

Clinical Liability Insurance

What is it?

Clinical Liability Insurance covers organisations and professionals in the healthcare industry from medical malpractice or clinical negligence claims.

We can arrange comprehensive cover that is tailor made for the healthcare industry.

Who needs it?

Clinical negligence claims are becoming more frequent, and the cost of defending them can be huge. Even if successfully defended, the costs are borne by the healthcare organisation, which means clinical liability insurance is a must for any practitioner.

What does it cover?

Your cover can be tailored to your needs, but common elements are:

- Medical malpractice and professional indemnity
- Court attendance costs
- Brand and reputation protection
- Cyber and privacy cover, including data breaches, cyber extortion and attacks originating from your systems
- Public liability
- Employers liability
- Legal expense cover

What does having Clinical Liability Insurance mean to you?

Even if you successfully defend against a claim, your costs can be crippling, so having a comprehensive, bespoke policy in place will leave you protected against unexpected claims.
