Extending the Capabilities of Intelligent Automation

The know-how that helps companies tackle early growth challenges that can arise in the first year of your program.

What is a Success Accelerator?

Discover new ways to grow your business through operational efficiencies, improved customer satisfaction, revenue opportunities and more to accelerate the timeline for achieving the vision of what a digital workforce can do for your business.

Why choose Extending the Capabilities?

This valuable accelerator package is all about helping you tackle the challenges that may arise as your automation pipeline grows, as your team scales and new roles are introduced to the COE, as you explore adding skills to your digital workers and begin considering how your program can additionally benefit from features such as Interact, Decipher IDP or other TAP partners.

What to expect:

- Mentoring for 10 team members
- Approximately 6 months' duration
- Up to 60 days of Blue Prism resources
- Detailed review and improvement guidance for 10 production automations
- Assigned Customer Success Manager
- A ROM™ Assessment

VALUE AND OUTCOMES:

- Support the deployments of more than 50 digital workers
- Access to a myriad of complementary technology in the ecosystem that interact seamlessly to create your digital workforce.
- Intelligent ROM™ Assessment
- Expert resource working with you on strategy, value creation, and organizational change management.
- Guidance from a Customer Success Manager
