

ESG services – in detail

Advisory services:

- **MHA Dynamic ESG** – a complete approach to embedding ESG from companies that are taking their first ESG steps through to the operation of a fully integrated programme:
 - **ESG and net zero approach:** “create; evaluate; implement”.
 - **GHG (Greenhouse Gas) emissions reporting;** supporting data collation with the journey to net zero and its associated reporting needs.
 - **SECR and ESOS compliance and Reporting** (assurance and technical requirements).
 - **Advice** on UKETS (UK Energy Trading Schemes), Carbon Code, GRI Reporting (Global Reporting Initiative) and NFR.
 - **Specific Scheme support:** CCAs (Climate Change Agreements), UKTI grants, VCCAs (Voluntary Climate Change Agreements).
 - **Green Finance** and financial opportunities for capital investment (Green Capital Arm).
 - **Specialist Taxation advice** and guidance under MHA 3 segment approach.

Assurance and compliance services to support business regulatory compliance:

- **Climate reporting and disclosures** under TCFD and S172 legislation.
- **Audit assurance** (as part of statutory requirements and preparation for non-audit clients) **Note:** FRC thematic regulated review).
- **Specialist** internal audit assurance services.
- **Multi jurisdictional assurance & compliance services** on CSRD, ERSRS & SEC Compliance
- **ISAE (UK) 3000 non-financial assurance**, solutions and bespoke marketing and communications frameworks.

ESG Services

Create an integrated external engagement framework

Evaluate performance and create ESG plan

Implement engagement framework. An ESG plan with effective ROI and communication frameworks

We believe that an ESG commitment should deliver significant return on investment.

Whether that return comes through energy payment savings in the form of climate change agreements, efficiencies or grants, bursaries and beneficial funding, we know that every business can make sustainability pay.

Purpose with Profit

Corporate sustainability doesn't have to come at the cost of corporate profitability.

Mark J Lumsdon-Taylor
MHA Sustainability Partner
