Linea collection

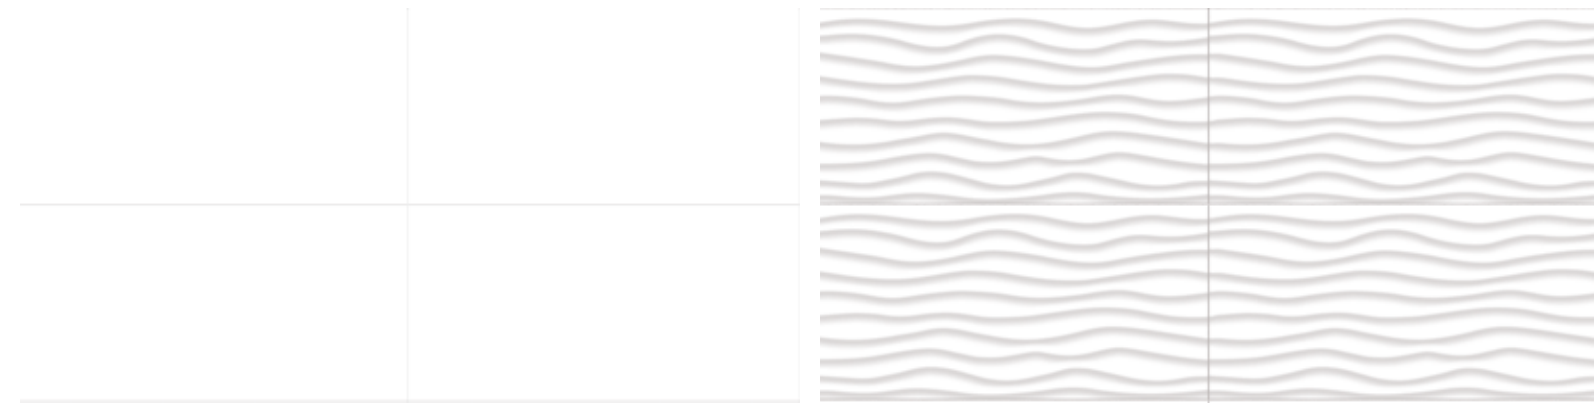

Linea's design, in a striking three-dimensional display, contradicts the standard preception of ceramic tile. Creating the illusion of constant movement, the naturally inspired patterns offer a calm and relaxing atmosphere, from the living room to the board room.

Key highlights

A collection designed to celebrate the classics through modern and original interpretations. In the Linea collection, the traditional white ceramic tile becomes a unique decorative instrument: through a play of bass-reliefs the monochromatic tile creates new surfaces, characterized by three-dimensionality, soft movements and harmonic patterns.
