

DefendEye
Fully Autonomous AI Drone

LAUNCH IN UNDER 10 SECONDS. NO TRAINING NEEDED

There is no Remote Control!

Launch!

Fast deploy a drone
No training needed

Load a new Canister & Launch

Drone Kit - Order Now

Launch in under 10 sec

Use your phone/tablet for local control. No App Needed
Touch & Fly There - Drone will fly to where you Touch

Fully Autonomous

\$599 PER DRONE, BUILT IN AI, WORKS WITHOUT GPS, NIGHT VISION, BROADCAST LIVE TO CLOUD

No Training Needed

No Remote Control

Up to 30 min flight

Under 250 Grams

AI find humans

Live Video Streaming

Humans can't easily identify people from above. Drone does it better

IMAGE WITHOUT AI HUMAN DETECTION

AI ON BOARD DETECTS HUMANS

AI detects humans in less than 10 milliseconds and is 10x more accurate than a human

DefendEye Drone Specs:

- Onboard AI: 2 TOPS of processing power.
- GPS-Denied Navigation: Works 100% without GPS
- Payload: HD Sony Starlight Camera with Night Vision & 10W IR LED Spot-light.
- Performance: 1-mile range, 50 Km/h windspeed capable; IP 55: Rain & Snow OK
- Endurance: 10 or 30 min flight time versions available.

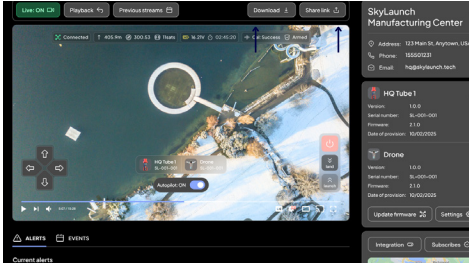

DefendEye Launch-Tube Specs:

- App-Less Control: Built-in webserver converts video to HTML5 stream. No app 4G/5G modem (AT&T, Firstet), or Starlink.
- Autonomous Triggers: Connects to external sensors (Motion Detectors, Gunshot Detectors) for auto-launch.
- Self-Sustaining: Built-in batteries recharge the drone.

DEFENDEYE CLOUD DELIVERS ALERTS WITH VIDEO IN REAL-TIME

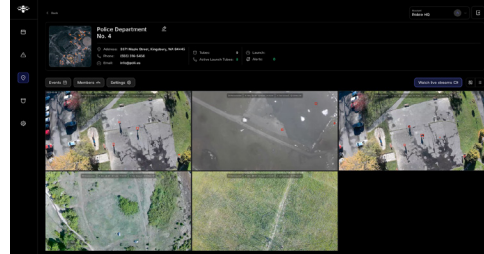

BVLOS - Command Center controls the drone

Launch, Control, See, Record & Land, all from a Remote location

Command Center View & Control

Up to 6 Simultaneous live Drone views + Control

DefendEye Cloud offers instant alerts when drone is launched, with real-time video feeds to subscribers. Fleet Management Alerts when needs servicing or batteries are depleted. Fully Encrypted and secure. See Historical recordings with advance AI.

LAUNCH IN UNDER 10 SECONDS

NO TRAINING NEEDED

\$599 PER DRONE

DefendEye: Comprehensive Tactical & Security Applications

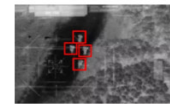

Public Safety & Law Enforcement

- **Rapid Response:** Quickly locates humans in road crashes or building collapses.
- **Scene Management:** Provides aerial evidence for crime scenes, monitors protests, and aids in suspect pursuit.
- **BVLOS:** Controlled by officer or remote Dispatch command.

Military & Defense Operations

- **Instant Deployment:** Launches in seconds without a pilot or training; disposable and cost-effective.
- **Threat Detection:** Can be vehicle-mounted to detect attackers and specific weapons (e.g., RPGs) from above.

Perimeter & Infrastructure Protection

- **Autonomous Security:** Fixed, fence-mounted tubes (heated) launch automatically when motion sensors are triggered.
- **AI Surveillance:** AI identifies human shapes and distributes live video to patrols and command centers.

Active Threat & Soft Target Defense

- **Trigger Events:** Auto-launches upon detecting gunshots, explosions, screaming, or broken glass.
- **Facility Safety:** Deploys in schools and places of worship with 45-minute flight time and full cloud control (BVLOS).

EVERY EMERGENCY VEHICLE SHOULD HAVE A LAUNCH-TUBE KIT
