

Go beyond a barcode scan. Automate age verification while strengthening security.

Our easy-to-use, affordable, modular system automates the age verification process and provides on-demand staff training designed specifically for high-risk retail markets.

- ✓ Reduce risk of liability for false identification
- ✓ Automate contactless, instant age verification
- ✓ Automate real-time checks of watch lists and customer lists
- ✓ Eliminate staff guesswork identifying fake and "borrowed" IDs
- ✓ Capture and integrate ID data

Veridocs Retail

Contactless ID Authentication

- Sophisticated authentication of customer IDs; more advanced than a barcode scan
- Easy-to-read age verification results
- Audit trails of ID scans for future reference or enforcement concerns

Veridocs Retail Enterprise

Everything included in Veridocs Retail, plus additional options:

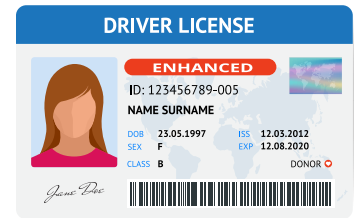

- Watch list checks (e.g. do not serve, restricted customers, etc.)
- Security cameras with covert triggers

ID authentication more secure than a barcode scan

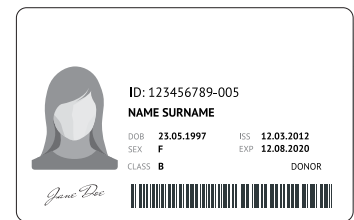

A barcode scan or visual inspection just won't cut it anymore with readily accessible, sophisticated fraudulent IDs. Veridocs goes further.

| |  | ID Verification | | ID Authentication |
|---------|---|------------------------|--------------|------------------------------|
| | | Visual Inspection | Barcode Scan | Veridocs TrueAuthentication® |
| CONFIRM | Age | If performed correctly | ✓ | ✓ |
| | Match between barcode, printed info, RFID & magstripe data | — | — | ✓ |
| | White light security features | If performed correctly | — | ✓ |
| | Near-infrared security features | — | — | ✓ |
| | UV security features | If performed | — | ✓ |
| CAPTURE | Data for integration with other applications | — | Sometimes | ✓ |
| | Image of entire ID document | — | — | ✓ |
| | Image of ID photo | — | — | ✓ |

White light security features
