GRADUATE CATALOG

Oklahoma City University
Mission

Oklahoma City University prepares all learners to Create, Lead, and Serve. We provide a diverse, inclusive culture committed to producing graduates who think critically and innovatively, communicate effectively, and use their knowledge and talents to make a local and global impact.

Oklahoma City University is committed to an education that:

- Provides students with the skills and confidence to adapt to and excel in a complex and dynamic world
- Invests continually in its students, staff, faculty, alumni, and programming to enrich academic and co-curricular offerings
- Fosters partnerships within and beyond the university to enrich lifelong learning
- Develops informed global citizens ready to engage with their communities and contribute to the world
- Develops graduates who are ethical, highly employable professionals
- Honors our United Methodist history and tradition of scholarship and service

The University

Oklahoma City University is a nationally and internationally renowned educational institution. A private, United Methodist-affiliated university, Oklahoma City University offers a unique blend of tradition, quality, community, and innovation. U.S. News & World Report consistently ranks Oklahoma City University among the best master’s level institutions in the National University category.

The university traces its roots to Epworth University, chartered in 1904 as a joint venture of the Methodist Episcopal Church, the Methodist Episcopal Church, South (now the combined United Methodist Church), and the Oklahoma City Trade Club (now the Greater Oklahoma City Chamber of Commerce). From 1911 to 1922, the university was located in Guthrie, Oklahoma, and known as the Methodist University of Oklahoma. Oklahoma City University has been at its present location at NW 23rd Street and Blackwelder Avenue in Oklahoma City since 1922, when what is now the Clara E. Jones Administration Building was completed.

Located in the state’s capital city, Oklahoma City University’s beautiful campus occupies 104 acres in a diverse and vibrant metropolitan area. The architecture on campus is a pleasing blend of American collegiate, Gothic, and functional contemporary. The OCU School of Law’s campus is located downtown in the historic Central High School building at 800 N. Harvey.

A broad spectrum of courses is offered through the Petree College of Arts and Sciences, which comprises the School of Liberal Arts and Sciences, School of Visual Arts, and Wimberly School of Religion; the Meinders School of Business; the Margaret E. Petree College of Performing Arts which comprises the Ann Lacy School of American Dance and Entertainment, Bass School of Music, and School of Theatre; the School of Law; and the Kramer School of Nursing which is part of the College of Health Professions.

Saint Paul School of Theology at Oklahoma City University (SPST at OCU) is a United Methodist-affiliated seminary accredited by the Association of Theological Schools, the Higher Learning Commission, and the University Senate of the United Methodist Church. SPST at OCU offers the Master of Divinity degree. The School’s mission, rooted in the Wesleyan tradition, is to inspire passion for ministry in diverse Christian bodies and to educate leaders to make disciples for Jesus Christ, renew the church, and transform the world. For more information about SPST at OCU, see www.spst.edu.

Oklahoma City University takes pride in its dual role as Oklahoma City’s university and the United Methodist university of Oklahoma. Its students come from 48 states in the United States and from more than 60 countries throughout the world.

Oklahoma City University creates an environment that brings together outstanding faculty, exceptional students, excellent teaching facilities, and the most advanced and innovative ideas in curriculum and teaching methods. Because of the personal involvement possible on campus, Oklahoma City University students are known by fellow students and professors, and benefit from the personalized education offered by the university’s low student-faculty ratio of 9:1.

With a 119-year tradition of church-related service and academic excellence, Oklahoma City University today is a vital institution with a growing reputation as a center of quality, values-conscious higher education. Oklahoma City University holds memberships in Oklahoma Independent Colleges and Universities, the National Association of Independent Colleges and Universities, the National Association of Schools and Colleges of the United Methodist Church, the National Association of Intercollegiate Athletics, and the Council on Undergraduate Research.

The Kramer School of Nursing is a member of the Council of Baccalaureate and Higher Degree Programs of the National League for Nursing. The School of Law is a member of the Association of American Law Schools. Oklahoma City University is an equal educational opportunity institution.

Accreditation and Affiliations

Oklahoma City University is approved by the University Senate of the United Methodist Church. Oklahoma City University and many of its academic programs are accredited by nationally recognized organizations. Programmatic and specialized accreditation applies to the evaluation of programs, departments, or schools which usually are parts of the total institution. Programmatic accreditors are generally classified as those that are recognized by the Department of Education or the Council for Higher Education Accreditation (CHEA) and those that are not recognized and are considered affiliations by HLC.

Assessment

Oklahoma City University is committed to creating an environment in which faculty and staff work in collaboration with students to enhance learning. We believe that effective assessment practices are central to understanding the impact of this work. Our assessment team develops meaningful partnerships with faculty, students and staff as they collect information about learning. Assessment is an integral part of the strategic planning and budgeting process for Oklahoma City University. Ultimately, the purpose of assessment is to use results to inform program and system improvement.

Diversity, Equity, and Inclusion

OCU celebrates diversity and practices inclusion in all its forms—from human qualities of gender, race, sexual orientation, and disability, to diversity of ideas regarding religious beliefs, cultural identities, and political and social convictions. It is understood that the intersections of varied social identities, lived experiences, and ideas enrich lives. The enrichment occurs
all while developing personal values based on expansive inter-
actions with those with whom common experiences are shared
and those with whom few common experiences are shared.
Diversity of thought, inclusion, access, equitable practices, and
belonging enrich academic, professional, and personal oppor-
tunities, and is a source of strength and empowerment for all
and allows OCU to prioritize inclusion, access, and equity as we
consider and embrace all who are a part of our community.
Oklahoma City

A Modern Metropolitan Setting

Home to more than 1.2 million Oklahomans and an average of 300 days of sunshine per year, the Oklahoma City metro offers an abundance of the arts, quality health care, excellence in education, and more. And it does so without high costs, energy shortages, or traffic congestion. It is a distinctly liveable city where you can chase your dreams and still enjoy a rich quality of life.

Oklahoma City’s hip, spirited environment blends with its deep Western heritage to create a place where culture and commerce thrive. With renowned festivals, national sporting events, treasure-filled museums, and a variety of districts highlighting arts and entertainment, the possibilities for adventure and fun in Oklahoma City are endless. Situated on vibrant 23rd Street, our campus sits in the heart of OKC in the historic Uptown District, which has been experiencing an exciting time of revitalization. A variety of historic ethnic neighborhoods, as well as a wide range of educational, civic, religious, entertainment, sporting, shopping, and dining options, surround Oklahoma City University.

On any given night you may find yourself dining at one of the local hot spots in Automobile Alley or Deep Deuce, enjoying a festival in the Plaza District or Midtown, appreciating one of the many art galleries in the Paseo Arts District, taking in a Thunder basketball game downtown, playing laser tag in the Bricktown Entertainment District, or taking a stroll by beautiful Lake Hefner. There is always an adventure waiting for you in Oklahoma City!

“Oklahoma City offers so much more than I initially expected when I came here from out of state. It has all the conveniences of a big city while at the same time retaining small town comfort. It is a unique hybrid of those two different cultures.”

—Ken, Junior, Mathematics & Chemistry Education

Did you know that Oklahoma City is one of the top river sports destinations in the world?

Home to more than 1.2 million Oklahomans and an average of 300 days of sunshine per year, the Oklahoma City metro offers an abundance of the arts, quality healthcare, excellence in education, and more. Oklahoma City

**OCU:** 2501 N. Blackwelder Ave., Oklahoma City, OK 73106

**Directions to Oklahoma City University**

**From I-35 (north or south):** Take I-35 to I-40. Follow I-40 west to Classen Boulevard (Western Ave exit). Take Classen north to NW 23rd Street. Turn west and take 23rd Street to Blackwelder. The campus is on the north side of NW 23rd Street and Blackwelder.

**From I-40:** Coming from the east, take the Western Ave. exit to Classen Blvd. Go north on Classen to NW 23rd St. and take NW 23rd St. west to Blackwelder Ave. Coming from the west, take I-40 to Pennsylvania Avenue. Take Penn north to NW 23rd Street. Turn east on NW 23rd to Blackwelder. The campus is on the north side of NW 23rd Street between Pennsylvania and Blackwelder avenues.
Graduate Degree Programs

Most of Oklahoma City University’s graduate degrees have an “area of emphasis.” This helps students to choose the field of study for which they are best suited within a degree program. This focused area of study will develop and complement students’ interests, abilities, and goals and will ultimately give them the best possible preparation for careers in their respective fields.

The university offers the following degrees:

**Doctor of Nursing Practice (D.N.P.)**
- Adult-Gerontology Acute Care Nurse Practitioner
- Clinical
- Community-based Public Health
- Executive Leadership
- Family Nurse Practitioner
- Psychiatric Mental Health Nurse Practitioner

**Doctor of Philosophy (Ph.D.) in Nursing**

**Doctor of Physical Therapy (D.P.T.)**

**Doctor of Psychology (PsyD)**

**Juris Doctor (J.D.)**

**Juris Doctor (J.D.)/Master of Arts in Nonprofit Leadership (M.A.)**

**Juris Doctor (J.D.)/Master of Business Administration (M.B.A.)**

**Master of Arts (M.A.)**
- Arts Administration
- Criminology
- Nonprofit Leadership
- Nonprofit Leadership Fundraising

**Master of Business Administration (M.B.A.)**
- Corporate Accounting
- Data Analytics
- Energy
- Financial Analytics
- Healthcare
- Leadership

**Master of Education (M.Ed.)**
- Applied Behavioral Studies
- Professional Counseling
- Clinical Mental Health Counseling (beginning Fall 2024)

**Master of Fine Arts (M.F.A.)**
- Creative Writing
- Screen Acting

**Master of Laws (LL.M.)**

**Master of Legal Studies (M.L.S.)**

**Master of Music (M.M.)**
- Conducting
- Multiple Woodwinds
- Music Composition
- Music Theater
- Opera Performance
- Performance

Vocal Coaching

**Master of Physician Assistant Studies (M.P.A.S)**

**Master of Science in Accounting (M.S.A.)**

**Master of Science (M.S.)**
- Computer Science
- Cybersecurity
- Data Science
- Mobile Development
- Web Development
- Criminology
- Data Analytics
- Energy Management
- Energy Legal Studies
- Financial Analytics

**Master of Science in Nursing (M.S.N.)**
- Community-based Public Health
- Nursing Education
- Nursing Leadership

**Master's Certificate in Business Leadership**

**Master's Certificate in Educational Technology**

**Master's Certificate in Financial Fraud and Forensic Accounting**

**Master's Certificate in Healthcare Simulation Educator**

**Master's Certificate in Healthcare Practice Management**

**Master's Certificate in Instructional Design**

**Master's Certificate in Nonprofit Fundraising**

**Master's Certificate in Nonprofit Leadership**

**Post Master's Certificate**
- Adult-Gerontology Acute Care Nurse Practitioner
- Family Nurse Practitioner
- Nursing Education
- Nursing Leadership
- Psychiatric Mental Health Nurse Practitioner

**Post Doctor of Nursing Practice Certificate**
- Clinical Research Methods

General Admission Policy

Oklahoma City University is interested in graduate students who want to learn. Careful consideration is given to each application. Important factors to be considered include undergraduate records and recommendations from academic counselors, desirable traits of character and personality, and the interests and goals of the applicant in relation to the graduate programs of study offered by the university.

In the quest for academic excellence, preference will be given to those applicants whose evidence of academic fitness and professional promise indicates that they are particularly qualified to study in the graduate programs at Oklahoma City University.

Admission Requirements

Admission to Oklahoma City University’s graduate programs is open to all domestic students holding, at minimum, bachelor’s degrees from national or regionally accredited colleges or universities and all international students whose credentials have been approved by their country’s ministry of education. All students must meet the criteria indicating high potential to succeed in graduate-level work. The academic unit holds final authority over admission decisions regarding entry into its programs. All graduate programs require a minimum cumulative GPA of 3.00 for admission, based on the undergraduate or most recent degree. Some programs require a qualifying GMAT or GRE score.

The university reserves the right to deny admission or continued enrollment. The university does not discriminate against any individual because of race, color, religion, national origin, gender, age, handicap or disability, sexual orientation, or veteran status. Meeting minimum requirements to apply does not guarantee admission into a graduate program.

Admission on Probation

Admission may be granted on a case-by-case basis to applicants who do not meet the minimum GPA requirement or other academic standards. No applicant will be admitted on probation with a cumulative GPA below 2.75 except by permission of the dean.

A student admitted on probation will remain on probation until 9 hours of graduate course work are completed with a GPA of 3.00 or greater. You must also earn a GPA of 3.00 or greater in the first 9 hours of graduate work in order to continue in the program.

Admission Procedure

All application material must be sent directly to the following:

Office of Admissions, Oklahoma City University
2501 North Blackwelder
Oklahoma City, OK 73106

Application

The application process and admissions requirements vary for each program. Please review the relevant program information found in this catalog and contact the Office of Graduate Admission at (405) 208-5351 or gadmission@okcu.edu to determine the complete application requirements.

Application Fee

Attach a nonrefundable fee of $60.

Transcripts

Official transcripts must be received by the Office of Admissions from all colleges and universities attended. Preferred method of delivery is by mail directly from the institution or an electronic transcript sent by one of the approved secure transmission systems. The complete list of acceptable systems can be found on the Registrar’s website (www.okcu.edu/admin/academic-affairs/registrar). An official transcript is delivered in a sealed envelope which should not be opened by anyone except the Office of Admissions or the Registrar’s Office. Faxed or emailed transcripts are not considered official. Unofficial or photocopies of transcripts from all colleges or universities attended may be included with the application for review purposes.

Letters of Recommendation

Letters of recommendation are required for admission from persons able to comment on professional and academic ability. Please verify the number of letters needed for the preferred program.

All transcripts, test scores, correspondence, or other materials submitted for the purpose of applying for admissions become the property of the university and will not be returned.

Candidacy

Admission means only that the student will be permitted to enroll for courses in the various programs. It does not imply that the graduate student will be accepted for candidacy. See Acceptance to Candidacy for selected graduate programs of study.
Readmission

Former students who have not attended Oklahoma City University for two consecutive semesters (excluding summer) must be readmitted before enrollment. An application for readmission and official transcript of all work completed since leaving OCU must be submitted to be considered for readmission.

Transfer Credit

Transfer credit is approved by the dean of the student’s school only after the student has been admitted to Oklahoma City University. Petitions for transfer of graduate credit must be submitted to the dean of the student’s school. No course credit may be transferred unless the grade received was at least a B (3.00 on a 4.00 scale) from a national or regionally accredited institution or appropriately accredited institution located outside the U.S. Correspondence courses are not accepted toward a graduate degree.

Transfer credit for institutions outside of the U.S. must be fully recognized by the appropriate accrediting body (such as the Ministry of Education) in the country of origin. The Office of International Admissions will determine the accreditation of institutions outside the U.S. International students may not receive credit for English as a Second Language courses taken at U.S. colleges, and students may not receive credit for English language courses taught in countries where the medium of instruction is a language other than English.

Transfer credit will not be granted until official transcripts of all graduate work completed at national or regionally accredited U.S. institutions have been received by the registrar and official transcripts for graduate work completed at institutions outside the U.S. have been received by the Office of International Admissions. The dean or director of the graduate program is responsible for granting transfer credit. See additional school- or program-specific requirements related to acceptance of graduate transfer credit.

Degree requirements may be fulfilled by courses transferred from a completed degree conferred by another national or regionally accredited university. However, the student will not be awarded credit hours associated with those courses.

Degree requirements may be fulfilled by courses transferred from an uncompleted degree begun at another national or regionally accredited university, and the student may be awarded the credit hours associated with those courses up to one-third of the total required courses/credit but not to exceed 12 credit hours for the Oklahoma City University master’s degree.

Degree requirements may be fulfilled by courses transferred from a completed Oklahoma City University degree, and the student may be awarded the credit hours associated with those courses up to one-third of the total required courses/credits but not to exceed 12 credit hours for the Oklahoma City University master’s degree.

Non-Degree-Seeking Student Admission

A student who does not wish to work toward an advanced degree, but who seeks to earn graduate credits for appropriate courses may enter graduate school as a nondegree-seeking student. In the event the student is subsequently admitted to a graduate program for an advanced degree, a maximum of 12 credits taken as a nondegree-seeking student may be used retroactively in meeting the student’s credit requirement for a degree.

Undergraduate/Graduate Concurrent Enrollment

Undergraduate students who have fewer than 9 credit hours remaining to complete a bachelor’s degree and wish to enroll concurrently in graduate courses may seek conditional admission to a graduate program. Once admitted, the student is limited to 6 graduate-level credit hours in that program. The student must complete their undergraduate degree prior to enrolling in a second semester of graduate study.

Admission Inquiries

For information concerning graduate programs at Oklahoma City University, contact the Office of Admissions at (405) 208-5351, visit our website at www.okcu.edu/graduate, or contact us by email at gadmissions@okcu.edu.

International Graduate Admission Procedure

Oklahoma City University currently has students from over 60 countries studying in its undergraduate and graduate programs. The university is authorized under federal law to enroll nonimmigrant alien students.

Admission of International Students

All international student applications, graduate and undergraduate, are processed by the Office of International Admissions. Applications and information may be obtained
Most graduate programs at Oklahoma City University do not have application deadlines, but the office of International Admission recommends that applications be submitted no later than six weeks before the semester begins. Please check with the Office of International Admissions directly to learn if your program has an application deadline.

**English Proficiency Policy**

All international applicants whose native language (language first learned and spoken at home) is not English, or who did not complete a degree from an institution where English was the language of instruction, are required to take either: The Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS), or Pearson PTE. Applicant may still be required to take an English exam if deemed by the school or International Admissions office.

**Regular Admission**

Regular admission to most graduate programs requires one of the following:

1. TOEFL internet-based test (iBT) score of 79 or higher, an overall IELTS score of 6.5 with at least a 6.0 on each sub-band*, PTE Academic of 53+.

   The following programs require scores higher than listed above. Scores are also listed in the program criteria.
   - **Meinder School of Business**: M.B.A. and M.S.A.; TOEFL internet-based test score of 83, an overall IELTS score of 6.5 with a minimum 6.0 on each band score.
   - **Kramer School of Nursing**: M.S.N. and D.N.P.; TOEFL internet-based test score of 83 or higher with a score of, at least, 26 on each section, and overall IELTS score of 7.0 with, at least, a 6.5 on each sub-band

2. Successful completion of the highest “proficiency” level at an university approved English language learning institute.
3. Two years attendance and graduation from high school where English was the means of instruction with the minimum GPA required for admission to Oklahoma City University.

4. Two semesters at a U.S. regionally accredited higher education institution with a minimum of 24 transferable credits including any undergraduate program at Oklahoma City University and good academic standing.

**Provisional Admission**

Students who do not meet the English proficiency required for regular admission may be considered for provisional admission by submitting one of the following:

- TOEFL internet-based (iBT) score of 60-78
- IELTS overall score of 6.0 with no sub-band below 5.5
- PTE Academic 48-52

Provisionally admitted students must complete 9 credit hours of regularly graded course work with a GPA of 3.00 or higher. Prior to matriculation, provisionally admitted students are strongly encouraged to enroll in a university approved English language center program to further advance their skillset. A student who fails to maintain a GPA of 3.00 in their first 9 credit hours of academic course work will be asked to attend an university approved English language center and provide evidence of successful completion of the highest “proficiency” level. The student may also submit a new TOEFL, IELTS, or PTE score that meets the requirements for regular admission.

A student who is unable to successfully complete one of the above mentioned options has the right to appeal academic dismissal. Please see the catalog section on the appeal of academic dismissal for more details. The Office of International Admissions will maintain the equivalency chart of appropriate English proficiency assessments.

**Conditional Admission**

Students who meet the academic requirements for admission, but who have not yet met the required English proficiency, will receive conditional admission. Conditionally admitted students may demonstrate successful completion of the highest “proficiency” level at an university approved English language learning institute or may submit a qualifying English proficiency test score in order to receive regular
admission. Conditional status will continue until the student attains regular admission.

Financial Support

International applicants must submit a certified letter of support from a sponsor, family member, or other source showing that they have adequate financial resources to provide for educational and living expenses at Oklahoma City University.

Transcript Evaluation

Any applicant, whether international or domestic, who holds a degree from a college or university outside the United States, must have transcripts from that institution evaluated by Oklahoma City University’s Office of International Admissions.
General Financial Information

The graduate tuition rate varies by program, but is the same for all students within each program regardless of their state of permanent residence.

A music student will be charged the current tuition per hour rate that is associated with their matriculation term. Typically a music student's enrollment may include up to two half-hour lessons each semester, however for any additional lessons that increase the student's enrollment for the semester, they will be charged the current per hour tuition rate associated with their matriculation date, plus any general university or music specific fees.

Rules Governing Payment of Tuition

All tuition charges and fees are due on the first day of class for each semester or term according to the official Oklahoma City University academic calendar. All students must make arrangements for their account balances either by paying their balance in full (Option 1) or enrolling in a monthly payment plan (Option 2).

Option 1: Payment in Full

Any remaining balance due after loans, grants, or scholarships, etc. will be due in full on the first day of class for each semester that the student is enrolled.

Option 2: Installment Plan Fee

Students may sign up for the installment plan; a $50 fee is assessed to allow students to make four interest-free payments over the course of the semester.

A “No Enrolled Payment Plan” fee of $100 will be assessed to any student who has either not signed up for the installment plan, not paid account in full by the first day of class, nor made appropriate payment arrangements. Failure to enroll in an installment plan can lead to cancellation for non-payment. If a payment is not made by the payment due date each month, accounts are subject to a late payment fee of $30 per month. Any account with an unpaid balance at the end of the term will be subject to a $50.00 default fee as well as a finance fee of 2.67 percent.

Students awarded financial aid in the form of work-study should be aware that this form of aid is not considered in determining the balance due in tuition, fees, room and board for the semester. If a student chooses, they may request their work-study earnings be applied directly to their student account. Work-study payments will reduce the student's installment plan.

If tuition charges and fees are to be paid by a third party other than the student's family or financial aid, a written authorization from the third party must be presented at the time of enrollment; otherwise, the student will be required to meet the financial requirements listed above. Veterans attending the university under the GI Bill® are required to comply with the same rules and payment tables governing non-veteran obligations. VA beneficiaries are not penalized in any way as a result of delayed VA payments. GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at [http://www.benefits.va.gov/gibill](http://www.benefits.va.gov/gibill).

No student will be allowed to enroll in any semester or term if their account is past due. No student will be given a letter of good standing, transcript, or diploma until all financial obligations to the university are paid.

All tuition, fees, and charges made by the university are payable at the Student Accounts Office. Students may also submit payment for Oklahoma City University charges online via their Oklahoma City University BlueLink Account.

Payments to student accounts are applied first to tuition and fees and then to other charges. The only exception to this application of payment is donor restriction on a gift or endowed scholarship.

By enrolling at Oklahoma City University, students agree to the following:

- That to the extent their educational expenses are not paid by parents, scholarships, employers, or other sources, they are responsible for such payments plus interest.
- That by enrolling, they are subject to applicable charges and/or fees and that these charges and/or fees constitute a legal debt until paid or otherwise settled.
- That any additional cost or legal fees, including but not limited to reasonable attorney's fees, incurred by Oklahoma City University, its successors and/or assigns, in collecting the amounts due shall be added to the amount the student owes and will bear the same rate of interest as the principle amount.
- That if they drop or withdraw from some or all of the classes for which they register, they will be responsible for paying all of the tuition and fees in accordance with the published tuition refund schedule at Oklahoma City University.

They also specifically acknowledge the following:

- I have read the terms and conditions of the published tuition refund schedule and understand those terms are incorporated herein by reference. I further understand that...
my failure to attend class or receive a bill does not absolve me of my financial responsibility, as described above.

- I authorize Oklahoma City University and/or its agents, including attorneys and/or collection agencies, to contact the student via cellular telephone and/or electronic technology to collect any outstanding debt, unless the student notifies the university or its agents in writing to cease such communication.

Special Service Fees

Fees are published annually in a separate tuition and fees announcement. The following is a list of typical fees. All fees are subject to change annually.

- All students pay a general university fee. This fee provides general budget funding for a variety of services including campus technology, academic enrichment and assessment, athletics and facilities, safety and crisis preparedness, career services, health services, personal counseling, intramurals, student government association, student traditions, religious life, and student publications.
- Laboratory fees, as well as fees required for some courses are charged on a flat-fee basis in addition to tuition.
- An annual parking permit is required of all students for on-campus parking.
- OCU requires all full-time students to maintain student health insurance as a condition of enrollment. If a student already has health insurance coverage, they are encouraged to complete the Student Health Insurance Plan (SHIP) waiver form online at [okcu.edu](http://okcu.edu). If a student would like to use the health insurance offered in partnership with Oklahoma City University, they may begin the sign-up process by visiting [https://www.okcu.edu/students/health/insurance](https://www.okcu.edu/students/health/insurance), or call (918) 949-6709 for more information.
- An international student fee and international student insurance fee are charged each semester. All fees are mandatory for international students.
- Charges for tests given to persons not enrolled in the university vary depending upon the test taken.
- All students pay a one-time comprehensive records fee per degree sought that allows students and alumni to request copies of their official transcripts at no additional charge. The registrar reserves the right to limit the number of official transcripts an individual may receive within a particular time period.

Veterans Benefits

A Veterans Service Office is operated by Oklahoma City University as a service to veteran students. It neither sets policy nor administers Veterans Affairs programs. University personnel assigned to the office process the forms as a service to the student who is claiming VA educational benefits and act as liaison between the student and the Veterans Affairs Regional Office. Students who wish to receive benefits must report to the Oklahoma City University certifying official in the Registrar’s Office each semester to fill out a Request for Certification. VA regulations require the submission and review of transcripts from all previous institutions including military transcripts as appropriate. For further information, please contact Angela Do at the Veterans Service Office at (405) 208-5352 or ado@okcu.edu.

Tuition Adjustments

Each term has a published first day of class as outlined in the academic calendar. A 100 percent tuition adjustment is made at varying time periods beginning with the published first day of class. After these periods, there will be no further adjustments:

**Fall and spring semesters**

- Eight to sixteen week courses: Two weeks ending on the Friday of the second week of school at 11:59pm CST.
- Four to seven week courses: One week ending on the Friday of the first week of week of school at 11:59pm CST
- Three week courses: Two days from beginning of class ending at 11:59pm CST of the second day.
- Less than three week courses: 11:59pm CST of the first day of class.

**Summer and accelerated cycles**

- Please refer to the academic calendar for specific 100% refund dates

Approximately the third week of class each semester, if the student’s account is paid in full, any excess personal, state, private, or federal financial aid awarded will be refunded to the student. The charges to be paid include, but are not limited to, tuition, fees, room and board, and traffic fines. If aid includes proceeds from Parent PLUS loans, any excess funds MUST be returned to the parent unless otherwise indicated on the application. Only then can the refund go to the student. Oklahoma City University processes refunds by direct deposit. Contact the Student Accounts Office for details.
Adding and Dropping Courses

Procedures and deadlines for adding and dropping classes are described in this catalog under Academic Regulations.

Tuition Insurance

Oklahoma City University offers tuition insurance through GradGuard. This insurance is optional and can be purchased during the first two weeks of a semester. Tuition insurance can offer reimbursement when a student cannot complete an academic term due to an unforeseen, covered accident, injury, or any other covered reason. If a student/parent chooses not to purchase this optional insurance, they will remain responsible for any outstanding charges on their student account until balance is paid in full. For more information, please see www.gradguard.com/tuition.

Withdrawals

Students unable to remain at the university to complete their courses for the term must process a full withdrawal. Procedures for all classes are in this catalog under Academic Regulations. Full withdrawals from the university are not complete until the student has been counseled by a financial aid representative and validated by the Student Accounts Office. Tuition adjustments, if any, are based on the date of Student Accounts Office validation. (See also “Return of Unearned Federal Title IV Funds” under Financial Assistance.)

Email

All students receive an Oklahoma City University email account that they are responsible for activating and maintaining. Access to this account is available through a web browser and most email applications. It will never expire for current students or those who graduate from the university. The student email account is the official correspondence for the following:

- Financial Aid
- Billing notices
- Student activities
- Academic communication with the university and professors
- Important dates, times, deadlines and emergency university notifications

Email is the sole method of correspondence used by most university departments.

Identification Cards

Identification cards issued to all students are valid for as long as the student is enrolled in the university. Students must be enrolled and a government-issued picture ID is required at the Student Accounts Office when requesting an Oklahoma City University ID card. A valid driver’s license or passport is acceptable. The card identifies the student and allows participation in student activities and elections. It admits the student to all home athletic events and various student activities, and enables students to receive free or half-price tickets to university drama, opera, and dance productions and concerts. A student identification card grants access to printing and copying services and serves as a meal ticket for students who are on a board plan. Oklahoma City University ID’s are $25. If an Oklahoma City University ID is lost or stolen, a student may purchase a new one for a replacement fee of $10. Price subject to change.

Book Charge Program

Oklahoma City University’s bookstore is managed by Slingshot. Slingshot offers a charge program. Charges, resulting from class required items, such as utilizing the book charge program, will be added to the student’s account. The charges will be included in the monthly invoice and will be due upon receipt or can be paid monthly as part of the approved payment plan. Students who have a hold as a result of a past due balance will not be permitted to participate in the book charge program.

Financial Assistance

Types of Assistance Available

The Office of Financial Aid assists admitted students in developing a financial aid package to help meet their basic educational expenses. Financial aid includes the university scholarships, student loans, and federal and institutional work study.

All students are expected to check their email accounts regularly. A student’s failure to check and maintain their account on a regular basis will not be accepted as an excuse for missing information, dates, and/or deadlines.

International students will receive all updates on immigration regulations and newsletters through their Oklahoma City University email accounts.
Eligibility for Financial Assistance

The Office of Financial Aid considers the official Cost of Attendance at Oklahoma City University, the family’s Estimated Family Contribution (EFC) as determined by the Free Application for Federal Student Aid (FAFSA), and the student’s incoming academic achievements to determine eligibility for financial aid. Oklahoma City University scholarships may be applied to tuition charges only and are not refundable to the student.

To be eligible for federal financial aid a student must be enrolled and attending at least half-time each semester. What constitutes as half-time varies by degree program and is listed below.

- **Graduate students**
  - Full-time – minimum of 9 credit hours
  - Half-time – minimum of 6 credit hours
  - Less than half-time – 5 credit hours or less

- **Law students**
  - Full-time – minimum of 10 credit hours
  - Half-time – minimum of 5 credit hours

- **PA students**
  - Due to program, full-time enrollment is mandatory – minimum of 9 credit hours.

- **Doctorial students**
  - Full-time – minimum of 6 credit hours
  - Half-time – minimum of 2 credit hours

Financial aid may be available to help fund OCU-approved study abroad programs. More information is available from the Study Abroad Coordinator in the Provost Office at study-abroad@okcu.edu.

Financial Aid Application Procedures

To be evaluated for financial assistance, a student must first be admitted to the university. Most federal and state programs require at least half-time enrollment. Transfer students must provide official transcripts from all institutions previously attended. Audited courses and courses not applicable to the student’s degree program will not be considered in the financial aid package. Students who repeat course work for which financial aid has already been received may not be eligible for additional financial aid for those repeated classes.

All students are encouraged to apply for federal student aid. The student should file a Free Application for Federal Student Aid (FAFSA) online at [https://studentaid.gov](https://studentaid.gov) and designate Oklahoma City University (code 003166) on the application in order for the Office of Financial Aid to receive a copy of the results. The student will receive an electronic link to their Student Aid Report (SAR) from the Federal Student Aid Processing Center in response to the FAFSA.

The deadline for priority processing is March 1 annually. FAFSAs received after the deadline will be considered in the order received for as long as aid resources are available. Funding restrictions may alter eligibility for some programs.

In addition to the FAFSA, other forms may be required based on the student’s individual circumstances. Students should monitor their Oklahoma City University email and BlueLink for additional requested items.

Return of Unearned Federal Title IV Funds

Title IV funds are awarded to a student under the assumption that the student will attend school for the entire period for which the assistance is awarded. When a student withdraws, the student may no longer be eligible for the full amount of Title IV funds the student was originally scheduled to receive.

If a recipient of Title IV grant or loan funds withdraws from a school after beginning attendance, the amount of Title IV grant or loan assistance earned by the student must be determined. If the amount disbursed to the student is greater than the amount the student earned, unearned funds must be returned.

The Office of Financial Aid will calculate the amount of Title IV funds the student has earned in accordance with federally prescribed procedures as detailed in the Federal Compliance and Student Consumer Information found at [https://www.okcu.edu/heoa](https://www.okcu.edu/heoa).

Satisfactory Academic Progress (SAP) Policy for Financially Aided Students

In accordance with federal, state, and university aid and scholarship program guidelines, academic progress toward a degree must be made in order for students to continue receiving funds.

Renewals and Annual Awarding

Students are evaluated annually for continued financial aid eligibility. Federal renewal applications must be submitted annually and are available after October 1 of each year at [https://studentaid.gov](https://studentaid.gov). Scholarship renewal is based on SAP and is reviewed every semester. Scholarships generally
require maintaining full-time enrollment and other criteria set forth at the time of the initial award.

Award Notifications

More specific information about financial aid opportunities at Oklahoma City University may be obtained from the Office of Financial Aid.

Financial Aid Programs Available at Oklahoma City University for Graduate Students

Federal Aid
- Bureau of Indian Affairs Grants
- Federal Unsubsidized Stafford Student Loan
- Federal Work-Study Program
- Fulbright Scholarship

Oklahoma City University Assistance
- Departmental Graduate Scholarships
- Music Talent Scholarship
- Institutional Work-Study Program
- Miss Oklahoma City University Scholarship
- Oklahoma City University Employee/Dependent Tuition Remission
- Study Abroad Scholarship
- United Methodist Minister Tuition Remission

Corporate Education Benefits Program

Oklahoma City University partners with local employers to assist their employees in obtaining a graduate degree from the university. Benefits include deferred billing, and fee discounts. For information about whether your company participates in the corporate education benefits program, contact your employer’s human resources department or Graduate Admissions at (405) 208-5351.

Endowed Chairs and Professorships

Endowed Chairs

The American Floral Services Endowed Chair in Marketing was established in 1987 by Herman and LaDonna Meinders. Dr. Michael Williams serves as the American Floral Services Chair in Marketing.

The Wanda L. Bass Chair in Choral Music Education/Canterbury Youth Chorus was established in 2004 by Wanda Bass to support both the choral music education program at Oklahoma City University and the Canterbury Youth Chorus. Professor Julie Yu-Oppenheim serves as the current chair of this program.

The Wanda L. Bass Chair in Organ was established in 2004 by Wanda Bass to support the study of organ at Oklahoma City University. Dr. Melissa Plamann holds the Wanda L. Bass Chair in Organ.

The C.R. Anthony Endowed Chair in Competitive Enterprise was established in 1980 by members of the C. R. Anthony family, the C. R. Anthony Company, and business associates in memory of Mr. C. R. Anthony of Oklahoma City. Dr. Robert A. Greve holds the chair for the C.R. Anthony Chair in Competitive Enterprise.

The James Burwell Endowed Chair was established in 1962 through the estate of James Burwell of Oklahoma City. Dr. James Ma holds the James Burwell Chair in Finance.

The Eleanor Lou Carrithers Chair of Writing and Composition was established by OCU graduate and longtime trustee Eleanor Lou Carrithers. Prof. Mark Stewart is the current chair.

The B.C. Clark, Jr. Chair in the Meinders School of Business was established in 2009 through a bequest from Mr. Clark’s late wife, Jeroldine Zachritz Clark. The chair recognizes members of the Meinders School of Business faculty who have demonstrated excellence in teaching and research and who have attained a recognized level of accomplishment within their academic discipline. Meredith Wegener, J.D., serves as the B.C. Clark Jr. Chair in Legal Studies.

The Katherine and Mary Clary Chair of Creative Writing was established in 2015 to honor these alumnae. Robert Roensch currently holds the chair.

The Darbeth-Whitten Endowed Chair in History was established in 1971 by Mr. and Mrs. Darwin Wells of Hunter, Oklahoma. Dr. Mohamed Daadaoui holds the Darbeth-Whitten Chair.

The Endowed Chair in Hebrew Bible was established in 1985 by a friend of the university to lift up the study of the Hebrew Scriptures. Dr. Lisa Wolfe serves as the Hebrew Bible Endowed Chair.

The Henry J. Freede, M.D., Endowed Chair in Teaching Excellence in Business Administration was established in 1999 to memorialize the belief in the value of education expressed by the late Dr. Freede and to insure his vision of commitment to the highest ideals and teaching standards in promoted in the Meinders School of Business. Dr. Jacob T. Dearmon holds the Dr. Henry J. Freede Chair in Teaching Excellence.
The V.V. Harris Endowed Chair in Christian Education was established in 1980 by The Harris Foundation of Oklahoma City in memory of Mr. Harris. Dr. Leslie Long serves as the V.V. Harris Endowed Chair.

The T.K. Hendrick Endowed Chair in Marketing and Management was established in 1987 as a gift from T.K. Hendrick and the Hadson Petroleum Corporation to attract and retain superior faculty members in the Meinders School of Business.

The Ann Hundley Hoover Chair for the Dean of the School of Music was established in 2009 by friends of the school of music in the memory of Ann Hundley Hoover. Dean Mark Parker holds the Ann Hundley Hoover Chair.

The Islamic Studies Endowed Chair was established in 2011 by multiple friends of the university, to support the development of quality education, community outreach, and religious understanding of Islam; and to honor the strong tradition of Islam and Islamic culture in the state of Oklahoma. Dr. Imad Enchassi currently holds the Islamic Studies Chair.

The Norick Brother’s Distinguished Professor of Marketing Chair honors both the Norick family, with its rich tradition of service and philanthropy to the Oklahoma City community, and the firm which bears its name.

The Margaret K. Replogle Endowed Chair in Religion was established in 1979 by the late Mrs. Margaret Replogle of Oklahoma City in memory of her husband, Dee Replogle. Dr. Leslie Long serves as the Margaret K. Replogle Endowed Chair in Religion.

The Francis Marion Riley and Martha Washington Riley Religion Chair was established in 1927 upon the death of Mr. Riley, a member of First Methodist Episcopal Church. Prominent in real estate, cattle, banking and railroads in Oklahoma City Mr. Riley was a contemporary of Anton Classen and Henry Overholser. The current Riley Religion chair is Dr. Lisa Wolfe.

Endowed Professorships

The J. Bart Aldridge Professorship was established in 1980 to honor a prominent Wewokan attorney, J. Bart Aldridge. Mr. Aldridge was a member of the First United Methodist Church in Wewoka and served in the 10th and 11th Oklahoma legislatures. Dr. Leslie Long holds the current J. Bart Aldridge Professorship.

The Claude and Ollie Bell Professorship in Church History was established in 1982 by Mrs. Ollie Bell. Dr. Leslie Long holds the the Claude and Ollie Bell Professorship.

The Florence Birdwell Professorship in Voice was established in 2007 by friends and former students of Florence Birdwell.

The Webster Lance Benham Endowed Professorship in Mathematics was established in 1973 by Dr. David B. Benham of Oklahoma City in memory of his father, a former professor of civil engineering at Oklahoma City University. Dr. Ashley Berger holds the the Webster Lance Benham Professorship.

The Dr. Johnny Blue Professorship in History was established in 1975 to honor Dr. Johnny A. Blue, a 1930 Arts and Sciences graduate in the subject of History. Dr. Mohamed Daadaoui is the current recipient of the Dr. Johnny A. Blue Professorship.

The Bishop Paul W. Milhouse Endowed Professorship in Religion was established by his friends and colleagues in the Oklahoma Annual Conference of the United Methodist Church upon the occasion of his retirement as bishop in 1980. Dr. Mark Y.A. Davies currently serves as the Bishop Paul W. Milhouse Professor of Religion.

The Don E. Schooler Endowed Professorship in Religion was established in 1979 in memory of Dr. Don E. Schooler, United Methodist minister and university trustee. Dr. Lisa Wolfe is the Don E. Schooler Professor.

The Owen and Vivian Wimberly Professorship in Christian Thought was established in 1982 to support faculty in the School of Religion. Dr. Mark Y. A. Davies holds the Owen and Vivian Wimberly Professorship in Christian Thought.

On-Campus Housing

Residence Halls

The university believes that a valuable part of a student’s learning experience occurs within each residential community. The student lives and learns with other students from different cultures and lifestyles. Numerous social and academic activities occur in on-campus housing during the academic year. There are three residence halls on the Oklahoma City University campus: Methodist, Walker, and Banning halls. Walker and Banning Hall house our first-year students while Methodist Hall is for upper-class, graduate, and professional students. Each residence hall is directed by a Residence Life Coordinator and Resident Assistants, who develop community living and are resources to help students succeed.

All single, full-time undergraduate students under the age of 21 are required to live in university housing unless they are living with their parent or legal guardian. Students may apply for an exemption of the residency requirement in the housing portal. Falsification of residence address may result in termination of enrollment. If a student cancels their housing contract after June 30th there will be a $500 cancellation fee applied to their account. For more information concerning university housing, call (405) 208-6363 or email residencelife@okcu.edu.

Apartment Living

The Cokesbury Court apartment complex is a great alternative to the traditional residence-hall style living. The Cokesbury Court apartment complex offers the security of a gated apartment complex. Apartment options include furnished efficiencies and two- and four-bedroom apartment layouts. The complex offers an outdoor swimming pool and on-site parking and laundry. Students classified as sophomore and above are eligible to apply for housing in Cokesbury Court. For more information, call (405) 208-6363.

Rates for Residence Halls

Housing rates for each academic year are published separately in a tuition and fees schedule. A one-time, non-refundable $250 housing processing fee is required along with a completed housing application and contract to live on campus. Scholarship students and athletes are NOT exempt from submitting a housing processing fee and application. Cancellation of a completed housing contract must be emailed to residencelife@okcu.edu. Cancellations after June 30th to the first day of classes will result in a $500 cancellation fee.

Food Service

There are several meal plans available to Oklahoma City University students, including a variety of residence hall board plans, apartment convenience plans, and commuter plans. Students residing in on-campus housing are required to purchase meal plan. Weekly meals can be used in the campus cafeteria and points can be used in Alvin’s Market and the Kitchen 1904, located in the Tom and Brenda McDaniel University Center. Food services are provided by Chartwells.

Religious Life

The goal of Religious Life at Oklahoma City University is to promote spiritual enrichment and to minister to the spiritual needs of the campus community. The Director of Religious Life can help students connect with varied student groups that address spiritual needs and religious traditions. There is also programming to encourage interfaith understanding and engagement.

Organizations

The Oklahoma City University Wesley Center is the on-campus student ministry. Most programs take place in the lower level of the Chapel. Affiliated with the United Methodist Church, the Wesley Center ministries and programs are open to all students and have student leaders from various Christian denominations. The Wesley Center directs Evensong worship services and small group ministries. There are various opportunities offered for spiritual enrichment throughout the year.

Worship and Activities

Each week, during the fall and spring semesters, there are two on-campus worship opportunities. The university chapel service is held on Thursdays at 1:00 p.m. Evensong, a casual worship service, is held on Monday at 8:00 pm. Both take place in the sanctuary of the Chapel. We sponsor mission opportunities throughout the year, both domestic and international. Everyone is invited to participate.
Clergy Support

The Director of Religious Life is available to provide students of all faith affiliations pastoral care and spiritual encouragement. The Director of Religious Life works closely with our Muslim chaplain, and together can assist students in finding area houses of worship to connect with local faith communities. For more information, visit www.okcu.edu/campus/religious-life.

Interfaith Prayer Center

Students, staff, and faculty of all faiths are invited to visit the Dr. Raniyah Ramadan Interfaith Prayer Center located on the west end of the Kramer School of Nursing building. Members of the campus may swipe their ID cards for 24-hour access to the prayer center.

Campus Life

Oklahoma City University recognizes that learning takes place in many forms and places and not exclusively in the classroom. Students are encouraged to participate in activities both on and off campus. Activities sponsored by the Division of Student Affairs are for all Oklahoma City University students and are well publicized around campus.

Students at Oklahoma City University play a large role in determining and regulating their own activities. Good student-faculty-administration relations are maintained through cooperative, responsible student leadership.

There are numerous social and academic organizations available to students on campus. When the school year begins, information is made available to all students about dates and meeting times for many organizations.

Career Services

The Martha Burger Career Services Center assists all undergraduate and graduate students to blend their talents, interests, and academic achievement with the career development skills that will lead to success in internships, post-graduate employment or continued education programs. Career planning and decision-making is a process that helps the undecided student choose a major, while providing a ‘plan of action’ for those who are ready for the next step. The career center combines traditional career development elements such as resume development and interview skills with career and personal education tools, so that graduates are empowered with the practical knowledge needed to transition from college to ‘real-world’. Career Services wants every student to be confident in their ability to market key skills and experiences, and shine with a polished professional image. Students are encouraged to schedule an individual appointment to begin planning their success and join our online employment program: Handshake.

Career advisors are available to help students each step of the way.

- Self-Assessment and Career Exploration
- Individual Career Counseling
- Resume and Cover Letter Development
- Internship and Job Search Strategies
- Interview Techniques
- Professional Etiquette
- Graduate School Planning
- Career Development Events and Workshops
- Summer Internship Funding
- Alumni Mentor Connections
- On-Campus Interviews and Interactive Online Job Board (Handshake)

The Martha Burger Career Services Center is located in the Meinders School of Business, Suite 200. Office hours: Monday–Friday 8:00 a.m.–5:00 p.m. (405) 208-5171 or careerservices@okcu.edu. Sign up for Handshake at okcu.joinhandshake.com.

Office of Student Engagement

The Office of Student Engagement provides support to students, faculty/staff, and campus organizations regarding events, campus involvement, co-curricular transcripts, space reservation, Engage software basics, maintaining/starting a new student organization, flyer approval, and much more. The Office of Student Engagement is located in Room 114 of the Tom and Brenda McDaniel University Center across from the Student Leadership Center. Hours of operation are 8:00 a.m.–5:00 p.m., Monday–Friday during the school year, and 8:00 a.m.–5:30 p.m., Monday–Thursday during summer hours.

Student Diversity, Equity, and Inclusion

The Office of Diversity, Equity, and Inclusion, plans and supports programs and initiatives designed to expand awareness, understanding, appreciation, and respect for OCU’s culturally, ethnically, socially, and spiritually diverse campus community.

In collaboration with students, student organizations, and campus partners, the staff hosts events celebrating cultural heritages, including African American/Black, Chinese, Hispanic, Latino/a/e, Indian, Jewish, Muslim, Native American and Hawaiian Native, Taiwanese, and so many
more cultures from around the world. Additionally, the staff facilitates 2SLGBTQUIA+ and advocate activities, supports disability and access across campus, and promotes religious, spiritual, and interfaith activities.

University Counseling
Counseling is a confidential process designed to help you address concerns, come to a greater understanding of yourself, and learn effective personal and interpersonal coping strategies. University counseling services are available for all currently enrolled, full- and part-time students. Our goal is to provide short-term mental health services that will assist OCU students with emotional development, problem solving skills and decision making capabilities. University Counseling prioritizes cultural humility and continuing education for counselors and staff.

Counseling sessions are confidential, typically 45 to 50 minutes long, and are free of charge. OCU University Counseling services are triage based, meaning the basic symptoms are identified and treated as needed based on individual terms. If you could benefit from a more specialized level of care, your counselor can assist with referrals. The office of University Counseling is located in Walker Hall, on the northwest side and the hours are Monday - Friday 8 am to 5 pm. Call (405) 208-7901 or email counseling@okcu.edu to make an appointment. For more information and resources, visit www.okcu.edu/campus/resources/counseling/

Student Government Association
Student Government Association (SGA) is the governing body for all Oklahoma City University students. SGA consists of four branches: Executive, Legislative, Judicial and the Student Activities Council. This organization plans and implements a variety of activities for the campus community, appropriates money for student organizations, drafts and approves resolutions concerning issues facing students, and serves as the voice for students in university governance. The president of SGA serves as a voting member of the university’s board of trustees. Elections for High Officer and Senate positions (sophomores, juniors, and seniors) are held late in the spring semester. Elections for the freshman senator positions are held early in the fall semester.

Honor Societies
The following honor societies and professional organizations are open to graduate students and are active on the Oklahoma City University campus. Partial membership requirements are listed.

Alpha Chi
Full-time student, junior standing or above, cumulative GPA of at least 3.80 and/or in the upper 5 percent of the junior and senior classes.

Alpha Mu Gamma
The national collegiate foreign language honor society is for intermediate- and advanced-level students with minimum GPA of 3.66 in the study of a single modern language.

Alpha Sigma Lambda
The national honor society for continuing education and lifelong learning. Open to students in adult degree programs who have completed at least 24 hours at Oklahoma City University with a minimum GPA of 3.75.

Alpha Phi Sigma Lambda
The national criminal justice society is open to justice studies majors who have completed one-third of their coursework and are in the top 35 percent of the class.

Alpha Psi Omega
Theatre student honor society.

Beta Beta Beta National Biological Honor Society, Alpha Chapter
Completion of three semesters in biology with 3.00 GPA in biology and overall is required.

Beta Gamma Sigma
Business student international honor society. Membership is offered to undergraduate business students who are at the end of either their junior or senior year and in the top 10 percent of their applicable junior or senior class. Graduate business students in the top 20 percent of their graduating class qualify for membership.

Blue Key National Honor Fraternity
Membership by election, second-semester sophomore standing or above, cumulative GPA of 3.40 or above are required.

International Education Honor Society
Undergraduates must have first-term sophomore standing (30 semester hours), a GPA of 3.00 or higher, and at least 12 semester hours in education courses programmed, in progress, or completed. Graduate students must have regular admission status, 6 or more semester hours earned at Oklahoma City University, at least 12 semester hours of education courses, and a graduate GPA of 3.25 or higher.

Order of Omega
Greek scholastic honor society. Initiates the top 3 percent of Greek students.
Phi Alpha Delta National Legal Fraternity
  Membership is by election.

Phi Eta Sigma
  Members are required to be full-time students with freshman standing who are in the top 20 percent of their class and who have a GPA of at least 3.50.

Phi Kappa Phi
  An all-discipline national honor society with election by invitation only. Those elected must be ranked in the upper 7.5 percent of last-term juniors and upper 10 percent of seniors and graduate students.

Phi Mu Alpha Sinfonia
  National professional music fraternity.

Psi Chi National Honor Society
  Psychology student honor society.

Sigma Alpha Iota National Professional Music Fraternity
  Membership is by election.

Sigma Tau Delta
  International English honor society.

Sigma Theta Tau International Nursing Honor Society
  Open to undergraduate nursing students who have completed one-half of the nursing curriculum, have a GPA of at least 3.00, are ranked in the upper 35 percent of the graduating class, and meet the expectations of academic integrity. Graduate nursing students who have completed one-quarter of the nursing curriculum, have a GPA of at least 3.50, and meet the expectations of academic integrity also are eligible for membership.

Theta Alpha Kappa
  Religion student honor society. Completion of 12 hours of religion courses at Oklahoma City University, GPA of 3.50 in religion, 3.00 overall and be in the upper 35% of their class in general scholarship.

Upsilon Pi Epsilon
  The mission of Upsilon Pi Epsilon is to recognize academic excellence in the computing and information disciplines. Undergraduate computer science majors must rank in the top 35 percent of their class and have a minimum GPA of 3.0 in not less than 45 graded credit hours, including 15 credit hours in computer science courses. Graduate students must rank in the top 35 percent of their class, have completed at least 18 credit hours in graduate computer science course work with a cumulative GPA of 3.5 or higher.

Student Organizations
  The following student organizations are active at Oklahoma City University:

Academic
  Alpha Chi Honors Society, Alpha Mu Gamma, Beta Beta Beta Biology Honors Society, Blue Key Honors Society, Honors Student Council, Phi Alpha Delta Pre-Law, Phi Eta Sigma, OCU Mobile Device Developers Club, Philosophy Club, Psi Chi Chapter at OCU, Sigma Tau Delta, Student Accounting Society, TESOL Club

Faith-Based

---

**Extracurricular Activities**

**Varsity Athletics**

Oklahoma City University sponsors a variety of varsity sports programs including men’s and women’s basketball, baseball, competitive cheer and competitive pom, STUNT, men’s and women’s cross country/track and field, men’s and women’s golf, men’s and women’s rowing, men’s and women’s soccer, men’s and women’s wrestling, softball, and women’s volleyball. Oklahoma City University is a member of the National Association of Intercollegiate Athletics and the Sooner Athletic Conference. Oklahoma City University has a tradition of intercollegiate athletics excellence illustrated by 73 team national championships and 30 consecutive years of winning at least one team national championship each year.

**Fitness Center**

The Adudell Fitness Center provides full service to a large selection of fitness equipment including state-of-the-art treadmills, ellipticals, stationary bikes, and cross-training equipment. The center also offer a wide range of free weights, stationary weight machines, and other aerobic equipment (jump ropes, steppers, etc.). Showers, day lockers, and towels are also available at the Adudell Center.

The front desk provides a fully trained staff to answer any questions or assist students during their workouts. The staff also offers an orientation twice a week. For more information, contact (405) 208-5378.

**Intramural Sports**

Oklahoma City University features an intramural sports program designed to encourage interaction between students, faculty, and staff. The department provides a variety of league and tournament events. The Intramural Sports program strives to meet the competitive and recreational needs of the campus community. The department offers opportunities to maintain physical fitness while interacting with friends and classmates.

Sports offered include 3-on-3 basketball, 5-on-5 basketball, dodge ball, flag football, soccer, softball, table tennis (ping pong), volleyball (indoor and outdoor), and kickball. For more information about Intramurals or how to register, call (405) 208-5378.

**Open Recreation**

The Henry J. Freede Wellness Center and its Abe Lemons Arena provide the home court to many Oklahoma City University sports. The recreation department offers open recreation nights at Freede. Open recreation takes place in the fall and spring semesters. Each Sunday, Monday, and Wednesday, Freede is open from 8 p.m. to 11 p.m. for use by anyone who carries an OCU ID. For more information, contact (405) 208-5378.

**Dance**

All full-time students are eligible to audition for the American Spirit Dance Company, the Student Choreography Show, the Oklahoma City University Spirit of Grace Liturgical Dancers, and the Oklahoma City University Pep Dancers. Contact the American Spirit Dance Company company manager in the Ann Lacy School of American Dance and Entertainment for further information. Noncredit dance classes are available through the Community Dance Academy.

**Music**

University students are encouraged to participate in music activities, including performing in ensembles, taking private music lessons, and auditioning for productions. All qualified students are eligible to participate in Bass School of Music performing ensembles (Symphony Orchestra, Wind Philharmonic, Ad Astra Women’s Chorus, University Chorale, University Singers, Chamber Choir, Jazz Ensemble, Pep Band, and various small ensembles). Auditions for Oklahoma Opera and Music Theater Company productions are open to all students. See the director of the organization in which you are interested for further information, or call the music office at (405) 208-5474.

**Theatre**

All students may audition for parts in TheatreOCU productions presented each year by the School of Theatre. Contact the School of Theatre at (405) 208-5121 for detailed audition information.

**Student Publications**

All students, regardless of their major fields of study, are invited to apply to work for the Student Publications staff.
The staff publishes The Campus (the student newspaper) and MediaOCU (the student media website at www.media-ocu.com). Contact stupub@my.okcu.edu for application information.

**Publication of Student Work**

All students can submit poetry, fiction, nonfiction and art to The Scarab, Oklahoma City University’s literary journal, sponsored by the English honor society Sigma Tau Delta. The undergraduate research journal Stellar accepts submissions of research papers written for undergraduate courses. Both annual publications can be viewed at www.okcu.edu/artsci/departments/english/publications.

**Speech and Debate Team**

All OCU students are eligible to participate on the OCU Speech and Debate team. We have a rich history that goes back to our historic debate in 1931 with Wiley College, the first debate between an all white team and an all black team south of the Mason-Dixon line. Today OCU Speech and Debate continues its vision of inclusivity. Students can compete in a broad range of areas, including Parliamentary Debate, Platform Speech Public Speaking, Limited Prep Speaking, and Individual Events. Scholarships are available for team members. To apply, students should complete the online application for the Speech and Debate team: www.okcu.edu/speechanddebate.

**Cultural Enrichment Events**

An array of music, drama, music theater, art, literature, cinema, and lecture events occur annually on the Oklahoma City University campus. Among the cultural enrichment opportunities available and easily accessible in the Oklahoma City area are the Oklahoma City Philharmonic concerts, the Oklahoma City Museum of Art, Science Museum Oklahoma, and several theaters.

**The Martha Jean Lemon Distinguished Speaker Series**

This series features annual events that enrich the academic environment for the University and the surrounding community. Programs may relate to the arts and sciences, business, dance and entertainment, law, music, nursing, theatre, or religious topics. The series was created through an endowment gift from Lynette Lemon Wert and Larry H. Lemon in 1968 with a degree in history and worked as an independent comparative religion scholar. This series continues OCU’s tradition of the Distinguished Speakers Series, which has included Nobel Laureates Wangari Maathai, Archbishop Desmond Tutu, Elie Wiesel, and Jody Williams, as well as influential figures Reza Aslan, David Brooks, Fabien Cousteau, Matthew Desmond, Marian Wright Edelman, Henry Louis Gates, Jane Goodall, David Grann, Robert F. Kennedy Jr., Piper Kerman, Jonathan Kozol, Rabbi Harold Kushner, N. Scott Momaday, Bill Moyers, Sister Helen Prejean, Clive Thompson, Kurt Vonnegut, and Andrew Weil.

**The Harbour Winn OCU Film Institute**

For over 40 years the Oklahoma City University Film Institute has offered the university and the greater Oklahoma City community the opportunity to view classic and contemporary international and art house films. Each year the series focuses on a theme, and information on the theme and series films is available at the screenings. A discussion session follows each screening. The films are also available for university courses. The film series is supported by Oklahoma City University, the Oklahoma City University Film Institute Endowment, the designated endowment in the Community Foundation of the Kirkpatrick Family Fund, and the Thatcher Hoffman Smith Endowment for the Center for Film & Literature.

**The Neustadt Lectures**

Walter and Delores Neustadt of Ardmore, Oklahoma, established the lecture series in 1983 for the purpose of strengthening understanding of the great contributions of the Judaic religious tradition to Western civilization and thought. Scholars are invited to the campus to speak on informative themes in the areas of Hebrew Scriptures, Judaic thought, and Jewish ethics and art.

**The Willson Lectures**

This lectureship is provided by an endowment from James M. and Mavis Willson of Floydada, Texas. The lectures are directed to the interest of students in the area of religion and society. The Willsons were outstanding members of the United Methodist Church. Their Christian vision was truly ecumenical in its outreach. Since 1953, their gift to Oklahoma City University has brought to campus speakers of international stature from the areas of religion, science, Christian theology and ethics, church history, biblical studies, and liturgical studies.

General Requirements

Degree requirements for students are listed in the catalog in effect at the time of their first semester at Oklahoma City University. Students who are not in attendance for two consecutive semesters, excluding summer, will be required to complete the degree requirements listed in the catalog in effect at the time of their re-entry.

The final authority in determining the fulfillment of graduation requirements for each graduate program lies with the academic dean from each respective school. Graduate students are expected to read and to comply with published regulations.

Every effort has been made to ensure the accuracy of the information presented in this catalog. However, all courses, course descriptions, materials, schedules, sequences of courses in programs, instructor designations, curricular degree requirements, methods of instruction, locations of instruction, and fees described herein are subject to change or elimination without notice. This information is provided solely for the convenience of the reader and does not constitute or create a contract between prospective or current students and Oklahoma City University. Students should consult the appropriate department, school, college, or graduate division for current information, as well as for any special or temporary rules or requirements imposed by the department, school, college, or graduate division.

Residency Requirements

The minimum number of hours to be taken in residence for any master’s degree offered may be noted under the individual degree programs.

Student Discipline

Every student is expected to observe the highest standards of conduct, both on and off the campus. The university cannot accept the responsibility for the education of any student who is not in sympathy with the purposes and the regulations of the university. NOTE: In the case of Law School students, the Law School Student Conduct Code Article 2.01 governs, and such students are subject to the Law School Disciplinary Tribunal.

Oklahoma City University reserves the right to exclude any student whose conduct or academic standing it regards as undesirable, without assigning any further reason. In such cases the fees due or which may have been paid in advance to the university will not be remitted or refunded in whole or in part. Neither the university nor any of its officers will be under any liability whatsoever for such exclusion. Any student under disciplinary suspension will be persona non grata on campus except for official business.

The entire judicial structure of the university is set forth in the Student Code of Conduct and in the Student Handbook, which is available on the university website. Students are responsible for all information contained in this catalog, the Student Code of Conduct, Student Handbook, and all class schedules. Copies of class schedules can be obtained in the Registrar’s Office.

Concerns regarding student behavior and wellbeing should be reported to the Campus Assessment Response and Education Team (CARE). Resources and contact information are found here: http://www.okcu.edu/campus/resources/care.

Attendance

Regular attendance is essential to satisfactory progress in a course. The student is responsible for meeting course requirements regardless of the cause of absences. A student unable to attend classes should confer in advance with the professors involved. Failure to attend classes may result in the loss of credit or exclusion from the final examinations, or both. (See the Law School catalog for attendance policy in that degree program.)

Last Date of Attendance Policy (Asynchronous, Fully-Online Courses)

In a distance education context, logging into an online class is not sufficient, by itself, to demonstrate academic attendance. The last date of attendance will be determined by one of the following academically related activities in a distance education program:

- submission of an academic assignment,
- submission of an exam,
- participation in an interactive tutorial or computer-assisted instruction,
- a posting in an online study group that is assigned by the institution
- a posting in a discussion forum showing participation in an online discussion about academic matters, or
- an email to the instructor of record to ask a question about the academic subject studied in the course.

Time Limits

Students are expected to complete requirements for a graduate degree within a set period of time—usually five to six years after being admitted into a program. See the dean or department chair for the time limits established for a specific degree program.
Course work that is five to 10 years old, whether taken prior to or after admission, may, upon approval by the dean or director, be applied to a degree in accordance with the policy of the school, division, or department. Any course work that is more than 10 years old, whether taken prior to, or after admission to a graduate program, cannot be applied to a degree.

Academic Advisement

Academic advising is a collaborative effort between the student and academic advisor aimed at maximizing the student’s educational and life goals. By using different styles of advising, such as prescriptive and developmental, advisors may be able to assist students in recognizing their own individual, educational learning styles.

In academic advising, the role of an advisor may include being the facilitator of learning, whereby the advisor works with the student to develop decision-making and problem-solving skills. Advisors can be an information source on school policies and procedures, programs, and other resources to further help students achieve their academic and life-learning objectives. Advisors, while working with students, may play a role in making sure the students proactively participate in choosing and enrolling in the required courses necessary for graduation and obtaining a degree in their chosen field. It is understood the academic advisor works in an advisory capacity and is not responsible for the failure of the student to follow the requirements for graduation set forth in the catalog.

Every student at Oklahoma City University is assigned an academic advisor in their major area of interest, with undecided students, who are classified as university studies students, being advised by the dean of the Petree College of Arts and Sciences or their designee. The provost is the ultimate authority on interpretation of requirements for graduation.

GradStar Degree Audit

GradStar by Degree Works is a Web-based tool to help students and advisors monitor a student’s academic progress toward degree completion using their specific major and catalog. A GradStar degree audit is a review of past, current, and planned course work. It provides information of completed and outstanding catalog requirements necessary to complete a degree/major/minor/concentration. GradStar is divided into requirement blocks such as a degree block, a general education block, and a major block. Check boxes exist within each block to easily outline which courses and requirements are complete. Students can access GradStar through the Student tab in their Bluelink account.

A GradStar degree audit can be a useful tool in the advice process. The student’s academic advisor should be contacted for assistance in interpreting the degree audit. The audit is not an academic transcript, and it is not official notification of degree or certificate completion. Students must contact their advisors regarding degree audit and official degree/certificate status.

Adding Courses

For the fall and spring semesters, courses may be added through the first Friday after four class days of the semester without instructor approval. Courses added after the first Friday after four class days and through the second Friday after nine class days may be added only with instructor approval. Courses may not be added after this date. For the summer terms, courses may be added through the first two class days of the term. Courses added after the first two class days and through the Thursday after three class days may be added only with instructor approval. Courses may not be added after this date.

Dropping Courses

The final date to drop a course is listed in the academic calendar. Students dropping courses before the final drop date will receive a W (withdrawal). After the final drop date the student will be graded solely on academic performance at the end of the term.

Courses dropped through the 100 percent refund date will not appear on the student’s permanent record. Changes in class schedule become effective on the day the form is processed by the Registrar’s Office.

A 100 percent tuition adjustment is made for varying time periods beginning with the published first day of class. After this period, there will be no further adjustments. The time periods vary. See Tuition Adjustments for more information. Student attendance in a course does not affect the tuition reduction. The date the completed form is processed by the Student Accounts Office is the determining factor.

Withdrawal

A student who is completely withdrawing from the university must obtain a withdrawal form from the Office of the Registrar, International Student Office, Financial Aid Office, or their dean’s office. Once this form is properly completed and processed through the Office of the Registrar and Student Accounts, the withdrawal becomes effective on the date it is validated by Student Accounts. A “W” (withdrawal) will be assigned for each course. Nonattendance of classes does not constitute official withdrawal. Withdrawal will be permitted up to and including the final regular day of classes
for all semesters or terms. No withdrawals are permitted during finals week.

Leave of Absence

Students who are pursuing a degree at Oklahoma City University and must interrupt their education for a period of time will be considered on a leave of absence. It is recommended students taking a leave of absence discuss their situation with different departments such as advisor/Dean of their school, Financial Aid, Student Accounts, and/or the International Student Office. Students who are not in attendance for two consecutive semesters, excluding summer, will require readmission to the university and must complete the degree requirements listed in the catalog in effect at the time of their re-entry.

Oklahoma City University maintains a policy to ensure that service members are readmitted to programs if they must interrupt or suspend training due to military service and that accommodations are otherwise made for short absences resulting from service obligations.

Incomplete Courses

When a course is not completed by the end of the semester or summer session, a professor may assign an incomplete (I) at their discretion. The student must be performing at a passing level and have a legitimate reason to receive an “I.” Students cannot be assigned an “I” because they have excessive unexcused absences or because they are failing the course. Academic units and faculty members may establish their own policies in determination of legitimate reasons to assign the “I” grade.

At the time that the incomplete is issued, the instructor will submit information which specifies what work must be done to remove the “I” and the grade to be assigned if the work is not completed. This information is made available through the online system. The student is responsible for submitting the work by the deadline assigned by the instructor, not to exceed one year. If the “I” is not completed by the specified deadline, the grade will convert to the grade assigned by the professor.

In the event that a faculty member is no longer available, appropriate faculty shall be assigned by the dean or department chair to determine the grade.

Credit Hour

The credit hour or semester hour, terms used interchangeably, is the unit of instruction. One credit hour is constituted by a minimum of one hour of classroom or direct instruction and a minimum of two hours of out of class student work each week for a semester (or its equivalent). An equivalent amount of work (minimum three hours per week for a semester or its equivalent of combined direct instruction and outside of class student work) must be represented for a credit hour in other academic activities such as laboratory work, internships, practica, studio work and other academic work.

Semester is defined as not less than 16 weeks. Courses offered in shorter timeframes must have an equivalent number of hours dedicated to instruction and student work as that spent in a semester-based class.

The following guidance indicates how this policy is applied to credit situations that are not taught in the standard 16-week format or are not classroom-based learning experiences. The credit hour guidelines represent a minimum baseline. It is acceptable to exceed these levels.

Courses Meeting Fewer than 16 Weeks and Online or other Distance Learning Guidance

The credit hours awarded for a given course or academic experience must be reasonably equivalent to the standard of 3 hours combined direct instruction and student work per credit hour for a 16-week semester.

If a course is offered both on-ground and online, and each of the following conditions is met, then the online course is considered to have equivalent classroom and out-of-class time as the on-ground course.

- Term length is the same
- Syllabus (including course activities) is the same
- Stated student learning outcomes are the same
- Online students are required to regularly engage with the instructor and with other students in the course.

Regular engagement between the instructor and the student is initiated by the instructor.

If each of the above conditions are not met then additional information will be used to calculate in-class and out-of-class time equivalencies for the online course.

Independent Study and Internship Guidance

Credit hours applicable for a given course or academic experience must be reasonably equivalent to the standard of 3 hours combined direct instruction and student work per week, per credit hour for a 16-week semester.

A 3-credit independent study or internship should require the equivalent of 9 hours of combined direct instruction and student work per week for the equivalent of a 16-week semester.

Travel Seminar Credit Hour Guidance

The Oklahoma City University definition of a credit hour indicates that the calculation of credit hours applicable for
a given course or academic experience must be reasonably equivalent to the standard of 3 hours combined direct instruction and student work per week, per credit hour for a semester (or equivalent).

Contact the Office of Academic Affairs for the complete credit hour policy with equivalency details. The complete credit hour policy is posted on the Academic Affairs’ SharePoint site.

Grade Points

Grade point totals are calculated by multiplying the number of credit hours of a course by the number of points for the corresponding grade received. The grades of W (withdrawal), WA (administrative withdrawal), WP (withdrawal passing), WH (withdrawal health), CR (credit), NC (no credit), I (incomplete), or NR (not reported) are omitted in counting grade points. The grade of WF (withdrawal failing) will be calculated into the grade point as a failing grade. A student’s GPA will be determined by dividing the total number of grade points earned at Oklahoma City University by the total number of hours attempted at Oklahoma City University with the exception of courses in which marks of CR, W, WA, WH, WP, NC, I, and NR are received. At Oklahoma City University, the official GPA will be rounded to the third decimal place.

While faculty at OCU have academic freedom to set their own grading scales, the following system of points is used for computing GPA:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.75</td>
</tr>
<tr>
<td>B+</td>
<td>3.25</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.75</td>
</tr>
<tr>
<td>C+</td>
<td>2.25</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.75</td>
</tr>
<tr>
<td>D+</td>
<td>1.25</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>

<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

Grade Reports

Final grade reports are posted only through BlueLink unless the student has requested in writing to the Office of the Registrar that grades be mailed to a specific address.

Auditing Courses

An Oklahoma City University student may audit a course (excluding courses offered by the School of Law) by attending class sessions and completing classroom assignments. No examinations are taken, and no credit is given. The student transcript carries the designation AU. The AU designation, once recorded on the transcript, may not be changed to a letter grade. Audited courses do not satisfy degree requirements. If a student determines that a course that has been audited is needed to fulfill a major requirement, the student must repeat the course and earn a letter grade.

A student may audit only if permitted by the appropriate school or department policy and on a space-available basis. Students may not audit individualized academic experiences such as internships, directed study, independent study, music lessons, dance instruction, etc. Audited courses will not be considered in a student’s normal semester load.

Procedure

The audit option can only be selected through the second Friday of the regular semester and through the first Thursday after three class days of a summer session. Once the time period is over, the option to audit a course is forfeited. Students must obtain permission and the signature of the instructor whose course they choose to audit. An instructor has the right to refuse to permit students to audit a course. Students registered to audit a class are not guaranteed a space until after the time period. A separate audit form is available from the Registrar’s Office.

Fees

Students are assessed a nonrefundable audit fee. Fee schedules are available from the Student Accounts Office. Audit fees are not part of the structure for block tuition charges and will be assessed in addition to regular tuition charges.

The Physical Therapy Program and Physician Assistant Program are excluded from the aforementioned policies. The Remediation and Probation Policy of Master of Physician Assistant Studies Program is listed within the Physician Assistant Program Academic Standards. The Academic Standards for the Doctor of Physical Therapy Program are included in the D.P.T. Program Student Handbook.

Repetition of Courses

Graduate students may repeat a maximum of two separate courses, but cannot repeat any one course more than once. The repeated course number must be the same as that of the original course. The last grade received in a course is the one that will be calculated into the student’s GPA. This grade will be posted in the semester earned. The first grade will be recorded on the transcript as an R (repeat) and excluded from the student’s GPA.

The Doctor of Physical Therapy and the Physician Assistant Studies programs are excluded from the aforementioned policies. The Remediation and Probation Policy of the Master of Physician Assistant Studies Program is listed within the Physician Assistant Program Academic Standards.
Academic Regulations 2023-2024

Standards. The academic standards for the Doctor of Physical Therapy Program are included in the D.P.T. Program Student Handbook.

**Course Numbering Systems**

The first digit in each course number indicates the academic level at which the department places the course (1—freshman level, 2—sophomore level, 3—junior level, 4—senior level, and 5–9—graduate level). The second digit, in combination with the third, gives the course a unique number within its department and academic level. The second digit may be used to indicate sequence where two or more courses dealing with the same subject matter are sequential in arrangement. The third digit indicates the type of course. The type indicated by specific numbers varies from school to school. The fourth digit indicates the number of semester hours credit assigned to the course. The fourth digit of an ‘A’ indicates credit hours of ten or more.

Courses numbered 1000–4999 are for undergraduate students; 1000–2999 courses are freshman and sophomore level courses; 3000–4999 courses are junior and senior level (upper-division) courses. Graduate students who are satisfying program prerequisites or otherwise remedying deficiencies may, with approval, enroll in undergraduate courses, but will not receive graduate credit for such undergraduate course work.

Courses numbered 5000–9999 are for graduate credit in graduate degree programs; 5000–5999 courses are graduate courses that may be dual-listed with upper-division undergraduate courses; 6000–6999 courses are not open to undergraduate students. Courses numbered 7000–9999 are restricted to doctoral students; 9000–9999 courses are for independent study (such as research, thesis, or dissertation) and are restricted to doctoral students. The School of Law establishes its own course numbering policies.

**Course Cancellation Policy**

The decision to cancel a course due to insufficient enrollment, faculty overload, or other circumstances will be made by the dean of the school offering the course in consultation with the instructor of the course. After notifying the Registrar’s Office of a course cancellation, the dean will inform students enrolled in the course of the cancellation.

**Final Examinations**

Final examinations are held in all courses upon the completion of each semester’s or term’s work. No one is to be excused from the final examinations. All classes will meet during the time stipulated by the Registrar’s Office for final examinations. Students who have three final examinations scheduled on the same day may seek permission from either their professors or their academic dean to have one exam rescheduled for another day within final examination week.

**Records and Transcripts**

If you have access to Oklahoma City University’s Student Information System BlueLink (bluelink.okcu.edu), you may submit your transcript request electronically by using BlueLink. If you do not have access, you may submit your transcript request by mail, email attachment, or fax. You can submit a Transcript Request Form from our website or provide as much of the following information as possible in a written letter (missing information may delay the processing of your request):

- Full name (as it is now and as it was when enrolled at Oklahoma City University, if different)
- Student ID number (if available). Please DO NOT include a Social Security number for security reasons.
- Date of birth
- Current address and phone number
- Full address(es) where transcript(s) are to be sent
- Dates of attendance
- Year of graduation and degree (if applicable)
- Student signature (a requirement of the Federal Educational Rights and Privacy Act). Electronic signatures are not a valid signature.

Send transcript requests to: Oklahoma City University Office of the Registrar, Attn: Transcripts, 2501 N. Blackwelder Ave., Oklahoma City, OK 73106. Requests may be faxed to (405) 208-6047 or emailed to Registrar@okcu.edu. Students should sign each faxed request and call the office at (405) 208-5298 to verify that the fax was received. We do not fax or email transcripts.

We do not charge for individual, printed transcripts; however, there will be a limit of five transcripts per day issued to a student. An exception may be made when the student provides individual addresses for transcripts to be sent directly to other institutions. If a student requests more than twenty transcripts per month to be sent to a person and/or institution, there will be a $6.00 charge for each additional transcript. Any special handling, such as a U.P.S. charge, will have to be prepaid. Transcripts are not processed if the student has an outstanding financial obligation to the university. Students should call the Student Account Services office at (405) 208-5146 or go to the Student Account Services window on the third floor of the Clara E. Jones Administration
Building to check on their financial status. Students are required to show photo identification when picking up their transcript. If a transcript is to be released to a third party, written authorization from the student is required. Parents may obtain their student’s transcript with written authorization including the student’s signature, or a signed affidavit stating that the student is their financial dependent according to IRS regulations. Any questions regarding transcripts or student log-in should be addressed to registrar@okcu.edu.

Electronic transcripts are offered as a service to the student through the National Student Clearinghouse (https://www.studentclearinghouse.org/transcriptservices). There is a charge for this third-party service.

Official Transcripts From Other Institutions

Oklahoma City University requires all students to submit official transcripts, such as high school transcripts, undergraduate transcripts with or without a degree, or graduate transcripts. These transcripts must be official. Preferred method of delivery is by mail directly from the institution or an electronic transcript sent by one of the approved secured transmission systems. The complete list of acceptable systems can be found on the Registrar’s website (www.okcu.edu/admin/academic-affairs/registrar). An official transcript is delivered in a sealed envelope which should not be opened by anyone except the Office of Admissions or the Registrar’s Office. Faxed or emailed transcripts are not considered official. Unofficial or photocopies of transcripts from all colleges or universities attended may be included with the application for review purposes.

Thesis, Dissertation, and Capstone Project Enrollment and Grading Policy

The student must have an initial enrollment for the master’s thesis, doctoral dissertation, or other graduate-level capstone project (all hereafter termed “thesis”). Following the initial enrollment in the thesis course, the student must maintain continuous enrollment or obtain an approved leave of absence during each regular semester until all degree requirements are completed, or the candidacy is discontinued. Upon successful completion of the thesis, a grade of CR will be recorded for the final semester of enrollment. The graduation date awarded will be the first graduation date after the final term of enrollment.

The student’s initial enrollment for the thesis will be charged the current rate per credit hour for the course and will be subject to all standard fees. Subsequent enrollments will use a different number that will be of equal credit hours for the thesis, but only one credit hour will be charged and no fees will be charged.

Students are not required to enroll in the thesis during the summer session unless one of the following applies:

• the student is actively working on the thesis
• the student is seeking committee advice on the thesis
• the student is otherwise using university facilities
• the degree is to be conferred in the summer session

Subsequent to the initial enrollment for the thesis, if a student wishes to remain in the program without continuous enrollment, the student must request a leave of absence. Such requests must be submitted in writing to the dean of the student’s program and must specify the reason for the request and the expected duration of the leave. The granting of such requests will be at the dean’s discretion. Requests based on financial circumstances will generally not be granted. Failure to obtain an approved leave of absence will result in the student having to apply for readmission.

If a student does not comply, or has not complied, with the above procedures, then the student must reapply to the program of study and, if readmitted, enroll in sufficient hours of thesis to make the total hours thereof at least equal to the total thereof had he or she completed with continuous enrollment. Retroactive tuition will be assessed at the current semester rates. Readmission of the student to the program of study will be at the discretion of the dean of the student’s school. Determination of the number of hours of thesis in which the student must enroll, along with the collection of the appropriate fees, will be the responsibility of the dean of the student’s school and the Student Accounts Office.

Thesis, Dissertation and Project Grades

X Indicates that satisfactory ongoing progress was made during the semester, however subsequent enrollment must occur in the next semester as components necessary to satisfactorily complete the thesis are required. It is a neutral grade to be used only for thesis grades. This grade will remain a permanent grade on the student’s transcript.

NC No credit. Indicates that unsatisfactory progress was made during the semester.

CR Credit. Indicates that the thesis was satisfactorily completed during the semester.
Guidelines for the Graduate Thesis, Dissertation, or Other Bound Capstone Product ("Thesis")

- All theses necessary for partial fulfillment of graduate degrees must be approved by the graduate student's committee and be submitted to the person designated by the graduate program three weeks before commencement. Exceptions must have prior approval of the program director and dean.
- The title page and abstract will follow a standard form that may be obtained from the graduate program directors.
- Style sheets are determined by each graduate program. Endnotes or footnotes are acceptable, but each program will use only one form of citation.
- In the case of serious, documented violation of the Academic Honesty policy in thesis work, a student will be dismissed from the university, subject to normal academic appeals processes.

Preparing the Copies

- At least one copy of each thesis will be delivered to the Dulaney-Browne Library for binding. Graduate programs may require additional copies for the school/department or online submission through the ProQuest ETD administrator.
- Each graduate student must pay a binding fee for each copy of the thesis. Additional fees may apply to theses that include additional work samples or media requiring special binding. The Dulaney-Browne Library will bind the copies of the theses, using the same binding, cover, and spine format for all graduate theses (Oklahoma City University blue with gold type).

All Copies for Binding Will:

- be submitted to the library unbound on white, letter-size, acid-free, 20–24 pound, 25–100 percent rag content paper,
- include the original signature of the student’s thesis advisor and/or committee,
- include one and one-half-inch left, and one inch right, top, and bottom margins,
- use 12-point type,
- and include type on one side only (except musical compositions).

Thesis Submission Form

The student is responsible for completing the Thesis Submission Form as well as ensuring that each office has provided a signature acknowledging satisfactory completion of the requirements related to that office. Signatures should be received in the order stipulated on the form, with the Registrar’s Office receiving the final copy of the Thesis Submission Form that includes all signatures. Failure to provide the completed form to the Registrar’s Office will delay the posting of the degree and the release of the diploma.

Academic Honesty

Academic honesty is required in all aspects of a student’s relationship with the university. Academic dishonesty may not be course-specific and includes falsification or misrepresentation of a student’s academic progress, status, or ability, including, but not limited to, false or altered transcripts, letters of recommendation, registration or advising forms, or other documents related to the student’s academic career at Oklahoma City University or other colleges or universities.

Students are personally responsible for the correctness and accuracy of information supplied to the university. Any student who knowingly gives incorrect information to the university is subject to disciplinary action which may lead to suspension.

Students are advised that cheating and plagiarism are not tolerated. The university expects all students to maintain a high standard of ethics in their academic activities. In this context, forms of academic dishonesty include, but are not limited to, cheating on tests, examinations or other class/laboratory work; involvement in plagiarism (the appropriation of another’s work and/or the unacknowledged incorporation of that work in one’s own, including works produced by artificial intelligence); collusion (the unauthorized collaboration with another person); misrepresentation of actions; and falsifying information.

Grievance procedures found elsewhere in the catalog do not apply to the academic honesty policy procedures listed below. Law students are subject to the code of conduct published in the Oklahoma City University School of Law Student Handbook. Students enrolled in nursing courses at the Kramer School of Nursing are subject to additional profession-related standards. For more specific policies and procedures applicable to nursing school students, see the Oklahoma City University Kramer School of Nursing Student Handbook.

Course-Based Procedures

Each faculty member will include in their syllabus either the university’s academic honesty policy or a reference to the appropriate Oklahoma City University website regarding the academic honesty policy. The faculty member will include in
the syllabus a description of the course-based consequences if a student fails to adhere to the academic honesty policy.

If, in the judgment of the faculty member, a student fails to conform to the academic honesty policy, the faculty member shall inform, in writing, the student’s academic dean, the provost/VPAA, and the student. Sanctions for a student’s breach of the academic honesty policy vary according to the nature and the seriousness of the offense. Sanctions are at the discretion of the faculty member involved within the constraints of the course in which the offense occurred. Sanctions by the faculty member may include, but are not limited to, requiring a student to redo a class/laboratory assignment; recording an F (Failure) for a particular test, examination, class/laboratory assignment which involved dishonesty; or recording an F (Failure) for a final course grade.

Appeal

A student’s appeal of the charge or the faculty-imposed sanction must be made in writing and delivered to the faculty member’s dean within 10 university business days after the date of the faculty member’s letter outlining the infraction of the academic honesty policy. The appeal period is increased to 21 calendar days when the faculty member’s letter must be mailed to a student residing outside the United States. If the 10th day (or 21st day, in case of a student residing outside the United States) falls on a weekend or university holiday, the appeal is due on the next university business day.

The faculty member’s school/college will elect or appoint faculty members to serve on a committee to hear all school/college appeals for that academic year. If a faculty member who taught the course in question is on the committee, he or she will not serve on the school/college committee for this appeal. The dean will appoint a replacement member for this appeal. If the dean taught the course in question, the appeal will go directly to the assistant provost.

There is a presumption that the faculty member’s decision is correct and, in the absence of extraordinary circumstances, shall not be changed. The faculty committee will render a decision, in writing, regarding the student’s appeal within fifteen university business days of receiving the appeal. (Committee deadlines may be suspended during summer.) The committee may lessen the sanctions but may not increase the course-based sanctions. The faculty appeals committee’s decision will be final, and there will be no further appeal of the faculty member’s decision. If the student is exonerated, no further action will occur.

School/College-Based Procedures

If the student chooses to appeal and the appeal is not upheld or the student chooses not to appeal the faculty member’s actions, the student’s dean has the option of adding sanctions. Consequences may include loss of school/college-based scholarship funds, community service, or dismissal from the school/college. The dean can not change the student’s grade. The dean must notify the student within 10 university business days of the decision to impose additional sanctions. The appeal process is increased to 21 calendar days when the dean’s letter must be mailed to a student then residing outside the United States. If the 10th day (or 21st day, in the case of a student then residing outside the United States) falls on a weekend or university holiday, the appeal is due on the next university business day.

Appeal

The student, within 10 university business days after the date of the written notification of sanctions, imposed by the dean of the student’s college/school, may appeal, in writing, to the provost/VPAA or assistant provost. The provost/VPAA or assistant provost’s decision is final, and there will be no further appeal.

Loss of Privilege to Withdraw From a Course

A student who has violated the academic honesty policy shall lose the privilege of withdrawing from the course in which the violation occurred in order to avoid the collateral consequences of sanctions which may be imposed by the faculty member teaching the course.

Provost/VPAA-based Procedures

The Office of the Provost will keep a file of all student violations of the academic honesty policy across the university. The provost/VPAA or assistant provost may, at their discretion, convene the Student Probations and Petitions Committee to consider dismissal of the student from the university for grievous or repeated violations of the academic honesty policy. The provost/VPAA or assistant provost must inform the student at least 10 university business days prior to the time the Student Probation and Petitions committee meets. The student has the right to appear before the Student Probation and Petitions Committee. The Student Probation and Petitions Committee will convene and render a decision regarding dismissal of a student from the university or other actions. The decision of the Student Probation and Petitions Committee is final and can not be appealed. Students dismissed from the university for academic honesty violations will not be eligible for readmission.

Grievance Procedure for Grade Appeal

A grade awarded by the course instructor is presumptively correct, and the instructor’s determination is generally final.
Other than for mathematical or data entry errors, no final grade can be changed except on proof of exceptionally egregious circumstances as defined below.

If a student has reasonable grounds to believe that a final grade received or final academic judgment made with respect to him or her in any course or program of study was based on violation of established university policies, procedures, or regulations, substantial error, bias, or miscarriage of justice, the student may, within 10 school days of the receipt of the final grade, initiate a grievance. School days are defined as Monday through Friday when classes are in session, excluding breaks, final exam periods, and holidays. Grievance procedures for students attending programs outside the United States must be facsimiled or emailed within 28 calendar days in order to meet the remainder of the deadlines. The process is composed of both informal and formal procedures.

**I. Informal Grievance Procedure**

A  The student should communicate with the instructor in an attempt to resolve the issue.

B  If, after communicating with the instructor (or if, after reasonable effort on the part of the student to contact the instructor, she or he remains unavailable), the student still believes that the grade is based on violation of established university policies, procedures, or regulations, substantial error, bias, or miscarriage of justice, the student may take the grievance to the chair of the department in question. The chair will attempt to mediate the dispute. If there is no chair or the chair taught the course in question, the student should proceed to section II.

**II. Formal Grievance Procedure**

A  Only if the issue is still unresolved after meeting with the chair of the department, as outlined in section I, the student may initiate the formal grievance process with the dean. **Note:** If the dean taught the course, the assistant provost will undertake the dean’s responsibilities in the grievance procedure. The levels of action are clearly defined and include strict time limits designed to effect speedy resolution. No formal appeals procedure will be enacted if six months or more have elapsed since the incident. It is the responsibility of the student to initiate the process and follow it through. Failure of the student to move the appeal forward in the specified time limits will terminate the appeal.

1  The student will first present their appeal to the dean of the college or school. The appeal will be in writing, in as much detail as possible, stating all aspects of the issue that the student believes pertinent. Grounds for review are limited to violation of established university policies, procedures, or regulations, substantial error, bias, or miscarriage of justice. Copies of pertinent material in the student’s possession or access will be included as appropriate.

2  Upon receipt of the material provided in section I, the dean will determine, within five school days, if the student has a prima facie case. If the dean determines that insufficient evidence has been presented by the student, he or she will dismiss the appeal. If the dean determines that there is evidence that, if believed, would constitute a prima facie case, the dean will provide, within 10 school days of this determination, a copy of the written material to the faculty member in question. The dean will request a written response that details as completely as possible the position/opinion of the faculty member on all issues raised. Copies of exams, assignments, grade books, or other relevant information will be submitted with this response. The instructor will have 10 school days in which to prepare their response.

3  The student will be given the opportunity to review the instructor’s response and to provide additional written comments to the dean. This response will be given within five school days of the receipt of the faculty member’s response to the dean. The dean will then render a decision on the appeal within five school days. The dean or their designee has the right to request, from any party, any additional information he or she believes is pertinent and appropriate. However, the request for information will not extend the five-day response period above. Unless the dean determines that sufficient evidence exists to support the student’s allegation, the dean will deny the appeal. The dean has the authority to deny the appeal or forward the appeal to the assistant provost, who will convene the Student Probation and Petitions Committee. The dean does not have the authority to change the grade, but may make a recommendation to the committee.

B  Either the student or the faculty member may appeal the dean’s adverse decision within five school days of the receipt of the dean’s decision by giving written notice of intent to do so. Upon such written notice to the dean, the dean will forward copies of all material to the assistant provost, who will convene the Student Probation and Petitions Committee, which must meet within 10 school
days of receipt of the appeal. Note: If the faculty member who taught the class involved in the appeal is a member of the Student Probation and Petition Committee, the faculty member must recuse him or herself from the committee during the appeal. The committee will review all documentation and reach a decision. The committee may request additional documentation if it believes it is appropriate to do so and may adjourn until the documentation is available. Both parties have the right to appear before the committee; however, to the fullest extent possible, the decision will be based on the written documentation provided. The committee will uphold the originally issued grade unless it finds substantial evidence of violation of established university policies, procedure, or regulations, substantial error, bias, or miscarriage of justice. The committee’s decision will be rendered as soon as practical after receipt of the documentation, but must be rendered within 30 days.

C If the committee determines that the above described process has not been followed correctly, the committee will order a rehearing of the case following the correct process.

D The decision of the committee is final.

**Academic Probation and Dismissal**

Graduate students whose cumulative GPAs fall below 3.00 will be placed on academic probation. A graduate student on probation is limited to 9 hours per term. Any exceptions to that limit must be approved by petition submitted through their advisor and dean and received in the Registrar’s Office. Students on academic probation must raise their cumulative GPA to 3.00 or higher within the next nine credit hours attempted or will be dismissed from the degree program. Students who may need more than nine credit hours to be removed from academic probation may submit an appeal for an extension to the Student Probation and Petitions Committee and, if granted, are to maintain a 3.00 or higher GPA for courses taken in the interim. No student may graduate on academic probation, i.e., with a cumulative GPA below 3.00.

Individual schools, colleges, and graduate programs may establish academic standards more stringent than those stated here. In such cases, the student’s appeal is heard by the Student Probation and Petitions Committee. The committee will consider the appeal based on the program’s standards. If the appeal is not granted and the student wants to move to another graduate program, they must apply for admission to that program and be accepted by the school or program to which they apply.

Only students who are in good academic standing may participate in extracurricular activities. Extracurricular activities are defined as activities such as athletic competitions, artistic performances, and academic competitions that are not required by the student’s course work or major program. Students who are not in good academic standing will be prohibited from representing the university in the participation in intercollegiate athletic events, artistic performances except as required for their course work or degree requirements, and intercollegiate academic contests. Traveling with athletic teams, performance groups, or academic teams also will be prohibited.

The Law School, Physical Therapy Program, and Physician Assistant Program are excluded from the aforementioned policies. The Remediation and Probation Policy of Master of Physician Assistant Studies Program is listed within the Physician Assistant Program Academic Standards. The Academic Standards for the Doctor of Physical Therapy Program are included in the D.P.T. Program Student Handbook. The Law School Academic Standards and Regulations are available at [http://law.okcu.edu/?current=scholarly-life/academic-handbook/](http://law.okcu.edu/?current=scholarly-life/academic-handbook/).

**Readmission Policy for Students Dismissed for Poor Academic Performance**

A student who is dismissed from the university for academic reasons must wait one full academic year before applying for readmission. The latest date by which readmission requests must reach the Office of the Registrar in order to be considered for earliest possible readmission will be indicated in the letter of dismissal. The Student Probation and Petitions Committee will review any request for readmission. Requests for readmission will be reviewed prior to the semester in which the student is eligible to re-enroll.

**Appeal Procedure for University Academic Dismissal**

A student has the right to appeal a university academic dismissal due to substandard academic performance. The student may, within 14 calendar days (excluding university holidays) of the receipt of the written notice of dismissal, initiate an appeal in the following manner:

1. The student must submit a written appeal to the registrar. The appeal should have as much detail as possible,
stating all aspects of the issue that the student thinks pertinent. It is the responsibility of the student to initiate the process and follow it through. Failure of the student to move the appeal forward in the specified time limit will terminate the appeal.

2 After making a determination that the appeal is filed in a timely manner, the registrar will convene the Student Probation and Petitions Committee to consider the student’s appeal within 10 school days of its receipt. School days are defined as Monday through Friday, when classes are in session, excluding breaks, final exam periods, and official university holidays. The Student Probation and Petitions Committee will review all documentation and reach a decision on the appeal. The committee may request additional documentation and may postpone the hearing until that documentation is available. The student has the right to appear before the committee; however, to the fullest extent possible, the decision will be based on written documentation provided.

3 The committee may affirm the decision to dismiss, overturn the decision to dismiss, or qualify the decision to dismiss.

4 If the committee affirms the decision to dismiss, the provost may review the documentation to determine that these procedures were followed. The provost’s review will only address procedural matters.

5 The assistant provost will notify the student within three school days of the decision of the committee.

6 A student who is matriculated in a graduate degree program at Oklahoma City University (except in the School of Law) is granted only one opportunity to appeal any dismissal for substandard academic performance. If the outcome of that appeal is reinstatement, any subsequent dismissal for substandard academic performance is final and may not be appealed.

Note: The Law School, the Doctor of Physical Therapy Program and the Physician Assistant Studies Program are excluded from the aforementioned policies. The Remediation and Probation Policy of the Master of Physician Assistant Studies Program is listed within the Physician Assistant Program Academic Standards. The academic standards for the Doctor of Physical Therapy Program are included in the D.P.T. Program Student Handbook. The Law School Academic Standards and Regulations are available on the Law School’s website under Academic Policies (www.law.okcu.edu/academicpolicies).

Graduation Procedures and Commencement

Graduate degree candidates should check with their program directors on their progress toward satisfying graduation requirements during the semester preceding final enrollment.

A student cannot graduate with more than 6 credit hours below B- in that graduate program. Degree candidates must meet their program’s graduation requirements upon completion of their program. Grades below a C cannot count for graduation. Degree candidates must have a cumulative GPA of not less than 3.000 in hours attempted for the graduate program in which the degree will be conferred. Only courses taken at Oklahoma City University are used in calculating the GPA.

There are three graduation dates (fall, spring, and summer) and one commencement ceremony (May). Students completing degree requirements in the fall participate in the following May commencement ceremony. Students completing degree requirements in the spring term of an academic year participate in the May commencement ceremony following the end of that term. Students completing degree requirements in the summer terms participate in the May commencement ceremony of that same academic year. Students should complete the application for graduation by the appropriate deadline published in the academic calendar.

Before filing the application for graduation, each candidate should contact their academic advisor to initiate a final degree review. A final degree certification must be submitted to the Registrar’s Office by the appropriate dean. Consult the appropriate pages under education for the requirements pertinent to certification.

Before filing the application for graduation, each candidate should contact their dean to initiate a final degree check. A final degree certification must be submitted to the Registrar’s Office by the appropriate dean. Consult the appropriate pages under Education for the requirements pertinent to certification. The commencement ceremony is ceremonial only. Degree conferral is dependent upon completion of degree requirements. Responsibility for meeting graduation requirements lies with the student.

The date recorded on a diploma will be the conferral date (fall, spring, or summer) following the semester or summer term in which the student completes all requirements for the degree based on the last day of the course(s). The date recorded on a diploma for a degree with a required comprehensive exam will be the next conferral date after all requirements, including any comprehensive exams, have been successfully completed.
The Office of the Provost coordinates the commencement ceremonies for the university. Graduates are required to wear the appropriate cap and gown to participate in the ceremony. The only cords or stoles permitted to be worn with a graduate’s academic dress during the ceremony are those awarded by the university or honor societies of the university or university campus organizations.

**Graduation Honors**

The university recognizes the academic achievements of its candidates for degrees by the following honor awards:

- **High Honors** — a cumulative GPA of 3.900 or higher
- **Honors** — a cumulative GPA of 3.750–3.899

Courses that are nongraded or graded as credit/no-credit may not be included in the minimum hour requirements. To determine honors candidates for the commencement ceremony, the GPA and the hours accumulated through the semester prior to commencement will be calculated. For the official honors designation which is placed on the transcript and the diploma, the final semester’s hours and grade points are included. Only the GPA of hours completed at Oklahoma City University will be used in the calculation of graduation honors eligibility.

**University Honors**

- **Phi Kappa Phi**

  Phi Kappa Phi is an all-discipline national honor society. Undergraduates, graduate students, faculty, professional staff, and alumni are eligible for membership. The organization is more than 100 years old, and election is by invitation only. The mission of Phi Kappa Phi is “to recognize and promote academic excellence in all fields of higher education, and to engage the community of scholars in service to others.”

**Study Abroad**

While most study abroad programs are designed for undergraduate students, graduate students are encouraged to explore available opportunities such as language immersion programs and internships abroad. Some Oklahoma City University faculty-led study abroad programs are open to graduate students. Global opportunities at Oklahoma City University expand each year. For details about all study abroad programs, see the Study Abroad website: [www.okcu.edu/academics/global/studyabroad](http://www.okcu.edu/academics/global/studyabroad) or contact the office at studyabroad@okcu.edu.

Law students may select from several programs offered through the law school each summer. For more information, see the law school’s study abroad website or contact the director of international programs at (405) 208-5125.

**The Jeanne Hoffman Smith Center for Film and Literature**

The Center’s mission is to develop creative programs that engage individuals on the intuitive and experiential levels to understand themselves and others through film and literature. Begun in 1997, the Center brings distinguished creative writers to campus each year. Featured award-winning writers have included Chris Abani, Jimmy Santiago Baca, Ellen Bass, Richard Blanco, Jericho Brown, Lucille Clifton, Nikky Finny, Carolyn Forche, Mark Doty, Claudia Emerson, Andrea Gibson, Terrance Hayes, Marie Howe, Jane Hirshfield, Li-Young Lee, Naomi Shihab Nye, Michael Ondaatje, and Alberto Ríos, as well as Poets Laureate Simon Armitage, Billy Collins, Joy Harjo, Ted Kooser, Robert Pinsky, Charles Simic, Tracy K. Smith, and Natasha Trethewey. The Center also facilitates the annual Film Institute, open to campus and the community; develops an archive collection of quality DVDs with an emphasis in international, independent, and classic films; holds a book discussion group for the University and community; hosts high school students and teachers on campus for workshops and conferences; sponsors select OCU students in special creative opportunities; and collaborates with other campus and metropolitan organizations on a variety of creative projects in relation to the Center’s mission. The director teaches university courses related to the mission, and the work and development of the Center are supported by an advisory committee and the Thatcher Hoffman Smith Endowment Fund. More programming details may be found at [www.okcu.edu/film-lit](http://www.okcu.edu/film-lit).

**Dulaney-Browne Library**

The Dulaney-Browne Library is the main source for library collections and services for all non-law students, faculty and staff.

Library resources and services are available in the five-story Dulaney-Browne Library building in the center of the main campus, on the library’s web page at [www.okcu.edu/library](http://www.okcu.edu/library), and in the Leichter Listening Library. Resources include books, journals, video recordings, audio books, musical recordings, and musical scores in traditional and electronic formats. Librarians provide assistance in finding information in the library, through video-conferencing, over the telephone, via email, and by chat or text message. Librarians also offer formal instruction to individuals and groups in the use and evaluation of information resources. Other services include study spaces, and basic computer and printing assistance. The library’s special collections include the University Archives, the Oklahoma United Methodist Archives, and the Shirk Oklahoma History Center, the Foundation Center Cooperating Collection, and the Center for Interpersonal Studies through Film and Literature Film Collection.

The Dulaney-Browne Library building is also the home of the Learning Enhancement Center, the Center for Excellence in Teaching and Learning, test proctoring services, and the Disability Services office.

The Leichter Listening Library, located in the Wanda Bass Music Center, houses physical music recordings and scores and the office of the music librarian.

The Chickasaw Nation Law Library, located in the downtown campus (8th and Harvey), focuses on resources for law students and faculty, but is open to all students, faculty, and staff during regular business hours.

The Dulaney-Browne Library cooperates with other libraries in Oklahoma and around the world to provide students, faculty, and staff with access to their collections through OK-Share (a cooperative library card for Oklahoma academic libraries) and interlibrary loan (delivery to the library user of articles and books from other libraries).

Please contact the library at (405) 208-5068, (405) 445-3636 (text), or [AskALibrarian@okcu.edu](mailto:AskALibrarian@okcu.edu); or visit during regular library hours (Monday–Thursday 7:30 a.m.–midnight, Friday 7:30 a.m.–7 p.m., Saturday 10 a.m.–7 p.m., and Sunday noon–midnight) for more information.
Learning Enhancement Center (LEC)

The LEC offers help in three areas: writing consultations, subject-specific tutoring, and academic coaching. Peer Educators specializing in writing will be available to help you with many of your writing woes – from narrowing down a topic, citing references in APA or MLA, as well as outlining, paragraph development, basic grammar, and many other steps of the writing process which will have you on your way to a top notch paper.

Subject-specific experts provide tutoring services in the following subjects: math, science, statistics, music theory, economics, and English conversation. These Peer Educators can break down complex ideas and processes and will work one-on-one to help you feel more confident before your next test.

Academic coaching Peer Educators help students with skills such as organization, time management, study habits, prioritizing, and navigating campus resources. This resource can help students who may not be struggling with a specific subject, but need guidance with the challenges that college can present.

Students may schedule 50 minute appointments for all the above areas by going to the LEC website at http://libguides.okcu.edu/lec. The LEC is open Monday through Thursday, 10 a.m.-7 p.m., and Friday 10 a.m.-5 p.m. and is located on the first floor of the Dulaney-Browne Library.

Disability and Access Services

Disability and Access Services [DAS] are integral to a student’s transition to higher education, particularly for those who need academic or housing accommodations. DAS at Oklahoma City University [OCU] provides a variety of accommodations to students with documented disabilities on an individualized case-by-case basis. OCU’s responsibility is to provide reasonable accommodations on a case-by-case basis and to assist the University in providing an equal and equitable opportunity for students with disabilities to participate in the institution’s programs, activities, and services. DAS is the official contact for students with documented disabilities who wish to request accommodations to mitigate the impact of certain educational barriers. It is the responsibility of students to complete an application and provide appropriate documentation to be considered for reasonable accommodations. The DAS staff also serve as a conduit between the faculty and staff of the University and the students in the event any questions or concerns arise.

Students who would like to begin the process for reasonable accommodations for academics or housing need to complete the DAS application and provide documentation from a provider who has diagnosed the disability or treated the student’s disability long enough to be familiar with the substantial and functional limitations and how the requested accommodations will remove a barrier for the student. The application can be accessed at this link: www.okcu.edu/campus/resources/disability-access or you can direct any questions to the DAS email at: das@okcu.edu.

Computer and Information Resources

Campus Technology Services maintains a centrally-located area dedicated to assist students with technology-related questions and issues. The Help Desk is located on the lower level of the McDaniel University Center, Room 136, and is staffed by trained technicians familiar with both Microsoft and Apple operating systems. The center offers a variety of student support services including:

- Walk-in and telephone support
- Technology-related consultation
- Virus and malware removal
- Installation of campus-licensed software applications such as Microsoft Office
- Assisted hardware upgrades
- Training
- A web-based issue and support tracking system

Finding a computer to use on campus is easy with many computer labs and public computers in locations spread conveniently across campus. Hours vary by location. Microsoft Office and other productivity tools are available in these locations. Printing and copying services can be found in the library and throughout campus. Each semester students receive an allotment for printing via their OCU ID cards. All students are issued a user ID and password, which are required to log into the campus network to use the labs and access printing services.

Email accounts are provided to all students and can be accessed through a web browser and most email applications. Additionally, all students are provided cloud storage space to easily store and access their important files from anywhere on the Internet.

Most residence hall rooms have wired network connections. Wireless network connectivity is available throughout the campus, including dorm rooms. Personal wireless access points, routers, and switches affect the accessibility and strength of the campus wireless network and are therefore
prohibited in order to maintain the integrity of the campus wireless network.

To learn more about technology resources, find answers to common questions, request IT services, or seek out support with an issue you are having with technology, visit the Campus Technology Services support portal at [https://help-desk.okcu.edu](https://help-desk.okcu.edu). If you cannot find what you are looking for at the support portal, you can either submit a support ticket through the portal or call the 24x7 support line at (405) 208-5555 to speak with a technician.
Petree College of Arts and Sciences

Dr. Amy E. Cataldi, Dean, Dr. Karen E. Schiler, Acting Associate Dean

General Information ................................................................. 46

Petree College of Arts and Sciences

Academic Policies

The following academic policies apply only to the graduate programs in the Petree College of Arts and Sciences—Master of Arts in nonprofit leadership, Master of Fine Arts in creative writing, Master of Arts in criminology, Master of Science in criminology, Master of Science in computer science, and Master of Education. Please see specific program descriptions for more details on policies in each program.

Transcript Requirements

No student will be admitted to a graduate program in the Petree College of Arts and Sciences without submitting complete, official transcripts from all institutions attended with evidence of an undergraduate degree or equivalent to a United States bachelor’s degree. Failure to submit all transcripts will result in immediate dismissal.

Maximum Number of Transfer Credits Accepted

Six credits may be accepted for transfer from other regionally accredited institutions. In exceptional cases, more credits may be transferred with the approval of the program director and dean.

Master’s degree programs in the School of Liberal Arts and Sciences will accept a maximum of 6 credit hours of approved courses from other graduate degree programs at Oklahoma City University.

Age of Transfer Credit Accepted

Generally, only course work completed within five years of admissions to Oklahoma City University will be accepted for transfer credit. In exceptional cases, course work completed within ten years of admission may be transferred with the approval of the program director and dean.

Minimum Residency Requirements

The minimum number of hours in residence for each program may be calculated by subtracting the number of transfer credits allowed from the total number of hours needed to graduate. Transfer credits are not accepted after a student has begun a graduate program except with approval of the program director and dean.

Maximum Number of Below B- Grades Allowed

A maximum of 6 credit hours below B- are allowed. No grades below C- will be accepted.

Maximum Number of Repeat Courses

A course may be repeated only once. Students may have only two repeats in a graduate program. If, after repeating a course, a student fails to receive at least a C-, the student will be automatically dismissed from the university.

Academic Probation Policy

Programs in the Petree College of Arts and Sciences follow the university’s academic probation policy. See the Academic Regulations section of this catalog.

Academic Appeals

The university academic appeals process will be followed by the graduate programs of the Petree College of Arts and Sciences, with one notable exception. A Graduate Programs Committee composed of the graduate program directors, the associate dean, and the dean will hear all grievances. An appeal to this committee will take the place of an appeal to the dean in the academic appeals process. The dean will chair the Graduate Programs Committee.

Applying for Readmission

A student who has been dismissed from the university must wait a full academic year before applying for readmission.

Maximum Course Load

Students may enroll in a maximum of 12 hours in each of the fall and spring semesters, 6 hours in each of the summer terms. In exceptional cases, a student may enroll in more hours if approved by the program director and dean.

Independent Study/ Directed Reading Hours

The maximum number of combined independent study and directed readings hours allowed during graduate studies is 6 hours. In exceptional cases students may take more
than 6 hours of independent study/directed readings with approval of the program director and dean.

**Incomplete Policy**

Petree College of Arts and Sciences follows the university’s incomplete policy. In addition to the normal university requirements, all students must sign a contract with their professors regarding assignments to be completed and deadlines for course completion. If course requirements are not completed in the agreed-upon period of time, the I (incomplete) will be removed and converted to a grade indicated in the contract.

**Time to Finish a Degree**

Graduate degrees must be completed within six years.

Master of Education in Applied Behavioral Studies

**Director:** Wilson

**Adjunct Faculty:** Dunlevy, Faughty, Murunga, Pfaff, Tassey

The one year, 33-hour fast-track master’s degree in applied behavioral studies is designed for pre-counseling and related professionals who are involved in the fields of learning, development, and group processes in human behavior settings such as mental health facilities; government, business and industry; and organizational contexts. This program has been approved by the Oklahoma Department of Mental Health and Substance Abuse Services and the Oklahoma Healthcare Authority to meet educational requirements to become a Certified Behavioral Health Case Manager. Those interested in becoming a Licensed Professional Counselor (LPC) can do so through participation in this 33-credit hour program and by taking five additional courses.

Examples of those who might be interested in this degree would include workers in mental health, human development, consulting, teaching, adult learning, human resources, training and development, human services, and student personnel.

The program is designed for fall admission (first 8-week term) and is “fast-track” in that most of the courses are offered in a once-per-week, eight-week session. Most classes require a one weekend seminar. This allows full-time students beginning in the fall to finish the 33-hour program in one year and part-time students beginning in the fall to finish in two years. Some summer course work is required. The full-time student will take two courses at a time, and the part-time student takes one course at a time.

**Academic Honesty**

Graduate students in the applied behavioral studies programs are expected to conduct themselves in an ethical and professional manner at all times. When submitting academic work, students must abide by the academic honesty policy stated in this catalog. Any act that violates the academic honesty policy will incur a penalty up to and including expulsion from the graduate program and the university.

[curriculum/sequence subject to change]

Because this is a “pre-counseling” program, the philosophy section of the professional counseling track also applies to the 33 hour applied behavioral studies curriculum.

---

**M.Ed. in Applied Behavioral Studies—Professional Counseling**

The Petree College of Arts & Sciences at Oklahoma City University offers the Master of Education (M.Ed.) in Applied Behavioral Studies—Professional Counseling. It is designed to train students to become professional counselors in Oklahoma and render services to individuals, groups, and families experiencing normal adjustment difficulties of a personal, social, or career nature in settings such as community counseling centers, mental health clinics, guidance centers, human service agencies, drug and alcohol treatment facilities, university counseling centers, abuse shelters, religious counseling centers, and private practice (once licensure is attained). Students are encouraged to secure internships in settings consistent with their specific areas of professional interest.

**Structure**

To attain the professional counseling concentration, the student must accrue at least 60 credit semester hours, including field experience. Because space is limited, not all qualified applicants are admitted. The sequenced, mental health program of study is designed to meet the Oklahoma academic requirements to become a Licensed Professional
Counselor (LPC) as set forth and granted by the State Board of Behavioral Health.

**Portability Statement:** It is the responsibility of the prospective student/applicant/student to determine degree portability to another state.

Students first meet academic requirements for the 33 hour M.Ed. in Applied Behavioral Studies (ABS), then complete five more courses (including field experience) to have the “Professional Counseling” designation added to their transcript. This brings the total to 60 credit hours (as required by statute).

Most courses are offered in the evening, but flexible daytime schedules are necessary for Practicum and Internship. The program is designed for fall admission and is “fast-track” in that most of the courses are offered in a once-per-week, eight-week session. This allows full-time students beginning in the fall to finish in two years (and part-time students beginning in the fall to finish in about four years; a 3-year plan of study is also available for those starting full-time, then changing to part-time, or vice-versa). Some courses, such as Practicum and Internship will be offered in the traditional 15-week semester. Each 3 credit hour course requires a one-weekend seminar, while 4 credit hour courses will require more. Some summer course work is required.

**Philosophy**

Emphasizing a practitioner-wellness model, counseling at Oklahoma City University is viewed as an integration of art and science. As such, the counselor’s effectiveness becomes a product, in part, of personal awareness and creativity. The “experiential” philosophy of the program reflects this belief by emphasizing students’ personal growth and development as critical in the training of counselors. It is therefore assumed that students not only desire, but also intend to pursue the inspection of their personal identity, growth, and development—both inside and outside the classroom—as an integral part of their graduate studies in counseling at Oklahoma City University.

**Continuation and Candidacy**

At any point during the ABS program, if the academic unit has reason to believe the student has demonstrated impairment or “fitness” for clinical studies is questioned, the unit reserves the right to suspend, terminate, or impose remedial work.

Near completion of the 33 hour M.Ed. in Applied Behavioral Studies, students will be evaluated and must “advance to candidacy” in order to continue study toward the professional counseling concentration (for those seeking the LPC). This requires grades of at least 3.00 in each course as well as a pleasant personality and demeanor and demonstration of a high degree of professionalism, judgement, ethical behavior, and a noncombative, nonabrasive attitude on campus with faculty and students as well as off-campus
with supervisors. An oral candidacy interview may also be requested.

**Ineligibility for Violent Crime and Other Criminal Convictions**

Persons convicted of violent crimes, as defined in Title 57, Section 571, of the Oklahoma Statutes, (or comparable crimes as defined by the laws of any jurisdiction) are ineligible for candidacy. Persons convicted of other felony crimes and some misdemeanor crimes, may also be ineligible for candidacy.

**Probation Policy**

If a student’s GPA falls below a 3.00 before or after candidacy, he or she will be placed on academic probation with one semester to raise the GPA to 3.00 or higher. A student placed on probation twice may be disqualified from continuation.

**Ineligibility for Violent Crime and Other Criminal Convictions**

Persons convicted of violent crimes, as defined in Title 57, Section 571, of the Oklahoma Statutes, (or comparable crimes as defined by the laws of any jurisdiction) are ineligible for candidacy. Persons convicted of other felony crimes and some misdemeanor crimes, may also be ineligible for candidacy.

**Drug Policy**

Please refer to the “Alcohol and Other Drug Policies” in the Student Handbook.

**Graduation Requirements**

Students must earn at least a 3.00 cumulative GPA and be in good standing in order to graduate. Only one course grade below B- is acceptable. Under no circumstances is a grade below C acceptable.

**Admission Criteria for ABS**

1. An earned bachelor’s degree from a regionally accredited college or university recognized by the U.S. Department of Education (or its foreign equivalent recognized by the country in which the degree is granted).
2. Minimum undergraduate GPA of 3.00. Students may be admitted on probation, at the discretion of the program director, with a cumulative GPA of 2.75 to 2.99.
3. Two electronically completed recommendation letters from college instructors. If bachelor’s degree is more than three years old, a significant sample of former scholarship can be submitted in lieu of one instructor’s letter. In this case, the other letter may be from a supervisory person from applicant’s employment.
4. Official transcripts from all academic institutions attended.
5. Ability to effectively communicate in English (both written and oral).
6. A personality/disposition deemed suitable for the helping and crisis intervention disciplines.
7. Students whose native language is other than English must demonstrate proof of English language proficiency. Required: TOEFL internet-based test (iBT) score of 79 or higher, an overall IELTS score of 6.5 with, at least, a 6.0 on each sub-band.
8. Individuals may be asked to supplement their application. Supplemental materials may include, but are not limited to, interviews, writing samples, and course work.
9. Applicants who are admitted can only start in the first 8-week term of the fall semester. The deadline to submit completed applications for fall admission will be exactly three weeks prior to the beginning of the semester. For those who could qualify for admission on academic probation (due to GPA), the deadline is exactly one month prior to the beginning of the semester. Be advised that because the ABS admissions committee has to convene, realistically, application should be submitted well before the deadline.

**Admission on Probation**

Students admitted on probation to the program must achieve a cumulative GPA of 3.00 or higher in the first 9 credit hours taken and earn a “B” or better in each course in order to continue in the program. Students admitted on probation must enroll on a part-time basis until these conditions have been met.

**Master of Science in Computer Science**

**Director:** Maxwell

**Faculty:** Aboudja

The Master of Science in computer science degree offers professional development and enhancement of skills, in-depth study of computers, and a balance of abstract
knowledge and practical understanding. The program is designed to aid and encourage professional development for persons in computer or computer-related fields. It is designed for students who desire to enhance their computer skills, extend their expertise in computer science as a new field, enhance their credentials, enter the job market as a computing professional, or pursue a Ph.D. in computer science. The curriculum is structured to permit students to strengthen their understanding of the complexities of computers and computer applications.

Undergraduate Prerequisites

All graduate students, depending on their undergraduate background, may be required to complete undergraduate courses as prerequisites, specifically Operating Systems, Discrete Mathematics, and Data Structures. Transcripts will be evaluated on an individual basis by the graduate advisor.

Students with Three-Year Undergraduate Degrees in Computer Science

Before a student with a three-year undergraduate degree is admitted to the graduate program, he or she must complete 32 hours of undergraduate course work. These courses may include no more than 9 hours from any one discipline other than computer science in order to ensure a broad academic background. The student may enroll in a limited number of graduate courses during this time with the permission of their advisor.

Students with three-year undergraduate degrees may wish to select undergraduate courses such that he or she also earns an undergraduate degree from Oklahoma City University. He or she must complete the courses necessary to complete the general education requirements, the minimum hours for the degree, and all computer science major requirements. Completion of an undergraduate degree from Oklahoma City University is not necessary to gain admission to the graduate program.

Students with Three-Year Undergraduate Degrees in Fields Other than Computer Science

Prior to beginning graduate course work, 32 hours of undergraduate class work are required. These courses are taken from the following, as needed:

Master of Fine Arts in Creative Writing (M.F.A.)

Director: Cohen
Faculty: Amend, Berney, Mish

Program Description

The Master of Fine Arts in creative writing is a terminal degree in creative writing. Students work with faculty mentors to create a manuscript-length work of creative prose in fiction, nonfiction, poetry, or another creative genre with approval of the program director. Students also undertake critical work in the form of analysis of writing craft and readings in masterworks of their genres. Students may elect to pursue secondary genre study and/or strands in pedagogy, or professional writing.

Structure of the Program

This is a two-year program which includes five online residencies—one each summer and each winter, plus one at the end of the program—for periods of 10 days. Students will complete 12 hours of course work each fall and spring semester for two years, for a total of 48 credit hours. The final residency will include a public reading and defense of the thesis.

Learning Outcomes

Students pursue holistically designed writing craft courses and electives according to a curricular plan co-devised with their academic advisor. Learning outcomes are those which strengthen and fulfill each student’s stated goals, which may vary from personal enrichment to career development as teachers, editors, or authors.

Admission Requirements

In addition to the general graduate admission requirements established by Oklahoma City University, all students seeking admission to the Master of Fine Arts in creative writing must submit the following:

1. A sample of creative work in the genre (poetry, creative nonfiction or fiction, including genre fiction and YA) in which she or he wishes to work, no more than 20 pages long.
2. A two- to three-page personal statement responding to each of the following prompts:
   1. Write about a book that you have read recently. Explain, with specific references to the book and to craft elements*, why that book did or did not work for you.
   * (Craft elements: plot, characterization, setting, scenes, metaphor, line breaks, imagery, sonics, etc.).
   2. Explain your preparation (academic or personal) for an MFA program. Explain why an online residency program will work for you.
   3. Two confidential letters of recommendation. Please request reference letters from professors, co-workers, supervisors, colleagues, or other people who can describe you in terms of the following characteristics:
      • Self-discipline (being a “self-starter”).
      • Ability to take criticism and follow guidance.
      • Ability to plan for and meet deadlines.
      • Camaraderie/ability to work with others.

Reference letters which do not respond to the characteristics listed above will not be considered.

Admissions decisions will be made by a committee including the Program Director and faculty members who teach in the writing sample’s genre. Applications are ranked, in order, by writing sample quality, personal statements, and letters of recommendation. For more information, contact the MFA director by email: MFADirector@okcu.edu

Master of Arts and Master of Science in Criminology

Associate Director: Green
Faculty: Meinhart
Adjunct Faculty: Buckley, Cochran, Horn, Warehime, Wolf

The mission of the Criminology department at Oklahoma City University is to provide a curriculum that offers a broad view of crime and justice. Students pursuing a master’s degree in criminology receive a strong background in the study of crime and justice that integrates theory, research, and practice.

The faculty adopts a holistic approach to the study of crime and justice. All of our full-time faculty hold terminal degrees in criminal justice, sociology, or justice studies. Our program offers an interdisciplinary approach that helps students understand the causes, correlations, and consequences of crime. Criminology students challenge normative assumptions regarding crime and justice through critical thinking and writing.

Students gain mastery of the knowledge, methods, and intellectual skills pertaining to the study of the causes, consequences, and responses to crime and its interaction with other areas of inquiry.

For further information on graduate policies, see the Graduate Academic Policies for the Petree College of Arts and Science.

Procedure for Admission

The application for admission to the program may be obtained from the Office of Graduate Admissions. The completed form, along with official transcripts of all previous college work and two letters of recommendation, should be returned to the Office of Graduate Admissions. The final decision for admission rests with the faculty in the sociology and criminal justice department. After the student receives notice of admission to the program, an interview should be arranged with the graduate advisor for advisement. Students must have taken an undergraduate statistics course and an introductory criminal justice course before beginning the Master of Arts or Master of Science in Criminology program. Students can be admitted under a conditional admit, while students take the undergraduate courses, during the first semester of the graduate program.

Admission Requirements

Unconditional Admission: Applicants must have an overall GPA of 3.00 and an undergraduate degree in one of the social sciences, including, but not limited to, psychology, sociology, criminal justice, corrections, police science, prelaw, political science, or history.

Persons convicted of violent crimes, as defined in Title 57, Section 571, of Oklahoma Statutes, (or comparable crimes as defined by the laws of any jurisdiction) are ineligible for admission to this program. Persons convicted of other felony crimes and some misdemeanor crimes, may be ineligible for admission to this program. If you have questions regarding convictions and program admissibility, please contact the program director.

Master’s Thesis Requirements

All graduates of the Master of Science in Criminology must successfully complete and defend a master’s thesis. Further information on thesis policies is available in this Graduate Catalog. Upon admission to the program, a student will determine a Course of Action Plan to successfully complete the requirement.

Practicum and Field Study Requirements

All graduates of the Master of Arts or Master of Science in Criminology must successfully complete three credit hours of either a practicum or field study. For a practicum, students must provide services to an entity working within the sphere of criminology. This will balance the theoretical underpinnings of many courses in the program with the application of
the field of criminology. Students can earn a tuition waiver for prior work experience within the criminology field. We will allow student to receive three hours of course credit for five years of relevant work experience (four consecutive years) and six hours of course credit for ten years of relevant work experience (eight consecutive years). Relevant work experience is defined by the department as meeting the following criteria:

- Work within the criminal justice system: law enforcement, courts, and/or corrections
- Work outside of clerical positions

To qualify for this plan, students will provide a portfolio for review of the department outlining the work experience as it relates to criminology. Then, the student must provide a presentation to undergraduates in the Sociology and Criminal Justice department discussing the connections of the MSC program to work experience. Upon admission to the program, a student will determine a Course of Action Plan to successfully complete the requirements.

**Accelerated Format and Time to Complete the Program**

Courses in the Master of Science or Master of Arts in Criminology degree are taught in an accelerated eight-week format in which classes meet once per week in the evening. Full-time students in the graduate degree program will typically be enrolled in two classes during each eight-week session. This will enable full-time students who are making satisfactory progress to complete their degree in one calendar year. Students may choose to complete the degree at a slower pace than this.

**Course Calendar**

The following calendar of course offerings is provided for planning purposes. Consult the program director for information about completing the degree at a different pace.
Master of Science in Criminology

**Summer Semester**

**Term V**
- MSC 5713 Resocialization of Law Violators
- MSC 6873 Practicum or Field Study

**Term VI**
- MSC Core Elective
- MSC 6383 Leadership in Criminal Justice

**Master of Arts in Teaching: Elementary Education**

**Fall Semester**

**Term I**
- MSC 6103 Critical Issues in Justice
- MSC 5103 Crime Victims

**Term II**
- MSC 5603 Advanced Research Methods
- MSC Core Elective

**Spring Semester**

**Term III**
- MSC 5863 Advanced Studies in Criminology Theory
- MSC 5823 Diversity and Crime

**Term IV**
- MSC 5363 Theories of Justice
- MSC Core Elective

**Summer Semester**

**Requirements for Certification**

Students may have already taken these courses in their bachelor’s programs. Additional courses may be taken at the undergraduate or graduate levels.

- Twelve credit hours each in English Language Arts, Social Studies, Science, and Mathematics.
- Six credit hours in a single foreign language.

**Certificate Studies in Educational Technology and Instructional Design**

The Education Department currently offers two certificate programs that lead to micro-credentials from the Oklahoma State Regents for Higher Education (OSRHE) for adults who have completed a bachelor’s degree and are seeking the opportunity to expand their expertise. The Educational Technology Certificate is designed to assist practicing educators in enhancing their knowledge and use of educational technology to promote learning within their classroom and school community. This 9-hour certificate includes a survey course of current educational technology, an innovative leadership course, and an educational technology in practice course that provides 1-3 hours of credit granted for evidence-based practical knowledge and experience.

The Instructional Design Certificate prepares practicing educators to create and implement highly effective learning experiences that integrate appropriate assessments and utilize relevant technology. This 9-hour certificate includes courses in the basic principles of instructional design, the assessment/instruction loop, and the creation of innovative and engaging learning environments that leverage educational technology in meaningful ways to meet the needs of all learners.

**Master of Arts in Nonprofit Leadership**

**Director:** Adele  
**Adjunct Faculty:** Hardiman, Hilger, Holmes, Macon, Sauer, Spinks, Thompson

**Program Description**

Nonprofit organizations are a powerful third sector, standing alongside the for-profit businesses and governmental entities that drive our economy and contribute to the quality of life we all enjoy. In today’s complex world, nonprofit organizations play an integral role in almost every facet of our society, and those working and volunteering in this sector demonstrate servant leadership in its purest form. Oklahoma City University is proud to offer several innovative options for those interested in enhancing their skills as leaders, either as paid employees or volunteers, in the nonprofit and arts sectors.

For those interested in a 36-credit hour Master of Arts degree, we are pleased to offer a customizable approach that allows each student to select from two different degree programs. For those wanting a smaller commitment, our 15-credit hour certificate option is designed to boost your understanding of specific facets of nonprofit leadership.

Oklahoma City University offers a Master of Arts degree in Nonprofit Leadership designed to develop the moral, ethical, professional, and scholarly knowledge, skills, and abilities of future servant leaders in the nonprofit sector. Nonprofit leadership has become a profession that demands prepared leaders with finely honed skills that are unique to the work. This program is designed for those interested in working in, and ultimately leading, causes related to animals, education, the environment, health, human services, international affairs, public society benefit, religion, and more. This program is synchronously delivered both in-person and via live-streaming in the evenings to fit a working professional’s schedule.

We also offer a Master of Arts degree in Arts Administration that builds on the nonprofit leadership training and expands it to include the nuances and needs of organizations specific to arts, culture, and humanities. This program will be offered entirely online beginning fall 2024.

Oklahoma City University currently offers a certificate option as an alternative to a full degree. The Nonprofit Leadership Certificate program is designed so students learn best practices in the respective areas by completing a series of carefully curated classes. This is a perfect complement to an existing degree.
Admission Requirements

Admission to the Nonprofit Leadership program requires completion of a bachelor’s degree from a regionally accredited college or university with a minimum GPA of 3.00 on a 4.00 scale. Probationary admission is considered, on a case-by-case basis, for applicants whose GPA is between 2.750 and 2.999. Please contact the Graduate Admissions office for further details and to start the application process. New students are admitted each fall and spring semester.

Accelerated Format and Time to Complete the Program

Oklahoma City University’s Master of Arts in Nonprofit Leadership and Master of Arts in Arts Administration programs may be completed in either one (1) or two (2) years, depending on each student’s goals. Classes are offered in 8-week blocks allowing students to complete as many as four (4) classes per semester while never juggling more than two (2) classes at any given time. Sample schedules and our suggested course sequence is available at okcu.edu/nonprofit. Offered both in-person and via live-streaming, the M.A. Nonprofit Leadership classes are held in the evenings. The M.A. Arts Administration classes are offered online to meet the scheduling needs of artists around the world.

Fast-track to Master of Arts in Nonprofit Leadership

This 4+1 track gives undergraduate juniors and seniors pursuing the Bachelor of Arts in the School of Religion a jump-start on a full Master of Arts degree in Nonprofit Leadership. This program allows two undergraduate courses to count towards coursework for the M.A. in Nonprofit Leadership.

Students in this program must take REL 4603 Leadership in Christian Education which can be petitioned to count for NONP 6123 Sociology of Leadership II. Students may also take one of the following courses at the undergraduate level. Only one course below will count towards the M.A. required classes. Please see the program advisor for full details of the program.

- NONP 4223 Resource Mobilization and Development in the Arts
- NONP 4413 Nonprofit Financial Oversight
Joint J.D./M.A. in Law and Nonprofit Organizations and Leadership

The School of Law, in conjunction with Oklahoma City University’s Petree College of Arts and Sciences (PCAS), offers a J.D./M.A. joint degree program designed to provide a meaningful combined experience for students with an interest in law and nonprofit organizations. The program culminates in the award of both the Juris Doctor and the Master of Arts in Nonprofit Leadership. The joint degree program allows candidates to earn the J.D. and M.A. in less time than would be required if the degrees were earned concurrently, but separately.

To participate in the program, students must be admitted to both schools. All of the usual entrance requirements apply. There is no required sequence for admission: students may apply and matriculate at either school first.

Students admitted to the School of Law who would like to be considered for the joint degree program should notify the law school’s admissions office. Their law school application file will then be forwarded to the university’s Graduate Admissions Office for possible admission to the PCAS’ Master of Arts in Nonprofit Leadership.

Current law students may apply to the PCAS at any time during the first two years of law school. Full-time law students must complete the first three semesters of law school without interruption and may not begin their M.A. coursework before the fourth semester of law school. Part-time law students must complete their first six semesters of law school without interruption but may begin their M.A. coursework during the sixth semester of law school.

A PCAS student must begin law school in the first August following their admission to the J.D. program and complete the first three semesters of the J.D. program without interruption.

Students who have been admitted to both the university’s J.D. program and the university’s M.A. program in Nonprofit Leadership should notify the School of Law’s registrar in order to receive the benefit of the joint program’s reduced number of credit hours for the J.D. degree. Students may do this by checking the appropriate box on their work statements during an enrollment period.

Joint degree candidates must complete 84 credit hours in the School of Law and 30 credit hours in the PCAS. This compares with 90 hours required in the School of Law and 36 hours required in the PCAS if the degrees were pursued separately.

In the School of Law, joint degree candidates must complete Nonprofit Organizations, Taxation of Charities and Nonprofit Organizations, and the Corporate Counsel Externship program (with a placement in a nonprofit setting). Candidates are encouraged (but not required) to complete Agency and Unincorporated Business Associations, Contract Drafting, and Client Representation in Negotiation and are also encouraged (but not required) to complete their upper-class writing requirement through a seminar paper dealing with nonprofit organizations. In the PCAS, joint degree candidates are exempt from taking Law and Nonprofits, Professional Project and Capstone.

Petree College of Arts and Sciences

Degree Requirements Credit Hours: 30
NONP 5873 Grant Writing 3
NONP 6013 Sociology of Leadership I 3
NONP 6113 Sociology of Leadership II 3
NONP 6213 Resource Mobilization and Development 3
NONP 6313 Law and Nonprofit Organizations 3

<td>Will, Trusts and Estates</td>
<td>4</td>
</tr>
</tbody>
</table>

Students with a GPA of 2.900 after both their second and third semester are exempt from this core course requirement.

d) Upper-class writing requirement, which students must satisfy before their last semester in law school.

e) Either a clinic or an externship for academic credit

f) At least six credit hours of courses identified as experiential courses on the course schedules of the School of Law

g) Advanced Bar Studies I and II, unless the student has a GPA at or above 3.250 at the time of registration for Advanced Bar Studies I.

Participants who are enrolled as full-time students in the School of Law must complete their first three semesters of law school without interruption.

In the School of Law, participants must complete Nonprofit Organizations, Taxation of charities and Non-Profit Organizations, and the Corporate Counsel Externship program (with a placement in a nonprofit setting).

Participants are encouraged (but not required) to complete Agency and Unincorporated Business Associations, Contract Drafting, and Client Representation in Negotiation and are also encouraged (but not required) to complete their upper-class writing requirement through a seminar paper dealing with nonprofit organizations.

**Doctor of Psychology**

**Director:** Hakman

**Program Description**

The Doctor of Psychology (PsyD) in Clinical Psychology provides advanced training in the scientific practice of professional psychology with commitment to evidence-based practice. This 120 hour degree program prepares students to provide evidence-based psychological services in a variety of settings to address a range of client mental health needs. A Master of Science degree is conferred after a student has completed their first 2 years of coursework (51 hours) in the program, including successful completion of a master’s research project. The conferral of this degree serves as an indicator of progress toward the PsyD. While the PsyD program is designed to lead to licensure as a psychologist upon completion of required postdoctoral hours, it is the responsibility of prospective or current students to determine degree portability to another state.

**General Degree Requirements**

To graduate with the PsyD degree, students must complete 120 hours of coursework that is comprised of required courses in 3 areas (clinical core, general psychology core, and research core), elective courses, and applied experiences (practicum hours/yearlong predoctoral internship). Students also have to successfully complete 2 research capstone projects (masters research project and doctoral research project), pass both portions of the comprehensive examination, and meet the minimal level of achievement (MLA) in the areas of discipline specific knowledge (DSK) and profession wide competencies (PWC) as required by APA.

Students in the PsyD program must maintain an overall grade point average of 3.0 for all graduate coursework. Students are required to make a grade of B- or higher in courses. Should students not meet this requirement, they will have to retake the course to demonstrate competency by making a B- or higher. Should students not make B- or higher on the second attempt, meaning that the student has now made two grades (’C-‘ or below), the student will be dismissed from the program. In addition to the course grade, MLAs for those content areas that are not fully described for the course grade also have to be met.

Student progress in the program is evaluated annually. The purpose of these evaluations is to provide feedback to the student and to assess student proficiency in academic coursework, clinical skills, and progress on capstone projects. Student professional and ethical behaviors, interpersonal dispositions, and overall fitness to provide clinical services are also evaluated. Progress toward meeting the MLA are also evaluated.

At any point in the program, should program officials deem that a student is not meeting program expectations, has violated program policies, is experiencing impairment in current functioning or fitness for clinical practice (current or future), program officials have the right to take action that can include completion of remedial work, suspension, or termination from the program. Individuals convicted of violent crimes, as defined in Title 57, Section 571, of the Oklahoma Statutes, (or comparable as defined by the laws of any jurisdiction) are ineligible for the program. Persons convicted of other felony or misdemeanor crimes, may also be subject to dismissal from the program.

Professional, ethical behavior is expected at all times throughout the program. It is student’s responsibility to comply with the policies and procedures of the university, the program, and practicum sites. Students are expected to adhere to ethical guidelines set forth by the American Psychological Association. Students must also adhere to
the academic honesty policy as stated in this catalog which pertains to all academic work, including research projects. Violation of academic policy or ethical guidelines will come will be penalized including possible expulsion from the program.

**Admission Requirements**

To be considered for admission, students must:

1. Possess a bachelor’s degree from a regionally accredited university with a minimum of 18 hours of completed psychology courses with 6 of those hours being courses in research methods and statistics, 3 hours in abnormal psychology or personality, and 3 hours in developmental, social or cognitive psychology. Students lacking some prerequisite courses but presenting with an exceptional undergraduate record may be admitted, but they will be expected to remove all undergraduate deficiencies during their first academic year. Students must possess an overall undergraduate minimum GPA of 3.000 or graduate GPA of 3.250 or higher. However, it should be noted that a GPA of 3.500 or higher places a student in a more competitive position on for admission. For students who possess a master’s degree in a related field and who earned a B- or better in their graduate courses, they can request that their courses be reviewed for transferability. To be considered eligible for possible transfer, courses must have been completed no longer than 7 years prior to program admission. For courses to transfer, it must be demonstrated that the courses had similar coverage in course content (depth and breadth) as the graduate courses in the PsyD program. Students may transfer in no more than 24 hours of approved courses. No practicum or internship courses will be allowed to transfer. Classes which fulfill a DSK or PWC are eligible to transfer except for courses in which the MLA is based on specific elements of a class, and not the overall grade. Students may be asked to take a competency based exam in that area where it is expected that a B- or higher will be made. Students will be requested to provide copies of syllabi and course descriptions to help determine whether courses will transfer.

2. Take the Graduate Record Examination (GRE).

3. Submit the following application materials: graduate school application for admission form, official college transcripts, 3 letters of recommendations, personal statement (500 to 1000 words) and vita.

4. On-campus interviews will be required prior to acceptance being granted. If on-campus interviews are not possible due to extreme circumstances, then interviews will be conducted via Microsoft Teams or Zoom.

5. Consistent with Oklahoma City University’s graduate admissions requirement for international students from non-English speaking countries, candidates will demonstrate English proficiency. Please see the graduate admissions section of the OCU graduate catalog for more information.

**Doctor of Psychology (PsyD)**

To complete the Doctor of Psychology, a student must complete a total of 120 credit hours beyond the bachelor’s degree. Of these hours, 51 hours are completed at a master’s level (5000 and 6000) and 69 hours are completed at the doctoral level (7000 and 8000).

Wimberly School of Religion

Dr. Leslie Long, Director

Certification Studies in the United Methodist Church
Wimberly School of Religion

Faculty: Davies, Enchassi, Long, Wolfe

The mission of the Wimberly School of Religion is to offer religious and theological studies in the United Methodist tradition that unite knowledge and vital piety, explore questions of ultimate concern for the lives of all human beings, and to prepare persons seeking to enter a variety of Christian vocations in service to the church and community.

The purpose of graduate study in religion is to involve students in serious philosophical and theological consideration of the questions of humanity’s origin, destiny, meaning, and purpose. This demands highly motivated and qualified students who are interested in exploring critically the ways in which questions of ultimate concern relate to the lives of human beings.

The Wimberly School of Religion is committed to the development of dedicated and competent leaders of Christ’s church as the people of God with ministries in God’s world. The school seeks to provide the church with educational opportunities for study in all of the disciplines related to the ministry of the church, such as biblical, theological, ethical, educational, and practical ministry studies.

Certification Studies in the United Methodist Church

Certification is the church’s recognition that a person has met the required personal and church qualifications and gained the academic qualifications and work experience necessary to achieve and maintain professional excellence. Certification is available in the United Methodist Church in a variety of areas of specialization. The School of Religion has been approved by the General Board of Higher Education and Ministry of the United Methodist Church to provide the academic programs related to certification in the areas of Christian education and youth ministry.

A person can fulfill the academic requirements of certification studies at Oklahoma City University by earning a bachelor’s degree plus five graduate certification courses in the area of specialization, including the course United Methodist Doctrine and Polity. These courses are Nature and Work in Christian Education, The Bible in Christian Education/Youth Ministry, Relating Theology to Christian Education/Youth Ministry, Administration and Leadership, and United Methodist Doctrine and Polity.

The following are ways a person can fulfill the academic requirements for associate certification studies at Oklahoma City University:

1. Complete a minimum of 24 semester hours in general undergraduate course work and complete five graduate certification studies courses in the area of specialization, including the course United Methodist Doctrine and Polity.
2. Complete a minimum of 24 semester hours in the area of specialization (such as the Program for Associate Certification in Youth Ministry or Program for Associate Certification in Christian Education) in the School of Religion.

For additional information on requirements for certification, contact the registrar of the Annual Conference Board of Ordained Ministry, Section of Deacons and Diaconal Ministry.

Meinders School of Business

A Broad View of Management

Accredited by the Association to Advance Collegiate Schools of Business (AACSB) placing it in the top 4.5% internationally, the Meinders School of Business is committed to providing quality business education at the undergraduate and graduate levels. Curricula are designed to provide students a broad-based view of business and management: a view that emphasizes leadership ethics, entrepreneurship, critical thinking, and creativity in the workplace; and a view of management that will enable students to work effectively in the challenging global business environment. Course work features practice as well as theory and helps to provide students with the knowledge and skills necessary for effective leadership. Theoretical foundations are balanced by practical applications and real-world experiential learning opportunities.

An Educational Environment That Serves the Student

The Meinders School of Business offers students a wide variety of learning opportunities outside of the classroom. These enrichment activities provide valuable insights into the business world and augment traditional classroom study. These learning opportunities, such as industry visits, internships, and career coaching, focus on helping students develop strategies to reach their personal career goals.

Outstanding Facilities

The business school is located in the Meinders School of Business building, a $20 million facility. The three-story, 80,000 square-foot building includes features that focus on student success and add value to students’ academic experiences. The facility includes classrooms with state-of-the-art technology, breakout study rooms for small groups, and a student/faculty lounge. The building houses faculty offices, the Bloomberg Terminal Computer Lab, the Meinders Accounting Center of Student Collaboration and Research, and a 230-seat tiered auditorium capable of hosting video-conferences, guest speakers, and seminars.

Busey Institute for Enterprise and Leadership

The Busey Institute for Enterprise and Leadership brings an exclusive blend of leadership programming to Meinders School of Business and the Oklahoma City metroplex. Programming includes leadership assessments, coaching, professional development and educational opportunities, as well as conferences and speaker forums offered for the benefit of students as well as regional businesses. These unique programs incorporate specially developed curriculum, highly interactive workshops, leading-edge materials, and activities all committed to the personal growth, professional development, and career success of our students and business managers across the Oklahoma City metro.

Continuing Professional Education Program

The Continuing Professional Education Program offers students and working professionals certification courses in many demanding fields including Authentic Leadership, Executive Coaching, Project Management Professional (PMP), Petroleum Land Management (PLM), Government Contract Management Certificate Program, Professional in Human Resources (PHR) Senior Professional in Human Resources (SPHR), and Tribal Law. The Meinders School of Business also meets the dynamic needs of regional businesses by providing customized on-site programs for groups. The Meinders School of Business specializes in program development, handling everything from entire program assessment and delivery to all administrative functions. Meinders School of Business continuing education courses and programs are open-enrollment providing you an efficient, individualized, and hassle-free application and enrollment. Classes offer numerous start dates throughout the year and are offered in a variety of formats including live on-campus and online to maximize your scheduling flexibility. For more information or to enroll in a course, visit www.okcu.edu/business/professional-education.

Steven C. Agee Economic Research and Policy Institute

The Steven C. Agee Economic Research and Policy Institute is recognized as the principal source of unbiased, data-driven, applied economic research and consulting expertise for a diverse constituency including local, statewide, and regional multi-state business communities, governments, and regulatory agencies. The institute is comprised of two individual, highly integrated centers: 1) Center for Regional

Institute staff bring the benefits of extensive experience to their roles and are each recognized as leaders in their areas of knowledge and expertise. As a contributing unit within the Meinders School of Business, the institute also provides undergraduate and graduate students opportunities to be directly involved in applied economic research through the Institute Scholars Program. To learn more about the institute, see [www.okcu.edu/business](http://www.okcu.edu/business) or contact Kyle Dean, Executive Director, at kddean@okcu.edu.

Meinders School of Business offers graduate degree programs:

- Leadership Master of Business Administration (M.B.A.)
- Master of Business Administration—Healthcare Administration (M.B.A.)
- Master of Science in Accounting (M.S.A.)
- Master of Science in Energy Management (M.S.)
- Master of Science in Energy Legal Studies (M.S.)

Master of Business Administration (M.B.A.)

Accelerate your career by developing your leadership and business capabilities

Accelerate your career by joining the Leadership M.B.A.—an internationally top-ranked program carefully designed to support and enhance your professional goals. Only the Leadership M.B.A. provides you the unique blend of courses emphasizing your individual leadership development and creativity integrated with theory-based business knowledge, analytical skills, and decision-making competencies required for success in today’s dynamic and competitive business environment.

The Leadership M.B.A. combines face-to-face classroom or online experiences, a motivated and knowledgeable faculty, real-world learning experiences, and an engaged community of students from a variety of fields and backgrounds. Graduate with the skills, confidence, global perspectives, and professional network to accelerate your career and take on leadership roles within your organization and community.

At the Meinders School of Business, you’ll develop and build on these skills throughout your M.B.A. program.

The Leadership M.B.A. enables students to master theory and then apply that theory to the opportunities and problems that drive businesses in today’s global competitive environment. Gain the skills you need and the skills employers want: lifelong skills you need to succeed throughout your professional and personal life. It is this balance of leadership, management, analysis, and people skills that will give you a career advantage in any industry or job function.

You can get an M.B.A. anywhere ... But only here can you get the Meinders Experience

What is the Meinders Experience?

- High quality program ranked in top 4½% world wide
- Hands-on, active learning experiences connected to and engaged with the real-world
- Exclusive integration of the Authentic Leadership Program with leadership assessments, coaching, and continuing development
- Small class sizes that enable networking and collaborating with faculty and student peers
- Field-based learning opportunities – the chance to work on real projects and solve actual problems
- Knowledgeable faculty who work with you and care about your success—both today and in the future
- Experience and self-insight through personalized leadership assessment, feedback, and coaching
- Less rote memorization and busy work ... MORE opportunities for creative and critical thinking
- More chances for both excitement and frustration which facilitate your mastery learning
- Events where you can interact with business professionals & receive advice to help advance your career

The M.B.A. is available on campus or online:

1-Year M.B.A.

The full-time 1-Year M.B.A. is a cohort-based, on-campus, daytime program for recent college graduates and for career changers. While students typically complete the program within 12 months, they have up to five years to complete the program if needed. Cohorts begin each August. No work experience is required.

Professional M.B.A.

A part-time, cohort-based, on-campus, evening M.B.A. program providing the flexibility to earn your degree while working and designed for students having a wide range of educational and professional experience. Students continue working and can apply their new skills while earning their degree. Cohorts start in January and August. While the program is designed to be completed in 24 months, students...
have up to five years to complete the program if needed. Applicants should have two or more years of relevant work experience.

Professional M.B.A. classes meet one night each week utilizing the business school’s state-of-the-art executive classrooms. Students interact with peers and instructors in real-time, creating a rich and engaging learning experience.

Online M.B.A.

Designed for busy professionals, this 100% Online M.B.A. provides the flexibility to fit seamlessly into your individual and dynamic work and personal schedules. The Online M.B.A. offers the valuable networking benefits of a cohort based program and incorporates active, experiential learning within the classes to provide the theoretical understanding while building mastery of applying the business concepts. The program can be completed in as little as two years and can help prepare you to make an immediate impact on important business opportunities and challenges faced by your organization today.

The M.B.A. Curriculum

Classes in the M.B.A. emphasize the practical application of business theory for making decisions and solving problems. Guided by highly experienced and knowledgeable faculty, you will master the course concepts and then master the application of these concepts through real-world decision-making scenarios and projects.

No Prerequisite Courses.

While applicants are not required to have undergraduate business degrees nor previous study in the field of business, they must demonstrate the likelihood of success in a rigorous graduate program. Applicants are expected to have a basic understanding of statistics and analytical techniques and the ability to express and communicate ideas precisely and coherently.

Concentrations within the M.B.A.

The Leadership M.B.A. offers additional opportunities to focus on particular areas of study. Areas of concentration include Leadership, Corporate Accounting, Data Analytics, Financial Analytics and Energy, and Healthcare.

M.B.A. Healthcare Administration

The Leadership MBA in Healthcare Administration was developed in collaboration with leading medical practitioners and institutions to prepare healthcare professionals to become resilient, strategic, innovative, communicative, high-level leaders prepared to navigate the challenges of today’s healthcare system. Make a positive impact on your career and stand out in healthcare leadership by joining an internationally accredited, top-ranked program purposefully designed to support and enhance your professional career goals in this rapidly expanding industry.

This cohort-based program is offered in a 100% online format with curriculum aligned with the competency models from the National Center of Healthcare Leadership (NCHL) and the Healthcare Leadership Alliance (HLA). The 36-credit hour program consists of twelve, three-credit hour courses. Participants simultaneously receive the double benefits of dual healthcare credentials: (1) the Leadership MBA in Healthcare Administration and (2) the Master Certificate in Healthcare Practice Management.

M.B.A. Scholarships

Limited, competitive scholarships are available for MBA students. To be considered the student must have taken the GMAT earning a competitive score and completed a Free Application for Federal Student Aid (FAFSA). Students must also submit a two paragraph scholarship statement explaining what qualities make them a chosen candidate for the scholarship and address their financial need. Scholarship statements may be sent via email to gadmissions@okcu.edu. The priority deadline for scholarship consideration for is July 1 for fall admission and November 1 for spring admission.

J.D./M.B.A.—OCU School of Law and Meinders School of Business

Students and faculty affiliated with the OCU School of Law and the Meinders School of Business collaborate on a variety of issues at the intersection of law and business. Those students who are particularly interested in this intersection, and ambitious with regard to their academic track, may apply to both the JD and the MBA programs. The applications will be reviewed by each school separately for decisions involving admission to their respective programs. Typically, students accepted by both schools earn both (separate) degrees within a three to four-year time period. For more information on applying to the Meinders School of Business, contact OCU Graduate Admissions at gadmissions@okcu.edu. For more
information on applying to the OCU School of Law, contact lawadmit@okcu.edu.

To earn the MBA degree of the paired MBA/JD program, students must complete 30 credits of the MBA requirements. Students will not be required to complete MGMT 5703 Ethical, Societal, and Legal Environment of Business and MBA 5113 Special Topics in Business. Requirements for the JD will be designated by the School of Law.

**M.B.A. Admissions**

M.B.A. students must demonstrate the likelihood of success in a rigorous graduate program to be considered for admission. Several factors may be evaluated when reviewing an application, including the undergraduate GPA, GMAT and GRE exam scores, letters of recommendation, academic and professional accomplishments, professional work experience, and TOEFL/IELTS scores (international students). Other accepted graduate admissions tests may also be considered.

Official transcripts of all previous college or university studies are required and should be sent directly to the graduate admissions office. Applicants to the Meinders School of Business graduate programs must have, at a minimum, a bachelor’s degree in any field of study from a regionally accredited college or university, or be eligible for admission to graduate programs under the United Kingdom system. Students must meet the admissions standards for the catalog year in which they are admitted to the university. See the section on admission procedure in this catalog.

**International Students**

English language proficiency is required in all courses. An applicant who meets one of the following conditions prior to admission will be considered to have sufficient reading and writing English language proficiency:

- Completed his/her undergraduate studies at an approved institution where English was the language of instruction
- Demonstrated a score of at least 83 iBT on the Test of English as a Foreign Language (TOEFL)
- Scored at least 6.5 overall with a minimum 6.0 on each band score on the IELTS
- Achieved level 112 in the ELS program

**Domestic and International Special Considerations**

Those who do not meet the above admissions criteria may be considered on an individual basis for conditional admission by the Graduate Studies Committee.

**Pre-M.B.A. Program Admission**

Applicants holding academic diplomas recognized by the country in which the diploma is granted as equivalent to a baccalaureate degree (a three-year, 90-hour program) may be conditionally admitted to the M.B.A. program upon successful completion of the following 30 hours of undergraduate courses:

**Pre - Master of Business Administration**

Pre-M.B.A. students are not permitted to waive any of the 30 hours of required courses. Students who can demonstrate prior completion of one or more of the required pre-M.B.A. courses at a regionally accredited university may elect to complete a higher level undergraduate course in the appropriate area(s) of study. Students may not enroll in M.B.A. courses until they have successfully completed the pre-M.B.A. program, and have been officially admitted to the M.B.A. program. Upon successful completion of the pre-M.B.A. program, the student will be awarded a certificate but not a B.B.A.
M.B.A. Educational Partnership with the Chickasaw Nation

Oklahoma City University, the Meinders School of Business, and the Chickasaw Nation have partnered together to provide a unique graduate, business management educational experience for Chickasaw Nation citizens and/or employees admitted to the Meinders School of Business Master of Business Administration (“MBA”) program. This exclusive program allows select Chickasaw Nation citizens and/or employees who have successfully completed the Native American Enterprise Management Certificate Program (NAEM) and/or the Chickasaw Leadership Academy (CLA) to utilize one, or both, of those completed certificate programs as transfer credits fully completing one or two of the twelve courses comprising the Meinders’ Leadership MBA.

Native American Enterprise Management Concentration

The curriculums and learning experiences of the NAEM and CLA certificate programs are specifically focused on the Chickasaw Nation and Native American managerial, operational, and regulatory knowledge and competencies. Through this educational partnership, their inclusion as equivalent courses within the Leadership MBA effectively provides participants with a concentration in Native American Enterprise Management within the MBA. While the transcript will include the individual course notations, including the specifics of the transfer credits, the official degree title conferred and detailed on the transcript and diploma will be “Master of Business Administration.”

As illustrated below:

- Participants documenting successful completion of the NAEM can receive equivalency transfer credit for the MBA course, MBA 5113 – Special Topics: Native American Enterprise Management (3 credit hours).
- Participants documenting successful completion of the CLA (including the Authentic Leadership Program) can receive equivalency credit for the MBA course, MBA 5123 – Effective Leadership and Communication (3 credit hours).
- Participants documenting successful completion of both the NAEM and the CLA (including the Authentic Leadership Program) can receive credit for both the MBA courses, MBA 5113 – Special Topics: Native American Enterprise Management (3 credit hours) and MBA 5123 – Effective Leadership and Communication (3 credit hours).

Concurrent Enrollment

While not encouraged due to the increased workload of simultaneous full-time work and family responsibilities along with the demands of managing the NAEM or CLA and MBA coursework, concurrent enrollment is permitted. Participants may concurrently enroll in and complete the NAEM and/or CLA programs for transfer credit along with MBA courses.

Documentation of Chickasaw Nation Program Curriculum and Participant Completion

For the CLA Certificate Program:

The Chickasaw Nation will provide OCU official documentation detailing CLA program curriculum satisfactorily completed by the student.

For the NAEM Certificate Program:

As the NAEM is taught and managed by Meinders School of Business with participants’ record of completion transcripted by OCU, the needed documentation for NAEM will be provided internally by OCU and MSB.

Applicable Timeframe for NAEM and CLA Completion for Transfer Credit

To be considered for transfer credit satisfying either or both MBA courses, the NAEM and CLA programs must have been completed within five years of enrolling in the MBA. Previously completed NAEM and CLA programs must have documented equivalency to those detailed and evaluated in this OCU – Chickasaw Nation Agreement to be considered for transfer credit.
Master of Science in Accounting (M.S.A.)

Faculty: Jurney, Murray, Walker, Wang

Upon successful completion of the M.S.A. program, most students will have met the educational requirements to sit for the Certified Public Accountant exam in most states. Students who have fulfilled all prerequisites before matriculating may complete the degree in 30 credit hours of study.

Prerequisite Requirements

The following prerequisite courses must appear on the student's undergraduate transcript with a minimum grade of C- and may be taken at Oklahoma City University:

Master of Science in Accounting Credit Hours: 21
ACCT 2113 Financial Accounting 3
ACCT 2213 Managerial Accounting 3
ACCT 3113 Intermediate Accounting I* 3
ACCT 3123 Intermediate Accounting II* 3
ACCT 3413 Introduction to Taxation* 3
ACCT 4313 Auditing* 3
MGMT 2213 Business Law* or
MGMT 5703 Ethical, Societal and Legal Environment of Business 3

* Must be taken at an accredited U.S. school.
All waivers and agreements are subject to compliance with the appropriate graduate catalog or approval of the dean. None of the undergraduate prerequisite courses are applied to the master's degree.

Degree Requirements

Master of Science in Accounting

Degree Requirements Credit Hours: 30
ACCT 5123 Accounting Theory and Research 3
ACCT 5313 Advanced Auditing and Assurance Services 3
ACCT 5413 Income Taxation of Entities 3
7 elective courses* 21

*At least three must be in accounting other than CPA Exam Review (see list of approved electives below); remainder with approval of Accounting Chair.

Approved Accounting Electives for M.S.A.
ACCT 5133 Financial Statement Analysis 3
ACCT 5143 Government and Not-For-Profit Accounting 3
ACCT 5163 Energy Accounting 3
ACCT 5223 Forensic Accounting 3
ACCT 5323 Principles of Fraud Examination 3
ACCT 5423 Tax Procedure 3
ACCT 5433 Advanced Taxation of Business Entities 3
ACCT 5443 Estate and Gift Taxation 3
ACCT 5453 Digital Forensics 3
ACCT 5613 Accounting Ethics 3
ACCT 5713 CPA Exam Review Part I 3
ACCT 5723 CPA Exam Review Part II 3
ACCT 5911-3 Special Topics in Accounting 1-3
ACCT 5921-3 Applied Research or Internship in Accounting 3
FIN 5303 Financial Strategy and Decision Making 3
MGMT 5703 Ethical, Societal and Legal Environment of Business 3
MBA 5123 Effective Leadership and Communication 3
ECON 5253 Forensic Economics 3
FIN 5353 Current Issues in Financial Fraud 3

Optimal Program for M.S.A. Students without an Undergraduate Accounting Degree

Many of our M.S.A. students are adults who did not major in Accounting as undergraduates and want to prepare for the CPA Exam. The M.S.A. program will allow such students to obtain an M.S.A. and prepare for the CPA Exam in a highly focused manner. Assuming students have completed basic Financial Accounting and Managerial Accounting, an optimal program for CPA Exam preparation would be as follows.

Prerequisites (4 courses) Credit Hours: 12
ACCT 3113 Intermediate Accounting I 3
ACCT 3123 Intermediate Accounting II 3
ACCT 3413 Introduction to Taxation 3
ACCT 4313 Auditing 3

M.S.A. Courses (10 courses)
ACCT 5123 Accounting Theory and Research 3
ACCT 5133 Financial Statement Analysis 3
ACCT 5313 Advanced Auditing and Assurance Services 3
ACCT 5413 Income Taxation of Entities 3
ACCT 5613 Accounting Ethics 3
ACCT 5913 Special Topics: Consolidations 3
ACCT 5913 Special Topics: Accounting Systems and Data Analytics 3
FIN 5303 Financial Strategy and Decision Making 3
MGMT 5703 Ethical, Societal and Legal Environment of Business 3
ACCT 5713 CPA Exam Review Part I 3

M.S.A. Admission

Applicants to the M.S.A. program are evaluated on an individual basis with consideration given to several criteria:

- Have, at a minimum, a Bachelor’s degree, from a regionally accredited college or university with a cumulative GPA of 3.00 or above.
- Relevant work experience in an accounting position.
- Professional resume including academic and professional accomplishments.
- Personal statement and purpose for seeking the degree.
- Two letters of recommendation.
- GMAT score, if available.
- International applicants must meet English proficiency requirement: TOEFL iBT ≥ 83 or IELTS ≥ 6.5 overall with no subscale below 6.0.

Applicants not meeting the above admissions criteria may be considered on an individual basis for conditional admission by the Graduate Studies Committee.

Master of Science in Energy Legal Studies (Online)

The Master of Science in Energy Legal Studies is a 30 credit hour program (10 courses) delivered online and designed for busy working professionals. Each course is presented in an accelerated course format over a nine-week cycle. As with most leading programs, two on-campus residencies, one at the beginning and one at the end of the program are required. These short but critical residencies allow for students to network with fellow cohort members, alums, faculty, and energy industry leaders during each two-day session.

Energy professionals understand the collaborative nature of success in the industry amongst all the disciplines and how each discipline regularly encounters the legal environment of acquisitions & divestitures, surface and sub-surface property rights, regulatory compliance, infrastructure, government relations, and much more.

M.S. Energy Legal Studies was created at the request of and through the continuing involvement of energy industry leaders. The program focuses on the legal principles that underlie the energy industry: contract law, property law, environmental law, administrative/regulatory law, corporate law, and natural resources law. Along with acquiring this significant, substantive knowledge, Energy Legal Studies enhances students’ abilities to write, speak, and think critically, and to engage in successful negotiations in their careers in energy.

M.S. Energy Legal Studies students represent many disciplines to be found in the energy industry: acquisitions and divestitures, accounting, regulatory, health, safety and environment, legal relations, government relations, public relations, financial analysts, and others. Professionals with these backgrounds realize their career path will lead them to positions that will address difficult legal and regulatory compliance issues. Earning a graduate degree in Energy Legal Studies will ensure they will have the working knowledge needed to be successful in those roles as they advance in their careers.

Master of Science in Energy Legal Studies

Degree Requirements | Credit Hours: 30
--- | ---
MGMT 5723  Leadership and Management in the Energy Industry | 3
ELAW 5703  Legal and Ethical Environment of the Energy Industry | 3
ELAW 5353  Fundamentals of Contracts | 3
ELAW 6523  Fundamentals of Property Law | 3
ELAW 6533  Legal Principles of Oil and Gas | 3
ELAW 6543  Environmental Law and Regulatory Compliance | 3
ELAW 6613  Energy Contracts and Issues | 3
ELAW 5453  Negotiation and Dispute Resolution | 3
ELAW 5153  Legal Research and Citation | 3
ELAW 5253  Legal Writing and Analysis | 3

M.S. in Energy Legal Studies Admission Requirements

- Has, at a minimum, a Bachelor’s degree from a regionally accredited college or university with a cumulative GPA of 3.00 or above.
- Minimum of two years of relevant work experience preferred.
- Personal statement addressing your background in the energy industry, business experience, and purpose for seeking the degree.
- Two letters of recommendation from employers/supervisors.
- Transcripts will be evaluated on an individual basis.
- Professional resume.
- International students must satisfy English proficiency requirement with a 92 or higher iBT TOEFL score.

Master of Science in Energy Management (Online)

Oklahoma City University is recognized by US News and World Report as having one of the best online, non-business graduate business programs in the nation.

The Master of Science in Energy Management is a 30 credit hour program (10 courses) delivered online and designed for busy working professionals. Each course is presented in an accelerated course format over a eight-week cycle. As with most leading programs, two virtual residencies, one at the beginning and one at the end of the program are required. These short but critical residencies allow for students to network with fellow cohort members, alums, faculty, and energy industry leaders during each two-day session.
Energy professionals know the changing landscape of the industry. Whether evaluating new energy financing models, or shifts in fuel sources in transportation and power generation, comprehensive knowledge of the entire energy industry business is required.

Developed at the request of and through the continuing involvement of energy industry leaders, the M.S. Energy Management degree provides a challenging energy-centered, graduate business curriculum. Energy professionals seeking to advance their careers in this dynamic environment within a company or those seeking to start their own private venture, often find their previous education did not provide them with the necessary foundation in management, accounting, finance, economics, communications, and operations. The M.S. Energy Management degree program educates and develops tomorrow’s energy leaders with its concentration on the core business elements of the energy industry.

M.S. Energy Management students have the opportunity to utilize these functional concepts immediately in their day-to-day careers and in a development collaboration in the capstone experience. The curriculum is taught in an applied approach by seasoned faculty with years of experience in their field providing a wealth of knowledge and a unique perspective.

Master Certificate in Financial Fraud and Forensic Accounting Admission:

- Has, at a minimum, a Bachelor degree from a regionally accredited college or university with a cumulative GPA ≥ 3.00 or a 3.00 in business courses.
- Basic principle knowledge in accounting and finance is required or additional classes may be taken to satisfy the requirement after admission.
- Two years or more of relevant, professional work experience preferred but not required.
- Completion and submittal of the application for OCU Graduate Admission.
- Students admitted to the Meinders School of Business program get preferential treatment in admission to the Master Certificate in Financial Fraud and Forensic Accounting.

Master Certificate in Healthcare Practice Management

Designed in extensive collaboration with leading medical practitioners, the Master Certificate in Healthcare Practice Management is designed to prepare today’s healthcare professionals to become high-level leaders through its specific healthcare administration focus on business and leadership competencies applicable across healthcare-related fields. The curriculum is aligned with the outcome competency models from the National Center of Healthcare Leadership (NCHL) and Healthcare Leadership Alliance (HLA).

The certificate program consists of five, three-credit hour masters-level courses delivered in an online format. Courses may be completed over a one-year period. Each course qualifies for three CME credits. The graduate-level academic credit earned through the satisfactory completion of the fifteen credit-hour certificate can be transferred as credit hours toward the thirty-six credit-hour MBA degree – participants satisfactorily completing the certificate program can complete the M.B.A. in Healthcare Administration degree with only seven additional courses.

Flexibility for the Working Professional

Participants can continue meeting the demands of their careers while earning a graduate certificate from one of the best business schools in the world. Reflecting the realities of participants’ disparate work schedules and widespread locations, the program is offered in a cohort-based, online format. Each course will be taught online in an accelerated eight-week course cycle with only one course being offered...
at a time. This allows participants to focus on one specific course over each eight-week period and allows the five course certificate program to be completed within a one-year period.

**Credit Hours: 15**

6 Any graduate courses completed more than five years prior to the awarding of an M.B.A. or an M.S. degree may not be used to satisfy departmental requirements for that degree.

**Graduation Requirements**

Students must earn at least a 3.00 cumulative GPA to graduate. Any course with a grade below C (2.00) cannot be used as part of the minimum number of semester credit hours required for the degree. No more than two grades below B- (2.75) are acceptable on course work.

**Degree Requirements**

Students are required to obtain approval of a course of study from a graduate faculty advisor. Each student must complete graduate course work with a minimum graduate GPA of 3.00, and no more than two grades of C or C+ (2.00 or 2.25).

**General Policies for Earning a Graduate Degree from the Meinders School of Business**

**Academic Advising**

Upon receiving a letter of admission, a student should contact the student services office at the Meinders School of Business. A student services specialist will assist the student with enrollment. Contact information for the student services specialists is available in the Admissions Office.

**Transfer Policy**

The Meinders School of Business may accept transfer credit at entrance only. A maximum of 6 credit hours of graduate-level business courses may be eligible for transfer if completed at a regionally accredited university within the five years prior to the student’s entry date into the Meinders School of Business, provided they have not been credited toward a previous degree. Any course accepted for transfer credit must have been completed with a grade of B or better.
Requests for transfer credit hours will be considered and processed only if a written petition form accompanied by a course description, list of texts used, and official transcript of the final grade assignment are submitted. This information must be submitted to the dean at or prior to initial registration. If approval is granted, credit for the hours will be reflected on the official Oklahoma City University transcript. Grades earned for transferred work do not count toward the graduate degree cumulative GPA.

Candidate for Degree

A student accorded candidate for degree status is expected to complete the MSB graduate degree. While still subject to probation, if warranted, a degree candidate will be allowed to complete all course work (except in cases of gross violation of the university’s rules and regulations), subject to the following conditions:

- Completion of 12 hours of graduate study with a cumulative GPA of 3.00
- Satisfaction of all prerequisites
- No other impediments

Probation Policy

A student may be placed on probation at admission; whenever their cumulative GPA falls below 3.00; whenever he or she receives more than two grades below B-; whenever he or she receives a grade below C; or for violation of other academic norms, standards, or behavior as determined by the university or the school. All probationary students will have 9 credit hours to remedy the deficiencies. A cumulative 3.00 GPA is required by the end of 9 credit hours. Failure to receive a grade of C or higher in any class in any enrollment term while on probation and/or failure to achieve a cumulative 3.00 GPA by the end of the 9 credit hours will result in dismissal from the university.

All students placed on probation must make an appointment within the first two weeks of the next course session with their academic advisor. Students failing to meet this criterion may be subject to enrollment cancellation.

Any student receiving probationary status due to more than two grades of C (Note: A grade of C includes C+ and C.), or any grade of C- or below must retake that course within their next enrollment term or as soon as it is offered again within the program of study.

Traditional on-campus probationary students may not take more than 9 credit hours in each of the fall and spring semesters and 3 credit hours in each summer session. Professional program probationary students may not take more than 3 credit hours per cycle.

Dismissal Policy

The student who is on probation must earn a grade of C or higher in any other MSB graduate course completed and maintain a cumulative 3.00 GPA or better by the end of the probationary 9 credit hour period. At the end of this probationary period, the student must be in good academic standing or will be dismissed from the university. A student is in good standing when the cumulative GPA is at or above a 3.000 without having more than two grades below a B- and no grades below a C (2.00).

Following the 9 credit hour probation and a period of good standing, whenever the student has more than two grades below B-, whenever the student receives a grade below C, or for violation of other academic norms, standards, or behavior as determined by the university or the school, the student will have 6 hours to return to good academic standing or will be dismissed from the university. The dismissal decision may be appealed with the Student Probation and Petition Committee.

Academic Appeal Process

A student may appeal decisions affecting their academic progress as follows:

1. The student initiates an appeal by filing a written petition with the school’s academic dean.
2. The academic dean reviews the petition and determines if a meeting with the student petitioner is necessary.
3. The student petitioner will be informed in writing of the decision on the merits of their petition.
4. If the student does not agree with the decision, he or she may continue the appeal process with the assistant provost.

Attendance Policy

Students are expected to attend classes and arrive no later than the designated starting time for all classes. Absenteeism and tardiness may lead to a grade reduction, at the professor’s discretion.

Academic Load

Students may not take more than 12 credit hours during fall and spring semesters and 6 credit hours during summer terms. Professional program students may not take more than 6 credit hours per cycle. Students on probation may not
take more than 9 credit hours in the fall or spring semesters and 3 credit hours in each summer term. Any exceptions to this policy must be approved by the dean of the Meinders School of Business.

Eligibility for Graduation

A student is eligible for graduation when the following conditions are satisfied:

1. All required graduate course work has been completed with a minimum graduate GPA of 3.00
2. The student has no grade below C (2.00)
3. The student does not have more than two grades lower than B-
4. The student is not on academic probation
5. There are no other impediments
6. M.B.A. students must take and pass the M.B.A. Multi-Field Assessment Test (MFAT) by achieving a total score greater than or equal to 75 percent of the maximum of 300 points. This equates to a minimum threshold score of 225 points. A student who fails to pass or take the MFAT at the required time must do the following:
   - Take or retake the test at their own expense. There is no limit to the number of retakes allowed, and only the highest score will be recorded.
   - Engage with faculty members for review and preparation to retake the MFAT.

School of Law

Juris Doctor

The School of Law is located at 800 N. Harvey Avenue, in downtown Oklahoma City. An Oklahoma City University School of Law education is built upon a curriculum based on the values of the liberal arts tradition, blending theory with practical experience to prepare graduates for a wide variety of careers.

The School of Law prepares students to become responsible professionals through a rigorous program of instruction that focuses on students’ intellectual and professional development and enables them to become leaders in law, business, government, and civic life. The School of Law also contributes to the improvement of law and legal institutions through research and scholarship. Our curriculum focuses on national issues, and our graduates practice in all 50 states, the District of Columbia, and several foreign countries.

The School of Law is fully approved by the American Bar Association and is a member of the Association of American Law Schools. The academic year consists of two semesters and an optional summer term. A minimum of 90 credit hours is required for completion of the J.D. degree. The school offers both full-time and part-time options. Successful completion of the course of study leads to the degree of Juris Doctor.

Admission to the Juris Doctor Program of the School of Law

Admission to the School of Law is a competitive and selective process. To be considered for admission, an applicant must take the Law School Admission Test (LSAT) prepared and administered by the Law School Admission Council, hold an undergraduate degree or be scheduled to complete one prior to matriculation at the School of Law, and have the potential for academic success and leadership.

A student in good standing at another law school approved by the American Bar Association, or a graduate of an accredited law school outside the United States, may be admitted to the J.D. program with advanced standing by approval of the faculty’s Admissions Committee at its discretion.

School of Law Catalog

The catalog for the School of Law is published separately. Interested persons should visit the website at law.okcu.edu or email, write, or call the Admissions Office: Oklahoma City University School of Law Admissions Office, 800 N. Harvey, Oklahoma City, OK 73102, lawadmit@okcu.edu, (405) 208-5354 or (800) 230-3012. Applications for admission to the School of Law and pertinent financial and other information are available at law.okcu.edu.

Master of Legal Studies

The Master of Legal Studies (M.L.S.) program is a 30-hour fully online degree to help professionals decipher regulatory schemes, understand contracts, and develop legal research skills. The program is designed for working professionals, entrepreneurs, and recent college graduates seeking legal knowledge for professional growth. All classes are asynchronous and last 8 weeks. Students can complete the program in one year by taking two classes every 8 weeks. Working professionals complete the program in two years by taking one class every 8 weeks.

Federal and State regulations control every industry. The MLS program is designed to enable professionals to find and interpret regulations and understand their function. All students will build legal analysis skills while learning the nuances of statutory research, contracts, and employment law. Students complete the core curriculum and then progress to either the Corporate Compliance or Government Contracts concentration. Students can also pursue a general studies concentration by taking courses from both concentrations. Studies normally begin in the fall so the student may follow the preferred course sequence, but a student may begin in the Spring or Summer term with the permission of the director of the program.

Students pursue one of two concentrations:

Corporate Compliance in Banking and Finance

This concentration is designed to help both current and future banking professionals understand the regulatory framework governing the banking industry. Students will be able to find and interpret new rules and changes to banking regulations.

Government Contracts Concentration

This concentration explores the nuances of contracting with government entities. Students will understand the government appropriations process and unique legal issues that arise when dealing with government entities. Students also
develop specific Government Contracting and Negotiation skills.

### Admission Requirements for the Master of Legal Studies Program

To be admitted to the MLS program, a domestic applicant must have a baccalaureate degree from a nationally or regionally accredited college or university, and an international applicant must have equivalent credentials that have been approved by their country’s ministry of education. A minimum cumulative GPA of 3.00, based on the undergraduate or most recent degree, is required for admission to the MLS program. Admission with probation status may be granted on a case-by-case basis to applicants who do not meet the minimum GPA requirement or other academic standards. Such students must submit a resumé and two letters of recommendation.

Wanda L. Bass School of Music

The Wanda L. Bass School of Music offers programs of private study, courses, and research leading to the Master of Music (M.M.). Concentrations are offered in music composition, instrumental and vocal performance, multiple woodwind performance, opera performance, conducting, vocal coaching, and music theater. The administration of these programs is under the supervision of the dean, the coordinator of graduate studies, and the graduate commission of the school.

Mission

The School of Music provides a professional education within the liberal arts curriculum and develops musicians equipped to make significant artistic contributions to society. Critical thinking, open inquiry, and artistic expression are fostered through the study of traditional intellectual disciplines and applied skills.

Core Beliefs & Values

Student Success and Excellence

We believe in an education that is student-driven. We believe that priorities and resource allocation should reflect what is best for the student. We believe that effective student learning includes ongoing feedback and the demonstration of learned skills. Our success is demonstrated by the professional achievements of our students and alumni.

Faculty Excellence

We believe that our discipline requires lifelong learning and that this concept must be - and is - demonstrated to students through public performances, scholarship and professional development. While our faculty is performance-oriented, we believe all faculty must be teachers first and foremost. We believe faculty should be caring and involved in the educational and professional development of their students.

Service to the Community

We believe in service to a global community. We believe that serving the community through music helps students become sensitive to and have respect for changing and diverse communities. We strive to educate students in their responsibility of service to the community now and in the future.

Commitment to the Future of Music

We believe that the process of music making is organic. We prepare versatile students who can succeed in an ever-changing marketplace.

Admission Requirements

For regular admission, the applicant must have a minimum undergraduate GPA of 3.00 and hold an appropriate Bachelor of Music from an NASM-accredited institution with undergraduate preparation related to the graduate music curriculum. Adequacy of this preparation will be determined through transcript evaluation and advisory examinations in music theory, history, keyboard (for conductors and composers), foreign language diction (for singers, vocal coaches, and choral conductors), and in the proposed field of performance. Exams are given at the beginning of each semester. In addition, composition students must submit a composition portfolio and schedule an interview with the faculty of the composition area.

Procedure for Admission

An application for admission to the M.M. program may be secured from the Office of Graduate Admissions. The completed form, together with an official transcript of college credits and two letters of recommendation, should be returned to the Office of Graduate Admissions prior to the scheduled audition. Students applying should also supply 150 to 200 words describing reasons for pursuing a graduate degree and academic and professional goals. In addition to statement, please attach a separate document indicating recitals, programs and all performance experience. Graduate credits from other institutions will be accepted only by special permission (normally not exceeding 8 hours). All students must complete a successful audition and satisfy all university admission requirements before they will be admitted to the school. See www.okcu.edu/music/admissions/auditions for current audition requirements.

Admission means only that the student will be permitted to enroll for courses in the graduate program. It does not imply acceptance to candidacy. Admission is in concert with the university’s graduate program admission policy.
Advisory Examination and Audition

The advisory examination and leveling audition are scheduled at the beginning of each semester during the regular academic year. Students are urged to review music history, literature, theory, and keyboard skills before taking this examination. Diction examinations are required for students in vocal performance, opera performance, music theater, choral conducting and vocal coaching.

Students receiving less-than-satisfactory evaluation in the music history examination are required to enroll in MUS 5163 Analytical Techniques. Students receiving less-than-satisfactory evaluation in the music theory examination are required to enroll in a graduate level theory review course during the first semester of graduate study. Each student is required to give a 10-minute prepared performance as part of the advisory exam the first semester at Oklahoma City University. At this time an entrance performance level is determined. The coordinator of graduate studies can provide detailed information.

Seniors and Graduate Courses

Senior students who are graduating at the end of a semester or summer session may take courses for graduate credit under the following conditions: The credits must not be required or needed for the bachelor’s degree; the total registration must not exceed 16 hours for a semester or 6 hours for a summer session; the student must complete the requirements for the bachelor’s degree either at the end of the semester or session or be within 12 semester credit hours of completing the requirements for the bachelor’s degree at the beginning of the semester or summer session in which graduate credit is requested; admission to courses taken for graduate credit must have the approval of the dean of the Bass School of Music; and not more than 9 semester hours taken while a senior may be approved for graduate credit.

Acceptance to Candidacy

A student will be admitted to degree candidacy when he or she has met the following criteria:

1. Removed deficiencies.
2. Successfully completed 12 hours with an average of B (3.00) or above toward the degree and not less than 3 hours in the major subject. One semester of major applied study must be included.
3. Given satisfactory evidence of ability to complete all degree requirements.

4. Filed the application for candidacy form with the coordinator of graduate studies and received approval. This application should be filed following completion of 12 hours of graduate study and no later than November 1 for May graduation or April 1 for December graduation.

5. Reached performance level of G7 (see Applied Music Attainment Level section). Conducting majors must have reached G5 in their major instrument.

Graduate Committee

Following acceptance to candidacy, students work under the guidance of their graduate committee. The committee includes three faculty members assigned by the coordinator of graduate studies.

Comprehensive Review

The comprehensive review is administered by the student’s committee prior to the required recital and takes the form of a preview recital and oral examination on the recital paper or written exam. The comprehensive review for the composition major includes submission of recordings of recital rehearsals as well as an oral examination of the thesis composition. This examination takes place at least 15 days prior to the scheduled recital. Any proposed change to the recital program after the comprehensive review must have committee approval.

Recital/Comprehensive Project

Students with a performance concentration (instrumental, vocal, multiple woodwind, opera, music theater) present a full recital (48-53 minutes of performing time) and complete a graduate comprehensive exam. Students with a conducting concentration present a 30-minute conducting recital and complete a comprehensive graduate exam. Students with a composition concentration present a full recital (50 minutes) of their works and submit a thesis composition as the graduate comprehensive project. Note that it is not a requirement that the thesis composition be performed in the recital. However, a separate reading or performance of the thesis is encouraged.

Regardless of the number of applied hours earned toward the degree, a student must be studying for a minimum of one credit hour during the semester or summer term in which the graduate recital is presented.

The acceptability of the recital and the comprehensive exam or thesis will be determined by the student’s graduate committee.
Applied Music Attainment Level

Master of Music in Performance
G3  Minimum performance requirement for graduate credit
G4  Normal graduate entering level
G7  Level needed to submit applications for candidacy and recital
G8  Level needed for recital performance and graduation

Master of Music in Conducting
G2  Piano level for graduation
G5  Level needed on applied major to submit application for candidacy
G6  Applied major level needed for graduation

Master of Music in Composition
G2  Piano level for graduation

Master of Music in Multiple Woodwind Performance
G3  Level needed for recital performance and graduation in third secondary instrument
G4  Level needed for recital performance and graduation in second secondary instrument
G5  Level needed for recital performance and graduation in first secondary instrument
G7  Level needed for recital performance and graduation in primary instrument

Academic Regulations

The degree of Master of Music is conferred upon fulfillment of the following requirements:

1. All work following candidacy must be taken at Oklahoma City University.
2. Students must maintain a minimum GPA of 3.00 in order to remain in good standing. A student must be in good standing to graduate.
3. No grades below C (2.00) are acceptable toward degree requirements. A maximum of 3 credits below B- are acceptable toward degree requirements. Students may not graduate with a grade of D or F on the transcript.
4. A course may be repeated only once. Students may have only two course repeats in graduate degree requirements. If, after repeating a course, a student fails to receive at least a C (2.00), the student will be automatically dismissed.
5. Graduate music students whose cumulative GPA drops below 3.00 at the end of the semester will receive written notification from the registrar that they have been placed on academic probation for the next semester. Should the student fail to raise the cumulative GPA above 3.00 during the next semester, he or she will be dismissed from the university.
6. All courses and requirements must be completed within six years of the initial enrollment in the master’s program.
7. The student must comply with the established thesis or project submission policy and the master’s thesis and capstone project enrollment and grading policy. These policies are stated in the Academic Regulations section of this graduate catalog.
8. All new entering graduate students in performance, music theater, opera performance, and conducting are required to perform an audition for level in their instrument or voice. This audition is separate from the audition or submission of portfolio for admission to the university. Students should have a 10-minute recital prepared, along with typewritten copies of repertoire for each member of the jury. Composition and conducting students will also be leveled in piano. A new level will be determined at each subsequent jury.
9. Students must present proof of completing and passing all remedial online coursework as determined by the advisory exam. Evidence of satisfactory completion must be submitted to the coordinator of graduate studies prior to commencing the second semester of coursework.
10. All voice students are required to audition for all opera and music theater productions and perform in them if cast. Performing in productions is by audition and therefore performance is not guaranteed to any student.
11. Students enrolled for credit in applied music must take a final exam (“jury”).

Approved exceptions:
1. At the discretion of the applied teacher, students who have achieved the required performance level for graduation may be exempt from a jury during the semester in which the graduate recital is performed.
2. At the discretion of the applied teacher, music composition majors taking a secondary instrument may be exempt from a jury.
12. Music students must receive permission from their applied music teachers and the dean prior to accepting musical engagements outside of the university. Permission to Perform Off-Campus forms are available on SharePoint.
13. In addition to the policies and procedures outlined in this catalog, Bass School of Music students are expected to be familiar with and adhere to the policies and procedures in the graduate Music Students Handbook found
Electives

Electives must fall within approved guidelines and must carry a graduate course number.

Enrollment Restriction

Enrollment in excess of the normal 9 hours per semester is not encouraged. Enrollment in excess of 12 hours will be sanctioned only by action of the graduate commission.

Master of Music in Music Composition

Faculty: Knight
Adjunct Faculty: Williams

Program of Study Credit Hours: (33) 35

Core Curriculum (8)
AMA 5371-2 Piano (G2 level) (2)
MUS 5102 Musicological Methods 2
MUS 5153 The Performing Teacher-Scholar 3
MUS 5523 Wind Literature Seminar or 3
MUS 5623 Orchestral Literature Seminar or 3
MUS 5723 Organ Literature Seminar or 3
MUS 5823 Keyboard Literature Seminar 3

Two of the following courses 6
MUS 5113 Theory in Perspective 3
MUS 5133 Nineteenth-Century Analysis 3
MUS 5213 Twentieth-Century Music, Style, and Structure 3
MUS 5163 Analytical Techniques 3

Specialized Courses in Major Field 15
MUS 6071 Recital 1
MUS 6072 Graduate Comprehensive Project 2
MUS Composition I (MUS 5011 + 5012 or 5013) 3
MUS Composition II (MUS 5071 + 5072 or 5073) 3
MUS Composition III (MUS 5611 + 5612 or 5613) 3
MUS Composition IV (MUS 5811 + 5812 or 5813) 3

Electives 4
Electives are selected with the counsel of the composition faculty and typically include courses in theory, literature, orchestration, conducting, applied music, and instrumental methods courses.

Master of Music in Music Theater

Faculty: Christensen, Crouse, Herendeen, Holleman, Holst, Keller, McDaniel, Miller, Picon, West

Program of Study Credit Hours: 35(36)

Required Courses 19
OMT 5223 Music Theater Analysis 3
AMV 5372-5472 Applied Voice 8
MUS 5583 Music Theater Literature Seminar 3
OMT 5482 Graduate OMT Acting 2
THRE 5503 Acting V: Shakespeare 3

One of the following courses is required 3(4)
MUS 5133 Nineteenth-Century Analysis or
MUS 5213 Twentieth Century Music, Style, and Structure or
MUS 5163 Analytical Techniques or
MUS 5323 Opera History I (1600–1850) or
MUS 5023 Opera History II (1850–present)

OR two of the following courses are required
MUS 5422 Vocal Literature Seminar I: German Leider
MUS 5532 Vocal Literature Seminar II: French Melodies
MUS 5632 Vocal Literature Seminar III: Italian and Spanish Song
MUS 5732 Vocal Literature Seminar IV: Songs in English

Other Requirements 13
OMT 5661 Music Theater Workshop 2
AMGT 5742 Contracts and Management for Performers 2
MUS 5102 Musical Methods 2
MUS 6071 Recital 1
MUS 6072 Graduate Comprehensive Review Project 2
DANC Electives approved for graduate credit 4

Students must attend dance leveling sessions at the beginning of each semester to enroll in any dance course other than a basic dance course.

Music theater students must demonstrate competency in English diction and must demonstrate competency in basic acting skills prior to enrolling in the graduate acting sequence. Students with advanced acting skills will be allowed to level into advanced acting courses.

Master of Music in Opera Performance

Faculty: Christensen, Crouse, Herendeen, Holleman, Holst, Keller, McDaniel, Miller, Picon, West

Program of Study Credit Hours: 36

Basic Opera Studies/Development 18
MUS 5033 Advanced Vocal Pedagogy 3
DICT 5352 Advanced German Diction or
DICT 5652 Advanced French Diction 2

**History and Theory**

- Opera performance students must demonstrate competencies in English, French, German, and Italian diction.

- * Opera performance students must demonstrate competency in basic acting skills prior to enrolling in the graduate acting sequence. Students with advanced acting skills will be allowed to level into advanced acting courses.

Vocal performance students must demonstrate competencies in English, French, German, and Italian diction.

Vocal performance students must demonstrate competencies in English, French, German, and Italian diction.

- * Guitar Performance majors are required to take MUS 5822 Guitar Literature Seminar I and MUS 5922 Guitar Literature Seminar II.

- Vocal performance students must demonstrate competencies in English, French, German, and Italian diction.
MUS 5163 Analytical Techniques 3

One of the following courses 3
MUS 5223 Choral Literature Seminar or
MUS 5623 Orchestral Literature Seminar or
MUS 5523 Wind Literature Seminar

Other Requirements 6-9
MUS 5102 Musicological Methods 2
MUS 6071 Recital 1
MUS 6072 Graduate Comprehensive Review Project 2
Electives selected with advisor 1-4

Conducting students must complete a piano proficiency.

Choral conducting students must demonstrate competencies in English, French, German, Italian and Latin diction.

Master of Music in Vocal Coaching

Faculty: McDaniel, Koslowske

Adjunct Faculty: Chiesa, Hutchinson

Program of Study Credit Hours: 35

Vocal Coaching Development 8
MUS 5422 Vocal Literature Seminar I: German Lieder 2
MUS 5532 Vocal Literature Seminar II: French Mélodies 2
MUS 5632 Vocal Literature Seminar III: Italian and Spanish Song 2
MUS 5732 Vocal Literature Seminar IV: Songs in English 2

In consultation with the advisor, select 4 hours from the following 4
DICT 5352 Advanced German Diction
DICT 5652 Advanced French Diction
DICT 5452 Advanced Italian and Spanish Diction
DICT 5252 Advanced English Diction

Applied Music 12
AMA 5372-5472 Piano (8 credit hours) 8
MUS 5572 Keyboard Skills 2
OMT 5882 Opera/Musical Theater Coaching Project 2

Select 6 credit hours from the following with a minimum of 3 hours from the theory area 6
MUS 5113 Theory in Perspective
MUS 5133 Nineteenth-Century Analysis
MUS 5163 Analytical Techniques
MUS 5213 Twentieth-Century Music, Style, and Structure
MUS 5153 The Performing Teacher-Scholar
MUS 5323 Opera History I (1600-1800)
MUS 5023 Opera History II (1800–present)
MUS 5583 Musical Theater Literature Seminar

Other Requirements 5
MUS 5102 Musicological Methods 2
MUS 6071 Recital 1
MUS 6072 Graduate Comprehensive Review Project 2

Language Proficiency: Demonstrated proficiency in pronunciation and translation of English, French, German, and Italian, and thorough knowledge of the International Phonetic Alphabet are required before the student may enroll in MUS 6072 Graduate Comprehensive Review Project. Demonstrated fluency in English and a knowledge of Italian, French, or German equivalent to two years of undergraduate-level study are required before applying for graduation.

Master of Music in Multiple Woodwind Performance

Faculty: Kachoue, Maczko, Owens

Kramer School of Nursing

Role and Responsibility of the Oklahoma Board of Nursing

The Oklahoma City University Kramer School of Nursing is approved by the Oklahoma Board of Nursing. Graduates of this state-approved program are eligible to apply to write the National Council Licensure Examination (NCLEX) for (registered or practical) nurses. Applicants for Oklahoma licensure must meet all state and federal requirements to hold an Oklahoma license to practice nursing. In addition to completing a state-approved nursing education program that meets educational requirements and successfully passing the licensure examination, requirements include submission of an application for licensure, a criminal history records search, and evidence of citizenship or qualified alien status [59 O.S. §§567.5 & 567.6]. To be granted a license, an applicant must have the legal right to be in the United States (United States Code Chapter 8, Section 1621). In addition, Oklahoma law only allows a license to be issued to U.S. citizens, U.S. nationals, and legal permanent resident aliens. Other qualified aliens may be issued a temporary license that is valid until the expiration of their visa status, or if there is no expiration date, for one year. Applicants who are qualified aliens must present to the Board office, in person, valid documentary evidence of:

1. A valid, unexpired immigrant or nonimmigrant visa status for admission into the United States;
2. A pending or approved application for asylum in the United States;
3. Admission into the United States in refugee status;
4. A pending or approved application for temporary protected status in the United States;

The Board has the authority to deny a license, recognition or certificate; issue a license, recognition or certificate with conditions and/or an administrative penalty; or to issue and otherwise discipline a license, recognition or certificate to an individual with a history of criminal background, disciplinary action on any professional or occupational license or certification, or judicial declaration of mental incompetence [59 O.S. §567.8]. These cases are considered on an individual basis at the time application for licensure is made. Potential applicants to state-approved education programs, with a criminal history, may obtain a determination of eligibility for licensure or certification from the Oklahoma Board of Nursing for a fee. The determination of eligibility for licensure petition can be accessed at http://nursing.ok.gov/initialde-term.pdf.

Master of Science in Nursing

The Master of Science in Nursing (M.S.N.) extends and expands the fulfillment of the missions of the university and Kramer School of Nursing (KSN) already begun by the undergraduate nursing programs by preparing nurses to become effective leaders in service to their communities.

Three functional tracks are available for the M.S.N.:

- **Nursing education:** Designed to prepare the nurse to teach in postsecondary nursing programs, including schools of practical nursing, associate degree programs, and baccalaureate and higher degree programs; and to provide comprehensive patient and/or staff education within the healthcare system.
- **Nursing leadership:** Designed to prepare the nurse to serve in middle- and upper-management roles, including executive leadership, within healthcare organizations.
- **Community-based Public Health:** Designed to prepare nurses to assume leadership roles in assessing communities and populations, identifying high risk groups, and in partnership with communities, consumers, and stakeholders, developing culturally-sensitive, evidence-based, and population appropriate nursing interventions to positively impact the determinants of health.

The M.S.N. tracks provide a core of knowledge essential for advanced nursing related to nursing theory, research, and role preparation. Courses in the functional specialties complete the degree and prepare the graduate nurse for advanced practice as a nursing leader or educator.

All nursing courses are taught by doctorally prepared nurses or nursing leaders with post-master’s education who are advanced specialists in their fields. The program also makes use of practicing professionals from within key areas as adjunct professors who possess doctoral degrees or other special qualifications. In this way, the program achieves the highest level of instruction and mentoring possible to assure an educational experience for students that leaves no doubt of their readiness to assume the role of nurse educator or leader.

Admission Requirements and Prerequisites

In order to be admitted to the M.S.N. program, the applicant must meet the following qualifications:
• Admission to the university, including resume and personal statement
• B.S.N. from a nationally accredited nursing program (or a bachelor’s degree in any field for the R.N.-M.S.N. track)
• Undergraduate cumulative GPA of 3.00 or better or prior completion of a master’s degree in another field
• Completion of a course in health assessment
• Completion of a course in statistics before NURS 6323
• Two letters from professional references, such as those from employers, co-workers, or nursing school faculty members who had the applicant as a student
• One of the following if proof of English proficiency is required
  • An iBT TOEFL score of 83 or higher with a score of at least 26 on each section, if proof of English proficiency is required
  • IELTS score of 7.0 on the speaking portion and a 6.5 on the other sub-bands

R.N.-to-M.S.N. Option
Registered Nurses, who have a completed bachelor’s degree in a non-nursing field from an accredited institution recognized by Oklahoma City University and meet the Master of Science in Nursing requirements, may bypass the Bachelor of Science in Nursing and progress directly to the Master of Science in Nursing courses by first taking the following B.S.N. level courses and earning grades of, at least, a “C” (2.0).

NURS 4403 RN-BSN Health Assessment
NURS 4605 RN-BSN Community Health Nursing
NURS 4805 RN-BSN Nursing Leadership

MSN Post-Master’s Certificate Tracks
• Successful completion of a prior Master’s degree in Nursing from a nationally accredited nursing program
• Graduate cumulative GPA of 3.00 or better
• Registered Nurse licensure

Eligibility Statement
Due to the strenuous nature of nursing and practice orientation of Oklahoma City University’s Kramer School of Nursing program, the school reserves the right to determine the eligibility of any student to enroll or continue in the nursing program. This decision is based on considerations including, but not limited to, characteristics required of a professional nurse. Eligibility is determined by the faculty’s evaluation of a student’s ability to perform the skills necessary to complete the course objectives, and includes attitudinal and behavioral components. These elements are re-evaluated each semester.

Although not required for admission, the following requirements must be met as specified once the M.S.N. student is admitted to the program: health requirements specified by each agency where clinical and practical experiences will occur, including immunizations, background check, drug screening, and health tests.

Academic Probation
Kramer School of Nursing graduate students are subject to the Oklahoma City University graduate probation policy.

| Master’s Capstone Project | All M.S.N. students in the Education, Leadership and Community-Based Public Health tracks are required to complete a project related to the role function track. |

| Academic Regulations | M.S.N. students must maintain a 3.00 cumulative GPA to progress without going on KSN probation. M.S.N. students must earn at least a B- (2.75) in courses with a NURS prefix; grades of C+ (2.25) or below are considered failing. This includes independent study nursing courses taken to meet a graduation requirement. In any other required course, the student must have a C (2.00) or higher. The student may have a grade of C (2.00) or C+ (2.25) in only two non-NURS courses required for the degree. Students may repeat only one nursing course. If the student earns a grade of C+ (2.25) or below on the repeated required course or on the first attempt of any other required nursing course, the student will be dismissed from the nursing program. It is strongly recommended that students repeat any failed course at the next available offering. Withdrawal from a nursing course after two-thirds of the semester or session has transpired will be counted as one enrollment toward the course failure requirements described above. Nonattendance of classes does not constitute official withdrawal. |

| Doctor of Nursing Practice (D.N.P.) | The D.N.P. program facilitates achievement of the university mission by creating expert clinicians with the abilities to affect healthcare of clients positively, provide leadership in health policy, and translate research into evidence-based practice. Students are provided the opportunity to expand and refine clinical skills by designing advanced practicum experiences that meet their goals. |
Admission Requirements and Prerequisites

The Graduate Record Examination (GRE) is not required for admission to a D.N.P. program. Applicants must demonstrate competency in word processing, basic spreadsheet use, presentation software, and internet skills.

B.S.N.-to-D.N.P. Admission Criteria for the Family Nurse Practitioner Track and the Psychiatric Mental Health Nurse Practitioner Track (4-Year Tracks)

- Admission to the university
- Graduate of an accredited baccalaureate nursing program with a cumulative grade point average of at least 3.00
- Current active licensure as a Registered Nurse in Oklahoma or a multi-state compact license
- Three letters from professional references, such as an employer, a coworker, or a nursing school faculty member who had the applicant as a student
- An iBT TOEFL score of 83 or higher with a score of at least 26 on each section if proof of English proficiency is required
- B.S.N.-level health assessment course
- B.S.N.-level statistics course
- A personally written essay of 750 words or less describing the role of the nurse practitioner and how the D.N.P. degree will help the applicant achieve life and career goals
- A current curriculum vitae/resume
- Interview with admission committee

B.S.N.-to-D.N.P. Admission Criteria for the Adult-Gerontology Acute Care Nurse Practitioner Track (4-Year Track)

- Admission to the university
- Graduate of an accredited baccalaureate nursing program with a cumulative grade point average of at least 3.00
- Current active licensure as a Registered Nurse in Oklahoma or a multi-state compact license
- ACLS certified, prior to acceptance in program
- Two years of adult acute care work experience; preferably in an intensive care or emergency department setting.
- Three letters from professional references, such as an employer, a coworker, or a nursing school faculty member who had the applicant as a student
- An iBT TOEFL score of 83 or higher with a score of at least 26 on each section if proof of English proficiency is required
- B.S.N.-level health assessment course
- B.S.N.-level statistics course
- A personally written essay of 750 words or less describing the role of the nurse practitioner and how the D.N.P. degree will help the applicant achieve life and career goals
- A current curriculum vitae/resume
- Interview with admission committee

D.N.P.-Completion Track Admission Criteria for Post-Master’s Students

In addition to the 30-32 course credits, each student must complete 1,000 hours of post B.S.N. supervised practicum. Accumulated practicum hours from M.S.N. programs are accepted towards the 1,000 D.N.P. practice hours. Opportunities to earn clinical hours are integrated in the post-M.S.N.-D.N.P. curriculum. Additional credits may be required if you have less than 500 practicum hours in your former M.S.N. program.

</table>
Community-Based Public Health Track  
**Credit Hours: 32**

- Admission to the university
- A bachelor’s degree in nursing from an accredited nursing program
- A master’s degree with a major in nursing in a nursing program accredited by CCNE, ACEN, or a master’s degree in a related field tied to a public health focus
- Verification of the number of supervised practicum hours from the director of the M.S.N. program
- Graduate GPA of 3.250 or higher
- A personally written essay of 750 words or less describing how the D.N.P. will help the applicant achieve life and career goals
- A current curriculum vitae/resume
- Interview with admission committee

Oklahoma Board of Nursing standards for English proficiency is required with the following scores for students educated in a nursing program in a country outside the United States and U.S. territories and who do not have a United States nursing license:

- **TOEIC**: Reading 725, Speaking & Writing 140
- **IELTS**: Academic 6.5, Spoken Band 7.0
- **TOEFL-iBT**: Speaking 26, Total 83
- **MELAB**: Speaking 3, Total 81

Advanced Practice Certificate Admission Criteria for Post-Master’s Students

Family Nurse Practitioner Certificate and the Psychiatric Mental Health Nurse Practitioner Certificate  
**Credit Hours: 21/23**

- Admission to the university
- Current active licensure with Advanced Practice Nurse (APRN) in Oklahoma as an Adult APRN, Pediatric APRN, Family APRN, or other advanced Practice role with current national; evaluation on a case-by-case basis
- A master’s degree in nursing with graduate level coursework in Advanced Pathophysiology, Pharmacology and Advanced Assessment from an ACEN or CCNE accredited nursing program
- Graduate GPA of 3.250 or higher
- A personally written essay of 750 words or less describing how the post-master’s FNP certificate will help the applicant achieve life and career goals
- A current curriculum vitae/resume
- Interview with admission committee

Adult-Gerontology Acute Care Nurse Practitioner Certificate  
**Credit Hours: 22**

- Admission to the university
- Current active licensure with Advanced Practice in Oklahoma as an Adult APRN, Pediatric APRN, Family APRN, or other Advanced Practice role with current national; evaluation on a case-by-case basis
- A master’s degree in nursing with graduate level coursework in Advanced Pathophysiology, Pharmacology and Advanced Assessment from a ACNE or CCNE accredited nursing program
- Graduate GPA of 3.250 or higher
- A personally written essay of 750 words or less describing how the post-master’s AGACNP certificate will help the applicant achieve life and career goals
- A current curriculum vitae/resume
- Interview with admission committee

Eligibility Statement

Due to the strenuous nature of nursing and practice orientation of Oklahoma City University’s Kramer School of Nursing programs, the school reserves the right to determine the eligibility of any student to enroll or continue in the nursing program. This decision is based on considerations including, but not limited to, characteristics required of a professional nurse. Eligibility is determined by the faculty’s evaluation of a student’s ability to complete the course objectives, and includes attitudinal and behavioral components. These elements are re-evaluated each semester.

Although not required for admission, the following requirements must be met as specified once the D.N.P. student has been admitted to the program: health requirements specified by each agency where practicum experiences will occur, which may include immunizations, background check, drug screening, and health tests.

Academic Probation

Kramer School of Nursing doctoral students are subject to the Oklahoma City University graduate probation policy.

Residency Requirements for D.N.P.-Completion Students

The D.N.P.-completion program is designed for individuals who work full-time and who may or may not be geographically located within driving distance of Oklahoma City University. Therefore, the residency requirement will be met by maintaining year-round (including summers) continuous enrollment (unless on an approved leave of absence) and by coming to campus for all the following:

- On-campus class meetings held once a semester
- Oral defense of D.N.P. project
- Other visits to campus required by faculty that are approved by the program chair

D.N.P. Project

D.N.P. students are to complete a clinical project based on translational research and evidence-based practice. Complete guidelines and requirements are found in the Kramer School of Nursing Student Handbook.

Academic Regulations

D.N.P. students must maintain a 3.00 cumulative GPA to progress without going on KSN probation. D.N.P. students must earn at least a B- (2.75) in all required courses; grades of C+ (2.25) or below are considered failing. This includes independent study nursing courses taken to meet a graduation requirement. Students may repeat only one nursing course. If the student earns a grade of C+ (2.25) or below on the repeated required course or on the first attempt of any other required course, the student will be dismissed from the nursing program. It is strongly recommended that students repeat any failed course at the next available offering. Withdrawal from a nursing course after two-thirds of the semester or session has transpired will be counted as one enrollment toward the course failure requirements described above. Nonattendance of classes does not constitute an official withdrawal.

D.N.P. practicum hours are calculated on a ratio of 60 clock hours per credit hour. The D.N.P. must be completed in five years.

Doctor of Philosophy (Ph.D.)

The Ph.D. facilitates achievement of the university mission by preparing expert nurses in the roles of education and research to serve the community, state, and nation in the formation of future nurses and in the advancement of nursing knowledge. While the primary focus of the Ph.D. at Kramer School of Nursing is nursing education, students may opt for a different specialty cognate.

The Ph.D. is 90 credits post-baccalaureate. Students may enter post-B.S.N. or post-master’s. Up to 33 credits from a master’s degree may be applied to the 90 credit total, subject to approval. The Ph.D. program is designed for the working professional. A student taking the recommended six credit hours per semester, including summers, will typically complete the program in 10–12 semesters post-master’s. Students must complete the Ph.D. within 10 years.

All courses in the doctoral programs are taught by doctorally prepared nurses or terminally degreed professionals in their respective fields. The highest standards in doctoral education are maintained.

Admission Requirements and Prerequisites

In order to be admitted to the Ph.D. program, the graduate must meet the following requirements:

- Admission to the university
- Registered Nurse licensure or the international equivalent
- For the B.S.N.-to-Ph.D., a B.S.N. degree from a nationally accredited (“recognized”) nursing program. For the post-master’s Ph.D., a bachelor’s degree and a master’s degree, one of which must be in nursing. Applicants who hold a bachelor’s degree in nursing may have a master’s degree in a field related to nursing.
- Graduate GPA at or above 3.50 on a 4.00 scale if post-master’s. For B.S.N.-to-Ph.D., a cumulative undergraduate GPA of 3.50 or better or completion of a master’s degree in another field.
- One of the following three options: 1) the Graduate Record of Examination (GRE); 2) an approved scholarly paper; or 3) an approved article/paper published in a refereed journal. The GRE score or quality of the paper option selected will be taken into consideration.
- An iBT TOEFL score of 83 or higher with a score of at least 26 on each section if proof of English proficiency is required
- A personally written essay describing how the Ph.D. will help the applicant achieve life and career goals
- A current curriculum vitae/resume
- Oklahoma Board of Nursing standards for English proficiency is required with the following scores for students educated in a nursing program in a country outside the United States and U.S. territories and who do not have a United States nursing license:
  - TOEIC Reading 725, Speaking & Writing 140
• IELTS Academic 6.5, Spoken Band 7.0
• TOEFL-iBT Speaking 26, Total 83
• Conditional admission may be extended to international applicants contingent upon meeting the language requirement prior to enrollment in nursing courses.

Eligibility Statement

Due to the strenuous nature of nursing and practice orientation of Oklahoma City University’s Kramer School of Nursing programs, the school reserves the right to determine the eligibility of any student to enroll or continue in the nursing program. This decision is based on considerations including, but not limited to, characteristics required of a professional nurse. Eligibility is determined by the faculty’s evaluation of a student’s ability to complete the course objectives, and includes attitudinal and behavioral components. These elements are re-evaluated each semester.

Although not required for admission, the following requirements must be met as specified once the Ph.D. student has been admitted to the program: health requirements specified by each agency where any clinical practicum experiences may occur, which may include immunizations, background check, drug screening, and health tests.

Academic Probation

Kramer School of Nursing doctoral students are subject to the Oklahoma City University graduate probation policy.

* If needed

B.S.N.-to-Ph.D. students must also complete master’s level courses leading to the M.S.N. in Nursing Education to satisfy the 90 post-baccalaureate credit hours required to complete the Ph.D. program.

Residency Requirements

The post-master’s Ph.D. program is designed for individuals who work full-time and who may or may not be geographically located within driving distance of Oklahoma City University. The B.S.N.-to-Ph.D. and post-master’s Ph.D. residency requirement will be met by maintaining year-round (including summers) continuous enrollment (unless on an approved leave of absence) and by coming to campus for all the following:

• On-campus class meetings
• Oral defense of candidacy exam
• Oral defense of dissertation proposal
• Oral defense of dissertation
• Other visits to campus required by faculty that are approved by the program chair

Candidacy

The purpose of the Candidacy Exam is to demonstrate the student’s ability to synthesize information learned in the doctoral courses taken to that point and readiness for the dissertation. Ph.D. students are to take their candidacy exams after
completing all course work, but before taking NURS 9903 Dissertation Seminar and subsequent NURS 9900 level dissertation hours. Complete guidelines and requirements are found in the *Kramer School of Nursing Student Handbook*.

**Dissertation**

All students in the Ph.D. program are required to complete a dissertation. Complete guidelines and requirements are found in the *Kramer School of Nursing Student Handbook*.

**Academic Regulations**

Ph.D. students must maintain a 3.00 cumulative GPA to progress without going on KSN probation. Ph.D. students must earn at least a B- (2.75) in all required courses; grades of C+ (2.25) or below are considered failing. This includes independent study nursing courses taken to meet a graduation requirement. Students may repeat only one nursing course. If the student earns a grade of C+ (2.25) or below on the repeated required course or on the first attempt of any other required course, the student will be dismissed from the nursing program. It is strongly recommended that students repeat any failed course at the next available offering. Withdrawal from a nursing course after two-thirds of the semester or session has transpired will be counted as one enrollment toward the course failure requirements described above. Nonattendance of classes does not constitute official withdrawal.

Master of Physician Assistant Studies

In 2015 Oklahoma City University (OCU) embarked on a major initiative to impact the delivery of health care in Oklahoma through the establishment of a Master of Physician Assistant (M.P.A.S.) program. Physician Assistants (PA) have repeatedly demonstrated their value as competent, flexible, and economically prudent medical practitioners in today’s society. With Oklahoma ranking near the bottom of states in access to primary care and in metrics of health status, a more robust PA workforce is a vital need for our citizens.

The M.P.A.S. program received initial accreditation in September 2015 and was awarded accreditation-continued in March 2020 with the next full program review expected in 2030. The PA program graduated its first class of physician assistants in 2018. OCU enlisted the assistance of many PAs, physicians, and community leaders to develop a program that will produce graduates with a mission to improve the lives of citizens in the communities they serve through a thorough understanding of disease mechanisms, application of critical thought, community service, servant leadership and life-long learning.

The OCU curriculum provides 28 months of educational training starting with classroom learning presented in an integrated systems-based format. By using this unique approach, students are able to focus their intellectual energies on cardiology, then pulmonology, and so on until all the body’s systems have been covered. In addition to the basic and medical sciences, the program has a specific interest in developing student passion in the medical humanities by integrating artistic and literary works to provide additional perspective to the medical sciences.

The classroom phase is followed immediately by multiple supervised clinical practice experiences in various medical settings and specialties. A unique aspect of the OCU program involves providing a parallel course of study in business aspects of medicine. This added component provides the OCU PA student a greater understanding of medical practice management which is critical to contributing to a successful practice. The final month of the M.P.A.S. program is a time for students to demonstrate competence in the art and science of medicine and readiness to enter the PA profession.

Mission Statement

To prepare physician assistants who are competent in the art and science of medicine so that they may improve lives in the communities they serve.

Goals

1. To graduate PAs possessing a thorough understanding of disease mechanisms.

   The program provides a comprehensive curriculum of basic and clinical sciences delivered in a systems-based format. During the initial didactic phase, the transition from acquiring medical knowledge to putting it into practice is facilitated by frequent use of simulated patients and an early introduction to patients. Confirmation of knowledge is assessed through objective testing, performance on procedural skills, evaluations from early patient interactions and a summative examination process.

2. To graduate PAs proficient in the application of critical thought to medical decision making.

   More than simply memorizing facts, the art of medicine requires the practitioner to apply logic and reasoning to achieve healing. These principles are taught and practiced in the didactic curriculum in small group discussions, through interactions with simulated patients and through a commitment to the teachings of humanism in medicine. Confirmation that critical thought is being appropriately assessed by evaluations on objective written examinations, objective structured clinical examinations and by observations of preceptors in the clinical year.

3. To graduate PAs with an exemplary sense of community service through a team-based model of health care delivery.

   Graduate PAs are in a unique position to have a tremendous impact on the communities in which they live and work. Paramount is their ability to provide compassionate care to marginalized citizens with the breadth of care multiplied through a team-based approach. During their tenure with the PA program, students will participate in such collaborative environments in charitable clinics throughout Oklahoma City. Confirmation that students attain this goal will be accomplished through analysis of survey data from frequent experiences serving the health care needs of the uninsured and working poor alongside physician and PA role models.

4. To graduate PAs who are servant leaders in patient-centered practices.
Servant leadership is a philosophy based on putting the needs of others first and helping people develop and perform to the best of their abilities. This philosophy is consistent with patient-centered care, which strives to improve outcomes by strengthening the provider-patient relationship, by providing care in consultation with patients and by replacing the provider-centered system with one from the patient’s viewpoint. Students will become familiar with this type of practice in the didactic phase and will gain hands-on experience working directly with PA program faculty who function as servant leaders in charitable clinics in the metro area. Indeed, servant leadership is a strategic initiative of the University and one embodied by the PA Program. Confirmation that students attain this goal will be accomplished through analysis of survey data from frequent experiences in patient-centered care practices.

5 To graduate PAs committed to life-long learning.

Our understanding of medical science increases each day. To keep up, practitioners must commit themselves to constant study throughout their careers. The discipline to maintain this effort begins with matriculation into the program. Students will learn the value of, and how to practice evidenced-based medicine. Being at ease with how to access and interpret the literature will provide the foundation for this way of life for the benefit of the graduate’s future patients. Confirmation that students strive for this goal will be assessed by evaluation of their ability to access and discuss the medical literature during the didactic and clinical phases of the program.

Admissions Information

Note that the OCU Physician Assistant program does not require the GRE or other standardized tests. The program also does not require clinical experience prior to the application process.

The M.P.A.S. program does not accept advanced standing/placement. Students enrolled in the program will be required to complete all courses.

The M.P.A.S. Program follows the OCU Graduate Admissions Policy. Please refer to their website for more information: www.okcu.edu/admissions/graduate. In addition to the Graduate Admissions Policy, the M.P.A.S. Program considers the following criteria in the selection of students for the PA program. The Admissions Committee will evaluate the applicant’s academic record (overall GPA, science GPA, last 60 hours GPA, level of difficulty) as well as individual qualities that include interpersonal skills, maturity, life experiences, knowledge of the profession, community service and leadership skills.

Admission Requirements & Prerequisites

- A baccalaureate degree from an institution accredited by a national or regional accrediting agency as recognized by the Council for Higher Education Accreditation (CHEA) and the Secretary of the United States Department of Education (USDE). Applicants must earn a bachelor’s degree prior to matriculation.
- All prerequisite courses must be completed at a national or regionally accredited college or university in the United States. For candidates holding foreign degrees, a total of 60 semester credits (approximately two years) at a national or regionally accredited U.S. college or university must be completed as well, prerequisite credit included. No exceptions.
- A minimum undergraduate or graduate degree GPA of 3.00 on a 4.00 scale is required.
- A minimum of five biological science courses of three semester credits is required. The PA program recommends courses in anatomy, physiology, cell biology, molecular biology, embryology, immunology, and microbiology. Courses with labs are preferred, but not required. While any one biological science course is not specifically required, completing several upper-level science courses provides a good foundation for the study of medicine and high achievement in the sciences contributes to success in PA education. Note the following courses or areas of study will not count towards the biological sciences prerequisite: kinesiology, nutrition, exercise science, and nursing.
- At least three chemistry courses are required; one of the three must be biochemistry.
- Two courses in Psychology are required.
- All prerequisites must be completed by August 15th. If you receive an interview, verification of completion of the prerequisites must be shown at the time of the interview in the form of an official transcript containing the course work.

Applying for Admission

Admissions decisions are based on evidence of academic preparation, letters of recommendation, your resume and if selected for final consideration, an on-campus interview.

All applicants to the OCU Physician Assistant program must apply through the online application system CASPA (Central Application Service for Physician Assistants).

Applications for each annual admission cycle will be available through CASPA beginning April (check CASPA or the OCU M.P.A.S. program website for exact dates). To be considered for OCU admission, an applicant must submit their
application and all supporting materials including transcripts, letter of recommendation, personal statement of purpose and resume to CASPA on or before the August 1 deadline. There are no exceptions to the posted deadline.

**Interview Selection Factors and Process**

Qualified applicants will be invited for a personal interview conducted at Oklahoma City University. Maintaining a high standard of academic excellence, knowledge of the health care system, personal maturity, self-assurance, good interpersonal skills, volunteering in the community, shadowing a PA, and work experience will weigh strongly in the admission decision.

The PA program has a list of essential applicant qualities on their website: [www.okcu.edu/physician-assistant/prospective-students/interview](http://www.okcu.edu/physician-assistant/prospective-students/interview). Please refer to this page for more specific information.

**Technical Standards for Physician Assistant Program Admissions**

A candidate for the M.P.A.S. degree as a Physician Assistant shall have abilities and skills in the areas of observation, communication, motor function, conceptual and analytical thinking, and normative behavioral and social attributes. Technological accommodations can be made for some disabilities in certain of these areas, but the role of the Physician Assistant in the delivery of health care necessitates that they shall be able to perform in an independent manner. Please see the department website for more specific information on each of these areas: [www.okcu.edu/physician-assistant/prospective-students/standards](http://www.okcu.edu/physician-assistant/prospective-students/standards).

**Grading Policies**

The program will require students in the didactic phase to perform at or above “C” in all courses and in each concentration averaged over the didactic phase with the exception that students must earn a “C” or above in the clinical medicine concentrations when averaged over each semester. Clinical courses are graded as Credit (CR), Credit with Honors (CRH), or No Credit (NC); the clinical course PA 6094 Preceptorship and Summative Process receives a letter grade. Students who fail to attain a “C” or better in any didactic course, concentration, or the clinical course PA 6094 Preceptorship and Summative Process or who fail to achieve a score of at least Credit (CR) on all other clinical courses will be evaluated and managed by the program’s Academic Advancement Committee according to the policies and procedures outlined in the program’s Academic Standards. All didactic courses and concentrations must successfully remediated before entering the clinical phase of the program.

Doctor of Physical Therapy

The Doctor of Physical Therapy program includes a combination of didactic and clinical education experiences. Courses cover basic/foundational sciences, clinical sciences, leadership, research, and clinical education. The 135-credit hour degree program prepares students as entry-level generalists who are capable of working in a variety of settings and pursuing a specialty area within the physical therapy profession.

The Doctor of Physical Therapy Program at Oklahoma City University is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, VA, 22305-3085; phone: 703-706-3245; email: accreditation@apta.org. If needing to contact the program/institution directly, please call (405) 208-6260 or email ptprogram@okcu.edu.

Mission Statement

The Doctor of Physical Therapy Program at Oklahoma City University prepares graduates who make a positive impact on the health and well-being of individuals and communities through service, leadership, and scholarship.

Program Goals

- To graduate autonomous practitioners who are leaders in the profession and community capable of treating diverse populations as members of interprofessional teams
- To support faculty excellence in service, leadership, and scholarship
- To collaborate with stakeholders to improve health care by promoting health and well-being and addressing health disparities through service, leadership, and scholarship.

Admission Requirements and Prerequisites

Admission to the Doctor of Physical Therapy Program is a competitive and selective process. To be considered for admission, an applicant must meet the following:

- Completion of an undergraduate (bachelor’s) degree from a regionally-accredited college or university in the United States.
  - Minimum cumulative undergraduate GPA of 3.00 on a 4.00 scale
  - Minimum Science GPA of 2.75 on a 4.00 scale
- Completion of 8 out of the 10 prerequisite courses by the Fall semester before program matriculation. Students who complete any pre-requisites during the Spring semester MUST show proof of enrollment at the time of program interviews.

  - Chemistry: 2 Chemistry Courses (for science majors) with labs
  - Physics: 2 Physics Courses (for science majors) with labs
  - Statistics OR Biostatistics: 1 course
  - Biological Courses: 3 Courses
  - Human Anatomy (with lab)
  - Human Physiology (with lab)

  --OR--

  - 2 combined Anatomy & Physiology courses with labs
  - Any additional Biology course with or without lab
  - Psychology: 1 Psychology course with an emphasis on individual behavior (i.e., General, Abnormal, or Developmental)
  - Behavioral Science: 1 course with an emphasis on group behavior (i.e., sociology, cultural anthropology)

- Graduate Record Examination (GRE) scores (Quantitative, Verbal, and Analytical Writing)

  - Must be taken within the last 5 years at the time of application
  - If multiple GRE exams are taken, the best scores from each section will be considered. If you have multiple GRE scores, please notify the Office of Graduate Admissions.

- Recommendations: One each from the following:

  - Licensed Physical Therapist whom the applicant has observed working with patients in a PT setting AND who holds a current U.S. PT license
  - Science professor/instructor
  - Additional Professor, health professional, or recent/current employer or supervisor

- International students, or domestic students with credentials from institutions outside of the U.S. must:

  - Complete all pre-requisite courses from a regionally-accredited U.S. university
  - Have evaluation of credentials by WES or ECE
  - Report English Language proficiency: TOEFL OR IELTS

- Observation/Volunteer Hours

  - A minimum of 48 hours total, divided among 4 settings of at least 12 hours in each of the following settings (24 hours must be completed prior to application):
In-Patient Settings: Minimum of 12 hours in a hospital, rehabilitation facility, or skilled nursing facility;
Out-Patient Settings: Minimum of 12 hours in a setting such as orthopedics, sports medicine, hospital clinic, or PT clinic;
Additional Setting: Minimum of 12 hours in an additional setting such as long-term care facility, school, home health, or specialty care PT clinic;
Service/Community Project: Minimum of 12 hours as an active participant in a service or community based project. Examples include after-school programs, food banks, women’s shelters, or engaging in community improvement projects.

• Recommended: Applicants are encouraged to complete coursework, or have experience, in professional writing and oral communication. Examples include writing intensive courses, grant-writing, professional publication(s), public speaking, Toastmasters, etc.

Applying for Admission

Admissions decision are based on evidence of academic preparation, letters of recommendation, your CV/resume and, if selected for final consideration, an interview.

All Doctor of Physical Therapy (D.P.T.) applicants must apply through the Physical Therapy Central Application Service (PTCAS). Application instructions for PTCAS are found at PTCAS.ORG.

Applications for each annual admissions cycle will be available through PTCAS. The admission cycle will be available from July 1st through November 1st each year. All application documents must be submitted no later than November 1st.

Interview Selection Factors and Process

Approximately 100 of the most qualified applicants will be invited for a personal interview. Maintaining a high standard of academic excellence, knowledge of the profession and health care system, interpersonal skills, PT observation hours and community service, and work experience will be considered in the admission decision.

Essential Functions

Physical Therapy is an intellectually, physically, and psychologically demanding profession. In addition to the academic requirements for admission, candidates for the D.P.T. degree must exhibit mastery of essential functions for this field in each of the following categories: observation, communication, sensory/motor, intellectual, behavioral/social and ethical.

The abilities that a physical therapist must have to practice safely are those described in accreditation standards for the physical therapy program. Candidates for the degree must meet these minimum standards for successful completion of degree requirements. Similarly, failure to meet these minimum standards may result in the D.P.T. Program not admitting a student to the program or dismissing enrolled students from the program.

Standards

Observation: Observation requires the functional use of vision, hearing and somatic sensations. A student must be able to participate in lecture and laboratory demonstrations, and must be able to observe a patient accurately, observe digital and waveform readings and other graphic images to determine a patient’s condition.

Communication: Communication includes speech, language, reading, writing and computer literacy. Students must be able to communicate effectively and sensitively with patients to elicit information regarding mood and activities, as well as perceive non-verbal communications. Students must also be able to communicate effectively and efficiently with other members of the health care community to convey information essential for safe and effective care. These skills include hearing, reading, computer literacy, and the appropriate use of oral and written English.

Sensory and motor function: Students are required to possess sufficient motor skills to directly perform palpation, auscultation, muscle testing, range of motion and other examination procedures. Students must be able to execute motor movements required to provide general and therapeutic care, such as positioning heavy and/or immobile patients, gait training using therapeutic aids and orthotics, positioning and performing manual mobilization techniques, performing non-surgical wound debridement, and placing electromyography electrodes. These skills require coordination of both gross and fine muscular movement, equilibrium, the integrated use of touch and vision.

Intellectual abilities: To effectively solve problems, students must be able to measure, calculate, reason, analyze, integrate and synthesize information in a timely fashion. The student must be able to synthesize knowledge and integrate the relevant aspects of a patient’s history and examination findings to develop an effective treatment program.
Behavioral and Social Attributes: A student must possess the psychological ability required for the full utilization of their intellectual abilities, for the exercise of good judgment, for the prompt completion of all responsibilities inherent to diagnosis and care of patients, and for the development of mature, sensitive, and effective relationships with patients. Students must be able to tolerate physically and mentally taxing workloads and function effectively under stress. They must be able to adapt to a changing environment, display flexibility and function in the face of uncertainties inherent in the clinical problems of patients. Students must demonstrate ethical behavior both in the classroom and during clinical experiences.

Academic Policies

The D.P.T. Program’s grading system is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Point</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
<td>90-100</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
<td>80-89</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
<td>70-79</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
<td>60-69</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
<td>Below 60</td>
</tr>
</tbody>
</table>

Progression

All academic and clinical coursework has to be successfully completed in sequence. Demonstrated competence in both academic and clinical components of the curriculum will be required to progress to the next semester. Academic competence will be demonstrated through satisfactory performance in coursework, assignments, professional behaviors and practical exams.

Students will be required to pass all safety criteria defined on practical exams by 100%. This assures faculty and clinical sites that students are safe to continue into clinical experiences.

To continue in good standing, students must receive no grades lower than a C in any course.

D.P.T. Program Probation

The D.P.T. Program defines probation as a designated period of time during which a D.P.T. student must show satisfactory improvement in academic performance, clinical performance, and/or professional behavior.

Probationary actions will be processed through the Academic Advancement and Progression committee. Probation will be recommended when previous attempts to resolve concerns through verbal discussions and early consultation have been unsuccessful or in situations where actions are egregious and require more deliberate and decisive action.

Dismissal

Upon the recommendation of the D.P.T. Advancement and Progression Subcommittee, the D.P.T. Program Director in collaboration with the Dean of the College of Health Professions may recommend student dismissal from the D.P.T. Program.

Graduation Requirements

To qualify for the degree of Doctor of Physical Therapy from the Oklahoma City University D.P.T. Program the following degree requirements must be accomplished:

1. Successful fulfillment of all graduate requirements of Oklahoma City University
2. Successful completion of the minimum number of the prescribed graduate credits (135 credits) and all required courses
3. Successful completion all clinical education experiences with a grade of “Credit”
4. Achievement of a cumulative GPA of 2.00 or better within four years of the student’s initial admission into the program. No student will graduate with an incomplete grade in a course.

General Information .......................................................... 111
Admission Requirements. ...................................................... 111
Academic Regulations ........................................................ 111
Required Courses .............................................................. 113
Master of Fine Arts in Screen Acting

The School of Theatre offers a Master of Fine Arts in Screen Acting in partnership with Goldsmiths College in London. This terminal degree is an intensive two-year program, with one year delivered in Los Angeles and one year in London. The degree requires completion of 60 hours of coursework, equivalent to 240 credits in the UK educational system. MFA in Screen Acting is designed to prepare graduates to work professionally in film, television and related recorded media. Students will gain invaluable experience working alongside, and networking with, industry professionals, including actors, directors, casting directors, writers, agents, and producers, in both LA and London. Students will also learn how to concept, develop, pitch, and produce their own original content. The program culminates in the development, production, and presentation of a thesis production project.

OCU Los Angeles Campus
Students will spend one year in Culver City, the heart of the film industry in Los Angeles. Courses will be delivered by OCU faculty and guest industry professionals. During this year they will be introduced to a systematic and holistic approach to preparing a role for the screen. Alongside this foundational study of acting technique, students will engage in the creation and development of multiple digital media projects; a range of workshops and events with industry professionals; and a research project on an aspect of screen history or film/TV theory.

Oklahoma City University - LA Campus

Goldsmiths College, University of London
One year of the M.F.A. in Screen Acting program is delivered by OCU and Goldsmiths College faculty and staff in London. The primary function of this year is the acquisition and application of a range of specific technical skills in voice, movement, stage combat and character work. Students will work on “historically distanced” content and a variety of material and acting styles outside of contemporary realism, requiring physical, vocal, and cultural transformation. Professionalization and connection with industry will continue to be a priority during students’ time in London.

Goldsmiths College, University of London
8 Lewisham Way
London
SE14 6NW
United Kingdom

Admission Requirements
For regular admission, the applicant must have a minimum undergraduate GPA of 3.00 and hold an appropriate bachelor degree, preferably in theatre, but other degrees will be considered, from an accredited institution with undergraduate preparation related to graduate study in screen acting. Adequacy of this preparation will be determined through transcript evaluation, audition, and interview.

Procedure for Admissions
An application for admission to the MFA program may be secured from the Office of Graduate Admissions. The completed form along with an official transcript of college credits and two letters of recommendation, should be returned to the Office of Graduate Admissions prior to submitting an audition video. Graduate credits from other institutions will only be accepted by special permission (normally not exceeding 8 credit hours). All students must complete a successful audition, callback and interview and satisfy all university criteria before they will be admitted to the program.

Audition Requirements
Please refer to the MFA in Screen Acting Program web-site (www.okcu.edu/mfa-screen-acting) for current audition procedures, requirements and deadlines.

Articulation and Transfer Agreements
OCU has not entered into any articulation or transfer agreements with other institutions to accept prior coursework, achievement tests, challenge examinations or any form of unearned credit. Due to the specialized nature of this program, transfer credit will not be accepted.

Academic Regulations
- Students must maintain a minimum GPA of 3.00 in order to remain in good standing. A student must be in good standing to graduate.
• No grades below C (2.000) are acceptable toward degree requirements. A maximum of 3 credits below B- are acceptable towards degree requirements. A student may not graduate with a D or F on the transcript. With the exception of the Thesis Project, students may not elect credit/no credit grading.
• A course may be repeated only once.
• MFA students whose cumulative GPA drops below 3.000 at the end of a semester will receive written notification from the registrar that they have been placed on academic probation for the next semester. Should the student fail to raise the cumulative GPA above 3.000 during the next semester, they will be dismissed from the university.
• Students must comply with the established thesis or project submission policy and the master’s and capstone project enrollment and grading policy. These policies are stated in the Academic Regulations section of the graduate catalog.

Cancellation, Withdrawal and Refund Policies
The student has a right to cancel this enrollment agreement or withdraw his/her enrollment from Oklahoma City University and obtain an applicable refund. MFA Screen Acting students may cancel this enrollment agreement or withdraw from Oklahoma City University and receive the applicable refund by contacting Oklahoma City University, Attn: Student Accounts, 2501 N. Blackwelder Ave., Oklahoma City, OK 73106 or by e-mail at: studentaccounts@okcu.edu.

Approximately the third week of class each semester, if the student’s account is paid in full, any excess personal, state, private, or federal financial aid awarded will be refunded to the student. The charges to be paid include, but are not limited to, tuition, fees, room and board, and traffic fines. If aid includes proceeds from Parent PLUS loans, any excess funds MUST be returned to the parent unless otherwise indicated on the application. Only then can the refund go to the student. Oklahoma City University processes refunds by direct deposit. Contact the Student Accounts Office for details.

Additional Information related to specific questions can be obtained from the Registrar’s Office.

<td>1/22/2024</td>
<td>1/26/2024</td>
</tr>
</tbody>
</table>

If you have received federal student financial aid, you are entitled to a refund of moneys not paid from the federal financial aid funds.

Student attendance in a course does not affect the tuition reduction. The date the completed form is processed by the Registrar’s Office is the determining factor.

Courses dropped through the 100 percent refund date will not appear on the student’s permanent record. Changes in class schedule become effective on the day the form is processed by the Registrar’s Office.

The final date to drop a course is listed in the academic calendar. Students dropping courses before the final drop date will receive a W (withdrawal). After the final drop date, a student must receive approval from their instructor. The instructor must assign a grade of WP (withdrawal passing) or WF (withdrawal failing) for the course. (A grade of WF will be calculated into the student’s grade point average as a failing grade.) The student then must receive approval from their advisor, academic dean, and the provost/VPAA before the change in class schedule can be processed. No course may be dropped after the last day of classes.

A student who is completely withdrawing from the university must obtain a withdrawal form from the Office of the Registrar, International Student Office, Financial Aid Office, or their dean’s office. Once this form is properly completed and processed through the Office of the Registrar and Student Accounts, the withdrawal becomes effective on the date it is validated by Student Accounts. A “W” (withdrawal) will be assigned for each course. Nonattendance of classes does not constitute official withdrawal. Withdrawal will be permitted up to and including the final regular day of classes for all semesters or terms. No withdrawals are permitted during finals week.

Resources for Students

Dulaney-Browne Library
Students in this program will have access to library resources. Students can communicate directly with librarians via e-mail, phone, online chat, or Zoom web conferencing. They can also access on-line research databases that include full-text documents and request items through Interlibrary Loan (ILL). For further information, please visit the library web-site at https://www.okcu.edu/students/libraries.

While in London, students will have access to Goldsmiths library in 8 Lewisham Way, London. More info can be found at: https://www.gold.ac.uk/library/using/.

Additional information required by the Bureau for Postsecondary Education of California

https://www.bppe.ca.gov/lawsregs/ppe_act.pdf

As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which must be provided to you prior to signing an enrollment agreement.

Catalog Coverage Dates: May 7, 2023 – May 3, 2024. The OCU Catalog is updated annually and as changes are needed.

Approval to Operate: Oklahoma City University is a private institution that is approved to operate in California by the Bureau for Private Postsecondary Education. This approval to operate means that OCU is compliant with the state standards set forth in the CEC and 5, CCR.

Accreditations: Oklahoma City University is accredited by the Higher Learning Commission and is eligible for federal financial aid. The MFA in Screen Acting program is not individually accredited and is not accredited by an agency recognized by the Department of Education. There are no licensure requirements with this degree program. Graduates from it will not be eligible to sit for the applicable licensure exam in California and other states or become certified or registered as required for the applicable profession, occupation, trade, or career field in California. Additionally, the program is not accredited by the state of California and is not recognized for some employment positions, including, but not limited to, positions with the State of California.

Questions: Any questions or problems concerning this school which have not been satisfactorily answered or resolved by the school should be directed to the Bureau for Private Postsecondary Education at:

P.O. Box 980818, West Sacramento, CA 95798-0818
Web site Address: www.bppe.ca.gov
Telephone: (888) 370-7589 or (916) 574-8900
Fax: (916) 263-1897

Complaints: A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau’s Internet Web site (www.bppe.ca.gov/enforcement/complaint.shtml).

Locations: The class sessions will be held at 3535 Hayden Avenue, Culver City, CA 90232 and 8 Lewisham Way, London, SE14 6NW, United Kingdom.

Tuition and Fees: Tuition and fees for this program are $1,011 per credit hour with special program fees of $225 per credit hour. The total estimated cost for the 60-Credit Hour MFA is $74,160. The year of study in London will require a passport and a Visa which can cost $900 or more and take 3 months to obtain.

<table>

</tr>
</tbody>
</table>
Loans: If a student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If a student defaults on a federal or state loan, both the following may occur:

1. The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed on the loan.

2. The student may not be eligible for any other federal student financial aid at another institution or other government financial assistance until the loan is repaid.

Housing: No campus housing is available. The rent in Culver City ranges from $1,000 a month for a studio apartment to $2,000 for a 1 bedroom. Shared housing in Culver City and the surrounding neighborhoods begins at $600. This is a non-residential program and Oklahoma City University will not be able to assist students in finding or acquiring housing at either the California or London locations. Housing is the responsibility of the student.

Financial Stability: Oklahoma City University does not have a pending petition in bankruptcy, is not operating as a debtor in possession, has not filed a petition within the preceding five years, or has not had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code.

Retention of Student Records: California State law requires Oklahoma City University to maintain school and student records for five (5) years. In addition, all transcripts are kept indefinitely in digital form.

NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION

The transferability of credits you earn at Oklahoma City University is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the Master of Fine Art you earn in Screen Acting is also at the complete discretion of the institution to which you may seek to transfer. If the credits or degree that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Oklahoma City University to determine if your credits or degree will transfer.

California Disclosures

- No experiential learning will be applied to this program.
- Oklahoma City University will offer visas to students after the second year of enrollment
- Instruction will only occur in English.

Occupational Classification: This program prepares its graduates for the following occupation codes based on the United States Department of Labor’s Standard Occupational Classification codes:

- 27-2000 Entertainers and Performers, Sports and Related Workers
- 27-2010 Actors, Producers, and Directors
- 27-2011 Actors
- 27-2012 Producers and Directors

Student Tuition Recovery Fund (STRF): The State of California established the STRF to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepaid all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, P.O. Box 980818, West Sacramento, CA 95798-0818, (916) 574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or
deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

- The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
- You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
- You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
- The institution has been ordered to pay a refund by the Bureau but has failed to do so.
- The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
- You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
- You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification.

* Denotes cross-listed course  
+ Denotes dual-listed course
**Course Offering Key**

(Fall) This course is offered every fall.
(Fall, odd) This course is offered every other fall on the odd numbered years.
(Fall, even) This course is offered every other fall on the even numbered years.
(Spring) This course is offered every spring.
(Spring, odd) This course is offered every other spring on the odd numbered years.
(Spring, even) This course is offered every other spring on the even numbered years.
(Summer) This course is offered in the summer.
(TBA) This course is not offered on a regular cycle. Students should contact their academic advisors for more information.

* Denotes cross-listed course (different departments)
+ Denotes dual-listed course (different levels)

Course offering designations are offered only as a guide for long-range planning. All course offerings are subject to change without prior notice. Students are encouraged to contact their academic advisors or the Registrar’s Office for current information on course offerings.

The last number of each course number indicates the number of credit hours; e.g., ACCT 2113 is a three-credit-hour course.

<tbody>
<tr>
<td>5123</td>
<td>Accounting Theory and Research</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Study and evaluation of alternative theory, practices, and generally accepted accounting principles of financial accounting; Learning to apply financial accounting standards through research using the Accounting Standards Codification. Prerequisite: ACCT 3123. (Fall)</td>
<td></td>
</tr>
<tr>
<td>5133</td>
<td>Financial Statement Analysis</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Survey of International Financial Reporting Standards (IFRS) and other topics related to international accounting. Learning to apply financial statement analysis for decision making using case studies of U.S. and International companies. Using data analytics to forecast, analyze and value companies based on a variety of commonly used valuation models and techniques. Prerequisite: ACCT 3123. (Spring)</td>
<td></td>
</tr>
<tr>
<td>5143</td>
<td>Government and Not-for Profit Accounting</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Course develops students’ understanding of the governmental, not-for profit, and partnership accounting concepts. Coverage includes accounting transactions for the listed entities and basic financial statement preparation and information provided therein. Prerequisite: ACCT 3123. (TBA)</td>
<td></td>
</tr>
<tr>
<td>5163</td>
<td>Energy Accounting</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Acquaints students with accounting in the Energy industry, including acquisition, production/depletion and retirement of oil and gas properties. Topics include differences between full cost and successful efforts accounting methods; accounting for joint ventures; and analysis of financial statements and disclosures issued by oil and natural gas firms. Introduction to related tax issues. Prerequisites: ACCT 2113 and ACCT 2213. (Spring)</td>
<td></td>
</tr>
<tr>
<td>5213</td>
<td>Accounting for Business Decision Making</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Emphasis on the application of accounting information for financial reporting and the use of accounting information in managerial decision making. This course is for M.B.A. students only and cannot be credited toward the M.S.A. (Fall, Spring)</td>
<td></td>
</tr>
<tr>
<td>5223</td>
<td>Forensic Accounting</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Forensic accounting combines accounting, auditing and investigatory skills to identify, investigate, and communicate evidence and analysis that could be suitable to courts of judicature. Students will learn the rudiments of civil/criminal procedure, rules/care of evidence, and expert witnessing. Students will learn how forensic accounting provides the basis for negotiation, settlement or other decision-making in business situations (e.g., litigation support, property/economic valuation/damages, etc.). Prerequisite: ACCT 4313. (TBA)</td>
<td></td>
</tr>
<tr>
<td>5313</td>
<td>Advanced Auditing and Assurance Services</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Application of technical auditing skills and techniques based on mastery and interpretation of AICPA and PCAOB auditing standards and pronouncements as well as fraud prevention and detection. Topics include latest methods involved in audit planning, control structure review, data analytics, procedures selection, procedural execution, and communication of audit findings and results. Prerequisite: ACCT 4313. (Fall)</td>
<td></td>
</tr>
<tr>
<td>5323</td>
<td>Principles of Fraud Examination</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Develops the main topics in fraud examination, including: the nature and motivations for fraud; fraud prevention, detection, and investigation; various types of fraud; and, some of the more infamous fraud cases. Utilizes an open-ended, seminar format in which students actively participate in gathering materials and discussion. Prerequisite: ACCT 3113 (Fall)</td>
<td></td>
</tr>
<tr>
<td>5413</td>
<td>Income Taxation of Entities</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Introduction to income taxation issues unique to C corporations, S corporations, partnerships, and estates/trusts, including preparation of entity returns. Prerequisites: ACCT 3413 and ACCT 4413. (Fall)</td>
<td></td>
</tr>
<tr>
<td>5431</td>
<td>Estate and Gift Taxation</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Federal excise tax imposed on the transfer of wealth, whether in the form of a lifetime gift or transfer at death. Prerequisite: ACCT 3413 and ACCT 4413. (TBA)</td>
<td></td>
</tr>
<tr>
<td>5453</td>
<td>Digital Forensics</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Digital forensics (a/k/a digital forensic science) is a branch of forensic science offering professionals a systematic approach to the recovery and investigation of material found in digital devices, often aimed at solving computer crimes or other crimes utilizing digital devices. The needs for digital forensic experts are growing in corporations, accounting and law firms, insurance companies and law enforcement. Digital forensics investigations have a variety of applications - most commonly to provide supportive or refuting evidence before criminal or civil courts (as part of the discovery process). This work would include retrieval procedures that follow proper investigative procedures. Forensics may also provide support for internal corporate investigations or intrusion investigations (i.e., a specialist probe into the nature and extent of an unauthorized network intrusion). This course will cover both the principals and practice of digital forensics. (TBA)</td>
<td></td>
</tr>
<tr>
<td>5593</td>
<td>Accounting for Managers in Energy Business</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Accounting skills needed for the acquisition, production/depletion and retirement of oil and gas properties. Differences between full cost and successful efforts accounting methods. Discussion of accounting for joint ventures, taxation of oil and gas properties, analysis of financial statements and disclosures issued by oil and natural gas firms. (Spring)</td>
<td></td>
</tr>
<tr>
<td>5613</td>
<td>Accounting Ethics</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Survey of professional ethics standards and personal ethics as applied to the practice of accounting. Prerequisite: MGMT 2213. (Spring)</td>
<td></td>
</tr>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>5091-6</td>
<td>Independent Study</td>
<td></td>
</tr>
<tr>
<td>5213</td>
<td>Issues in Mental and Physical Health</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course will explore issues regarding the relationship between physical and emotional health—primarily from mental health, coping, and counseling perspectives. The roles of adjustment, lifestyle, and social factors on stress and wellness are discussed.</td>
<td></td>
</tr>
<tr>
<td>5313</td>
<td>Sexual Issues in Counseling</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course will focus on psychosexual development throughout the life span, interviewing and counseling techniques, and ethical sexual therapy for sexual dysfunctions, addictions, paraphilias, and challenges related to aging and illness. Prerequisite: ABS admission.</td>
<td></td>
</tr>
<tr>
<td>5314</td>
<td>Assessment I</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Survey tests and measurements for adults and children. Extra fees may be required. Prerequisite: ABS admission.</td>
<td></td>
</tr>
<tr>
<td>5363-4</td>

<td>3–4</td>
</tr>
<tr>
<td>5413</td>
<td>Crisis Intervention</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Special intervention strategies relevant to counseling will be discussed which may include posttraumatic stress, sexual assault, partner violence, grief and bereavement, and workplace violence.</td>
<td></td>
</tr>
<tr>
<td>5503</td>
<td>Addiction</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>An overview of the addiction process, what constitutes an addiction, and the treatment methods available through counseling and other means.</td>
<td></td>
</tr>
<tr>
<td>5513</td>
<td>Death and Dying</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>As the last stage in life span development, Death and Dying is an important course to take and an important concept to adjust to. We'll explore a variety of issues such as coping with chronic illness, death awareness, stages of dying, hospice, suicide, euthanasia, funeral customs, children's experience, and traumatic death—and their impacts on each individual. Where possible, we will arrange relevant field trips.</td>
<td></td>
</tr>
<tr>
<td>5564</td>
<td>Marriage and Family Therapy</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>An overview of the major marriage and/or family counseling theories for use in a variety of settings. Prerequisite: ABS 5713 and permission.</td>
<td></td>
</tr>
<tr>
<td>5613</td>
<td>Gerontology</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Understanding of developmental experiences and their impacts on adjustment. Mental health issues and community resources will be a primary focus. Intervention strategies from a counseling perspective will be discussed.</td>
<td></td>
</tr>
<tr>
<td>5703</td>
<td>Behavior Pathology</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course further investigates abnormal human behavior and dysfunction as it relates to the DSM disorders. Schizophrenia, neurosis, psychosis, multiple personality, and depression are among the topical issues studied. Prerequisite: ABS admission.</td>
<td></td>
</tr>
<tr>
<td>5713</td>
<td>Counseling Theories</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Traditional theories and techniques of counseling will be covered as well as the personality theory underlying them. This course will address how to move from theory to practice. Development of basic counseling skills and awareness of self will be covered. Extra fees may be required. Prerequisite: ABS admission.</td>
<td></td>
</tr>
<tr>
<td>5813</td>
<td>Career Development</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course will focus primarily on lifestyle and career choice, the decision making process, career counseling, and vocational choice. Prerequisite: ABS admission.</td>
<td></td>
</tr>
<tr>
<td>6314</td>
<td>Assessment II</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Administration, scoring, and interpretation of tests. Primarily for adults and children. Extra fees may be required. Prerequisite: ABS 5314.</td>
<td></td>
</tr>

* Denotes cross-listed course  + Denotes dual-listed course
### Arts Management (AMGT)

<table>
<thead>
<tr>
<th>Course #</th>
<th>Course Name</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>5742</td>
<td>Contracts and Management for Performers</td>
<td>2</td>
</tr>
</tbody>
</table>

For the student planning a professional performance career, this course is designed to provide basic but important information about contract law for performers, organizational structures in the performing arts, performing arts unions, artist agents and managers, unemployment insurance, and workers’ compensation. As required by graduate degrees. (Fall)

### Computer Science (CSCI)

<table>
<thead>
<tr>
<th>Course #</th>
<th>Course Name</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>5003</td>
<td>Object-Oriented Programming Design and Patterns</td>
<td>3</td>
</tr>
</tbody>
</table>

Advanced study of object-oriented programming, design concepts, and patterns as they apply to real-world problems: concepts of polymorphism, dynamic bindings and creational/structural/behavioral patterns.

<table>
<thead>
<tr>
<th>Course #</th>
<th>Course Name</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>5103</td>
<td>Theory of Computing</td>
<td>3</td>
</tr>
</tbody>
</table>

A course on the theoretical foundations of computation. Topics include finite-state machines, regular languages, context-free grammars, push-down automata, Turing machines, decidability, and complexity theory. Prerequisites: one language beyond Basic (C or C++ preferred) and MATH 3503. (Fall)

<table>
<thead>
<tr>
<th>Course #</th>
<th>Course Name</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>5203</td>
<td>Logic for Computer Science</td>
<td>3</td>
</tr>
</tbody>
</table>

A survey of historical and modern logic with emphasis on applications in computer science. Topics include Boolean algebra, truth tables, verification of argument validity, development of proofs using prepositional and first-order predicate logic, the correctness and completeness of first-order logic, normal forms, and Herbrand's theorem. Automated proof techniques such as resolution and unification are covered. Additional material covered may include topics such as fuzzy logic and multivalued logics. Prerequisites: CSCI 3503. (Fall)

<table>
<thead>
<tr>
<th>Course #</th>
<th>Course Name</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>5303</td>
<td>Embedded and Real-Time Operating Systems</td>
<td>3</td>
</tr>
</tbody>
</table>

A continuation of CSCI 4313. Additional topics include device I/O, interrupts, timers, task scheduling, and hardware OS. Two hours of lecture and one hour of lab each week. Prerequisite: CSCI 4313. (TBA)

<table>
<thead>
<tr>
<th>Course #</th>
<th>Course Name</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>5403</td>
<td>Software Engineering</td>
<td>3</td>
</tr>
</tbody>
</table>

Study of the principles and techniques for methodical construction of quality software: project plan and management, software process, software requirements analysis, programming paradigms, module specification techniques, testing and validation procedures, and proof of program correctness. Includes a team project. Prerequisite: CSCI 5003. (Spring)

<table>
<thead>
<tr>
<th>Course #</th>
<th>Course Name</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>5413</td>
<td>Algorithm Design and Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

Analysis of algorithms and the application of analysis on the design of efficient algorithms, both theoretical and practical.
sorting, tree structures, graph algorithms, NP-completeness, dynamic programming, greedy, string-matching, encryption, and generic algorithms. (Fall)

5423 Blockchain
Cryptocurrency, distributed ledger, consensus, Smart Contracts, digital wallets, Web3, NFTs (Non-Fungible Tokens), review practical business uses of blockchain, build a custom blockchain application using Smart Contracts, and how to protect digital currencies. (Fall, spring, summer)

5503 Computer Organization and Architecture
A study of the structure, organization, and logical design of computers from an advanced perspective. Topics include digital arithmetic and logic, computer structures, machine cycles, interrupts, memory organization, I/O schemes, the integration of operating systems, instruction sets, and addressing. No prior knowledge of electronics is presumed. Two hours of lecture and two hours of lab each week. Prerequisite: At least one programming language. (Spring)

5513 Computer System Architecture
A study of high-performance computer architectures. Topics may include a study of instruction set architecture, instruction execution, synchronization, micro-operations, global memory, parallel processing, overlap and pipeline processing in a von Neumann type architecture, “RISC” architectures, and supercomputers. Prerequisite: CSCI 5503. (TBA)

5603 Database Design
Quantitative study of the tools and methodology of database design. Design conceptual database, specify implementation, and predict system performance: database structures and schemas, advanced query languages; relational, graph and document databases. (TBA)

5803 Computer Graphics
An integrated study of the software, data structures, mathematics, and algorithms of image manipulation, computer graphics, and computer-assisted design. Topics include raster techniques, geometric transformations of two and three dimensions, object modeling, illumination models, shading models, basic animations, and strategies for creating representations of three-dimensional objects. Two hours of lecture and two hours of lab each week. Prerequisite: MATH 2104 or equivalent proficiency in calculus and analytic geometry. (TBA)

6003 Computer Science Graduate Capstone
A capstone course required of all graduate computer science students. Students are required to develop a presentation on some current topic in computer science. The course also includes assessment and assessment-oriented topics. Should be taken in the student’s final semester. (Spring)

6063 Current Topics in Computer Science
Graduate-level study of emerging topics in computer science; subject and prerequisites may vary. (TBA)

6113 Cryptography
History of Cryptography and modern practices to secure systems: ciphers, encryption, hashing, RSA, public key encryption, protecting personally identifiable information (PII) and best practices.

6123 Cloud Security
Hands-on introduction to securing your code and cloud infrastructure in the cloud: authentication, authorization, firewall, gateway and API security.

6133 Offensive Coding
Ethical Hacking/Pen Testing; simulate cyberattacks to evaluate computer systems: social engineering, physical security, application vulnerabilities and vulnerability assessments.

6143 Defensive Coding
Write code to guard against the most common hacker attacks: OWASP Top 10, secure authentication, storing data securely, input validation, and vulnerability management.

6203 Advanced Object-Oriented Programming
An advanced study of object-oriented programming and design concepts. Subjects include classes, methods, polymorphism, inheritance, and object-oriented design. C++ and Smalltalk are studied in depth. Other object-oriented languages discussed include Java. A group project is required. Two hours of lecture and two hours of lab each week. Prerequisites: CSCI 5403 and Proficiency in C++ or CSCI 4303.

6213 Data Science Fundamentals
Introduction to probability and statistical inference used in data science; random variables, sampling distributions, statistical significance, analysis of variance, hypothesis testing, regression and classification.

6223 Practical Data Science
Hands-on introduction to the complete data science pipeline; Python data acquisition and cleansing, data storage and exploration, missing data treatment, feature engineering, modeling, interpretation and visualization.

6233 Machine Learning
Machine learning including Scikit-learn techniques and algorithms; classification and regression modeling, cross validation, hyperparameter tuning, overfitting and underfitting, supervised learning methods (linear models, polynomial regression, regularization, support vector machines, decision trees and random forests) and unsupervised learning algorithms (clustering, density estimation and anomaly detection).

</table>

* Denotes cross-listed course   + Denotes dual-listed course
6853  Major Works II  
Advanced study of major authors and/or literary periods/canons. 
Prerequisite: ENGL 5753.

6863  Professional Writing Strand III—Platform and Career  
Guided research and practice in building a platform, applying for 
jobs within and outside academia, and creating post-MFA profes-
sional goals. Professional writing strand requires a minimum of 
two courses in area. (TBA)

6873  Literary Magazine Editing  
With faculty mentor guidance, edit the MFA journal, Red Earth 
Review. First in a two-course sequence. (Fall, spring)

6883  Critical Thesis I  
Crafting and editing the critical introduction to the thesis. First of 
a two-part course sequence.

6923  Secondary Genre Study II  
Advanced in-depth study of secondary creative writing genre.

6973  Literary Magazine Production  
With faculty mentor guidance, design and produce the MFA 
journal, Red Earth Review. Second in a two course sequence. 
Prerequisite: ENGL 6273. (Fall, spring)

6983  Critical Thesis II  
Advanced research for and writing of critical introduction to 
creative thesis. Second of a two course sequence. Prerequisite: 
ENGL 6883.

Criminology (MSC)

5063  Selected Topics in Criminology  
Selected Topics generally consists of current issues facing the 
criminal justice system. (TBA)

5091-6  Independent Study  
Generally, working with a professor, students study one particular 
aspect of the criminal justice system.

5103  Crime Victims  
Analysis of the victimology model. Emphasis is on the victim, the 
academic institutional perspective, the criminal justice perspec-
tive, and the statistical approach.

5263  International Criminal Justice Systems  
The growth of the extended economic and cultural orders 
demands that students be well versed in diverse approaches to 
common social problems and social solutions. Through com-
parisons of varied criminal justice systems, students assess the 
effectiveness of each and gain insights into the cultural influ-
ences at work in different parts of the world. Participants will
meet with criminal justice experts to discuss cross-cultural com-
parisons between the U.S. and other nations.

5273  Law and the Social Sciences  
In this course, students analyze the theories underlying diverse 
fields of law and society and explore the creation and adminis-
tration of laws. Students examine the connections between law, 
criminal justice and social justice to understand the implications 
of law for professionals in criminal justice and social service pro-
fessions. (Fall)

5363  Theories of Justice  
This course explores one of the most prominent theoretical con-
structions of justice compared to other concepts of justice: John 
Rawl's Theory of Justice.

5403  Elite Deviance  
The study of corporate crime in America and abroad. Students 
discuss and apply major criminologists' theories and analyze 
eexisting policies.

5513  Juvenile Justice  
An overview of the theories developed to explain juvenile delin-
quency as well as an assessment of the relationship between the 
system of juvenile justice and the delinquent. An analysis of vari-
ous strategies that may be effective in preventing juvenile delin-
quency or diverting individuals from the criminal justice system.

5603  Advanced Research Methods  
In this course students create, synthesize, and defend one of four 
types of a mixed method research design, students are expected 
to have had a basic research course, which included qualitative 
and quantitative data methods.

5713  Resocialization of Law Violators  
A major objective of correctional agencies has been to change 
persons convicted of crime so that they are reformed, resocial-
ized, treated, or modified. This course deals with the issue of 
such changes and examines techniques of producing changes. 
(Summer)

5803  Norm Violation  
Examination of the social changes and pressures that encourage 
greater social deviance such as civil disobedience, delinquency, 
and extensive rejection of prevalent values and norms of society.

5823  Diversity and Crime  
This course critically examines major theories, research findings, 
policies, and controversies concerning race/ethnicity, gender, 
class, sexuality and crime. (Spring)

5863  Criminological Theory  
This course is an advanced theory course on criminological 
theory. Students complete an in-depth analysis of contemporary 
theories. (Spring)

An examination of major theoretical statements regarding social control as a determining force in social organizations. Emphasis is on internal mechanisms of social control and fundamental institutions of social control. (Summer)

This course analyzes contemporary issues confronting the criminal justice system. The topics change over-time, reflecting current issues facing the system, e.g., the death penalty, restorative justice, or ethics. (Fall)

Students learn to use statistical analysis in their research. Computer application and statistical interpretation are stressed. (Spring)

This course is a general study of substantive criminal law. It includes problems in defining crimes, conspiracy, intent, attempts, justification, criminal responsibility, and sentencing. (Spring)

Focuses on leadership and administration of criminal justice institutions. Topics include ethics, organizational change, power and influence, conflict and communication.

Students sign a contract and are placed with criminal justice agencies for a minimum of forty hours per credit hour. Students will keep field notes, be evaluated at the practicum site, and write a paper directly related to the practicum assignment. (TBA)

Crafting and editing the master's thesis consisting of original research in the field of criminology and approval of the student's thesis committee. Final course prior to graduation from program. Course may be repeated until master thesis is completed and defended according to departmental standards.

Recommended for students intending to pursue graduate studies beyond the master's level. Involves two semesters of work. (TBA)

The study of finely balanced maneuvers performed by a female dancer with the assistance of a male partner. This class is offered both for the classical ballet technique and for the music theater stage. Prerequisite: Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (Fall, spring)

Introductory courses to ballet, jazz, or tap technique for the beginner. Prerequisite: Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (Fall, spring)

This course analyzes contemporary issues confronting the criminal justice system. The topics change over-time, reflecting current issues facing the system, e.g., the death penalty, restorative justice, or ethics. (Fall)

Prerequisite: Basic Movement class in the same technique. Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (Fall, spring)

Prerequisite: Pointe technique taught with specific attention to uses in American music theater dance sequences. Prerequisite: Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (TBA)

Leveled technique classes concerned with ballet especially as it relates to the American musical theater stage. Classes are taught as movement labs and include academic assignments. Prerequisite: Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (Fall, spring)

Leveled technique classes concerned with ballet, especially as it relates to the American music theatre stage. Classes are taught as movement labs and include academic assignments. Prerequisite: Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (Fall, spring)

Leveled courses designed to familiarize students with the styles and innovations of twentieth-century American jazz dance. Prerequisite: Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (Fall, spring)

Leveled courses designed to familiarize students with the styles and innovations of twentieth-century American jazz dance. Prerequisite: Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (Fall, spring)

Leveled courses using the techniques and terminology of tap steps, combinations, and dances as used in music theater. Prerequisite: Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (Fall, spring)
only. Leveling and approval by Dance Department required. (Fall, spring)

**5551+ Tap B**
Leveled courses using the techniques and terminology of tap steps, combinations, and dances as used in music theater. Prerequisite: Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (Fall, spring)

**5991+ Theater Dance**
This course is designed to expose the dancer to the dynamic style pieces used in music theater choreography. One section focuses on rhythm tap and tap improvisation. Prerequisite: Open to students with dance degree requirements only. Leveling and approval by Dance Department required. (Fall, spring)

---

**Early Childhood Education (ECED)**

**5022 Materials, Project, & Observation I**
The goals of this course are to enable teachers to observe young children objectively and to design materials to offer a more individualized approach to learning for Early Childhood teachers. (Fall)

**5113 Sensory Motor Learning**
This course examines the relationships among motor, intellectual, psychological, and social development in children ages two and a half to six. Activities designed for independence and responsibility are presented with opportunities for teachers to structure these activities for their classrooms. An introduction to movement exploration for young children is part of the course. (Summer)

**5163 Montessori Seminar I**
Weekend seminar taken with approved Montessori internship only. Permission of the Montessori coordinator is required. (Fall)

**5172 Materials, Project, & Observation II**
The goals of this course are to enable teachers to observe young children objectively and to design materials to offer a more individualized approach to learning for early childhood teachers. This course focuses specifically on children age two and a half to six. (Spring)

**5263 Montessori Seminar II**
Weekend seminar taken with approved Montessori Internship only. Permission of the Montessori coordinator is required. (Spring)

---

**Economics (ECON)**

**5253 Forensic Economics**
Forensic economics introduces students to methods of policy analysis most common to litigated situations. These methods and their economic rationales are extended to introduce models of personal damage estimation, including harm to individuals and property that have long-term impacts on economic returns. Finally, the course will offer a survey of developing topics in the field of forensic economics relevant to the aspiring practitioners. Students in the course should be comfortable with the principles of microeconomics and basic functionality of Microsoft Excel. (Fall)

**5313 Data Analysis for Business Decisions**
Focuses on the identification and access of information sources and analyzing the information to make informed decisions and solve managerial problems. Among the topics included are numerical and graphic description of data, confidence intervals, hypothesis testing, regression analysis and predictive modeling, linear allocation models and allocating resources, forecasting, and decision analysis. The course utilizes spreadsheet, statistical and simulation software. (Fall, Summer, Spring)

**5413 Managing at the Crossroads: The Global Economic Environment**
Emphasizing the perspective of managers in the private sector, course focuses on the interactions of economic principles at work at the inter-firm, intra-industry, and inter-industry levels (microeconomics), at the economy-wide level (macroeconomics), and at the global level (international economics). Integrated framework explains the effects that micro, macro, and international economics have on the growth and prosperity of individual business organizations and how managers make adjustments to create and capture value. (Fall, Spring)

**6213 Energy Economics**
Basic overview of energy economics. Short- and long-term resource management by a firm, alternative energy sources and their economic management including nuclear, solar, wind, and geothermal power. Sustainability, economics of the hydrocarbon industry, calculation of net present value of futures reserves. (Fall)

---

**Elementary Education (MATE)**

**6013 Theories of Learning and Development**
History of education in America; physical, social, intellectual, and emotional development; current issues in educational psychology; development of initial teacher's creed. (Summer)
6083 Master's Research Project 3
Develop and conduct an action research project; participate in a research group; provide peer feedback for other action research projects. Prerequisite: MATE 6963 and GRED 6903. (Spring)

613 Literature and the Arts 3
Developing a love of literature in elementary students; genres of children's literature; children's literature across the curriculum; methods for integrating visual arts, health, and movement in elementary classrooms. Prerequisite: MATE 6013. (Summer)

6213 Literacy Development and Instruction 3
Language development; instructional methods for reading, writing, speaking, viewing, visually representing; methods to address phonemic awareness, phonics, vocabulary, fluency, and comprehension; supporting English language learners; use of specialized professional association (IRA, NCTE) standards to support all learners. Prerequisite: MATE 6013. (Summer)

6623 Teaching the Whole Curriculum 3
Developing and teaching thematic units; advanced study of methodology making informed decisions about technology use; coteaching as a methodology to support all learners; 30-hour practicum. Prerequisites: GRED 6323 and MATE 6423. (Fall)

6733 Internship I 3
An experiential apprenticeship in an early elementary classroom (grades 1 through 3) designing and delivering instruction through a coteaching model. School placements will be made through the Department of Education. Prerequisites: GRED 6523 and MATE 6623. Corequisites: MATE 6833 and 6963. (Spring)

6833 Internship II 3
An extension of the elementary school experiential apprenticeship in grades 4 through 6. School placements will be made through the Department of Education. Prerequisite: MATE 6733. Corequisite: MATE 6963. (Spring)

6963 Capstone Seminar 3
Professionalism in education; reflection and evaluation; the legal environment of education; completion of Teacher Work Sample. Prerequisites: GRED 6523 and MATE 6623. Corequisites: MATE 6733 and 6833. (Spring)

5253 Legal Writing and Analysis 3
Develops and hones students' ability to analyze and write about a complex energy and legal issue. This course will serve as the culmination of the entire program wherein students will receive guidance in writing a research paper and prepare a presentation. The students will work in groups, prepare an energy industry "white paper," and present their work. Prerequisite: ELAW 5153 (TBA)

5353 Fundamentals of Contracts 3
Covers fundamental principles of contract liability; offer and acceptance; consideration; statute of frauds; contract remedies; the parol evidence rule; performance of contracts; conditions; effect of changed circumstances; and other issues related to contract formation and enforcement. Prerequisite: ELAW 5703. (TBA)

5453 Negotiation and Dispute Resolution 3
Designed to improve students' understanding of the negotiation process and their practical skills as participants in energy deals and negotiations. Integrates intellectual and experiential learning by combining reading and lectures with exercises, role plays, presentations, and in-depth class discussion. (Spring)

5703 Legal and Ethical Environment of the Energy Industry 3
Provides an overview of the law, ethics and legal analysis. Examines areas of law and ethics that relate to the contemporary business environment in the energy industry. Areas of study include contracts, torts, crime, business organizations, and the legal and ethical responsibilities of energy industry leaders. (Fall)

5713 International Legal Issues in Energy 3
Provides an overview of the legal and ethical issues within the international energy sector. Examines differing types of legal structures and areas of law related to contemporary business environment in the global energy industry. (TBA)

5523 Fundamentals of Property Law 3
Study of the fundamentals of property: property interests in land and in wealth other than land; formation of interests in land; the estate concept; possessorly and non-possessorly interests; concurrent interests; the lessor-lessee relation; the allocation and development of land resources. Prerequisite: ELAW 5353. (TBA)

5533 Legal Principles of Oil and Gas 3
Nature of property interests in oil and gas; conveyancing of interests in oil and gas; legal interests created by oil and gas leases; validity of leases; habendum, drilling, and rental clauses; assignment of interests of lessor and lessee; rents and royalties; and conservation of oil and gas. Prerequisites: ELAW 5353 and ELAW 6523. (Spring)

5543 Environmental Law and Regulatory Compliance 3
Introduction to the legal regulation of environmental quality and its intersection with the energy industry. Course considers the foundations of environmental regulation; the scientific predicate

Energy Legal Studies (ELAW)

5153 Legal Research and Citation 3
Teaches the sources and techniques for legal research and proper citation of those sources. Focuses on the comprehensive, thorough research path necessary to complete the Legal Writing paper and project. (TBA)
for environmental regulation; the objectives of environmental regulation; and the choice of regulatory tools, such as state and federal administrative regulation, taxes, and permit schemes, liability rules, and informational requirements. Analyzes the principal environmental statutes, particularly the Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Liability Act, and the National Environmental Protection Act. Prerequisite: MGMT 5703. (TBA)

**Finance (FIN)**

**5113 Computational Finance and Financial Modeling**
Introduces Excel VBA, Monte Carlo simulation, efficient frontier, portfolio optimization, asset pricing models, capital budgeting decisions, yield curves and bond strips. Credit Hours: 3

**5213 Portfolio and Risk Management**
Course incorporates programming and data analytics. Calculate portfolio performance parameters, conduct security fundamental analysis with ratios and build optimized portfolios using the Index Model. Risk measures such as Value at Risk (VaR), Conditional Tail Expectations (CTE), and Lower Partial Standard Deviation (LPSD) discussed. Risk management strategies through hedging also covered. Credit Hours: 3

**5303 Financial Strategy and Decision Making**
Fundamental concepts such as time value of money and risk-return relationships in finance are presented in detail. Financial decisions faced by modern business enterprises are analyzed in the framework of financial theories. These decisions include capital budgeting, long-term financing, dividend policy, short-term financial management, and performance evaluations. (Fall, spring) Credit Hours: 3

**5313 Fixed Income Analytics**
Introduces fixed income products and markets. Topics covered: duration/convexity and price approximation, term structure of interest rates, asset-backed securities such as bond-backed securities, stripped products, municipal bonds, sovereign bonds, alternative bonds, federal funds and LIBOR products, repo and reverse repo. (TBA) Credit Hours: 3

**5353 Current Issues in Financial Fraud**
Survey course discussing some of the most common and current forms of fraudulent practices in the finance world (e.g., investments, banking, real estate and insurance) in an effort to raise awareness of such harmful behavior, and to arm the students with the knowledge and skills to fight against them. (TBA) Credit Hours: 3

**5413 Applications in FinTech**
Explores the ways that new technologies in AI, deep learning, blockchain and open APIs are disrupting the financial services industry. Includes payment, credit, trading and risk management. (TBA) Credit Hours: 3

**6101-3 Educational Technology in Practice**
Credit granted for evidence-based practical knowledge of educational technology in the workplace. (TBA) Credit Hours: 1-3

<td>Strategic Marketing Decisions for Creating Value</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course is concerned with crafting marketing strategies and making marketing decisions. At the end of the course, students should be able to structure and solve rather complex marketing problems. Faced with a business situation, students learn to sort through the myriad facts and data, structure a decision framework of relevant information, and develop a strategy that is comprehensive, detailed, and workable. Students learn to communicate their strategies both in writing and orally. The course relies not only on the decision tools of marketing (concepts, theories, analytical methods, etc.), but also on decision tools from other areas such as statistics, accounting, finance, economics, psychology, and communications. (Fall, summer, spring)</td>

and antecedents for client satisfaction and the assessment and assurance of client satisfaction objectives. Prerequisite: MKTG 5103. (Fall)

6153  Special Topics in Marketing  3
Involves individual or small-group research of special topics or current issues in marketing. Prerequisite: MKTG 5103. (TBA)

### Master of Business Administration (M.B.A.)

5113  Special Topics in Business  3
Rotating variable topics course allowing students to develop expertise in a current business topic. (Fall, summer, spring)

5123+  Effective Leadership and Communication  3
Facilitates the development of interpersonal and team skills leaders need to function effectively. Focuses on integrated behavioral competencies demanded in organizations today: self-awareness, communication, negotiation, collaboration, and relationship building. Students will work through individual leadership profile assessments, evaluate effective leadership behaviors, and explore techniques and processes to communicate and negotiate effectively within organizations. Dual-listed with MGMT 4123. (Fall, Spring)

### Master of Legal Studies (MLS)

5403  American Legal System and Legal Analysis  3
The structure of the American legal system and sources of legal authority such as statutes, regulations, and case law. Introduces the nature and process of legal reasoning, including common law analysis and statutory interpretation.

5413  Statutory and Regulatory Law and Research  3
Policy development and the federal legislative process, the federal rule-making process, the Administrative Procedures Act, and state and local codes and regulations. The administrative law process, concentrating upon the functions and procedures of federal and state administrative agencies and upon judicial review of agency actions.

5423  Writing and Professional Communication  3
Academic and professional research; oral and written communications; and communicating with clients and government representatives. Introduces specialized legal writing and contract drafting.

5503  Contracts  3
Basics of contract formation and the limits of contractual liability in the Anglo-American legal system, with an emphasis on reading and interpreting aerospace, defense and other government contracts. Introduces contract remedies.

5513  Negotiation  3
Principles of negotiation and their application in the aerospace, defense and government contracts environment. Students will participate in verbal and written negotiation simulations and exercises.

5523  Federal, State, and Local Contracts and Leases  3
Continuation of Contracts with an emphasis on the federal procurement process, regulatory and legal considerations in government contracting and leasing, and the Services Contract Act. The course will also examine state and local government contract and leasing considerations. The course will also include an ethics component. Prerequisite MLS 5503.

5533  Federal, State, and Local Appropriations  3
Study of the government appropriations and acquisitions process with emphasis on the Federal Acquisition Regulation System (FAR) and its subparts and the Defense Federal Acquisition Regulation Supplement (DFAR).

5543  Conflicts of Law in Government Contracts  3
Introduction to conflicts of law principles as they apply to government contracts. Topics covered include domicile and jurisdiction; treatment of foreign judgments; and detailed consideration of choice-of-law theories and their application to the substantive fields of torts, contracts, and property.

5593  Capstone Project  3
An integrated research project supervised by a faculty member and an industry partner. Students will present their research at a regional or local conference or seminar. Prerequisite: 24 hours of MLS coursework

5613  Employment Law  3
Survey of the origins and development of U.S. employment law and current laws and trends in the workplace. The course will cover basic principles of employment law including but not limited to, discrimination law, employment-at-will, safety and healthy, pay and wages, and issues related to terminating employment.

5713  Business Law  3
The legal framework for the operation and establishment of business associations, including corporations. Topics include the manner in which business organizations and corporations are formed; the decision-making process; the roles and duties of officers, directors and shareholders; and the liability of officers and directors. Emphasis will be on the special problems of the publicly held corporations.

5723  Banking Law  3
Examinations of the laws and regulations related to closed-end loans, indirect loans and related credit products, and other
consumer-lending products, including debtors’ and creditors’ rights and remedies and the limits on those rights and remedies.

5733 Ethics and Compliance
Survey of professional and personal ethics in a corporate environment with a special emphasis on ethical standards and regulatory and compliance work. Topics covered include whistleblowing obligations and protections, conflict of interest rules and special ethics rules in certain industries.

5743 Banking and Finance Regulatory and Compliance Systems
U.S. banking and finance policies and structures; compliance with the banking “alphabet soup” regulations. Topics covered include the role of state and federal regulators and special problems created by mergers and acquisitions in the industry and evolving consumer protection laws.

5793 Capstone Project
An integrated research project supervised by a faculty member and an industry partner. Students will present their research at a regional or local conference or seminar. Prerequisite: 24 hours of MLS coursework

Introduction to modern fundraising practices, definitions, and classifications; heavy emphasis on the professional standards, ethics, and current best practices; examination of donor behavior it relates to patterns and trends in contemporary philanthropy. (Fall)

Development of a thorough understanding of organization finances, various reporting responsibilities to existing and potential donors, and compliance with federal reporting requirements. Dual-listed with NONP 4413

Current approaches, issues, and best practices to secure gifts of cash, gifts-in-kind, and other types of donations from individuals, corporations, trusts/foundations, and governmental grant programs; direct response fundraising; major gift fundraising; capital campaigns; events-based fundraising; and crowd-sourcing. (Fall)

Current approaches, issues and best practices in planned giving; motivation behind legacy/memoriam/tribute gifts; stewardship; tax implications and barriers to bequest giving; demographic, attitudinal, and behavioral characteristics of donors who leave charitable gifts via their personal estates. (Fall)

Current approaches, issues, and best practices for motivating, assessing, and recognizing fundraising professionals, volunteers, and groups; budgeting; documenting and recognizing gifts; reporting and compliance requirements; effective stewardship. (Fall)

Organizational, human, and financial resources are essential to the emergence, evolution, and existence of nonprofit organizations. In this course, students will analyze consistent operational funding and future support through long-term, planned giving in nonprofit organizations. Required.

Application of marketing strategies, including working with press to promote success stories for nonprofit organizations, marketing organizational needs while highlighting successes in accomplishing their mission, encouraging the support of potential volunteers and donors, and reinforcing their niche among competing groups. Emphasis on effectively marketing arts programming, performance promotion, and audience development and community engagement. Dual-listed with NONP 4923.

In this course students will assess the sociology of leadership and multi-disciplinary approaches to nonprofit leadership. This course will focus on the role of volunteers in nonprofit organizations and the implications for nonprofit organizations and leaders. Nonprofit executives must deal with the paradox of both leading and being led by volunteers (e.g., board of directors). The course will integrate multidisciplinary perspectives on volunteering and civic engagements, and include the fundamentals of board development and relationships as well as the recruitment, development, and management of volunteers. Required.

This course provides students with experiential learning in nonprofit organizations. The Practicum in Nonprofits is an elective for students interested in an internship with a local nonprofit organization. Elective.

Sociological perspectives and classical case studies in organizations and leadership will provide a conceptual framework for the class. Students will also learn the fundamentals associated with managing employees and organizational resources. Required.

Focus on leading an arts organization and personnel management (boards, staff, artists). Students develop critical and creative thinking about managing the arts and guiding adaptation to changes in the industry.

This course provides an overview of research methods and application of non-profit executives must deal with the paradox of both leading and being led by volunteers (e.g., board of directors). The course will integrate multidisciplinary perspectives on volunteering and civic engagements, and include the fundamentals of board development and relationships as well as the recruitment, development, and management of volunteers. Required.

This course will examine the implications associated with law and nonprofit organizations. Required.

This course will examine the implications associated with law and nonprofit organizations. Students will become familiar with legal issues and ethics and will learn how to relate to the legal community through board counsel. Required.

This course will cover the various models for planning in nonprofits and how those plans translate into the programs offered by the organization. Strategic planning is fundamental to any organization’s success. This course draws upon information in the sociological foundations area of nonprofits to teach students the application of nonprofit planning and development.

This course provides an overview of research methods and will demonstrate how to find, interpret, and apply data from...
secondary sources. In addition, nonprofit leaders will learn how to conceptualize and implement a research plan for their organization. Required.

**6713 Nonprofit Program Evaluation** 3
This course covers the essentials of evaluating nonprofit organizations and teaches students how to develop comprehensive plans to conduct (or oversee) successful program evaluations. Conducting summative and formative evaluations is essential for nonprofits in meeting reporting requirements, marketing the program, seeking funding, evaluating the program, and designing new programs. Required.

**6813 Advocacy for Social Change** 3
Information about the opportunities and restrictions that nonprofit leaders face when working toward social, political, and legal change. Covers rules and restrictions in advocating for and development of changes in social policy that shape organizational philosophy, planning, and processes.

**6823 Advocacy for the Arts** 3
Information about the opportunities and restrictions that nonprofit leaders face when working toward social, political, and legal change. Covers rules and restrictions in advocating for and development of changes in social policy that shape organizational philosophy, planning, and processes. Emphasis on advocacy required by arts nonprofit organizations to stimulate, educate and build support for the arts, and building strong community and corporate relationships.

**6913 Marketing for Nonprofits** 3
This applied course addresses various marketing strategies, including working with press to promote success stories for nonprofit organizations. Students will learn how to balance marketing organizational needs with promoting successes in accomplishing their mission. Nonprofit leaders require information to develop marketing strategies that promote the organization, encourage the support of potential volunteers and donors, and reinforce their niche among competing groups. Required.

**6993 Professional Project** 3
This course provides students with experience developing a final project focusing on program development, improvement, or evaluation of a nonprofit organization. Classes throughout the program will incorporate assignments that will assist students in this final directed project. Required.

**Nursing (NURS)**

**5004 Health Communication and Informatics in Advanced Practice** 4
Professionalism is written, electronic, and verbal communications. Synthesis of research literature, document design, formatting styles, and manuscript preparation. Issues related to copyright law and plagiarism. Use of technology and media formats in professional presentations, database management, and media formats.

**5103 Theoretical Foundations of Advanced Nursing Practice** 3
Analysis and evaluation of the philosophical and theoretical basis for professional nursing. Emphasis placed on continued theory development and application to practice, administration, education, and research.

**5202 Technology Management in Nursing Leadership** 2
Introduction to emerging technologies within healthcare organizations. Examines the usage, integration, and surveillance of AI and Smart Technology in healthcare settings from the perspective of nursing leaders.

**5203 Curriculum Development in Nursing Education** 3
Domains of learning and curriculum theory, design, implementation, and evaluation of nursing education curricula. Analysis of selected curricula using established standards.

**5222 Technology Strategies in Digital and Online Courses** 2
Introduction to digital learning modalities such as asynchronous, synchronous, blended, MOOCs, etc. Coursework involves facilitation and evaluation of online courses. Analysis of professional, ethical, and legal implications. (Fall, Spring, Summer)

**5232 Teaching Strategies for Simulation in Nursing Education** 2
Introduction to the concepts of simulation pedagogy in nursing education. Simulation-based educational strategies are introduced preparing course participants to function independently in simulation environments. Analysis of professional, ethical and legal implications of simulation.

**5302 Quality Improvement and Safety in Nursing Healthcare Leadership** 2
Principles and tools of quality improvement processes and programs. Gain knowledge, skills and attitudes to construct a safe healthcare environment for clients, families, and staff. (Fall, Spring, Summer)

**5402 Teaching Strategies for Nursing Education** 2
Educational theories and strategies for teaching and learning are integrated to address diverse needs and learning styles. The influence of legal and ethical issues on education will also be addressed.

**5703 Educational Ethics and Healthcare Policy** 3
Nursing and healthcare public policy development from agenda setting, policy formation, policy implementation, and policy evaluation at the national, state, and local levels. The influence of ethical issues on policy development will be considered.
5803  Leadership Ethics and Healthcare Policy in Nursing  3
Nursing and healthcare policy development from agenda setting, policy formation, policy implementation, and policy evaluation at the national, state, and local levels. The influence of ethical issues on nursing leadership and policy development are examined.

5804  Leadership Ethics, Law and Healthcare Policy  4
Nursing and healthcare policy development from agenda setting, policy formation, policy implementation, and policy evaluation at the national, state, and local levels. Legal, political, and regulatory aspects of healthcare organizations and providers; critical issues encountered by nursing leadership. The influence of ethical issues on nursing leadership and policy development are examined.

6001-3  Independent Study in Advanced Nursing  3
Variable course content designed to meet specific student needs. Requires permission of professor.

6153  Nursing Education Evaluation Strategies  3
Theories and strategies for evaluation of learning in classroom and clinical environments.

6201-4  Advanced Topics in Advanced Practice  1–4
Variable course content designed to meet specific student needs.

6203  Advanced Pathophysiology  3
Principles of biochemistry, molecular biology, genetics, and nutrition are applied to disease processes. Focus on principles, theories, and current research related to physiological and pathophysiological system alterations across the lifespan.

6213  Pharmacology for Advanced Practice  3
Focus on pharmacology and therapeutics used in the treatment of selected health conditions. Emphasis on the decision making process utilized to prescribe safely and effectively, and monitor pharmacotherapeutics appropriate to the client situation.

6215  Advanced Health Assessment and Diagnostic Reasoning  5
Application of advanced health assessment principles and skills with focus on deviations from normal in populations across the lifespan. Opportunities provided to perform comprehensive and problem-specific psychosocial, developmental, cultural, and physical assessments. Analysis of collected client data used to determine client health status, identify health problems, and formulate diagnoses. Prerequisites: NURS 6203 and NURS 6213.

6223  Health Promotion and Primary Care of Adults  3
Health promotion, diagnosis, and management of common illnesses in primary healthcare practice with adult and elderly clients. Prerequisites: NURS 6243 and NURS 6244. Corequisite: NURS 6233.

6233  Adult and Geriatric Primary Care I  3
Health care of adult and geriatric patients presenting with acute and chronic primary health care needs. Collaborative strategies used in the implementation and evaluation of accepted medical and nursing interventions. Research, teaching, and consultation skills integrated into clinical practice. Prerequisites: NURS 6223, 6243 and NURS 6253.

6242  Health Promotion and Primary Healthcare of Women  2
Conceptual and theoretical foundation for advanced nursing assessment, diagnosis, and management of selected healthcare concerns. Emphasis is on primary healthcare of women and role development in clinical practice.

6253  Health Promotion and Primary Healthcare of Children  3
Conceptual and theoretical foundation for advanced nursing assessment, diagnosis, and management of selected healthcare concerns. Emphasis is on primary healthcare of children and role development in clinical practice.

6254  Primary Healthcare in Advanced Practice Settings  4
Management of increasing complex client care with increasing independence. Collaborative strategies used in the implementation and evaluation of accepted medical and nursing interventions. Research, teaching, and consultation skills integrated into clinical practice. Theoretical concepts of organizational systems, healthcare politics, and policy used to identify and solve complex problems. Four credit hours of practicum. Prerequisites: NURS 6223, 6233, 6242, 6342, 6252, 6352, and NURS 6362.

6303  Contemporary Healthcare Organizations  3
Business and human relationship skills to guide the operation of contemporary healthcare organizations. Evidence-based practice management strategies to enhance leadership effectiveness in a variety of healthcare settings.

6314  Healthcare Economics and Financial Management  4
Management of financial resources in the healthcare industry, public and private healthcare funding, applied financial management, management resource systems, budgeting, and nursing resource allocation are examined and applied to modern health systems. (Fall, Spring, Summer)

6323  Research Integration in Nursing Practice  3
Development of an evidence-based project to enhance practice, education, or administration. Analysis of quantitative and qualitative research methodologies, models of evidence-based practice, and application of problem-solving in professional practice. Prerequisites: Statistics and NURS 5103.

6342  Women’s Primary Care  2
Clinical experience in management of care of women in the childbearing years and gynecologic care across the lifespan.

* Denotes cross-listed course  + Denotes dual-listed course
**Course #** | **Course Name** | **Credit Hours**
--- | --- | ---
6352 | Children's Primary Care | 2
Clinical experience in well-child care and management of common pediatric problems in primary care settings.

6362 | Adult and Geriatric Primary Care II | 2
Health care of adult and geriatric patients presenting with acute and chronic primary health care needs. Collaborative strategies used in the implementation and evaluation of accepted medical and nursing interventions. Research, teaching, and consultation skills integrated into clinical practice. Prerequisite: NURS 6223, NURS 6233

6403 | Evolving Healthcare Systems | 3
Explore innovation, accountability, relationship building, and leading change to function effectively in a rapidly evolving health-care environment. Nurse advocacy promoted by planning for the future while meeting current expectations. Prerequisite: NURS 6303.

6412 | Advanced Health Assessment for Nurse Educators | 2
Application of advanced health assessment principles and skills across the lifespan. Opportunities provided to perform comprehensive psychosocial, spiritual developmental, cultural, and physical assessment. Provides graduate students in the nurse educator track with graduate level theoretical and clinical knowledge required to teach health assessment to students enrolled in basic nursing education programs. Does not transfer to nurse practitioner tracks.

6413 | Transformative Leadership in Complex Health Care Systems | 3
Critical insights from complexity science underpin the application of transformative leadership principles to 21st century health care environments. Current and emerging health care trends are explored, analyzed, and synthesized across the health care continuum with emphasis on innovation and professional development.

6414 | Advanced Pathophysiology and Pharmacology for Nurse Educators | 4
Study of physiologic concepts, adaptations, and alterations that occur in selected disease processes using a systems approach. Principles of pharmacology in relation to various patient populations and disease processes. Builds upon previously learned principles of physiology, pathophysiology, and pharmacology. Provides graduate students in the nurse educator track with graduate level theoretical and clinical knowledge. Applies this knowledge to educational delivery in undergraduate nursing education programs. Does not transfer to nurse practitioner tracks.

6416 | Management of Adult-Gerontology Acute Care Health Problems II | 6
Examines the advanced practice nurse's role in client-centered acute care of adult and geriatric populations with emergent health needs. Emphasis is placed on advancing competency in the formation and evaluation of comprehensive evidence based plans of care for complex and multi-system disorders in adult and geriatric clients. Applies the advanced practice nurse's role in client-centered care of adult and geriatric populations.

6503 | MSN Professional Practicum | 3
Seminars and practicum experiences designed and arranged by the student with faculty approval, to provide guided practice in student's area of specialization. Prerequisite: Completion of at least 18 credit hours toward the M.S.N.

6513 | Management of Adult-Gerontology Acute Care Health Problems I | 3
Development of advanced theoretical knowledge in acute and critical care settings necessary for the care of clients requiring medical interventions.

6523 | Management of Adult-Gerontology Acute Care Health Problems II | 3
Development of advanced theoretical knowledge in acute and critical care settings necessary for the care of clients requiring medical interventions.

6533 | Management of Adult-Gerontology Acute Care Health Problems III | 3
Development of advanced theoretical knowledge in acute and critical care settings necessary for the care of clients requiring critical care, emergent, or trauma service interventions.

6603 | Master's Project | 3
Completion of the scholarly project developed in NURS 6323 that includes well developed recommendations. Prerequisites: NURS 6323 and completion of at least 18 credit hours toward the M.S.N.

6613 | Adult-Gerontology Acute Care Advanced Practice I | 3
Development of advanced clinical skills in acute and critical care settings necessary for the care of clients requiring medical interventions.

6643 | Adult-Gerontology Acute Care Advanced Practice II | 3
Development of advanced clinical skills in acute and critical care settings necessary for the care of clients requiring surgical interventions.

6653 | Adult-Gerontology Acute Care Advanced Practice III | 3
Development of advanced clinical skills in acute and critical care settings necessary for the care of clients requiring critical care, emergent, or trauma service interventions. Prerequisites: NURS 6513, 6523, 6533, 6613, and 6643.

6701-3 | Master's Project (continued enrollment) | 3
Implementation of the project developed in Advanced Nursing Research with production of a final scholarly product. Prerequisites: NURS 6323 and completion of at least 18 credit hours toward the M.S.N.

</tbody>
</table>
Analyzes current health care policy trends that impact nursing education. Considers the influence nurse educators have on local, state, national, and international health care, education, and practice policy.

7123  **Advanced Theory Development**  3
This course explores various approaches to theory development. Strategies for concept identification, specification of relationships, and theory clarification are discussed. Students explore theory construction, application, evaluation, and testing, as well as the relationship between theory development and research. The coursework involves production of a mid-range theory. Prerequisite: NURS 5103.

7124  **Philosophy and Theory for Advanced Practice Nursing**  4
Focuses on understanding current methods of epistemology as interpreted through the history of science. Explores various approaches to theory development including theory construction, application, evaluation, and testing as well as the relationships between theory development and research. Students develop a midrange theory on a topic relevant to the advanced practice nursing role.

7213  **Transcultural and Global Healthcare**  3
Focuses on diverse cultural perspectives in health and illness. Health-damaging patterns of interaction, such as stereotyping, discrimination, and marginalization are examined within a theoretical framework and submitted to ethical reflection. Enhances understanding of the global dimensions of health and disease, various strategic health initiatives, and correlating healthcare interventions.

7231-3  **Grant Writing**  1-3
This course deals with the search for and procurement of funds from both public and private grant funding sources. Topics include interpretation of instructions, producing a successful proposal, the proposal review process, managing grants received, and writing reports.

7243  **Organizational and Leadership Theory**  3
This course examines the theoretical basis for behaviors displayed by organizations and the personnel within them. Students explore leadership strategies for producing successful outcomes by analyzing organizational structure, change theory, reward systems, environmental psychology and culture, and other related factors. Patterns and predictors of behaviors within and between formal organizations are analyzed and interpreted by the application of theory and research findings.

7253  **Translational Research and Evidence-Based Practice**  3
This course integrates research into practice with a focus on identifying, summarizing, and appraising evidence for best practices. Students explore such issues as the identification of practice and system problems, evaluation of research studies and systematic reviews, development and implementation of evidence-based practice guidelines, and use of evidence-based practice to improve outcomes for clients and healthcare systems.

7303  **Advanced Bioethics**  3
This course applies philosophical approaches to the development of bioethical reasoning in terms of metaethics and normative ethics. Students consider how the interplay of abstract thinking and cognitive science in themselves and others influences ethical practices.

7403  **Statistical Analysis I**  3
This course covers intermediate statistical analysis, including the logic of statistical inference, probability and sampling, tests of statistical hypotheses, error theory, confidence interval estimates and procedures, introduction to analysis of variance, and selected nonparametric methods. The content also addresses bivariate correlation techniques, measures of association, and simple linear regression. Students use selected statistical computing software for relevant data analysis. Prerequisite: an introductory statistics course.

7453  **Health Care Information Management**  3
Examines the role of nurse leaders in shaping emerging technology in user-centered ways that support nursing commitments to ethical and compassionate care.

7503  **Higher Education Issues and Trends**  3
This course focuses on issues in post-secondary education in the United States and abroad. Students explore the history of higher education, trends, legal concerns, the evolution of curriculum and educational philosophies, private versus public funding, college and university governance, tenure, academic freedom, and other topics.

7543  **Assessment and Evaluation of Educational Effectiveness**  3
This course focuses on development and implementation of various methodologies for evaluation of educational effectiveness. Integration of professional, ethical, and legal implications facilitates development of methods and strategies that advance the quality of the educational environment. Analysis of research concerning the impact of evaluation processes provides a foundation for evidence-based practices. Prerequisite: M.S.N. with an education focus or nurse educator certification.

8102  **Advanced Application of Qualitative Research**  2
Designed to familiarize doctoral students intending to conduct qualitative research with the epistemological and methodological foundations of their chosen qualitative design.

8103  **Qualitative Research Methods**  3
This course examines qualitative research as an approach to the generation of knowledge. Students will analyze philosophical foundations and relationships between research questions and specific qualitative methods. Threats to reliability and validity of qualitative research are evaluated. Integrated into all aspects of
research are considerations of ethics, human and animal protections, and scientific integrity. Prerequisite: NURS 6323.

8203  Quantitative Research Methods 3
This course examines research designs for description, exploration, correlation, and causal inference. Threats to research validity are analyzed, as are issues of design sensitivity and power, in experimental, quasi-experimental, and non-experimental methods. Integrated into all aspects of research are considerations of ethics, human and animal protections, and scientific integrity. Prerequisites: NURS 6323, introductory statistics, and NURS 7403.

8302  Mixed Methods Research 2
This course examines research designs that incorporate the strengths of both qualitative and quantitative methods. Philosophical and practical elements of design are analyzed as are rigor and threats to validity. Integrated into all aspects of research are considerations of ethics, human and animal protections, and scientific integrity. Prerequisite: NURS 8103, NURS 8203

8343  Advanced Resource Management in Complex Systems 3
Advanced techniques of resource allocation within healthcare systems including evidence-based practice and evaluation of resource development, dispersal, and expenditures within unit-based and aggregate settings.

8402  Feminist Research Paradigms 2
Review of critical feminist theory and its operationalization in qualitative and quantitative research methods.

8403  Statistical Analysis II 3
This course deals with selected multivariate procedures including, but not limited to, multifactor analysis of variance and covariance; complex hypothesis testing; multiple, partial, and curvilinear correlation and regression; and sampling theory applied to regression analysis and correlation coefficients. Students expand their ability to use statistical computing software for data analysis of greater complexity. Prerequisite: NURS 7403.

8413  Population Health 3
This course examines healthcare issues related to populations. Measures of population health and global health indicators are applied to evaluate the health status of selected populations. Students explore global and lifespan healthcare issues with an emphasis on factors that create vulnerability for specific populations. The influence of moral, ethical, economic, and access issues on the health of populations is examined. The effects of emerging health threats to populations are identified.

8423  Clinical Practice Management and Information Systems 3
This course provides an overview of issues relevant to managing a clinical practice. Topics include personnel and facilities management; business and other permits; licensing and liability concerns; vendors and supplies; hazardous waste disposal; contracts with third party payers; billings and collections; marketing and customer service; and other aspects of practice management. Students also learn about medical records systems; data sharing with labs, hospitals, and third party payers; inventory software; computerized financial systems; and other aspects of data management.

8443  Advanced Clinical Practicum I 3
This course provides individualized experience that enhances clinical expertise in the selected advanced practice specialty role. The student selects a practice environment with approval of faculty and develops objectives that demonstrate integration of knowledge gained in the program. Prerequisite: completion of at least 18 credit hours.

8453  Advanced Clinical Practicum II 3
This course provides an opportunity for the student to continue the Advanced Clinical Practicum I experience or develop a new focus. The student selects a practice environment with approval of faculty and develops objectives that demonstrate synthesis of knowledge gained in the program. Prerequisite: NURS 8443.

8502  Survey Methodology 2
Addresses theoretical and practical issues in survey methods, survey development, evaluation of survey questions, survey interviewing, as well as response rates, alternative methods of data collection, survey measurement, and post collection processing of survey data, with a particular focus on primary sources of error in survey research: measurement, sampling, coverage, and response.

8503  Testing and Measurement 3
This course examines the processes of testing and measurement in the educational environment. Methodological and statistical analysis of instruments and evaluation results is emphasized. Professional, ethical, and legal implications are examined in the development and selection of effective testing and measurement instruments. Analysis of research concerning testing and measurement tools provides a basis for development and selection of instruments. Prerequisites: M.S.N. with an education focus or nurse educator certification; NURS 8203; NURS 7403.

8513  Technology in Instructional Design 3
This course explores technology that is available to enhance instructional design. The theoretical aspect of instructional technology is examined. Current technologic instructional methods are discussed and the influence of instructional technology on learning outcomes is examined based on theoretical support. Each student has the opportunity to design and evaluate curricular materials that include technologic innovations.

8543  Nursing Education Administration 3
This course focuses on personnel, financial, regulatory, and operations management of nursing education units in a variety...
of settings including academia, healthcare agency education departments, and client education agencies. Students examine the relationship of the education unit to the parent organization.

### 8603 Applied Epidemiology and Biostatistics 3
Application of epidemiology and biostatistics concepts; use of information technology; determinants of health and disease; personal and environmental risk factors; incidence and prevalence of health problems. Examination of relationship between population level data and health outcomes. (Spring)

### 8612 Community Dimensions and Systems Development 2
Utilization of cross-sectorial environmental, policy, and systems level actions; emphasis on community engagement, empowerment, and organizational partnering; explores relationship between healthcare economics, health policy, program development, and population based care; explores roles and responsibilities of governmental organizations to improve health status. (Fall)

### 9000 Candidacy Exam 0
Candidacy exams are taken by PhD students after completing all required courses, but before taking NURS 9903 Dissertation Seminar and Dissertation hours. PhD students are enrolled in this course in the semester they will take candidacy exams. It serves as the mechanism for communicating candidacy information and electronic submission of the exam. Prerequisite: All required courses in PhD program or concurrent enrollment in last semester of coursework.

### 9102 D.N.P. Project II 2
Continuation of NURS 9103. The student designs and implements a doctoral nursing practice project related to a selected population or practice environment.

### 9103 D.N.P. Project I 3
The student designs and implements a doctoral nursing practice project related to a selected population or practice environment. Prerequisite: completion of all coursework except NURS 8443 and NURS 8453.

### 9112 D.N.P. Project III 2
Continuation of NURS 9102 for students needing additional semester for project completion. The student designs and implements a doctoral nursing practice project related to a selected population or practice environment.

### 9203 DNP Clinical Research Practicum 3
Conducts original research with statistical analysis of data or conducts statistical analyses of previously collected data. Application of research skill and knowledge. Students work with course faculty to plan and conduct individualized research project.

### 9903 Dissertation Seminar 3
During this course the student engages in the writing of the dissertation proposal and prepares it for defense. Prerequisite: satisfactory completion of the Candidacy Exam.

### 9913 Dissertation I 3

### 9923 Dissertation II 3

### 9933 Dissertation III 3

### 9941-3 Dissertation IV 1–3
During this series of courses the student proceeds with data collection and analysis, interpretation of results, and writing and defense of the final dissertation. A minimum of 9 credit hours (NURS 9913, 9923, and 9933) is required for the dissertation. The student registers for each course consecutively and may enroll in not more than 6 credit hours of dissertation in one semester. If the dissertation and defense are not completed by the end of NURS 9933, the student must enroll every semester thereafter in NURS 9941-3 until the dissertation is completed. Prerequisites: NURS 9903 and formal approval of the dissertation proposal.

### Opera and Music Theater (OMT)

### 5223 Music Theater Analysis 3
In-depth study of literary and other source materials of musical theater composition and those compositions. (Spring)

### 5362 Opera Studio 2
This course addresses the particular challenges of the singing-acting process through group exercises and the preparation and presentation of opera arias and scenes. Emphasis is on expanding the performers’ expressive capacity. Methods of role preparation and scene analysis are applied to arias and opera scenes. (Fall, spring)

### 5482 Graduate OMT Acting 2
Develops acting skills with special emphasis on strategies for preparing scenes and monologues and on Viewpoints training. The class will use a variety of approaches including the work of Stanislavski, Sanford Meisner, Anne Bogart and Tina Landau. The students will apply class exercises and script analysis to the rehearsal and performance of scenes and monologues. (Fall)

### 5661 Music Theater Workshop 1
This course addresses the particular challenges of the singing-acting process through group exercises and the preparation and presentation of musical theater songs and scenes. Emphasis is on expanding the performers’ expressive capacity. Methods of lyric, song, and scene analysis are applied to musical theater literature. (Fall, spring)

* Denotes cross-listed course  + Denotes dual-listed course
817A Clinical Experience: Full-Time I 12
Twelve weeks of full-time experience in a setting representative of one commonly seen in practice. Graded as Credit/No-Credit. (Spring)

8213 Leadership Development II: Health Policy 3
Dynamic influences of healthcare legislation, policy, and payment; documentation; outcomes; risk management; quality improvement; advocacy at state, federal, and professional association levels. (Fall)

8215 Management and Interventions - Individuals with Neuromuscular Conditions II 5
Examination, evaluation, diagnosis, prognosis and assessment of outcomes for diverse patient/client populations with neurologic conditions in a variety of practice settings; Parkinson's disease, Guillain-Barre Syndrome, ALS, spinal cord injury, Huntington's disease, post-polio syndrome, and vestibular dysfunction; etiology, pathophysiology, pharmacologic, and surgical management of these conditions; effective clinical decision making in the selection and application of examination and intervention. (Fall)

8226 Management and Interventions - Individuals with Musculoskeletal Conditions II 6
Examination, evaluation, diagnosis, prognosis, performance of health and wellness services, provision of interventions, and assessment of outcomes for diverse patient/client populations with musculoskeletal conditions (both surgical and non-surgical) of the upper half of the body; health promotion, wellness, and fitness, differentiating musculoskeletal conditions in the cervical and thoracic spine, rib cage, shoulder girdle, elbow and forearm, and the wrist and hand; clinical reasoning and clinical decision making while incorporating evidence-based practice principles to select appropriate interventions and measure the effectiveness of the interventions; differentially diagnose and screen for medical disease; referral to other health care practitioners; diagnostic imaging procedures as tools to guide and direct management of musculoskeletal conditions; accurate coding and billing for services rendered. (Fall)

8271 Clinical Experience: Part-Time II 1
Provide opportunities for the student to apply foundational classroom learning; potential environments include acute care, subacute care, long-term care, home health, outpatient clinics (neurologic, orthopedic, pediatric), inpatient rehabilitation, specialty clinics, and schools. Graded as Credit/No-Credit. (Summer)

8312 Leadership Development III: Management 2
Business operations; management across the spectrum of physical therapist practice. (Spring)

8324 Pediatric Considerations in Clinical Reasoning 4
Examination, evaluation, diagnosis, prognosis, intervention, and assessment of outcomes, discontinuation of care for children with various conditions in a variety of practice settings; human development; age-appropriate patient/client management; family-centered care; health promotion and safety; legislation, policy, systems. (Fall)

8331 Service Learning III 1
Service-learning principles of preparation, provision of community service, subsequent reflection; community-based activities related to prevention, health promotion, fitness, and/or wellness to participants in one of three lifespan categories (pediatric, adult, geriatric); professional practice expectations (accountability, altruism, compassion/caring, communication, cultural competence); patient/client management expectations (prevention, health promotion, fitness, and wellness, consultation, and social responsibility, and advocacy). (Fall)

8362 Research III: Critical Inquiry and Appraisal 2
Critical appraisal of research articles representing various aspects of the patient/client management model; clinical applicability of the research appraised. (Summer)

8462 Research IV: Research Intensive 2
Critical appraisal; patient/client application of research; participating in various clinically relevant activities using appraisal of evidence to advance the practice of evidence-based care. (Fall)

927A Clinical Experience: Full-Time II 12
Twelve weeks of full-time experience in a setting representative of one commonly seen in practice. Graded as Credit/No-Credit. (Summer)

937A Clinical Experience: Full-Time III 12
Twelve weeks of full-time experience in a setting representative of one commonly seen in practice. Graded as Credit/No-Credit. (Fall)

9412 Leadership Development IV: Life-Long Leadership 2
Personal and post-professional development to support their role as a leader in practice, in the professional association, and with community organizations. (Fall)

9561 Research V: Knowledge Translation 1
Prepare a case study or case series from Clinical Experience: Full-Time I and/or II; present the results of their case research project at a Department Research Symposium; prepare their case report for dissemination at a local state or national meeting; prepare their findings in a manuscript format for peer review. (Summer)

The Introduction to Human Form (IHF) course is a comprehensive course utilizing multiple concentrations to provide an understanding of human anatomy and basic guiding principles of disease and healing mechanisms of the body. The IHF course will also introduce methods of patient interaction and physical examination, the historical context of the profession and a primer in medical terminology. Through the following concentrations: Clinical Anatomy, Pathophysiology, Physical Diagnosis, Medical Terminology, Introduction to the Profession and Pharmacology; this course will introduce students to the analytical and technical skills necessary to manage patients in the clinical setting. (Spring)

The HEENT (head, eyes, ears, nose, oral cavity, and throat) discipline is a comprehensive course utilizing multiple concentrations in order to provide a thorough understanding of these organ systems. Through the following concentrations: Clinical Medicine, Lab Medicine, Physiology, Pathophysiology, Radiology, Physical Diagnosis, Pharmacotherapeutics, Clinical Reasoning/Intervention and Medical Humanities; this course will provide students with the analytical and technical skills necessary to manage patients in the clinical setting. (Spring)

The Hematology course covers blood, blood forming elements and hematologic-based diseases. Crucial to understanding hematologic clinical medicine is a thorough understanding of the concentrations of laboratory medicine and pharmacotherapeutics. This section of the course will provide students with the ability to order appropriate testing to interpret hematologic disease. (Spring)

The Pulmonary course offers students a comprehensive understanding of pulmonary disease with lectures in clinical medicine, laboratory medicine, radiology, pharmacotherapeutics, physiology and pathophysiology. Students will also develop clinical reasoning skills and perfect physical examination techniques in small group sessions. At the conclusion of the course, students will have been provided the clinical decision-making and technical skills necessary to address diseases of the pulmonary system. (Summer)

The Cardiology discipline is a comprehensive course utilizing multiple concentrations in order to provide a thorough understanding of the organ system. Through the following concentrations: Clinical Medicine, Lab Medicine, Physiology, Pathophysiology, Radiology, Physical Diagnosis, Pharmacotherapeutics, Clinical Reasoning/Intervention and Medical Humanities; this course will provide the students with the analytical and technical skills necessary to manage patients in the clinical setting.

The Geriatrics course is designed to provide students with a thorough understanding of the special needs of the geriatric population. The course will focus on pharmacotherapeutics, clinical medicine topics and laboratory medicine specific to the elderly. The course will also present physical diagnostic techniques encountered in geriatric medicine. At the conclusion of the course, students will have an understanding of how to manage the special needs of our senior citizens.

The Urinary System course provides a thorough understanding of diseases of the kidneys, ureters, bladder and urethra. Disease of the male reproductive system will also be presented in this course. Basic and clinical science lectures will be provided in clinical medicine, pathophysiology, physiology, laboratory medicine, radiology, and pharmacotherapeutics. Clinical reasoning, physical examination techniques and topics in humanities will also be presented in small group sessions. At the conclusion of the course, students will have the clinical knowledge and analytical tools to care for patients with urologic disease.

The Women’s Health course is a comprehensive course utilizing multiple concentrations in order to provide a thorough understanding of the organ system. Through the following concentrations: Clinical Medicine, Lab Medicine, Physiology, Pathophysiology, Radiology, Physical Diagnosis, Pharmacotherapeutics, Clinical Reasoning/Intervention and Medical Humanities; this course will provide the students with the analytical and technical skills necessary to manage patients in the clinical setting.

The Endocrinology course provides students with a thorough understanding of the endocrine system including pancreatic, thyroid, adrenal, and other systems. Students will gain knowledge of numerous discipline concentrations including pathophysiology, radiology, physiology, clinical medicine, laboratory medicine, and pharmacotherapeutics. Students will also participate in small group exercises to hone their clinical reasoning and decision-making skills and to cover topics in the humanities. At the conclusion of the course, students will have acquired the medical and analytical skills to investigate and address endocrinopathies across the lifespan. (Fall)

The Neurology course will provide PA students with an understanding of developmental and acquired diseases of the central nervous system; teaching methods include Gross and Laboratory Anatomy, Introductory Neurobiology, Pathophysiology, Clinical Neuroanatomy, and Physical Diagnosis. At the conclusion of the course, students will have the clinical knowledge and analytical tools to care for patients with neurological disease.

* Denotes cross-listed course  
+ Denotes dual-listed course
and peripheral nervous system. Content will focus on physiology, pathophysiology, imaging studies, pharmacotherapeutics and laboratory medicine related to the neuraxis. Students will also engage in exercises to enhance clinical reasoning and improve their skill and understanding of the physical examination of the nervous system. At the conclusion of the course, students will have a working knowledge to provide medical care to patients presenting with the myriad diseases and syndromes related to the nervous system. (Summer)

5252 Behavioral Health

The Behavioral Health course will provide students with an understanding of definitions, recognition and treatment of psychiatric conditions. Concentrations will focus primarily on clinical medicine and pharmacotherapeutics. The use of small group discussions will lead to a greater understanding of the humanities and clinical reasoning and interventions. Comprehension of the neuropsych examination will also be integral to the course. At the conclusion of the course, students will have an understanding on how to approach, diagnose and treat a wide range of psychiatric conditions.

5313 Musculoskeletal

The Musculoskeletal discipline is a comprehensive course utilizing multiple concentrations in order to provide a thorough understanding of the organ system. Through the following concentrations: Clinical Medicine, Lab Medicine, Physiology, Pathophysiology, Radiology, Physical Diagnosis, Pharmacotherapeutics, Clinical Reasoning/Intervention and Medical Humanities; this course will provide the students with the analytical and technical skills necessary to manage patients in the clinical setting. (Fall)

5322 Dermatology

The Dermatology course is designed to provide students with the ability to recognize many dermatologic conditions and how they are most appropriately managed. Topics in clinical medicine, pathophysiology, and pharmacotherapeutics will be presented. Students will also engage in small group exercises in clinical reasoning, intervention, the humanities and special physical examination techniques. At the conclusion of the course, students will have the knowledge and skills necessary to address a wide range of dermatologic conditions.

534 Gastroenterology

The Gastroenterology course is designed to provide students with a comprehensive understanding of diseases of the GI tract, including the associated viscera. In addition to small group exercises in clinical reasoning and intervention, the course will provide a wide range of lectures in clinical medicine, laboratory medicine, pharmacotherapeutics, physiology, radiology and physical examination techniques. At the conclusion of the course, students will have a thorough understanding of management of the myriad of GI pathologies. (Summer)

5342 Infectious Disease

The Infectious Disease course provides students with knowledge of numerous disease and treatment regimen for infectious processes not covered in the other systems-based courses. The course will rely on lectures in clinical medicine, laboratory medicine and to a great extent, pharmacotherapeutics. Clinical reasoning, intervention and physical examination techniques will also be presented in a small group format. At the conclusion of the course, students will have an understanding of the complexities of treating specific infectious disease processes in the out- and in-patient setting.

5355 Acute Care

This course covers a wide range of topics pertinent to emergency medicine and critical care practice. It utilizes the concentrations of Clinical Medicine, Lab Medicine, Physiology, Pathophysiology, Radiology, Physical Diagnosis, Pharmacotherapeutics, Clinical Reasoning/Intervention and Medical Humanities to provide students with the analytical and technical skills necessary to manage patients in acute care settings. (Spring)

5361 Nutrition

The Nutrition course provides the student with a comprehensive understanding of the nutritional demands in the health individual and in those with disease. Special emphasis will be placed on TPN, special diets for DM, CHF, and hepato-renal disease. In addition to covering topics in clinical medicine, students will participate in small group sessions focused on clinical reasoning and intervention related to a patient's specific nutritional needs. At the conclusion of the course, students will have an understanding of how to manage the nutritional needs of patients in the inpatient and outpatient settings.

5372 Pediatrics

The Pediatrics course is designed to provide students with a thorough understanding of the special needs of the pediatric population. The course will focus on pharmacotherapeutics, clinical medicine topics and laboratory medicine specific to the newborn, infant, and child. The course will also present physical diagnostic techniques specific to the pediatric population, including comprehension of developmental milestones. At the conclusion of the course, students will have an understanding of how to manage the special needs of the child.

5383 Capstone

The Capstone course is offered during the final three weeks of the didactic phase. The purpose of the course is to provide the student with many procedural skills necessary for success in the clinical phase. Capstone also contains a testing component to assure students are competent in their physical examination skills. As a final component, students will participate in an online curriculum for health professionals known as the Institute for Healthcare Improvement Open School (IHI). The IHI curriculum will develop student's understanding of inter-professional practice, methods to reduce medical errors, health systems, and patient- and family-centered care.

* Denotes cross-listed course  + Denotes dual-listed course
6111 Operationalizing a Medical Practice
Introduces PA students to models of medical practices, topics in human resources, and strategic planning. Includes evaluation of payer mix, geographical influences on practice location, and provides examples of errors in practice management. Enrollment in the PA program is required.

6121 Finances of a Medical Practice
Introduces PA students to factors influencing earnings and expenses related to operating a medical practice. Topics include managing costs, acquiring capital, business loans, understanding accounting principles, and W-2 versus 1099 employment considerations. Enrollment in the PA program is required.

6211 Accessing the Community
Introduces PA students to how a practice interacts with the community. Topics include identifying market forces, demographics, healthcare consumer behaviors, advertising, and marketing strategies to avoid. Enrollment in the PA program is required.

6311 Reimbursement, Documentation of Care, Coding and Billing
Provides PA students with the processes involved in receiving payments for their services. Topics include procedures to optimize third-party payment, navigating health insurance forms, claims processing, the EOB, understanding the major coding manuals, understanding SoonerCare and CMS reimbursement, handling denials and appeals, and what constitutes insurance fraud. Enrollment in the PA program is required.

6321 Contracts and Medical Law
Provides students with multiple examples of good and bad employment contracts. Contract topics include salary, benefits, CME, and special provisions. Course also focuses on medical law relating to PA practice. Topics include malpractice, understanding the inter-workings of the OSBMLS, avoiding problems with CDS, and the initial licensure process. Enrollment in the PA program is required.

Clinical Courses

6014 Family Medicine
This is an four-week clinical experience in an out-patient setting where students work with board-certified family medicine physicians and, if available, their physician assistants. This supervised clinical practice experience (SCPE) is designed to provide the student with an interactive, problem-based learning opportunity. Students will acquire clinical experience through evaluation and management of both acute and chronic diseases under direct supervision by their Preceptor. The team approach to patient care and safety is emphasized while students participate in the work-up, diagnosis, treatment and education of the family medicine patient and their family.

6034 Medicine—Elective
This is a set of four-week clinical experience in both in-patient and/or out-patient setting where students work with board-certified physician and their physician assistants. This rotation is designed to provide the student with an interactive, problem-based learning opportunity. Students will acquire clinical experience through evaluation and management of patients under direct supervision by their Preceptor. The team approach to patient care and safety is emphasized while students participate in the work-up, diagnosis, treatment and education of the patient and their family.

6044 Surgery
This is a four-week clinical experience in the surgical, in-patient, and out-patient setting where students work with board-certified surgeons and their physician assistants. This rotation is designed to provide the student with an interactive, problem-based learning opportunity. Students will acquire skills in diagnosis and pre-operative to post-operative management of the surgical patient. The student will assist in the operating room as required. (Spring, Summer, Fall)

6054 Pediatrics
This is a four-week clinical experience in an in-patient and out-patient setting where students work with board-certified pediatricians and their physician assistants. Students will acquire clinical experience in the care of children from birth through adolescence.

6064 Women's Health
This is a four-week clinical experience in an in-patient and out-patient setting where students work with board-certified obstetricians/gynecologists and their physician assistants. Students will acquire clinical experience through evaluation and management of women's health issues throughout the reproductive and post-menopausal years. Participation in surgery, assisting in labor and deliver may be required on this rotation.
6074 Behavioral Health
This is a four-week clinical experience in the in-patient and/or out-patient setting where students work with board-certified psychiatrist and their physician assistants. This rotation is designed to provide the student with an interactive, problem-based learning opportunity. Students will acquire clinical experience through evaluation and management of psychiatric patients under direct supervision by their Preceptor. The team approach to patient care and safety is emphasized while students participate in the work-up, diagnosis, treatment and education of the psychiatric patient.

6084 Emergency Medicine
This is an eight-week clinical experience in emergency department setting where students work with board-certified emergency medicine physician and their physician assistants. This rotation is designed to provide the student with an interactive, problem-based learning opportunity. Students will acquire clinical experience through evaluation and management of critically ill patients under direct supervision by their Preceptor. The team approach to patient care and safety is emphasized while students participate in the work-up, diagnosis, treatment and education of the emergency medicine patient and their family.

6094 Preceptorship and Summative Process
This is a unique course that is designed to include a supervised clinical practice experience (SCPE) component and a summative process component, prior to the completion of the PA program curriculum. The Preceptorship SCPE provides the student with an opportunity to gain additional knowledge and skills in an inpatient or outpatient clinical setting of their choice. The 4-week SCPE is designed to provide the student with an interactive, problem-based learning opportunity for the medical discipline of their choosing. The summative process portion of the course includes the Program’s summative evaluation of student medical knowledge, skill, and behaviors and additional preparation for national board examination prior to the completion of the PA program curriculum.

Psychology (PSYC)

5113 Advanced Research Design
Evaluation of group designs; principles and techniques of scientific observation, measurement, and control; Addresses each phase of research process from design, conduct, analysis, and written reporting of research.

5213 Introduction to Evidence Based Interventions
Introduction to evidenced based practice with emphasis on beginning stages of therapy. Basic helping skills, scientist-practitioner approach to psychodiagnostic interviewing, treatment planning, and incorporation of motivational interviewing techniques to promote initial behavioral change. Theories of clinical intervention and diversity issues covered. Prerequisite: Admission to the PSYD graduate program.

5313 Adult Psychopathology
Covers major forms of adult psychopathology; emphasis on the differential diagnosis and diagnostic classification system (DSM); course, etiology, and recommended treatments of disorders from a biopsychosocial approach; ethics and diversity considerations included. Prerequisite: Admission to the PSYD graduate program.

5413 Intellectual Assessment: Theory and Practice
Introduction to the theory and development of individually administered standardized intelligence and achievement tests; administration, scoring, and interpretation of both verbal and nonverbal tests of cognitive functioning for children, adolescents, and adults; ethical and diversity issues in test use and interpretation; covers report writing and case presentation. Prerequisite: Admission to the PSYD graduate program.

5471 Psychological Testing Practicum
Practicum in administration, scoring, and interpretation of objective psychological tests under faculty supervision in clinical setting. Report writing and feedback involved. Prerequisite: Admission to the PSYD graduate program.

5513 Ethics and Professional Issues in Clinical Practice
APA ethical principles, standards, and laws regulating psychological practice; recommended practices for enhancing ethical decision-making. Prerequisite: Admission to the PSYD graduate program.

5613 Diversity in Clinical Practice
Examines impact of gender, social class, race, culture, sexual orientation on clinical practice. Examines bias and values; promotes self-awareness.

5713 Personality Assessment: Theory and Practice
Introduction to the theory and development of objective personality tests; test standards and construction; administration, scoring, and interpretation of personality tests for older children, adolescents, and adults; ethics and diversity issues in test use and interpretation; covers report writing and case presentation. Prerequisite: Admission to the PSYD graduate program.

5813 Advanced Evidence Based Interventions
Detailed examination of evidence-based psychological interventions for adult, adolescent, and childhood disorders. Cognitive Behavioral interventions and other empirically supported interventions covered. Prerequisite: Admission to the PSYD graduate program.

5913 Child and Adolescent Psychopathology
Covers psychological disorders seen in children and adolescents; emphasis on the differential diagnosis and diagnostic classification system (DSM); course, etiology from biopsychosocial approach, and evidence-based treatments; ethics and diversity considerations included. Prerequisite: Admission to the PSYD graduate program.

5526 Actor’s Core II
This course builds upon Actor’s Core I and includes the individual classes Acting II, Voice and Speech II and Movement II. This course explores the practical, artistic and interpersonal skills needed to be able to prepare a performance for the camera to a professional standard. Included alongside Voice and Speech II is an intensive Motion Caption module. Students will be assessed through a working journal, reflective statements, direct observation and small group performances.

5614 Independent Project I
This course explores the practical, artistic and interpersonal skills students need to be able to concept, develop, and produce (pre-production, production and post-production) original content for film, television and digital platforms. Students will complete a series of practical creative projects that will vary in genre, style, format, and length. Students will be assessed through a working journal, direct observation of process and small group practical projects.

5625 Independent Project II
This course continues the work of Independent Project I exploring the practical, artistic and interpersonal skills students need to be able to concept, develop, write, and produce original content, with an additional focus on pitching/distributing content. Students will complete a series of practical creative projects that will vary in genre, style, format, and length. Students will be assessed through a working journal, direct observation of process and small group practical projects.

5712 Bridges to Industry I
This course explores the business aspects of pursuing a career as an on-camera actor and content creator. Multiple Los Angeles based industry professionals will conduct workshops, panels and masterclasses related to theatrical and commercial casting; agents and managers; unions and contracts; script development processes; and other industry processes and protocols. Students will undertake group and individual research projects focused on aspects of recorded media and industry practices.

5722 Bridges to Industry II
This course builds upon Bridges to Industry I. Students will continue to explore the business aspects of pursuing a career as an on-camera actor and content creator. Multiple Los Angeles based industry professionals will conduct workshops, panels and masterclasses related to theatrical and commercial casting; agents and managers; unions and contracts; script development processes; and other industry processes and protocols. Students will undertake group and individual research projects focused on aspects of recorded media and industry practices.

5752 Acting for Commercials
This course introduces you to the technique and skills of auditioning for commercials. The course culminates in a series of masterclasses delivered at a major Hollywood commercial casting office. You will be assessed through a working journal and a series of practical projects.

5773 Actor-Industry Lab
In this course, small pods of 2-4 industry guests work with students on a biweekly basis. The topic of each industry week varies, including auditions, professional actor materials, scene work and creative projects. Each pod is unique, with guests hailing from different areas of the industry. Students will be assessed through a working journal, contribution to process and the showcase presentation.

6503 Acting IV: Intermediate Acting, Chekhov
Students are exposed to the concepts of period movement and research, learn the waltz (a metaphor for this historical periods norms of behavior), while finishing their exploration of realistic acting techniques.

6517 Style and Techniques I
Studio-based training in acting classical texts, voice, and movement. A range of methodologies including Stanislavski, Chekhov, Demidov, and Bing/Lecq to be employed. Exploration of Japanese and Indian methods of classical performance as well as radical contemporary approaches that re-interpret and challenge key classical texts. Voice module to include Linklater, Chekhov, and Berry techniques while movement work will include exploration of ensemble and choral movement, intracultural play, improvisation, call and response, animal, clown and Commedia dell’arte. Range of methodologies used as relates to character development, vocal production, and movement on camera. (Fall)

6527 Style and Techniques II
Studio-based training in psycho-physical character acting/direction used for a wide spectrum of acting styles. Expands the work of the autumn term, drawing on techniques developed by Cristal Truscott’s SoulWork, Stanislavski’s MPA and Active Analysis, and Viewpoints. Introduce students to the various modes of text/dramaturgy and related acting systems, their critical and cultural contexts. Provides exploration of additional dialects and accents, fractured narrative and digital performance, audio work, Bogart’s Vocal Viewpoints and singing. Movement module will extend to look at other movement skills including dramatic violence, performance capture, and issues of embodiment and wellbeing. (Spring)

6617 Production Project
Students will be introduced to script selection and adaptation techniques, storytelling, scriptwriting and cinematography principles, location selection, editing and film aesthetics. Responding to a set a series of key themes students will prepare, produce, and record a short form drama for the camera using commercial-level devices both in and out of studio settings. Students,
working in groups, will select appropriate on-camera acting methods and are required to prepare, rehearse, and perform original and/or adapted material in front of the camera. The films will be screened at the end of term at the Goldsmiths cinema. (Fall)

A short film or coherent compilation of scene studies (up to 10 minutes in duration) that showcase the depth of acting technique and characterization work. Working with a writing mentor students will gain an understanding of filmic storytelling and aesthetics in a format of interest to the wider industry. Working in groups of 3-4, students will explore/select concept, structure, and acting methodologies and approaches to character suited to their work. Thesis projects will be designed in consultation with supervising staff. (Spring)

• D.Min., Drew University  
• Ph.D., University of Oklahoma

John Nail  
Professor of Chemistry  
1999–  
• B.S., University of Oklahoma  
• M.S., Louisiana State University  
• Ph.D., University of Texas

William Palumbo  
Visiting Associate Professor of Film  
2017–  
• B.A., M.F.A., Emerson College

Brian Pribble  
Visiting Assistant Professor of Exercise and Sport and Science  
2023–  
• B.S., M.S., Ph.D., University of Oklahoma

Stephen G. Prilliman  
Professor of Chemistry  
2009–  
• B.S., Rice University  
• Ph.D., University of California-Berkeley

Robert Roensch  
Professor of English  
2013–  
• B.A., University of Massachusetts at Amherst  
• M.F.A., Cornell University

Bonnie G. Rutel  
Assistant Professor of Physics  
2021–  
• B.S., Ph.D., Florida State University

Adam K. Ryburn  
Assistant Provost  
Professor of Biology  
2009–  
• B.S., Southwestern Oklahoma State University  
• Ph.D., Oklahoma State University

Karen E. Schiler  
Associate Dean, Associate Professor of English  
2012–  
• B.A., M.A., University of Southern California  
• Ph.D., Purdue University

Yi Shao  
Professor of Psychology  
2011–  
• B.S., Peking University  
• M.A., Ph.D., Cornell University
Bill Sharp
Clinical Associate Professor of Psychology
2018–
- B.A., Ed., Southeastern Oklahoma State University
- M.Ed., Central State University
- M.A., Ph.D., Alliant International University

Justin Shaw
Chair and Assistant Professor of Game Design and Animation
2022–
- B.A., Oklahoma Christian University
- M.F.A., Academy of Art University

Heather Sparks
Associate Professor of Education
2020–
- B.S., M.Ed., Oklahoma City University
- Ed.D., University of Oklahoma

Anthony J. Stancampiano
Professor of Biology
2011–
- B.S., M.S., University of Central Oklahoma
- Ph.D., University of Oklahoma

Natalia Starostina
Associate Professor of History
2019–
- M.A., Michigan State University
- Ph.D, Emory University

Ahmad Tashfeen
Assistant Professor of Computer Science
2023–
- B.S., Oklahoma State University
- M.S., University of Oklahoma

J. Cody Weaver
Assistant Professor of Philosophy
2019–
- B.A., M.S., East Central University
- M.A., Biola University
- Ph.D., University of Oklahoma

Lisa Wolfe
Professor of Religion
2007–
- B.A., University of Colorado
- M.Div., United Theological Seminary
- Ph.D., Garrett-Evangelical Theological Seminary, Northwestern University

Chenguang Shine Xu
Assistant Professor of Computer Science
2023–
- B.S., Heilongjiang University
- M.S., Oklahoma City University
- Ph.D., University of Oklahoma

Karen Youmans
Director of the Honors Program/Professor of English
2014–
- B.A., Louisiana State University
- Ph.D., University of North Texas

Shirley Zhang
Assistant Professor of Graphic Design
2022–
- B.F.A., M.F.A., University of Texas-Arlington

Meinders School of Business

Sri Beldona
Dean
- B.S., M.S., University of Central Oklahoma
- M.B.A., University of Poona
- M.S., Ph.D., Temple University

Kyle Dean
Professor of Economics
2011–
- B.B.A., University of Oklahoma
- Ph.D., Oklahoma State University

J. Randy Murray
Clinical Professor of Accounting
2014–
- B.S., M.Acct., Brigham Young University
- Ph.D. University of Massachusetts at Amherst

Md Jabir Rahman
Assistant Professor of Data Analytics
2023–
- B.S., Shahjalal University of Science and Technology
- M.S., Ph.D., University of Memphis

J. Alexander Smith
Professor of Marketing
2008–
- B.A., M.B.A., Wayne State University
- Ph.D., Saint Louis University

Yuri Hupka
Associate Professor of Finance
2023–
- B.A., M.S., St. Cloud State University
- Ph.D., Oklahoma State University

N. Susan Jurney
Professor of Accounting
2017–
- B.B.A., Oklahoma Christian University
- M.B.A., University of Notre Dame
- Ph.D., University of Oklahoma

Vance Lewis
Clinical Assistant Professor of Information Technology
2002–
- B.S., Mu'tah University-Jordan
- M.B.A., Oklahoma City University

Aixin (James) Ma
Associate Professor of Finance, Burwell Chair in Finance
2008–
- B.B.A., M.Ed., University of Arkansas
- Ed.D. Oklahoma State University

Robin Overweg Walker
Assistant Professor of Accounting
2021–
- B.S., Black Hills State University
- M.B.A., University of South Dakota
- D.B.A., Creighton University

Robert A. Greve
Associate Dean, Associate Professor of Information Technology, C.R. Anthony Chair in Competitive Enterprise
2004–
- B.B.A., M.B.A., University of Central Oklahoma
- Ph.D., Oklahoma State University

J. Alexander Smith
Professor of Marketing
2008–
- B.A., M.B.A., Wayne State University
- Ph.D., Saint Louis University
Suye Wang
Assistant Professor of Accounting
2021–
• B.A., Nankai University
• M.S., M.P.Acc., University of Texas at Arlington

Justin Wareham
Assistant Professor of Management
2015–
• B.A., University of British Columbia
• M.S., University College London
• Ph.D., University of Utah

Meredith A. Wegener
Director of Energy Programs, Associate Professor of Legal Studies, B.C. Clark Jr. Chair in Legal Studies
2012–
• B.A., Trinity University
• J.D., University of Oklahoma
• L.L.M., New York University

Michael Williams
Professor of Marketing, AFS Chair in Marketing
2009–
• B.B.A., M.B.A., University of Oklahoma
• Ph.D., Oklahoma State University

Melanie Shelley
Executive Director

Erin Bond
Adjunct Instructor of Dance
2015–
• B.S., Oklahoma City University

Shadoe A. Brandt
Associate Professor of Dance
2019–
• B.P.A., Oklahoma City University

Susan Cosby
Associate Executive Director, Associate Professor of Arts Management
2017–

Professor of Dance, Tap Chair
2005–
• B.P.A., Oklahoma City University

Evelyn Wasson
Adjunct Instructor of Arts Management
2023–
• B.S., Oklahoma City University

Kimberley Worrell
Adjunct Instructor of Arts Management
2023–
• B.S., Oklahoma City University

Wanda L. Bass School of Music
Mark Edward Parker
Dean

Michael P. Anderson
Professor of Trumpet
2004–
• B.M., Illinois State University
• M.M., University of Nebraska

Rachel Barnard
Adjunct Faculty in Voice
2002–
• B.F.A., State University of New York at Purchase
• M.M., Oklahoma City University

Brian Belanus
Adjunct Faculty in Guitar/Jazz
2016–
• B.M., University of Central Oklahoma
Mark Belcik  
*Associate Dean, School of Music/Associate Professor of Music*  
2002–  
- B.M., University of Michigan  
- M.M., University of Oklahoma  
- D.M.A., University of Texas at Austin

Mary Brozina Wierick  
*Adjunct Faculty in Voice*  
2017–  
- B.A., Elon University

Claudia Carroll-Phelps  
*Adjunct Faculty in Piano*  
1993–  
- A.A., Cottey College  
- B.M., M.M., University of Oklahoma

William N. Christensen  
*Professor of Voice*  
2004–  
- B.A., M.A., D.M.A., University of California at Santa Barbara

Genevieve Clarkson  
*Associate Professor of Music*  
2018–  
- B.M., James Madison University  
- M.M., University of Cincinnati  
- D.M., Indiana University

Courtney Crouse  
*Professor of Music*  
2012–  
- B.A., Texas Wesleyan  
- M.M., Indiana University

Zachary Daniels  
*Adjunct Faculty in Music Theory*  
2023–  
- B.A., Drury University  
- M.M., D.M.A., University of Oklahoma

Matthew Denman  
*Assistant Professor of Guitar*  
2022–  
- B.M., Oklahoma City University  
- M.M., University of Central Oklahoma

Tommy Dobbs  
*Assistant Professor of Percussion*  
2022–  
- B.M., University of North Florida  
- M.M., D.M., Florida State University

Emily Duncan  
*Adjunct Faculty in Harp*  
2022–  
- B.M., Oklahoma City University  
- M.M., Cleveland Institute of Music

Dave Easley  
*Professor of Music Theory*  
2011–  
- B.A., Southern Illinois University  
- B.M., Southern Illinois University  
- M.M., Louisiana State University  
- Ph.D., Florida State University

Joshua Gaub  
*Adjunct Faculty in Trombone*  
2023–  
- B.M.E., Oklahoma Christian University  
- M.M., Oklahoma City University

Tony Gonzalez  
*Adjunct Faculty in Music Education*  
2015–  
- B.M., Texas A&I University  
- M.M., University of Oklahoma

Jennifer Graham  
*Adjunct Faculty in Voice*  
2019–

Jeff Grogan  
*Professor of Music*  
2017–  
- B.M., Stephen F. Austin State University  
- M.M., University of Michigan

Joshua Heaney  
*Adjunct Faculty in Saxophone*  
2023–  
- B.M.E., Susquehanna University  
- M.M., Georgia State University  
- D.M.A., Bowling Green State University

Erik Heine  
*Professor of Music*  
2005–  
- B.M., Illinois Wesleyan University  
- M.M., University of Arizona  
- Ph.D., University of Texas at Austin

David Herendeen  
*Professor and Director of Opera/Music Theatre*  
1997–  
- B.M., M.M., Oberlin College  
- D.M.A., University of Arizona

Brenda Holleman  
*Professor of Music*  
2001–  
- B.M., Illinois State University  
- M.M., University of Illinois

Kelly M. Holst  
*Professor of Music*  
2012–  
- B.A., Luther College  
- M.M., Indiana University  
- D.M.A., University of Michigan

Heejin Jang  
*Adjunct Faculty of Piano*  
2014–  
- B.M., Ewha Women's University  
- M.M., University of Oklahoma

Kimberly Dreisbach Jensen  
*Adjunct Faculty of Piano*  
2011–  
- B.M., Huntington University  
- M.M., University of Nebraska-Lincoln  
- D.M.A., University of Oklahoma

Matthew Jones  
*Assistant Professor of Musicology*  
2022–  
- B.A., University of Georgia  
- Ph.D., University of Virginia

Lisa Kachouee  
*Assistant Professor of Clarinet*  
2018–  
- B.M., George Mason University  
- M.M., University of Arizona  
- D.M., Florida State University

Larry Keller  
*Associate Professor of Voice*  
1990–  
- B.M., M.M., Oklahoma City University

Edward Knight  
*Professor of Music, Composer in Residence*  
1997–  
- B.M.E., Eastern Michigan University  
- M.M., D.M.A., University of Texas

Charles Koslowske  
*Associate Professor of Vocal Coaching*  
2008–  
- B.M., M.M., University of Colorado-Boulder

Matthew Mailman  
*Professor of Music, Director of Bands*  
1995–  
- B.M., M.M., Northwestern University  
- D.M.A., University of North Texas

Peter Markes  
*Associate Professor of Music Education*  
2020–  
- B.M.E., Oklahoma City University  
- M.Ed., University of Central Oklahoma
Sarah Jo Martin  
Adjunct Faculty in Voice  
2019–  
• B.M., Stephen F. Austin State University  
• M.M., Oklahoma City University

Catherine McDaniel  
Associate Professor of Music  
2008–  
• B.M., M.M., Stephen F. Austin State University  
• D.M.A., University of Oklahoma

Jan McDaniel  
Professor of Music  
1999–  
• B.M., Midwestern State University  
• M.M., University of North Texas

Karen Coe Miller  
Professor of Music, Assistant Director of Opera Music Theatre  
2009–  
• B.A., Macalester College  
• M.F.A., University of Cincinnati, College Conservatory of Music

Sergio Monteiro  
Professor of Piano  
2009–  
• B.M., M.M., National School of Music—Federal University of Rio de Janeiro  
• D.M.A., Eastman School of Music

Parthena Owens  
Associate Professor of Flute  
1989–  
• B.M.Ed., Oklahoma City University  
• M.M., Northwestern University

Jeffrey Picon  
Associate Professor of Music  
2008–  
• B.M., University of North Texas  
• M.M., Curtis Institute of Music

Melissa Plamann  
Professor of Music, Wanda L. Bass Chair of Organ  
2010–  
• B.M., B.A., Valparaiso University  
• M.M., Emory University  
• D.M.A., Indiana University

Kate Pritchett  
Professor of Theory and Horn  
2002–  
• B.M., University of Northern Colorado  
• M.M., D.M.A., University of North Texas

Anna Resnick  
Adjunct Faculty in Bassoon  
2006–  
• B.M., University of North Texas  
• M.M., Boston University

Joseph Ripka  
Adjunct Faculty in Harpsichord  
2022–  
• B.M., St. Cloud State University  
• M.M., University of Kansas

John Schimek  
Professor of Strings and Music  
1993–  
• B.M.Ed., University of Wisconsin  
• M.M., Rice University

Kate Sekula  
Assistant Professor of Music Theory  
2023–  
• B.S., B.A., Lebanon Valley College  
• M.M., George Mason University  
• PhD., University of Connecticut

Campbell Shiflett  
Assistant Professor of Musicology  
2023–  
• B.A., University of Virginia  
• M.A., Ph.D., Princeton University

Emily Stoops  
Adjunct Faculty in Cello  
2023–  
• B.M., University of Iowa  
• M.M., University of Michigan

Philip Todd  
Adjunct Faculty in Musicology  
2023–  
• B.A., Asbury University  
• M.M., Eastern Kentucky University

Autumn West  
Associate Professor of Music  
2017–  
• B.M., Northwestern University  
• M.M., Cincinnati College Conservatory of Music  
• D.M.A., University of Cincinnati

Jamie Whitmarsh  
Adjunct Faculty in Percussion  
2023–  
• B.M., Oklahoma City University  
• M.M., Florida State University  
• D.M.A., University of Oklahoma

Clint Williams  
Adjunct Faculty in Composition  
2022–  
• B.M., Cameron University  
• M.M., Oklahoma City University

Betty Yuan  
Assistant Professor of Viola  
2022–  
• B.M., Renmin University of China  
• D.M.A., University of Oklahoma

Julie Yu-Oppenheim  
Director of Choral Activities, Artistic Director of Canterbury Voices  
2023–  
• B.M.E., University of Central Oklahoma  
• M.M., Oklahoma State University  
• D.M.A., University of North Texas

School of Theatre

Mark Edward Parker  
Dean

Gloria Biegler  
Visiting Assistant Professor of Voice/Acting  
2022–  
• B.F.A., University of South Dakota  
• M.F.A., University of Washington

Dayna Brown  
Adjunct Theatre Professor  
2018  
• B.A., University of Central Oklahoma

Jeff Cochran  
Professor of Theatre  
2010–  
• B.F.A., University of Texas -Arlington  
• M.F.A., University of Missouri-Kansas City

Brian Coleman  
Visiting Assistant Professor of Technical Direction  
2021–  
• B.F.A., Rutgers University

Alyssa Couturier-Herndon  
Assistant Professor of Costume Design and Technology  
2023–  
• B.F.A., Savannah College of Art and Design  
• M.F.A., University of Florida

Jason Foreman  
Professor of Theatre  
Head of Design and Production  
2005–  
• B.F.A., University of Oklahoma  
• M.F.A., California State University-Long Beach

Scott Guthrie  
Visiting Assistant Professor of Applied Theatre
2023–
- B.M., Oklahoma City University
- M.F.A., University of Idaho

Jacob Henry
Assistant Professor of Sound Design
2023–
- B.A., University of Texas A&M
- M.F.A., Texas Tech University

Hal Kohlman
Assistant Professor of Theatre
2009–
- B.A., Rice University
- M.F.A., University of Texas at Austin

Kristopher Kuss
Visiting Assistant Professor of Voice/Acting
2019–
- B.A., University of Mobile
- M.F.A., University of Southern Mississippi

William Langan
Associate Professor of Acting
2021–
- B.S., Kings College
- M.F.A., Yale University

D. Lance Marsh
Professor of Theatre
2006–
- B.F.A., Stephens College
- M.F.A., University of Wisconsin-Madison

Thomas McGowan
Artist-in-Residence, On-Camera Acting
2020–
- B.F.A., Hofstra University
- M.F.A., Yale University

Aaron Mooney
Associate Professor of Theatre

Elixabeth Townsend
Adjunct Theatre Professor
- B.A., Columbia University
- M.F.A., Kent State University

Kramer School of Nursing

Gina Crawford
Dean

Kimberly Abernathy
Clinical Instructor of Nursing
2021–
- B.S.N., University of Oklahoma Health Science Center
- M.S.N., University of South Alabama

Joseph Gracy Amalraj
Clinical Assistant Instructor of Nursing
2012–
- B.S.N., Meenakshi College of Nursing
- M.S.N., Oklahoma City University

Kristen T. Bomboy
Clinical Assistant Professor of Nursing
2021–
- B.S.N., University of Delaware
- M.S.N., University of Pennsylvania
- D.N.P., Wilmington University

Dia Campbell-Detrixhe
Professor of Nursing
2009–
- B.S.N., M.S., Oklahoma University Health Science Center
- Ph.D., Texas Woman’s University

Janice Carr
Associate Professor of Nursing
2018–
- B.S.N., University of Oklahoma
- M.Ed., University of Central Oklahoma
- M.S.N., Oklahoma Baptist University
- D.N.P., Chatham University

Casey Cassidy
Associate Professor of Nursing
2018–
- B.S.N., East Central University
- M.S.N., Oklahoma Baptist University
- Ph.D., Oklahoma City University

Megan Dernaika
Clinical Assistant Professor
2015–
- B.S.N., M.S.N., Oklahoma City University
- M.S.N., Samford University

Elizabeth Diener
Professor of Nursing
2009–
- Diploma, Barnes Hospital School of Nursing
- P.N.P., Washington University
- B.S.N., Lindenwood College
- M.S.N., University of Missouri-Kansas City
- Ph.D., University of Missouri-St. Louis

Cheryl Frutchey
B.S.N. Program Chair, Clinical Associate Professor of Nursing
2010–
- A.S., Kapi’olani Community College
- A.A.S., Hawaii Pacific University
- M.S.N., South University

Sheila Gettings
Clinical Instructor of Nursing
2021–
- B.S.N., Meenakshi College of Nursing
- M.S.N., Oklahoma City University
- Ph.D., Oklahoma City University

Janice James
Clinical Assistant Professor of Nursing
2018–
- A.A.S., Oklahoma State University – Oklahoma City
- B.S.N., M.S.N., Oklahoma City University

Michelle Johnston
Associate Professor of Nursing

Provisions of this catalog are subject to change without notice and do not constitute an irrevocable contract between any student and the university. Oklahoma City University reserves the right to modify or change policies, courses, and program requirements described herein.

Every student is responsible for reading and understanding the academic requirements for the degree program as outlined in this catalog and as may be changed from time to time. Academic advisors are available for counseling and advising to assist students in this process; however, the final responsibility remains with the student to meet any and all academic requirements.

Oklahoma City University pledges to recruit, select, and promote diversity by providing equality of opportunity in higher education for all persons, including faculty and employees with respect to hiring, continuation, promotion and tenure, applicants for admission, enrolled students, and graduates, without discrimination or segregation on the grounds of race, color, religion, national origin, sex, age, handicap or disability, sexual orientation, or veteran status.

The university chief human resources officer, whose office is located in the President’s Office of the Clara E. Jones Administration Building, telephone (405) 208-5075, coordinates the university’s compliance with Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, the Rehabilitation Act of 1973, the Americans with Disabilities Act and amendments, and the Age Discrimination in Employment Act.

Oklahoma City University complies with the Student Right to Know and Equity in Athletics Disclosure Acts. This report is compiled and made available by October 15 each year. Requests for this report can be made to the athletics director.

In accordance with requirements by The Higher Learning Commission, the university will provide information to the accrediting agency regarding written complaints from a student against any faculty, staff, or institutional process or procedure. The information will contain the date the complaint was formally submitted to a university official; the nature of the complaint (e.g. dispute about a grade, allegation of sexual harassment, etc.); steps taken to resolve the complaint; the university’s final decision regarding the complaint, including referral to outside agencies; and any other external actions initiated by the student to resolve the complaint, if known to the university (e.g. lawsuit, EEOC investigation, etc.).

Any information provided to The Higher Learning Commission will be presented in such a way as to shield the identities of faculty, staff, or students involved with the complaint.

Students may contact The Higher Learning Commission by writing or phoning:
