COMPOSITE DECKING

About This Case Study

Completed by Graham Peates and his team at GP Construction and Renovation Ltd, this stunning composite decking installation perfectly compliments a new build property set in the Forest of Dean.

PRODUCT USED

Composite Decking HD Dual
HD Dual Clips
HD Dual Fascia
HD Dual Starter Clips
HD Dual End Caps

Our dual sided composite decking range gives you two colours (Antique and Carbon) to help create stunning, natural looking installations.

Easy to install, replacing existing timbers on joists if required, composite decking is low maintenance as it won't decay, warp or splinter and requires no staining or treating.

Backed by a 25 year product guarantee for peace of mind, composite decking is also slip resistant and bare foot safe and is friendly to the environment being made from recycled material and wood flour that is FSC® 100% certified.
