

Automate visitor management & contactless entry control

Dramatically streamline entry control while maintaining rigorous security. Our easy-to-use, affordable system frees up staff time with contactless tools and much more.

- ✓ Automates contactless entry control
- ✓ Streamlines badge printing
- ✓ Empowers staff with on-demand training
- ✓ Provides peace of mind to patients and families

Veridocs Healthcare

Contactless Visitor Management

- Sophisticated authentication of IDs; more advanced than a barcode scan
- Eases and automates visitor screening questions
- Automatic recognition of staff, patients and enrolled visitors
- Visitor logs
- Audit trails of ID scans for future reference or enforcement concerns

Veridocs Healthcare Enterprise

Everything included in Veridocs Healthcare, plus additional options:

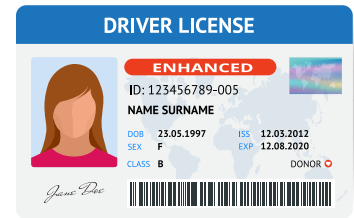

- Watch list checks (e.g. terminated employees, restricted visitors etc.)
- Security cameras with covert triggers
- Active threat monitoring
- Printing of visitor badges

ID authentication more secure than a barcode scan

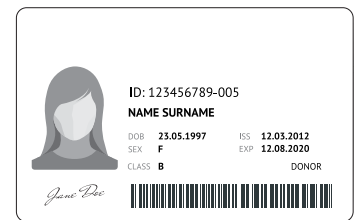

A barcode scan or visual inspection just won't cut it anymore with readily accessible, sophisticated fraudulent IDs. BrightTower from Veridocs goes further.

		ID Verification		ID Authentication
		Visual Inspection	Barcode Scan	Veridocs TrueAuthentication®
CONFIRM	Age	If performed correctly	✓	✓
	Match between barcode, printed info, RFID & magstripe data	—	—	✓
	White light security features	If performed correctly	—	✓
	Near-infrared security features	—	—	✓
	UV security features	If performed	—	✓
CAPTURE	Data for integration with other applications	—	Sometimes	✓
	Image of entire ID document	—	—	✓
	Image of ID photo	—	—	✓

White light security features

Near-infrared security features

UV security features

Be certain with Veridocs.

Veridocs is a world leader in ID authentication and list management. The company's roots in the casino industry—one of the most highly regulated industries with sophisticated technology demands—make it an ideal partner for organizations looking for real-time ID authentication and visitor management.
