

Versapay: The Leader in Collaborative Accounts Receivable

The Versapay Collaborative AR Network is the first AR automation solution that empowers the genius of teams by bridging the gap between suppliers and buyers through a shared, digital experience.

Our mission

To create a network that connects millions of companies and makes billing and payment easy for buyers and sellers.

Our vision

To transform the way companies everywhere do business together by accelerating next generation digital payments.

The power of the Versapay Network

We're building the largest, most efficient B2B payment network to power global finance.

Collaborative AR meets the leading B2B Payment Network

Versapay combines an industry-leading Collaborative AR automation platform and B2B Payment Network to transform AR departments.

Collaborative AR

Automate accounts receivable tasks and collaborate with customers over the cloud.

Cash Application

Automatically match and apply any payment from any channel with AI.

ERP Payments

Accept payments from any sales channel within your ERP.

Payment Network

Transact with over a million businesses on the network designed for B2B commerce.

“In its quest to rid companies of paper checks, Toronto-based Versapay has developed one of the first collaborative accounts receivable platforms, combining advanced invoicing, automation and payments technology to deliver improvements and efficiencies for its business clients.”

We close the gap between AR teams and customers

Versapay's Collaborative AR network connects AR teams with their customers over the cloud to drive efficiency, accelerate cash flow, and dramatically improve the customer experience.

This unique approach fosters collaboration and transparency, eliminating many of the problems that slow down payments and drive inefficiency, while empowering customers with self-service.
