Retaining permanent and historically valuable Twitter records forever requires Active Digital Preservation

Ensure each component is always readable

Preserve as a single immutable record

Capture at source to ensure authenticity

"To ensure our public social media records, such as those of our elected officials, remain readable in perpetuity it was important for us to use our active digital preservation platform rather than an archiving solution."

Marta Crilly Archivist for Reference and Outreach Boston City Archives

Ensure records can be trusted and read in perpetuity

Keep Twitter records readable forever. Preserve the individual text, image, video and metadata components using multi-part asset handling. View the entire record without accessing Twitter or downloading software.

Quickly find tweets and other related records types

With a single trusted repository quickly find tweets and easily retrieve related content such as emails, websites, meeting minutes, reports, videos and more.

Capture social posts directly and save time

In a few clicks automate the capture of important accounts of the organization and its senior leaders and preserve history as it is being made.

Trust the integrity of every record

With comprehensive fixity checks, controlled access, audit trails and downloadable proof report each component of a permanent social media post will remain unchanged ensuring the records authenticity.

Enable online transparency for Twitter records

Members of the public and other stakeholders can self-serve Twitter records online anytime anywhere via a customizable out of the box access portal.
