

About us...

G & MB Manning has been trading for many years as a timber merchant to the Trade and consumer, providing timber, fencing and landscaping supplies across Bucks. Beds, Herts, Middlesex and Oxon from its base in Ashley Green, near Chesham.

Much of what we sell is made locally by Walford Timber our parent company who are an independent, family owned timber merchant, with a proud history that goes back to 1945.

Directions

When you get to Ashley Green on the A416, turn left into Hog Lane if coming from Chesham and right into Hog Lane if coming from Berkhamsted.

Agricultural Products

**Post and Rail, Stakes, Stock Fencing, Field Gates,
Timber Cladding, Public Rights of Way**

Agricultural Products

Post and Rail Fencing

Typically found in country properties and those with large gardens, fields or paddocks as well as agricultural and equestrian premises. Our PermaTimber Fence Posts offer a 15 year product guarantee as standard.

Stake and Rail Fencing

Our stake and rail range extends to half round and round Stakes as well as half round rails and round strainers. All the timber is tanalised for improved performance and is FSC certified.

Wire Fencing

We offer an extensive range of wire fencing from 200m rolls of high tensile 4 point galvanised barbed wire to 50m rolls of galvanised steel stock fence.

You can view our complete range of agricultural fencing along with details on prices and sizes at gmbmanning.co.uk or call 01442 620213

Field Gates

Field gates with traditional and curved stile options provide a good value gate for agricultural and equestrian use. All our gates can be made to bespoke measurements if required. Our Estate gates with their distinct curved stile are available in pressure treated softwood or in untreated hardwood (Iroko), as are our Somerfield gates. A more traditional, simple design making them a popular choice when looking for good value for agricultural and equestrian use.

Cladding

Yorkshire board cladding can either be fitted to allow air flow, or with a cover strip to form closed off cladding. Loglap gives the appearance of round timber, but with an easy nail tongue and groove profile whilst Shiplap, Featheredge and Waney Edge are an ideal choice for workshops, garages and sheds.

Timber

Sawn timber, plywood, OSB, graded and CE marked timber.

Public Rights of Way

A range of products designed in conjunction with local authorities to create public rights of way and allow easy access across your land whilst securing your livestock. Products include Footbridges, kissing gates, stiles and waymarker signs
