

# Motor Fleet Insurance

## What is it?

A range of products available to suit your particular fleet needs.

You may have 3 cars, or a large fleet of vehicles made up of cars, vans, lorries and more specialist vehicles. We have access to a wide variety of insurers who can tailor a policy to your fleet requirements.

## Who needs it?

Every fleet is different, but if you have more than two vehicles being owned or operated by your business then you will benefit from fleet insurance.

## What does it cover?

Depending on your fleet size, there will be a range of available options available to you. Our account managers will talk you through the right insurance cover for your needs. Some options available to you may be:

- Breakdown cover
- Legal expenses
- Accident misfuelling cover
- New for old cover for vehicles less than 1 year old
- In-vehicle safety technology (such as dash-cams)
- Personal accident cover
- Medical expenses
- Psychological support

## What does having Motor Fleet Insurance mean to you?

Your business will have complete protection and you will have total control over your fleet setup. With our risk management led approach, you'll minimise the risks of running your fleet, as well as saving time and money. We'll also ensure that your vehicles are added to the Motor Insurance Database.
