranging meetings with your targets through our sponsor 1-2-1 meetings platform.

This is the only event bringing together local and international investors, advisors and government officials to discuss the development, opportunities and challenges of the region's capital markets, making it a "must attend" for the market.

CONNECT, DO BUSINESS & DELIVER DEMONSTRABLE ROI THROUGH OUR SPONSOR 1-2-1 MEETINGS PLATFORM:

KEY INDUSTRY TOPICS TO BE DISCUSSED IN 2023:

- 1** (For how long) Is the Middle East immune to the current global market volatility? How will global inflation, interest rates and a slowdown in growth impact the Middle East economy and markets?
- 2** Global volatility vs. regional safe haven: Where does Middle East credit sit with an investor's global portfolio?
- 3** Searching for benchmarks: What is the cost of capital in the 'new' market environment? How to bridge the gap between issuer and investor expectations?
- 4** Bond vs. loan financing: How are top-tier banks adapting their funding strategies around shifting cost of capital and cost of deposits?
- 5** Getting creative in a rising rate environment: How corporates can work with their banks to maximise their sources of liquidity (ECA, structured finance and sukuk) when launching new deals
- 6** Syndicating loans in the 'new' normal: How and where are banks lending, and on what price and what structure?
- 7** Going global: How does the regional IPO boom act as a catalyst to attract global investors to the region's equity markets?
- 8** Interest rate risk, FX risk, commodity risk: When, how and why hedge?
- 9** Reprofitting debt in volatile times: How borrowers can work with their banks to refinancing and restructuring to (re-)emerge with better capital structures
- 10** From energy security to energy transition: What is the ESG roadmap for energy-rich regions like the Middle East?
- 11** How do banks and investors lend to energy (O&G) companies while remaining committed to sustainability goals?
- 12** How much does your portfolio emit: How are banks measuring how much carbon is in their portfolios? How does this impact the way they are lending?
