

# Spring

Kölsch Style Ale  
5.0% ABV

Native to Maine woodlands, Azure Bluets appear where they are least expected. To many, they are a welcome first sign of spring, appearing in early April as the snow begins to melt. They pepper the ground in tufts of tiny stars with pale blue petals and a yellow center.

This Kölsch style ale recipe stemmed from the Black Barn Program, and has since grown to become a perennial favorite.

## Flavor Profile

Aromas of lemon, honey, and rose, followed by notes of fresh-cut grass, and bread dough.
