Job Description: Experienced Zoho Deluge Developer (Freelance, On-Site)

Position: Zoho Deluge Developer
Location: On-Site
Employment Type: Freelancer full time
Duration: 6-9 months

Role Overview:
We are seeking an experienced Zoho / Deluge Developer to join our team for a freelance, full-time, on-site project lasting 6-9 months. The ideal candidate will have expertise in Zoho CRM, Zoho Creator, Zoho Flow, Zoho Contracts, and integrating Zoho applications with SQL databases. You will collaborate closely with the Tashkeel team to design and customise Zoho solutions, build workflows, and implement seamless integrations to meet Tashkeel's business requirements.

Key Responsibilities:
- Develop and maintain custom workflows, functions, and scripts using Zoho/ Deluge scripting.
- Customise and optimise Zoho CRM modules, fields, layouts, and automation workflows.
- Designed and developed applications using Zoho Creator, including custom forms, workflows, and database structures.
- Integrate Zoho applications (CRM, Creator, Flow, People) with MS SQL databases to synchronise data and enhance functionality.
- Implement third-party system integrations with Zoho applications.
- Automate processes and enhance operational efficiency using Zoho Flow.
- Implement digital contract workflows using Zoho Sign and Zoho Contract.
- Troubleshoot and resolve technical issues related to Zoho apps and database integrations.
- Document technical processes, workflows, and integration configurations for future reference.

Required Skills & Qualifications:
- Proven experience as a Zoho Deluge Developer with strong knowledge of Zoho CRM and Zoho Creator.
- Expertise in integrating Zoho applications with SQL databases for data imports/exports and real-time updates.
- Hands-on experience with Zoho Flow, Zoho Sign, and other Zoho applications.
- Strong understanding of REST APIs for integrating Zoho with third-party tools and databases.
- Proficiency in SQL queries and database management.
- Advanced skills in writing and debugging Deluge scripts.
- Experience in designing and automating workflows across Zoho apps.
- Excellent problem-solving and troubleshooting skills.
- Strong communication and collaboration abilities.

Preferred Qualifications:
- Zoho Certifications in CRM, Creator, or other Zoho applications.
- Experience with Zoho Books, Zoho Analytics, or Zoho Projects.
- Previous experience in freelance or consulting roles.

Contract Details:
- Duration: 6-9 months (potential for extension based on project requirements and expertise).
- Location: Dubai.
- Employment Type: On contract.
- Compensation: Competitive (negotiable based on experience).

If you are a seasoned Zoho developer with expertise in SQL database integrations and passionate about delivering efficient solutions, we encourage you to apply!

How to Apply:
Submit your resume, portfolio (if available), and a brief description of your Zoho and database integration expertise to [Contact Email].
