MaaS360 from O₂

Mobile security, wherever you work

Telefónica

What is MaaS360?

You want to know your mobile devices are secure – wherever your people are working. MaaS360 from O₂ gives you complete peace of mind when it comes to identity and threat management.

Featuring AI insights to spot and eliminate any vulnerabilities, the solution adds an extra layer of security to all your devices, wherever they are. It integrates easily with your existing systems too, providing mobile security across your whole fleet.

MaaS360 also works with all your business apps, including MS365, Outlook and Gmail. Sign up and we're with you every step of the way, from initial set up and configuration to deployment.

What's included with MaaS360?

There are four MaaS360 packages to choose from, so there's something to fit every need and budget.

4 Enterprise:
Ultimate package for protection and productivity

- Give your remote workers the productivity tools they need, without compromising security. And automated threat management means your network stays protected, without your IT team's involvement.

1 Essentials:
Great first step for Unified Endpoint Management (UEM)

- Manage and secure BYO smartphones, tablets and laptops. By simplifying app deployment and mobile device lifecycle management, you can get everyone secured and using the tools they need in less time.

3 Premier:
Add critical productivity and security solutions

- Premier Edition delivers a comprehensive set of solutions to manage and secure web access, mobile content and business applications – helping to protect your network as well as your devices.

2 Deluxe:
Add secure mail and AI assistance

- Isolate and contain work emails and instant messages. Work and personal data can sit safely side-by-side and it allows your workers to access corporate apps and services without security measures disrupting their mobile experience.

- Delivers a comprehensive set of solutions to manage and secure web access, mobile content and business applications. It helps to protect your network as well as your devices.

The new packages provide new and enhanced capability for your customers.

What support is available?

MaaS360 from O$_2$

We've made it easier to get the help and advice you need from IBM and O$_2$ experts. Now you're supported as soon as you choose MaaS360.

Pre-sales support

Get a more detailed look at the MaaS360 with a free one-to-one session. One of our security specialists will discuss your requirements and give you a demo of how the service could work for you. Speak to your partner to book a session.

Post-sales support

Once you're working with MaaS360, you can access our support portal, Service Now to ask any questions you may have.
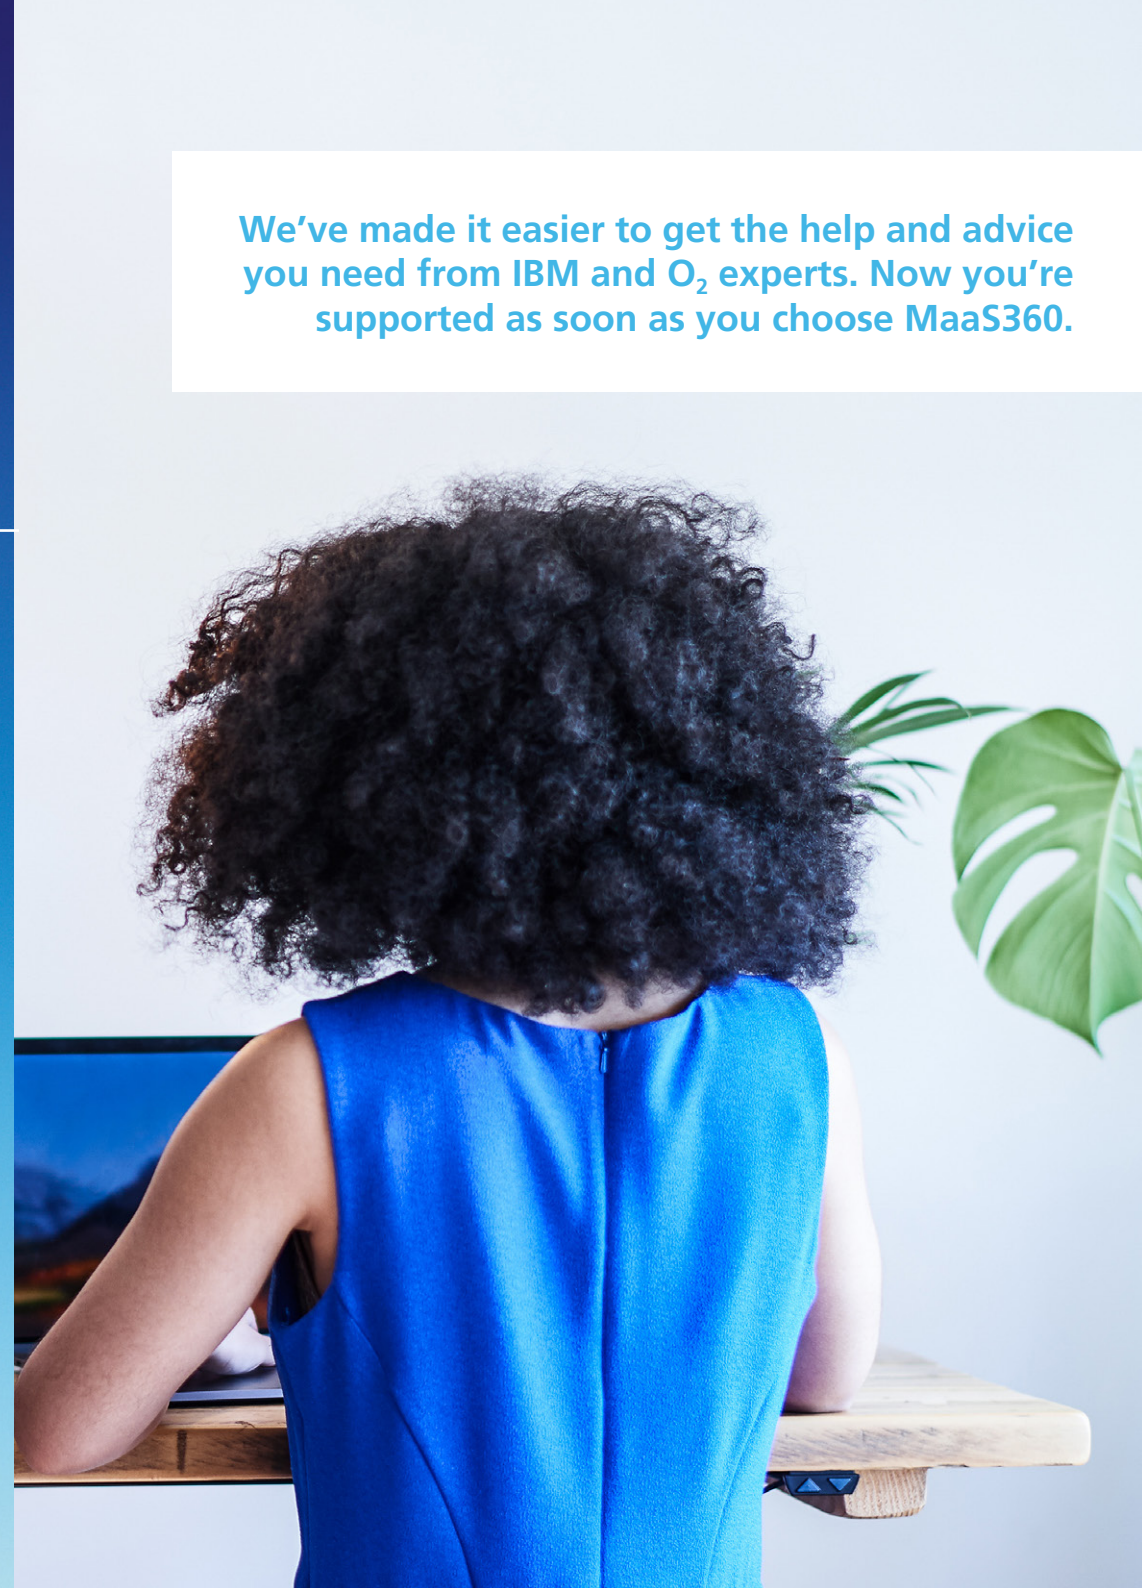

Voice support line

If you've raised a request via Service Now and need to speak to an O$_2$ representative directly, you can call our voice support line.

Professional services

Jumpstart is a package you can purchase to remove the hassle of setting up MaaS360 in a one-off two-hour session.
