# Illuminate at NeoCon 2026

---

Introducing a new  
opportunity for the  
Lighting Industry  
at North America's  
Premier Commercial  
Design Event

June 8-10, 2026  
Preview Day June 7

Since 1969, NeoCon has served as North America's leading event for the commercial design industry, connecting manufacturers, dealers, architects, designers, end-users, media and academia each June. More than 50,000 design professionals from around the world, including decision makers, from leading A&D firms alongside prominent corporate end-users, attend NeoCon to explore new products, learn, network and conduct business.

NeoCon is thrilled to launch **Illuminate at NeoCon**, a new "show within a show" concept focused on bringing together lighting manufacturers of design-oriented architectural lighting with NeoCon's highly qualified A&D and end-user audiences. Through manufacturer showcase booths, compelling activations and educational programming, **Illuminate at NeoCon** will demonstrate the impact and importance of good technical lighting on design and offer tremendous opportunities for lighting brand exposure.
