# Workshops

## Solution Designer

**The hands-on training your designers and analysts need to get up and running quickly with critical skills for Intelligent Automation.**

### What is a Success Workshop?

Our workshops are role-based, hands-on training sessions that cover the most popular skills Blue Prism users need. They are delivered as described herein or customized to meet specific requirements of your team. Facilitated by a certified Blue Prism expert, your team is trained and guided in a private course dedicated to their success.

### Why choose Solution Designer?

This workshop brings your team expert guidance that helps business users apply the skills and knowledge they must become core team members who can discover, document, define and clearly communicate the value of intelligent automation to business stakeholders.

### What to expect:

- Solution Designer Guides and End-end Overview
- ROM Overview: Design
- Reviewing the design of existing automated processes
- Solution, Process Design
- Operational Impact
- Object Design
- Design Authority, Object Library, Design Review

**VALUE AND OUTCOMES:**

- Instructor-led, hands-on guided training sessions
- Open and fluid exchange of ideas and lessons learned.
- Social interaction with other teammates during training
- Improved uptake of skills during the training session
- Faster response to student questions and direct instructor feedback on skill application

**Course Delivery Options:**

- This is a 3, 1/2-day workshop
- Can be delivered virtual or onsite at your offices
