2024. february

Dear Partner!

As in previous months, this month we would like to share with you the events and results concerning our company and our services.

Spring will soon be here and we are looking forward to replacing the fruits and vegetables available in the winter with the seasonal spring options. To ensure the continuous availability of the increased salad and fruit offerings, our company will be purchasing a new refrigerated salad and fruit counter to replace the current one in the restaurant. As the counter is custom-built, it is expected to be operational from the second half of April.

We have received positive feedback from our guests regarding some of the new dishes on our menu: the potatoes roasted with spinach, the Kiev turkey breast and the zander fillet were very successful, and the new vegetarian dishes were well received.

Building on the success of the Indian day, we are looking into expanding the options for international days. We are planning a Spanish day first, and we are exploring other opportunities, as well.

Please do not hesitate to contact me with any questions or comments you may have.
