Marketing support, Designer Library Display

This exquisite, modern design that is realized in Anatolia's innovative new Designer Library Display is an entirely customizable creation made to showcase our exclusive selection of collections. Housing up to 144 new, custom-curated display boards, the Designer Library Display achieves a premium aesthetic with LED lighting and a wood look finish, while simultaneously conveying essential product details covering the extensive variety of available collections. The Designer Library Display has custom display options that can be selected to house the boards.

Designer Library Display at a glance

Side angle view of display and boards accentuates the beauty and impeccable quality of the collections.

Marketing support, Natural Stone A&D Boards

Today's A&D community and dealer network has very limited space in their design libraries and customer showrooms. Therefore, Anatolia wanted to reinvent the typical contractor board and architectural binder by combining them into one multipurpose and space efficient merchandising tool.

Once opened up the board acts like a traditional contractor board with an easy to hold handle with all the information needed to make design decisions. On the front are sizes and finishes at a glance along with color chips and room renders. On the back are all of the critical technical specifications needed to specify a design space along with room scenes for inspiration.

This unique to Anatolia A&D board sits on shelf folded with a book like spine that clearly identifies the collection name, material type and corresponding inspiration for the collection. When pulled out slightly, one can easily see the collection's colors at a glance.

Marketing support, Sample Chips

Sample chips are an essential tool to bring mood boards to life and inspire a cohesive design space. They need to be relatively small and yet contain all of the critical design and collection specifications needed.

Anatolia has created a sample chip program that categorizes sample chips into color coded material types, includes a sample chip affixed to an elegant backer card and includes all of the key technical information and formats for that color on its back label. Anatolia also developed a premium sample chip carrying case to easily and beautifully store, organize, and carry sample chips to meetings.

Backer Board Size: 3.25 x 6 in / 8.25 x 15.25 cm
