Quilter's Tip

To determine the number of layers of each type of fabric you can cut, start with fewer layers and build up. Often more layers can improve cutting performance.

Super Strip Cutter dies are on Super Long Cut (SLC) die boards. Super Giant Strip Cutter dies are on Super Giant (SG) die boards. Both sizes require a Super Giant die tray (406120) and either Super Long Cut (60004) or Super Giant (60008) cutting plastic.

* The number of strips on the die board is shown. Remember, with Super Giant Strip Cutter dies, you can cut up to 10 layers of fabric. For example, the Super Giant Strip Cutter-1 1/2" (50065) die cuts eight full-width strips in one pass using the two layers of folded fabric off the bolt; 10 total layers (five folded layers) will yield 40 full-width strips.
