

Workshops

Developer

The hands-on training that will ensure your developers hit the ground running with best practices and high-quality automations.

What is a Success Workshop?

Our workshops are role-based, hands-on training sessions that cover the most popular skills Blue Prism users need. They are delivered as described herein or customized to meet specific requirements of your team. Facilitated by a certified Blue Prism expert, your team is trained and guided in a private course dedicated to their success.

Why choose Develop?

This workshop will build upon the Blue Prism Foundation training course to broaden your developers understanding of Blue Prism. Experts focus on tasks that reduce time to value and ensure you set a solid foundation for your intelligent automation program.

What to expect:

- Architecture Basics
- Credentials & Credential Manager
- Advanced Data Items
- Applications integration: Spying Applications and Elements
- Advanced Exception Handling
- Advanced Work Queues
- Calling APIs
- BP Delivery Roadmap
- Solution Design & Test Strategy
- Object and Process Naming Conventions
- Practical exercises

VALUE AND OUTCOMES:

- Instructor-led, hands-on guided training sessions
- Open and fluid exchange of ideas and lessons learned.
- Social interaction with other teammates during training
- Improved uptake of skills during the training session
- Faster response to student questions and direct instructor feedback on skill application
- Certification-ready team members

Course Delivery Options:

- This is a 3 half-day workshop
- Can be delivered virtual or onsite at your offices
