### *Heritage*

A family legacy. A story of commitment, expertise, and solid principles, where tradition meets modernity and technical innovation.

The story of Anatolia is a deep legacy of design, innovation, and excellence, whose foundation was laid in Türkiye dating back to 1933, with family patriarch Bekir Elmaagacli.

Incorporated in Canada in 1995, Cengiz Elmaagacli, the founder, and his siblings Bekir and Berrin lead the company sharing CEO responsibilities: a family spirit that proudly places priority on honesty, integrity, and respect. This constitutes the pillar of Anatolia's long-term vision.

Anatolia's unmatched lead times, expert logistics services and integrated online portal offer its partnering customers seamless live access to an extensive inventory as well as superior service.

The online portal is fully integrated into Anatolia's global supply chain and distributor network and ultimately becomes a synergistic extension of our customer's own business and provides continuous access to one of the largest ready-to-ship tile inventories available worldwide. By 2023, Anatolia will have six state of the art facilities totaling close to 5 million ft<sup>2</sup> / 465,000 m<sup>2</sup> of manufacturing, warehouse and distribution space.

Anatolia's mission is to become the world's most revolutionary manufacturer and supplier of Tile, Stone, and Slabs, continually striving to make premium products accessible to everyone, regardless of their space or budget.

### *Technology*

Anatolia is at the forefront of ever-changing technologies and innovations.

The company's leadership in the tile and stone industry is given by truly innovative products, an embodiment of creative spirit and refinement. Anatolia's creative excellence combined with unique, top-of-the-line imaging and printing technology delivers

unparalleled quality and realism. Meticulous quality control measures ensure that Anatolia delivers the highest product quality available in the industry.

*Design*  
Creativity and sensitivity for shapes and materials,  
together with premium quality and patented technology.

Anatolia offers truly exceptional products that embody a carefully preserved heritage and a dynamic engagement with modernity and innovation. Through an endless range of true-to-nature, inspirational designs, Anatolia triggers a dialogue between design spaces and its surfaces, providing an incredible variety of visual stimuli. Colors, shapes, and original motifs trace the outline of Anatolia's DNA, discernible in a series of refined collections, and

full of expressions of its intrinsic nature. Every product has been designed in-house by Anatolia's Creative and Product Development Team, led by Cengiz's vision. This is a dynamic and dedicated group that constantly researches new trends and techniques, experimenting with cutting-edge applications of colors and effects on different materials, and developing innovative and original designs.

La Marca, *Picco Mosaics*

Picco’s contemporary pattern combines selective La Marca colors and finishes together in one mosaic giving it both an alluring and sophisticated design. Furthermore, the pattern was developed to allow for a wide variety of patterns depending on the positioning and cutting of the mosaic. Anatolia has provided a few suggestions on what can be created with this modular approach.

La Marca, *Modella Mosaics*

Modella has more of a transitional look derived from the thin contrasting lines, the elongated hexagons and a polished finish. The repeating pattern can add an expressive element that connects to both classical and modern decors.

Mjörk, *Color Body Porcelain*.  
The fusion of bush hammered Piasentina limestone
