

Automate entry control while strengthening security

Our easy-to-use, affordable, modular system layers advanced technology to automate ID authentication and visitor management processes. Configurable options and expert consultation help you create the perfect fit for your application and a culture of true security.

- ✓ Automates contactless ID authentication and visitor management
- ✓ Reduces staffing demands
- ✓ Empowers staff with on-demand training
- ✓ Automates and quickens the entry process
- ✓ Scales up with optional integrations and modules

Tier 1 Services

Contactless Visitor Management

- Sophisticated authentication of IDs; more advanced than a barcode scan
- Visitor logs
- Audit trails of ID scans for future reference or enforcement concerns

On-Demand Staff Training

- Expertly designed learning modules
- Value-added modules on safety in homes and communities

Tier 2 Services

Everything included in Tier 1, plus additional options:

- Facial matching of ID photo and person presenting the ID
- Watch list checks (e.g. terminated employees, restricted visitors etc.)
- Security cameras with covert triggers
- Active threat monitoring
- On-site security assessments
- On-site training sessions
- Custom consulting with safety and security experts

Increase security & reduce demands on staff

- ✓ Performance exceeds standard visitor management systems
- ✓ Leading security technology with expert training
- ✓ On-demand learning & consulting services from industry leaders

Our effective, easy-to-deploy system layers software, ID readers, cameras, badging and training to monitor visitors, staff and others entering your facility. BrightTower can function as a standalone system or can optionally be integrated into existing security or building access systems. Staff can take advantage of on-demand learning modules designed by safety and security experts to learn how to make better decisions to keep themselves safe. The same experts are available for in-person training and custom consulting to bring the concepts to life and help address your facility's unique needs.

BrightTower Entrance is an integrated safety & security system
made possible by Virtual-6, a partnership between:

Veridocs is a world leader in institutional security and safety. The company's roots in casino gaming—one of the most highly regulated industries with sophisticated technology demands—make it an ideal partner for other organizations in need of efficient tools to perform real-time ID authentication and visitor management.

Blue-U Defense is a leader in highly innovative, turnkey, organizational safety and security management solutions. Its Blue-U Safe Turnkey Safety Solution is a one-of-a-kind, subscription-based service designed to provide effective, ongoing, and systematic training that contains all of the elements necessary to achieve true organizational and personal safety.
