MILLENNIUM CARE

Millennium Care is a family-run, B Corp-accredited care home provider with five homes in the North West and over three decades of sector experience.

With a non-pharmacological approach to care, Millennium combine a range of proven methods to deliver the very best care. From expert staff in unique roles to a strong emphasis on nature, nutrition-led dining, and intergenerational care, residents are given every opportunity to thrive. The award-winning provider prides itself on innovation and outstanding person-centred care that allows residents to age with vibrancy.

Recognition for this commitment is clear. In 2024, Lakeside's sister home Worthington Lake was named one of the Top 20 care homes in the UK by carehome.co.uk. The following year, in 2025, Lakeside was listed among Lottie's Top 100 care homes, and Millennium Care itself was recognised as one of Lottie's Top 10 Small Care Home Providers.

LAKE SIDE CARE HOME

Lakeside Care Home offers specialist nursing and residential care. Nestled within a beautiful lakeside estate, the home is part of the Standish Care Village alongside Worthington Lake and Langtree Care Home.

TYPES OF CARE —

RESPITE

Respite care is a great short term option for both the resident and their primary carer. Creating peace of mind when plans change.

01

02

RESIDENTIAL

Residential care provides accommodation and personal care services for individuals who need assistance with daily living activities.

NURSING

Nursing care is specialised and delivered by registered nurses tailored to residents with complex health needs.

03

HOME FROM HOME

Lakeside Care Home is a beautiful home overlooking the centre of The Standish Care Village, Worthington Lakes and associated woodlands.

Warm and welcoming, the home is equipped with a terrace, bistro and sensory garden for residents and their loved ones to enjoy.

There's never a sad face at Lakeside, where staff go above and beyond to make every day special.

Listed as a 'Top 100 Care Home' by the platform Lottie, the home also recently won a national award that recognises the outstanding contribution that the team have given to the lives of the home's residents.

The home boasts large communal areas for engaging activities and quiet corners for those relaxed moments. The home is full of natural light, just crack a window to hear the sounds of the local wildlife.

STANDISH CARE VILLAGE

The Standish Care Village is a unique setting in the North West, providing a continuity of care like no other in the region which creates a home for life.

Catering for respite, residential, nursing, dementia and advanced dementia care, those who move into a home within the Village have the security to know they will always have a home, and the relationships they create will continue to flourish under the same Millennium Care ethos.

All homes within the Village, Langtree, Lakeside and Worthington Lake, have private access to a local lake nestled within the Douglas Valley. Specialised staff support the daily needs of the residents and include a Music Ambassador and an Occupational Therapist.

The Village is centred around community, not only the strong connections and shared learning between the homes, but also the connection to the surrounding communities.

WHAT MAKES US — DIFFERENT?

SETTING

The location of the home ensures that those who live with us are connected to nature and its seasons, bringing serendipity and spontaneity to individual, communal and social interactions.

A private pathway to Worthington Lakes with an off-road scooter means no one is left behind, whether it is a lakeside picnic, fishing or to watch the seasons change from the water's edge.

We encourage residents to bring their wellies, a rain jacket, umbrella and sunhat!

FOOD

Our food offering is as homely as it is wholesome. Through a deep understanding of ingredients and their alignment with gut and cognitive health, our vision is to create a daily dining experience that tastes as good as it makes you feel.

This journey starts with our skilled Kitchen Team carefully selecting all of our food ensuring it is fresh and sourced locally then through seasonally designed menus, a relaxed and noninstitutional approach to dining and ample opportunities for those who live and visit us to snack, graze and enjoy the pleasure and delight of food as a social activity.

COMMUNITY LINKS

There's never a dull day at Lakeside, with the home's connections residents can look forward to various activities, trips near and far, and visits from organisations, charities or individuals who positively impact their lives.

The home prioritises meaningful engagement with the right people enabling residents to thrive and age with vibrancy in both sociable and enjoyable settings.

THERAPIES

01

ARTS

The arts play a huge role in our care, staff encourage residents to be creative through various activities while the in-house Music Ambassador, specially trained by the Manchester Camerata, offers a unique approach of therapy.

02

WELLNESS

The home's Activity Coordinator gets to know the residents, creating tailored sessions and activities to encourage movement, socialising, positivity, and enjoyment.

03

FITNESS & MOVEMENT

All at Lakeside are supported by regular movement. A perfect combination of physiotherapy and fitness, joining the mind and body in unison.

The Group's Occupational Therapist plays a vital role in supporting residents' independence, safety and quality of life. Improving mobility makes a huge impact on those with nursing needs.

04

NATURE

Studies have shown that access to green spaces and natural views helps people live longer, healthier, and happier lives. The home overlooks open fields, offering views of migrating birds, changing tree colours, and stunning sunsets, encouraging positive risk-taking in the outdoors; whatever the season.

Lakeside is nestled on a countryside estate with private access to a local lake.

NEXT STEPS

BECOME A LAKESIDE RESIDENT

Is Lakeside right for your loved one? Feel free to contact us or visit the home at your leisure, where we can answer any questions you may have.
